North Dakota—that portion lying east of State Highway 3, including all or portions of 27 counties.

South Dakota—the Counties of Brookings, Codington, Day, Kingsbury, Roberts, Marshall, and Hamlin.

Texas—the Counties of Brazoria, Chambers, Galveston, Harris, and Jefferson.

Consideration will be given to reopening those areas in which the canvasback harvest comprises no more than 20 percent of the combined canvasback-redhead harvest, based on 1961–70 harvest information.

The season is closed on the Mexican duck.

As an alternative to conventional bag and possession limits for ducks, point-system regulations may be selected for States and portions of States in this Flyway. The point system season length in the High Plains Mallard Management Unit portions of Colorado, Kansas, Montana, Nebraska, New Mexico, Texas, Oklahoma, North Dakota, South Dakota, and Wyoming is 83 days, provided, that the last 23 days of such season must begin on or after December 13, 1976. The season length for those portions of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas not included in the High Plains Mallard Management Unit may not exceed 60 days. The High Plains area, roughly defined as that portion of the Central Flyway which lies between the 100th meridian and the Continental Divide, shall be described in State regulations.

The point values for species and sexes taken in the Central Flyway are as follows: Except in closed areas, canvasbacks count 100 points each; the hen mallard, wood duck, redhead (except in closed areas), and hooded merganser count 70 points each; the blue-winged teal, green-winged teal, cinnamon teal, scaup, pintail, gadwall, shoveler, and mergansers (except the hooded merganser) count 10 points each; all other species and sexes of ducks count 20 points each. The daily bag limit is reached when the point value of the last bird taken, when added to the sum of the point values of other birds already taken during that day, reaches or exceeds 100 points. The possession limit is the maximum number of birds which legally could have been taken in 2 days.

Coots have a point value of zero, but the daily bag and possession limits are 15 and 30 respectively, as under the conventional limits.

Those portions of Colorado and Wyoming lying west of the Continental Divide, that portion of New Mexico lying west of the Continental Divide plus the entire Jicarilla Apache Indian Reservation, and that portion of Montana which includes the Counties of Hill, Chouteau, Cascade, Meagher, and Park and all counties west thereof, must select open season on waterfowl and coots in accordance with the framework for the Pacific Flyway.

Between October 2, 1976, and January 23, 1977, States in this Flyway may select goose seasons as follows:

(a) For the Central Flyway portions of Montana, Wyoming and Colorado, States may select seasons of 93 days, with daily bag and possession limits of 2 and 4 geese, respectively.

(b) For the Central Flyway portion of New Mexico and that portion of Texas west of U.S. Highway 81, States may select seasons of 93 days with a daily bag limit of 5 geese which may include no more than 2 dark (Canada and white-fronted) geese and a possession limit of 5 geese which may include no more then 4 dark geese.

(c) The States of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma and Texas (for that portion east of U.S. Highway 81) may select seasons of 86 days for light (snow and blue) geese and seasons of 72 days for dark (Canada and white-fronted) geese subject to the following:

Seasons for light and dark geese need not be concurrent.

The daily bag and possession limits may not exceed 5 geese during periods when such light and dark goose seasons may be concurrent.

The daily bag and possession limit shall be 5 light geese.

The daily bag limit may include no more than 2 dark geese and possession limit may include no more than 4 dark geese subject to the following:

In North Dakota the daily bag limit may include no more than 1 Canada goose and 1 white-fronted goose or 2 white-fronted geese. The possession limit may include no more than 2 Canada or 2 white-fronted geese or 1 of each. The season on dark geese may not extend beyond November 14, 1976.

In South Dakota, except in the following listed Counties, the daily bag limit may include no more than 1 Canada goose and 1 white-fronted goose and the possession limit may include no more than 2 Canada geese or 2 white-fronted geese or 1 of each and the season on dark geese may not extend beyond November 28, 1976. In the Counties of Buffalo, Campbell, Corson, Dewey, Hughes, Potter, Stanley, Sully and Walworth, the daily bag and possession limits may include no more than 1 Canada goose and the season on dark geese may not extend beyond November 14, 1976. In the Counties of Brule, Charles Mix and Gregory, the daily bag and possession limits may include no more than 1 Canada goose and the season on dark geese may not extend beyond November 28, 1976.

In Nebraska, the season on dark geese may not extend beyond December 19, 1976. The daily bag limit may include no more than 1 Canada goose and 1 white-fronted goose and the possession limit may include no more than 2 Canada geese or 2 white-fronted geese or 1 of each except that, in that portion of the State west of U.S. Highway 183, prior to November 22, the daily bag limit may include no more than 2 Canada geese and the possession limit no more than 4 Canada geese.

In Kansas the season on Canada and white-fronted geese may not extend beyond December 26, 1976. The daily bag limit may include no more than 1 Canada goose and 1 white-fronted goose and the possession limit may include no more than 2 Canada geese or 2 white-fronted geese or 1 of each.

In the Oklahoma Counties of Alfalfa, Bryan, Johnston, and Marshall, the State may select either:

(a) A season of 72 days with a daily bag limit of no more than 1 Canada goose and 1 white-fronted goose, and a possession limit of no more than 2 Canada geese or 2 white-fronted geese or 1 of each.

or

(b) A season of 53 days (within the 72-day period selected for the remainder of the State) with a daily bag limit of no more than 2 Canada geese or 1 Canada goose and 1 white-fronted goose, and a possession limit of no more than 2 Canada geese or 2 white-fronted geese of 1 of each.

In the remainder of Oklahoma, the daily bag limit may include no more than 2 Canada geese or 1 Canada goose and 1 white-fronted goose and the possession limit no more than 2 Canada geese or 2 white-fronted geese or 1 of each.

In that portion of Texas east of U.S. Highway 81, the State may select either:

(a) A season of 72 days with a daily bag limit of no more than 1 Canada goose or 1 white-fronted goose and a possession limit of no more than 2 Canada geese or 2 white-fronted geese or 1 of each.

(b) A season of 64 consecutive days commencing no earlier than November 14, 1976, with a daily bag limit of no more than 1 Canada goose and 1 white-fronted goose and a possession limit of no more than 2 Canada geese or 2 white-fronted geese or 1 of each.

In all States in the Flyway, the daily bag and possession limits may include no more than 1 Ross' goose.

Colorado, New Mexico, Oklahoma, Texas, Montana and Wyoming may select a season on the lesser sandhill (little brown) crane with daily bag and possession limits of 3 and 6, respectively, within an October 2, 1976–January 18, 1977, framework as follows:

(a) 36 consecutive days from October 2 through November 8, 1976, in the Central Flyway portion of Colorado except the San Luis Valley area.

(b) 93 consecutive days between October 23, 1976, and January 31, 1977, in the New Mexico Counties of Chaves, Curry, De Baca, Eddy, Lea, Quay, and Roosevelt, and in that portion of Texas west of a boundary from the Oklahoma border along U.S. Highway 287 to U.S. Highway 87 at Dumas, along U.S. Highway 87 and including all of Howard and Lynn Counties to U.S. Highway 277 at San Angelo, and along U.S. Highway 277 to the International Toll Bridge in Del Rio.

(c) 58 consecutive days beginning on or after November 27, 1967, in that portion of Oklahoma west of U.S. Highway 81, and in that portion of Texas east of a boundary from the Oklahoma border along U.S. Highway 287 to U.S. Highway 27 at Dumas, then along U.S. Highway 87 to San Angelo, and west of a line running north from San Angelo along U.S. Highway 277 to Abilene, along State Highway 351 to Albany, along U.S. Highway 283 to Vernon, and then along U.S. Highway 183 east to the Oklahoma border.

(d) 37 consecutive days to open with the goose season in Phillips County, Montana.

(e) 30 consecutive days beginning on or after October 9, 1976, in Platte and Goshen Counties, Wyoming.

North Dakota and South Dakota may select sandhill crane seasons of: 30 consecutive days between November 6 and December 5, 1976, in the North Dakota Counties of Kidder, Stutsman, Benson, Emmons, Pierce, McLean, Sheridan, and Burleigh; and in that part of South Dakota enclosed by a boundary described as follows: from the North Dakota border, south on U.S. Highway 83 to U.S. Highway 212, west on U.S. Highway 212 to the Promise Road, north on the Promise Road to State Highway 20, north on State Highway 20 to U.S. Highway 12, northwest on U.S. Highway 12 to State Highway 63, north on State Highway 63 to the North Dakota border.

All persons hunting sandhill cranes in the above designated areas of the Central Flyway must obtain and possess valid Federal permits issued by the appropriate State conservation agency on an equitable basis without charge.

Pacific Flyway

Between October 2, 1976, and January 23, 1977, concurrent 93-day seasons on ducks, mergansers, coots, and gallinules may be selected in Pacific Flyway States and portions of States, *except* the Columbia Basin Area. Basic daily bag and possession limits on ducks and 7 and 14, respectively.

No more than 2 redheads or 2 canvasbacks or 1 of each may be taken daily and no more than 4 singly or in the aggregate may be possessed.

The season is closed on the Mexican duck.

The daily bag and possession limits on mergansers are 5 and 10, respectively, of which no more than 1 daily and 2 in possession may be hooded mergansers.

The daily bag and possession limits on coots and gallinules are 25 singly or in the aggregate.

For that portion of California lying south of the Tehachapi Mountains and west of the Colorado River Area (as described in Title 14 California Fish and Game Code, Section 502), the State may designate season dates differing from those in the remainder of the State.

Waterfowl season dates for Clark and Lincoln Counties in Nevada and the Colorado River Area of California must coincide with season dates selected by Arizona for waterfowl. Waterfowl season dates for the Tule Lake Area of California must coincide with season dates selected by Oregon for waterfowl.

In the Columbia Basin Area of Washington, Oregon and Idaho, between October 2, 1976, and January 23, 1977, the season lengths for ducks, mergansers, coots and gallinules may be 100 days with all seasons to run concurrently. The daily bag limit is 7 ducks and the possession limit is 14 ducks, to include no more than 2 redheads or 2 canvasbacks or 1 of each daily, and no more than 4 singly or in the aggregate in possession. The bag limit on mergansers is 5 daily and 10 in possesion, of which no more than 1 daily and 2 in possession may be hooded mergansers. The daily bag and possession limits on coots and galinules are 25 singly or in the aggregate.

Between October 2, 1976, and January 23, 1977, 93-day seasons on geese may be selected in States or portions of States in this Flyway, except the Columbia Basin area. The basic daily bag and possession limits are 6, provided, that the daily bag limit includes no more than 3 snow geese and 3 geese of the dark species (Canada and white-fronted); the daily bag and possession limits are proportionately reduced in those areas where special restrictions apply to Canada geese. In Washington and Idaho, the daily bag and possession limits are 3 and 6 geese, respectively.

Three areas in California are restricted to the hunting of Canada geese in order to protect the Aleutian Canada goose for which no hunting is allowed and are described as follows:

(1) In the Counties of Del Norte, Humboldt and Mendocino, there will be a complete closure on Canada geese during the 1976–77 waterfowl hunting season.

(2) In the Sacramento Valley in the area described as follows: beginning at the town of Willows in Glenn County proceed south on Interstate Highway 5 to the junction with Hahn Road north of the town of Arbuckle in Colusa County; then easterly on Hahn Road and the Grimes-Arbuckle Road to the town of Grimes on the Sacramento River, then south on the Sacramento River to the Tisdale By-pass; then easterly on the Tisdale By-pass to where it meets O'Banion Road; then easterly on O'Banion Road to State Highway 99; then northerly on State Highway 99 to its junction with the Gridley-Colusa Highway in the town of Gridley in Butte County; then westerly on the Gridley-Colusa Highway to its junction with the River Road; then northerly on the River Road to the Princeton Ferry; then westerly across the Sacramento River to State Highway 45; then northerly on State Highway 45 to its junction with State Highway 162; then continuing northerly on State Highway 45–162 to the town of Glenn; then westerly on State Highway 162 to the

V 41 I 158 AUG 13 76 UMI

point of beginning in the town of Willows, the hunting season for taking Canada geese will not open until December 15, 1976, and will then continue to the end of the 1976–77 waterfowl hunting season.

(3) In the San Joaquin Valley in the area described as follows: beginning at the city of Modesto in Stanislaus County proceeding west on State Highway 132 to the junction of Interstate 5; then southerly on Interstate 5 to the junction of State Highway 152 in Merced County; then easterly on State Highway 152 to the junction of State Highway 59; then northerly on State Highway 59 to the junction of State Highway 99 at the city of Merced; then northerly and westerly to the point of beginning; the hunting season here for taking Canada geese will close on December 15, 1976.

In the Washington Counties of Adams, Franklin, Grant, Walla Walla, Lincoln, Douglas, Yakima, Benton, Klickitat, and Kittitas, and in the Oregon Counties of Morrow, Wasco, Sherman, Gilliam, Umatilla, Union and Wallowa, the goose season must run concurrently with the Columbia Basin duck season and the bag limits for geese are to be the same as in the general goose season in their respective States.

In that portion of the State of Idaho lying west of U.S. Highway 93 (except Boundary, Bonner, Kootenai, Benewah, Shoshone, Latah, Nez Perce, Lewis, Clearwater and Idaho Counties); in the Oregon Counties of Baker and Malheur; in that portion of Montana and Wyoming placed in the Pacific Flyway, the daily bag and possession limit is 2 Canada geese and the season on Canada geese may not extend beyond December 31, 1976.

In that portion of Idaho lying east of U.S. Highway 93; in that portion of Colorado placed in the Pacific Flyway; in the State of Utah except Washington County, the season on Canada geese may be no more than 72 days and the season on Canada geese may not extend beyond December 19, 1976.

In the State of Arizona; in that portion of New Mexico placed in the Pacific Flyway; in Clark and Lincoln Counties, Nevada; in Washington County, Utah; and in the Tehachapi waterfowl area of California, the season on Canada geese may be no more than 72 days. The daily bag and possession limit is 2 Canada geese and the season on Canada geese may not extend beyond January 2, 1977.

In that portion of California Fish and Game District 22 for which California selects the open season (that portion of District 22 lying outside the Colorado River area), the daily bag limit is 1 Canada goose with 2 in possession and the season on Canada geese may be no more than 72 days and the season on Canada geese may not extend beyond January 2, 1977.

In all States in the Flyway, the daily bag and possession limits may include no more than 1 Ross' goose.

Between October 23, 1976, and February 23, 1977, States in this Flyway may select an open season on black brant of 93 days with daily bag and possession limits of 4 and 8 brant, respectively.

In Utah, Nevada and Montana, an open season for taking a limited number of whistling swans may be selected subject to the following conditions: (a) the season must run concurrently with the duck season; (b) in Utah, no more than 2,500 permits may be issued, authorizing each permittee to take 1 whistling swan; (c) in Nevada, no more than 500 permits may be issued, authorizing each permittee to take 1 whistling swan in Churchill County; (d) in Montana, no more than 500 permits may be issued, authorizing each permittee to take 1 whistling swan in Teton County; (e) permit forms and correspondingly numbered metal locking seals furnished by the Service must be issued by the appropriate State conservation agency on an equitable basis without charge.

Open seasons on common (Wilson's) snipe, coinciding with the duck season locally in effect, may be selected for States or portions of States in this Flyway. The daily bag and possession limits are 8 and 16, respectively.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 1004]

[Docket No. AO–160–A53]

MILK IN THE MIDDLE ATLANTIC MARKETING AREA

Decision on Proposed Amendments to Marketing Agreement and to Order

A public hearing was held upon proposed amendments to the marketing agreement and the order regulating the handling of milk in the Middle Atlantic market area. The hearing was held, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice (7 CFR Part 900), at the Baltimore-Washington International Airport, Maryland, on May 20, 1976 pursuant to notice thereof issued on May 4, 1976 (41 FR 18862).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Program Operations, on July 6, 1976 (41 FR 28308), filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings, and general findings of the recommended decision are hereby approved and adopted and are set forth in full herein, subject to the following modifications:

Under the heading "Findings and Conclusions," paragraphs 18, 21, 23 and 24 are changed.

The material issue on the record of the hearing relates to increasing the rate of deduction under the advertising and promotion program from 5 cents per hundredweight to 7 cents per hundredweight of producer milk.

FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issue are based on evidence presented at the hearing and the record thereof:

Rate of deduction for the advertising and promotion program. The rate at which the advertising and promotion program is funded from producer monies should be increased from 5 cents per hundredweight to 7 cents per hundredweight of producer milk.

The advertising and promotion program was established under the Middle Atlantic order in February 1972 with respect to marketings on and after April 1 of that year. The program has been funded since its inception through a monthly 5-cent per hundredweight assessment on milk delivered during the month by participating producers. The money is deducted by the market administrator from the producer-settlement fund and turned over to an agency organized by producers and producers' cooperative associations. Certain reserves are withheld by the market administrator to cover the administrative costs incurred by him and refunds to producers.

The advertising and promotion agency is responsible for the development and implementation of programs and projects approved by the Secretary and designed to carry out the purposes of the Act. The scope of the agency's activities may include the establishment of research and development projects, advertising on a non-brand basis, sales promotion, and educational and other programs designed to improve or promote the domestic marketing and consumption of milk and its products.

The advertising and promotion program is a voluntary program. Accordingly, each producer, on a quarterly basis, is given an opportunity to request a refund of the money withheld from his pool proceeds. About 10 percent of the producers in the market received a refund for the first quarter of 1976.

Four cooperative associations whose members supply about 60 percent of the milk regulated under the order proposed that the rate of deduction for funding the advertising and promotion program be increased from the present 5 cents to 7 cents. Proponents indicated that it was their belief that the program has contributed to an increase in Class I sales during various periods and has minimized declining sales during times of rising milk prices. It was their position, however, that the current funding rate is no longer adequate to maintain the promotional effort initially contemplated by producers and subsequently established under the program. Proponents claimed that the current inflationary trend in the economy has caused the cost of all advertising and promotion activities to rise significantly. At the same time, producer contributions to the program have remained relatively constant. Thus, they contended, inflation has caused a reduction in advertising and promotion expenditures and thus a reduction in the effectiveness of the program.

Opposition to an increase in the funding rate was expressed by a cooperative association representing slightly less than 10 percent of the producers on the market. The cooperative indicated that if the rate of deduction were increased in the Middle Atlantic market, comparable rate increases probably would be requested in other markets having similar programs. Opponent claimed that this would be an undesirable development at this time since dairy farmers were only now beginning to recover from a recent unprecedented cost-price squeeze. The opposing cooperative also claimed that any attempt in surrounding areas to bring the funding rate in line with the proposed rate under Order 4 could threaten the participation in the programs for such areas. Also, it was claimed that the data for the Middle Atlantic market show no significant improvement in fluid milk sales since the start of the advertising and promotion program, thus raising a question as to the potential effectiveness of any increased funding. In addition, the cooperative indicated that producer participation in the program has been falling steadily since the program was initiated and that a higher funding rate would aggravate this situation.

As indicated at the outset, the funding rate for the advertising and promotion program should be increased by 2 cents per hundredweight of producer deliveries. An increase in the funding rate is necessary if the promotional effort under the program is to be maintained at the general level which producers initially supported when the program was established and which a majority of the producers continue to support. At the program's inception, producers supported the current funding rate of 5 cents per hundredweight with the expectation that this rate would permit a given level of advertising and promotion activity. Although producer contributions under the program have remained relatively constant, inflationary conditions within the economy have seriously curtailed the amount of promotional activity that can be generated by the available funds. Since the start of the program, the purchasing power of the dollar, for example, has declined about 35 percent in terms of wholesale prices, and about 26 percent on the basis of consumer prices.

The Order 4 advertising and promotion agency disburses the bulk of its available funds to the United Dairy Industry Association (UDIA) and the several dairy councils that operate within the Middle Atlantic market. During the period of April 1972 through December 1975, UDIA received $5,727,423 from the Order 4 agency. About three-fourths of this amount was used for local advertising; the remainder was spent on national programs. The local dairy councils received $1,793,406 during this period.

The UDIA carries out its activities through three sub-organizations. Consumer advertising is handled by the American Dairy Association. The National Dairy Council conducts nutrition research and nutrition education programs. The research arm of UDIA is Dairy Research, Inc., which pursues the development of new dairy products and processing techniques.

A representative of UDIA testified at the hearing as to the costs attendant to advertising through various media. The witness indicated that on a national basis UDIA has experienced the following cost increases since 1972 for the most commonly used media:

Media:	Percent increase
Spot television	50
Nighttime network TV	33
Spot radio	28
Daily newspapers	30

It was pointed out that in advertising milk a media mix might be used that would consist of 60 percent spot television, 25 percent spot radio, and 15 percent nighttime television. With this particular media mix, the cost of advertising today is 42 percent higher than in 1972, thus requiring a 42 percent increase in expenditures if the 1972 level of advertising is to be maintained. If, on the other hand, advertising expenditures are held at the 1972 level, only 70 percent as much advertising can be purchased today as previously.

The UDIA witness further noted that in the past year advertising costs in the Middle Atlantic market have increased more than they have nationally. Spot television for prime time (8–11 p.m.) is up 33 percent locally versus a 27 percent increase for the nation. For fringe prime time (early and late evening), costs are up 32 percent in the Order 4 area compared to 29 percent nationally. For daytime advertising, costs are up 61 percent locally versus 21 percent nationally.

In addition to testimony regarding UDIA activities, witnesses also described the activities of the local dairy councils and the need for additional funding. Such organizations provide nutrition education to various groups and persons in the local communities. Through personal contacts by staff people, literature, films and exhibits, the dairy councils emphasize the importance of a nutritionally adequate diet, including the use of milk and other dairy products.

As in the case of advertising, dairy council activities likewise have been adversely affected by the recent inflationary trend in the economy. Witnesses indicated that such activities have either been curtailed or held at less than normally desired expenditure levels because of the higher cost of carrying out these activities.

While costs under the advertising and promotion program have been increasing, producer contributions to the program have remained relatively constant. For example, funds transferred by the market administrator to the Order 4 agency totaled $2,117,804 in 1973, $2,121,863 in 1974, and $2,162,677 in 1975. Any significant increase in available funds is not likely except through an increase in the rate at which monies are deducted from producers' returns for the program.

In support of their proposal, proponents indicate that the advertising and promotion program has had a "positive" effect on the per capita consumption of milk. They stated that prior to the start of the program per capita sales in the market had been declining. Proponents claimed that the program reversed this sales trend except during a period of rapidly rising milk prices. They contended that even in this latter situation the program had a positive effect by minimizing the sales decline.

The opposing cooperative, on the other hand, claimed that there is no conclusive evidence that the advertising and promotion program has improved milk sales in the Middle Atlantic market. The cooperative contended in its brief that an increase in the program's funding rate should be adopted only if the record demonstrates that the program has produced positive results that are sufficient to justify program expenditures.

The cooperative reiterated this position in its exceptions to the recommended decision and indicated that this is the paramount economic consideration in determining whether a rate increase is justified.

Serious question must be raised as to whether the record evidence in fact demonstrates one way or the other that the advertising and promotion program has in fact caused milk sales to be at a level higher than otherwise would have been the case without such a program. The effectiveness of advertising is difficult to measure, and a valid evaluation of the program would need to be based on a more extensive study than presumably was undertaken by either the proponent or opponent cooperatives. It would seem a prudent step, of course, for those producers participating in the program to seek such an evaluation of the advertising and promotion activities that they are funding.

Adoption of the proposed increase in funding should not be denied, however, for lack of a reasonable determination at this time of the effectiveness of the current program. As indicated in the decision supporting the adoption of this program, the enabling legislation for advertising and promotion programs under Federal orders was envisioned as the authority for a self-help program under which milk producers could collect and spend their own funds to improve their own markets for milk.[1] An essential feature of this legislation is that such programs are to be voluntary with respect to contributions by producers. Producers wishing not to contribute to the program have the option of requesting a refund of the assessments against their deliveries. Thus, Order 4 producers opposing the advertising and promotion program simply need not participate. A substantial majority of the producers in the market, however, have indicated their support of a program funded at a higher rate and they should be given the opportunity to participate in such a program if they so wish.

[1] Official notice is taken of the Assistant Secretary's decision on proposed amendments to the Middle Atlantic Order that was issued on January 14, 1972 (37 FR 793).

V 41 158 AUG 13 76 UMI

In its brief, the opposing cooperative stated that such substantial support by producers for the proposal under consideration does not constitute "evidence with respect to the economic and marketing conditions which relate to the proposed amendments" and does not in itself constitute a sufficient or proper justification for adopting the proposal. In its exceptions, the cooperative further indicated that while it does not question the Secretary's authority to weigh the desires of local producers it does believe that the Department gave excessive weight to this factor in its recommended decision.

While other considerations are involved, producer support is an important consideration. The intent of the enabling legislation includes recognition of the desire of producers to have a program designed to improve or promote the domestic marketing and consumption of milk and its products. Testimony at the hearing indicates that a substantial majority of the producers in the market support such a program and, as implied in the court decision quoted by opponent in its brief on another point, the Secretary is entitled to weigh the desires of local producers in reaching his decision. With respect to producer support, it is noted that although the opposing cooperative, as an organization, objects to an increase in the funding rate it does support the current program, and over half of its members on the Middle Atlantic market are participants. Contrary to opponent's contention, such evidence of support and actual participation does reflect economic and marketing conditions in the Middle Atlantic market.

The opposing cooperative further stated in its brief that any proposal adopted must be "reasonable and supported by adequate evidence." The cooperative contended that the proposal under consideration does not meet these conditions.

It is recognized that what is "reasonable" and what constitutes "adequate evidence" becomes a matter of judgment. Nevertheless, in light of the enabling legislation, it is concluded that the proposal adopted herein is reasonable and that it is supported by adequate evidence regarding the economic and marketing conditions in the market.

We find no basis for the conclusion reached by the opposing cooperative in its exceptions that the proposed amendments adopted herein are not based on "reliable, probative and substantial evidence."

The opposing cooperative also argued at the hearing and in its exceptions that the Department should not rely in its decision on the presumption that the advertising and promotion program is voluntary. It claimed that at best the program is only "quasi-voluntary" because the procedure for obtaining refunds of the assessments against their marketings is "unduly burdensome on dairy farmers."

The current refund procedure was established at the time the program was initiated. The procedure is in accordance with the statutory requirements regarding refunds under advertising and promotion programs. It should be noted that the refund procedure was proposed and supported by the producers at the time the program was adopted, and producers have not sought any change in this procedure since then.

As justification for not adopting a higher funding rate, the opposing cooperative contended that producer participation in the program is declining and that increased deductions would accelerate this decline. It is true that there has been a very gradual decline in the participation rate since the program started. However, about 90 percent of the producers are still participants. It is not possible, of course, to determine in advance what impact a higher funding rate might have on producer participation. The substantial support among producers for a higher funding rate would suggest that the impact might be minimal. In any case, speculation that there might be some further decline in producer participation does not represent a valid basis for denying adoption of the proposal.

Another argument offered by the opposing cooperative against the proposal was that an increase in the funding rate under Order 4 would generate requests for similar increases in other markets where advertising and promotion programs, both Federal and state, are in effect. The cooperative contended that dairy farmers are just now recovering from recent adverse economic conditions and that this is an inopportune time for a reduction in returns to producers as a result of a higher funding rate. In addition, the cooperative expressed concern about the potential decline in producer participation in these other programs as a result of any increased funding.

In this case, also, there is no way of determining in advance what impact any changes in the Order 4 advertising and promotion program might have on similar programs in neighboring markets. Again, however, this is not a valid consideration in deciding on the appropriateness of the funding rate for the Middle Atlantic market.

To implement the conclusions of this decision, several parts of the order must be amended to reflect the change in the rate of deduction, i.e., from 5 cents to 7 cents per hundredweight. In addition, certain changes should be made in several provisions that were intended to be applicable only at the time the advertising and promotion program became effective. For example, one provision would require the market administrator, "promptly after the effective date of this amending order," to notify participating producers of their opportunity to nominate Agency representatives. Then, "within 30 days after the effective date of this amending order," the market administrator would be required to conduct a referendum to determine representation on the Agency. In still another case, producers would not be limited to filing refund requests during the quarterly 15-day filing period now prescribed but instead could file such requests anytime "during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds" in accordance with the presently used procedure.

The several provisions should be revised in such a manner that the amended order, upon effectuation, will not instruct the market administrator to carry out certain activities or permit certain refund procedures not intended to be applicable at this time.

Rulings on Proposed Findings and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conlusions are denied for the reasons previously stated in this decision.

General Findings

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on Exceptions

In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing Agreement and Order

Annexed hereto and made a part hereof are two documents, a Marketing Agreement regulating the handling of milk, and an Order amending the order regulating the handling of milk in the Middle Atlantic marketing area, which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That this entire decision, except the attached marketing agreement, be published in the Federal Register.[2] The regulatory provisions of the marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which is published with this decision.

Determination of Producer Approval of the Advertising and Promotion Program and Determination of Representative Period

June 1976 is hereby determined to be the representative period for the purpose of ascertaining whether the order provisions constituting the Advertising and Promotion Program, as hereby proposed to be amended, in the order regulating the handling of milk in the Middle Atlantic marketing area are separately approved or favored by producers, as defined under the terms of the order (as amended and as hereby proposed to be amended), who during such representative period were engaged in the production of milk for sale within the aforesaid marketing area.

Signed at Washington, D.C., on August 9, 1976.

Richard L. Feltner,
Assistant Secretary.

Order[1] amending the order, regulating the handling of milk in the Middle Atantic Marketing Area

Findings and Determinations

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings.* A public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Middle Atlantic marketing area. The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure (7 CFR Part 900).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Middle Atlantic marketing area shall be in conformity to and in compliance with the terms and conditions of the order, as amended, and as hereby amended, as follows:

The provisions of the proposed marketing agreement and order amending the order contained in the recommended decision issued by the Deputy Administrator, Program Operations, on July 6, 1976 (41 FR 28308), and published in the Federal Register on July 9, 1976, shall be and are the terms and provisions of this order, amending the order, and are set forth in full herein:

§ 1004.61 [Amended]

1. In § 1004.61, paragraphs (a)(3) and (b)(1) (i) and (ii) are amended by changing the number "5" to "7."

§ 1004.71 [Amended]

2. In § 1004.71, paragraph (b)(2) is amended by changing the number "5" to "7."

§ 1004.76 [Amended]

3. In § 1004.76, paragraph (b)(5) is amended by changing the number "5" to "7."

4. In § 1004.113, paragraph (c)(1) is revised to read as follows:

§ 1004.113 Selection of Agency members.

* * * * * *

(c) * * *

(1) Promptly after the initial effective date of the advertising and promotion program under this order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperative and participating nonmember producers of their opportunity to nominate one or more Agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

* * * * * *

§ 1004.120 [Amended]

5. In § 1004.120, the last sentence of paragraph (c) is deleted and paragraph (d) is amended by changing the number "5" to "7."

6. In § 1004.121, paragraphs (a), (b), and (c) are revised to read as follows:

§ 1004.121 Duties of the market administrator.

* * * * * *

(a) Within 30 days after the initial effective date of the advertising and promotion program under this order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1004.113(c);

(b) Set aside the amounts subtracted under § 1004.61(a)(3) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to paragraph (b)(4) of this section; payments, if any, to producers or states pursuant to paragraph (b)(2) and (3) of this section; and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) To producers, a refund of the amounts of mandatory checkoff for advertising and promotion programs required under authority of state law applicable to such producers, but not in amounts that exceed a rate of 7 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1004.61(a)(3).

(3) To any state after the end of each calendar quarter, a payment on behalf of any producer for which a specific authorization has been received pursuant to § 1004.120(d), but not in an amount that exceeds a rate of 7 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1004.61(a)(3) for such calendar quarter.

(4) To each producer after the end of each calendar quarter, a refund for which the producer has made application pursuant to § 1004.120. Such refund shall be at a rate of 7 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1004.61(a)(3) for such calendar quarter, less the amount of any refund otherwise made to, or on behalf of, the producer pursuant to paragraph (b)(2) and (3) of this section.

(c) Forward to each new producer a copy of the provisions of the advertising and promotion program (§§ 1004.110 through 1004.122).

* * * * * *

[FR Doc.76-23748 Filed 8-12-76;8:45 am]

[1] Marketing agreement filed as part of original document.

[2] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

V 41 I 158 AUG 13 76 UMI

[7 CFR Part 1124]

[Docket No. AO-368-A9]

MILK IN THE OREGON-WASHINGTON MARKETING AREA

Decision on Proposed Amendments to Marketing Agreement and to Order

A public hearing was held upon proposed amendments to the marketing agreement and the order regulating the handling of milk in the Oregon-Washington marketing area. The hearing was held, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice (7 CFR Part 900), at Beaverton, Oregon, on March 10–11, 1976, pursuant to notice thereof issued on February 24, 1976 (41 FR 8189).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Program Operations, on July 1, 1976 (41 FR 27844), filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings, and general findings of the recommended decision are hereby approved and adopted and are set forth in full herein, subject to the following modifications:

1. A new paragraph is added following the last paragraph under issue 1.

2. Three new paragraphs are added just preceding that last paragraph under issue 2.

3. Five new paragraphs are added following the ninth paragraph under issue 3.

The material issues on the record of the hearing relate to:

1. Diversion of producer milk.
2. Location adjustments.
3. Partial payments to producers.
4. Charges on overdue obligations.

FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Diversion of producer milk.* The diversion provisions of the order should be revised to provide that milk of a dairy farmer shall be eligible for diverson as producer milk only after such dairy farmer's status as a producer has been established on the basis of physical receipt of milk at a pool plant. In addition, during the months of September, October, or November, at least one delivery must be received at a pool plant during the month to qualify such producer's milk for diversion privileges during the month.

A producer who meets the one day delivery requirement in all three months, September-November, is eligible to have his milk diverted as producer milk in any subsequent months through August, without further qualifying deliveries to a pool plant. A producer whose milk was not received at a pool plant at least one day during each of the months of September–November also must make one delivery of his milk to a pool plant during any month to qualify his milk for diversion during such month. When this delivery requirement has been met for three consecutive months, such producer's milk is eligible for diversion as producer milk in subsequent months through August without further deliveries to a pool plant.

A producer's milk now may be diverted only after a previous receipt of such producer's milk at a pool plant, and in any month at least three deliveries of his milk must be made to a pool plant. The order limits diversions of producer milk in the aggregate, by either a cooperative or a proprietary handler, to a quantity no greater than that delivered to a pool plant(s) in the same month. This quantity limitation was not at issue in this proceeding.

The diversion provisions are intended to facilitate the efficient handling of the market's reserve milk supply. Milk not needed at a pool plant may be handled most efficiently by movement directly from the farms (diverted) to nonpool manufacturing plants rather than by receipt at a pool plant and subsequent transfer.

The Farmers Cooperative Creamery Association, Portland Independent Milk Producers Association and the Corvallis Milk Producers Association, representing their member producers on the market, jointly requested a modification of the diversion qualification provisions applicable to a cooperative association as the diverting handler. They proposed a one delivery requirement during each month of September, October, and November as a condition for diversion of any producer's milk in such months and in the succeeding months through August each year.

Their proposal as noticed would apply to milk of "member producers" only whereas the diversion provisions of the order currently are not so limited. At the hearing, proponents modified their proposal to apply to any producer. In their post hearing brief they indicated that it was neither relevant nor their intent to make a substantive change in the diversion rule which would limit diversions to milk of cooperative members.

A corollary proposal by Safeway Stores, Inc., included in the hearing notice, would modify the diversion rules applicable to proprietary handlers essentially in the same manner as that proposed by the three cooperatives. At the hearing, all parties testifying on the diversion issue recognized the need for a similar application of diversion provisions to both cooperative associations and proprietary handlers.

Supporting the diversion rule changes applicable to both cooperatives and proprietary handlers were two additional cooperative associations, four non-cooperative producer groups and associations, and a proprietary handler.

The chief reasons given in support of the proposed relaxation of the receipt requirements were that such revision would save substantial uneconomic hauling and handling expenses now being necessarily incurred to preserve producer status for a large quantity of reserve milk associated with the market and would provide maximum flexibility for the handling of market fluid milk reserves.

A recent institutional change in the market was cited on the record as support of the proposed revision of the diversion qualification provisions.

The three proponent cooperatives federated in the fall of 1974. This facilitated a more efficient means of supplying milk to plant operations in the Portland, Corvallis, McMinnville and Tillamook areas. The spokesman for the federation stressed the need for a coordinated marketing system so that plants are supplied with that milk closest to the area where produced with resulting substantial transportation savings.

Prior to the formation of this federation, the Farmers Cooperative Creamery Association of McMinnville (the only one of the three with processing facilities) and the two bargaining cooperatives, Portland Independent Milk Producers Association and Corvallis Milk Producers Association, were experiencing an overlap in supplying fluid milk to pool plants in the heavy populated Upper Willamette Valley portion of the marketing area and in the disposition of their reserve supplies. Under the OWMI federation, the two non-operating cooperatives assume primary responsibility for supplying milk for bottling use in the Portland and Corvallis area, and the operating cooperative assumes the function of handling the reserves and providing supplemental Grade A milk supplies for the fluid market, as needed.

As a result, the McMinnville plant changed status from a pool plant to a nonpool plant in January 1975. However, its member milk has been attached to other pool plants for purposes of pooling. Since that time, during the months of heavy production (beginning in April and extending through August), the Farmers Cooperative Creamery has experienced considerable difficulty in finding pool plant outlets for meeting the three delivery requirements necessary to qualify the milk of its member producers for diversion. In some cases this has necessitated the hauling of members' milk to a pool plant to be unloaded and reloaded for return to the McMinnville plant for manufacturing solely to maintain producer status for such milk.

Mayflower Farms, a cooperative association operating three pool plants under the order, supported the proponents' proposal to relax the present qualification standards. The spokesman for this cooperative association testified to having problems in qualifying some of its producers for diversion during the spring and summer months of relatively higher milk production.

It is the position of this association that the diversion provisions must continue to provide a basis for producer identification with the market. It is also the contention of the association that proponents' proposal provides a maximum flexibility for producers to find the best alternative for handling reserve milk supplies and will allow them to divert

milk to nonpool plants at a savings in hauling costs.

A representative of fifteen Grade A milk producers all of whom are located in the Myrtle Point area stated that the cost of hauling their milk to a Clackamas pool plant (near Portland, about 212 miles) to meet the three delivery requirements ranges from 81.5 to 91.5 cents per hundredweight compared to about 32 cents per hundredweight hauling cost when such milk is diverted to a nearby manufacturing plant at Myrtle Point.

The volume of bulk milk diverted to nonpool plants has increased significantly in the past few years. In 1975, 138.6 million pounds of producer milk was diverted to nonpool plants compared to only 61.9 million pounds in 1974. This increase in the volume of reserve producer milk that must be moved to manufacturing outlets has intensified marketing problems which cannot be satisfactorily resolved under the existing diversion provisions.

The problems encountered in handling reserve producer milk supplies necessitated suspension of the three delivery requirements for producer milk for the months of April, May, June, and July 1976 (41 FR 15398). These four months in which milk production is seasonally heaviest in relation to demand in the market fall within the nine-month period (December-August) for which qualifying deliveries will not be required for diversions under the provisions adopted herein.

Considerable savings in hauling costs can be effected for those producers located in areas more remote from pool plant facilities by reducing the number of deliveries necessary for milk of individual producers in establishing eligibility for diversion.

In this connection, the milk of producers whose farms are located nearest to pool plants may be moved to such plants on a more regular basis while milk of more distant producers may be moved to nearby nonpool manufacturing plants, unless otherwise needed for fluid use in the market.

Having concluded that the present deliveries which a producer is required to meet to establish eligibility is a deterrent in the efficient handling of the market's reserve milk supplies, it is now necessary to determine the extent of relaxation which can be permitted and still retain adequate assurance against abuse of the diversion privileges. With no delivery requirement, the milk of an individual producer could be diverted to a manufacturing plant continuously for an indefinite period of time. Under such circumstance, there would be no assurance that such diverted milk continues to be qualified for fluid use and accordingly has a bona fide claim of association with the fluid market.

Appropriately, for the milk of a producer to be diverted as producer milk during the period of December through August, it should be required that such producer establish diversion eligibility by a single delivery for each of the three months of the preceding September–November period. Such eligibility performance established by the producer over a 3-month period will provide adequate evidence of such producer's association with the Oregon–Washington fluid market and that his milk is of acceptable quality for the fluid market.

A producer whose milk has not been received at a pool plant for at least one day during each of the months of September–November should be required to have at least one delivery of his milk received at a pool plant in any month to qualify his milk for diversion during such month. Once such producer has met this delivery requirement for any three consecutive months, beginning during or after the September–November period, his milk should have diversion privileges for any subsequent months through August in the identical manner as a producer who met the delivery requirement in the September–November period. This is appropriate since such producer would have met substantially the same prerequisite for diversion as discussed above for the September–November period.

An additional eligibility requirement currently provided in the order, and retained herein, is that, notwithstanding the specific performance requirements discussed above, any producer must have had his milk physically received at a pool plant before his milk may be diverted. This requirement, in connection with the other eligibility requirements herein adopted, will serve the common purpose of demonstrating that those producers whose milk is diverted do in fact have a bona fide association with the fluid milk market.

OWMI suggested in their exceptions that the term "production" rather than "delivery" be used to establish diversion eligibility. Such exception provides no basis to alter the findings contained in the recommended decision.

2. *Location Adjustments.* The location adjustment provisions of the order should be modified to provide a 10 cent location adjustment for any plant located in the Oregon counties of Jackson and Josephine.

The present location adjustment rate under the order is 15 cents for a plant located between 100 and 110 miles from the nearer of Eugene or Portland, Oregon. An additional 1.5 cents adjustment is applicable for each 10 miles or fraction thereof with respect to any plant located in excess of 110 miles from the nearer of such basing points. The amount of location adjustment applicable at a plant located 100 miles or more from the nearer of such basing points but within the Oregon counties of Clatsop, Coos, Douglas, Lane, Lincoln, and Tillamook (all within the marketing area), however, is limited to a maximum of 10 cents. Elsewhere in the marketing area or in Grant County, Wash., the rate is limited to a maximum of 20 cents.

The testimony adduced at the hearing centered primarily on the question of whether or not the present location adjustments applicable to plants located in the Oregon portion of the marketing area should be eliminated. Most of such testimony was confined to location pricing at plants in the southern Oregon segment (Grants Pass, Klamath Falls, and Medford area) of the marketing area. Producers and handlers took diverse positions regarding this matter.

The principal cooperative in the market (Mayflower Farms), operating three regulated plants under the order (two of which are subject to the 20 cent location adjustment), proposed that Medford, Oregon be added as a basing point from which distances are measured in determining location adjustments. If adopted, their proposal would eliminate location adjustments at seven pool plants (including their Medford plant) located in the Oregon counties of Jackson, Josephine, and Klamath. Their proposal was supported by several organizations of producers.

Proposals of another cooperative association and a proprietary handler (both based at Roseburg, Oregon), which would eliminate all location adjustments under the order, were included in the hearing notice. However, proponents abandoned such proposals at the hearing. They joined with certain producers in the southern Oregon area who supported adding Medford as a basing point and proposed expanding the radius to 150 miles from the basing points of Medford and Eugene as the area within which no location adjustments would apply. Under this proposal, all location adjustments would be eliminated for plants located within the Oregon portion of the marketing area.

The OWMI, one producer, and a Caldwell, Idaho handler (a cooperative association operating a pool supply plant) proposed that the "base" pricing zone be extended to cover all territory within 150 miles of Portland, Eugene, and Medford. No substantial evidence was offered in support of the proposal, however.

A group of handlers operating plants in the southern and east central Oregon portions of the marketing area opposed any change in location adjustments. The spokesman for this group held that there has been no significant changes in marketing conditions within the Oregon portion of the marketing area since the present location adjustments in the order became effective.

Location adjustments, an essential tool in establishing milk prices under Federal milk orders, generally reflect the cost of moving milk from distant points to the central market. They implement continuing intermarket and intra market price alignment and promote equity among handlers in the cost of milk under the terms of the order. In the absence of appropriate location adjustments, plants distant from the central market could not compete for sales in the central market. It is within this context that the present location adjustment provisions in the Oregon-Washington order were developed.

The existing location pricing structure under the order was established by the decision of the Assistant Secretary issued November 11, 1971 (36 FR 21819) official notice of which is taken. In this deci-

V 41 I 158 AUG 13 76 UMI

sion, the Assistant Secretary concluded that location adjustments recognize the greater value of producer milk f.o.b. plants in or near the principal population centers (principally in the Willamette Valley between Portland and Eugene and the population centers located therein) as compared to its value at other locations including the Washington portion of the marketing area and the coastal, eastern and southern Oregon portions, thereof. He further concluded that location adjustments were necessary at certain locations in the marketing area to maintain a proper price alignment with nearby markets.

As previously indicated, there were essentially three proposals presented and discussed at the hearing that, if adopted, would change in varying degrees the present location pricing structure under the order. Most of the testimony that was presented in support of the proposals, however, was directed to the elimination of location adjustments in the southern Oregon (Jackson, Josephine, and Klamath Counties) portion of the marketing area. Proponents testimony was focused on establishing that circumstances have changed in southern Oregon since the 1971 decision providing location adjustments for the first time at plants located in that area.

In support of the proposal, the witness for Mayflower Farms contended that present location adjustment rates applicable at plants in southern Oregon are no longer appropriate in light of current marketing conditions in the area. He held that increased population in southern Oregon had changed supply-demand conditions and that the closing of several plants had resulted in significant changes in the areas of supply. The spokesman for the cooperative testified that as a result, the Medford fluid operation has experienced a tight supply situation during the past year. This he stated occurred because part of the sales volume formerly handled in the cooperative's Coos Bay plant, which ceased fluid operations in 1974, was transferred to the Medford plant and because of an overall increase in sales. However, the witness was able to cite only one instance (October 1975) when it was necessary to obtain a load of milk from a plant in the base zone (the McMinnville cooperative plant), to meet the needs of its Medford operation.

The witness further testified that the tight supply situation has been ameliorated by Arden Farms discontinuation of operations at its Grants Pass distributing plant. Milk which the cooperative supplied to that plant is now being channeled through Mayflower's Medford operation. The Grants Pass packaged business of Arden Farms is now being served from its Portland operation.

Several other proponent producer spokesmen testified to a tightening supply situation in southern Oregon. They held this resulted from a decline in the number of producers in the area.

The record evidence does not support proponents contention that milk supplies are tight. Southern Oregon continues to be a surplus milk production area. It is basically rural and production greatly exceeds Class I needs. In 1975, only about 48 percent of the Grade A milk locally produced in the region (Coos, Jackson, Josephine and Klamath Counties) was utilized as Class I by local plants. This compares to about 51 percent in 1974.

Milk in excess of local distributing plants' needs in southern Oregon must be disposed of by movement to other plants. Limited quantities of milk are processed at the two local manufacturing plants, at Grants Pass and Klamath Falls. The bulk of the milk in the area not needed for fluid use, however, must be moved to more distant plants located at Eugene and Myrtle Point, Oregon for processing. While the excess milk of the area is used principally for manufacturing at these plants, it is available for use in fluid milk processing as needed.

The fact that milk does move from the base zone (Portland-Eugene area) to southern Oregon (a location adjustment zone) under certain circumstances is not a sufficient basis for elimination of location adjustments as proponent cooperative argued. It is not unusual for handlers to distribute milk in lower-priced zones within the same market, or even into other markets with somewhat lower Class I prices. Such movements reflect management decisions which are unrelated to the terms of regulation. The purpose of location adjustment is to appropriately reflect the value of milk at the plant of initial receipt rather than its value at the location disposition is made. If a producer delivers his milk to a plant located in the base zone, he assumes the cost of hauling the milk from the farm to the market center(s) and under such circumstances he should be compensated for such cost at the base zone price. Conversely, if the producer delivers his milk to an outlying plant located nearer his farm, the price to such producer appropriately may not reflect the value of milk at the market center(s), since in such circumstances it is the purchasing handler who thus would bear the cost of transporting the milk from the initial point of receipt to the market center.

Various proponents urging elimination of location adjustments in southern Oregon or throughout the Oregon portion of the marketing area suggested that the supply-management program operated by the Oregon Department of Agriculture eliminates any need for location adjustments in the Oregon portion of the marketing area. At the hearing, an official of the Milk Audit and Stabilization Division of the Oregon Department of Agriculture appeared as a witness to explain the Oregon supply-management program. He testified that the program is operated in conjunction with the Oregon "quota" plan.

Under the supply-management program, the State is authorized to direct as needed the receipts of quota milk in excess of the Class I and Class II needs of any handler to other handlers to supplement their total Class I and Class II requirements. The responsible State official stated that while the program recognizes the normal supply arrangements betweeen a producer and handler, it does implement the movement of excess quota milk as needed for Class I and II uses. According to the witness, both the producer and handler benefit by the program since it adjusts the seasonal and holiday supply patterns to implement the highest practical utilization of the quota milk supply.

Participation in the State quota plan by any producer is voluntary. The principal cooperative spokesman testified that about 90 percent of the cooperative's members participate in the plan. In 1975 about 83 percent of the total production in the three southern Oregon counties was under the quota plan. In view of this and considering that the State has call on only that portion of quota milk that is in excess of a handler's total Class I and Class II requirements, the amount of quota milk that can be moved under the supply-management program for Class I use can reasonably be expected to be quite limited.

The argument that the State supply management nullifies the need for location adjustments are not valid. As indicated above, the State supply system moves quota milk not only for fluid use but also for manufacturing of certain products (Class II). Further, the program does not involve all producers or handlers in the market.

Several proponent witnesses advocating discontinuation of location adjustments for Oregon based plants suggested that a recent innovation by the State of repooling total producer returns under the quota plan nullifies location pricing in the Oregon portion of the order's marketing area. Since its inception in 1970, the order has provided that producers, who so desire, may assign to the State of Oregon the returns otherwise due them for their milk in order that the State may redistribute such returns in accordance with the terms of the Oregon quota plan. Until last fall, the price paid to producers for quota milk under the plan was subject to the same location adjustments that apply to base milk under the order. Since that time, according to the testimony of certain witnesses, producer returns are repooled by the State to the end that the same quota price applies to a participating producer irrespective of the location of the plant to which his milk is delivered.

The four handlers opposing any change in location adjustments expressed concern in their post-hearing brief that the repooling of producer returns under the Oregon quota plan might be illegal pursuant to the Act which requires uniform prices to all producers subject to location adjustments. Consideration of this argument, however, is not relevant to the issue at hand since it involves matters beyond the scope of this rule-making proceeding.

Since location adjustments are specifically authorized by the Act and are intended to adjust the basic price to reflect the value of milk at the location at which delivery is made, it would not be appropriate to consider a change in location pricing solely on the ground that producer payments under the Oregon quota plan (which does not involve all producers in the market) differs from the manner in which producer payments are paid under the Federal order.

An important feature of this regulation is that handlers regulated under the order and similarly located are uniformly subject to the same minimum class prices on all their milk. The uniformity of pricing among handlers is specifically prescribed in the Act. Location adjustments assist in carrying out the statutory requirement of uniformity in prices to all handlers.

The proposals to add Medford as an additional basing point for computing location adjustments at plants beyond 100 or 150 miles from such basing point would result in higher Class I and uniform base prices at outlying plants located in California that could become associated with the market. Proponents pointed out that there presently are no California plants pooled under the order and that this was not the case in 1971 when the present location adjustments were adopted for southern Oregon. Thus, proponents maintained that there is no longer need to consider the relationship of order prices in southern Oregon to plants located outside the marketing area in northern California.

In his 1971 decision, the Assistant Secretary concluded that the Class I and uniform prices for base milk which would be applicable at plant locations outside the marketing area must appropriately reflect the value of milk at such locations relative to its value f.o.b. the marketing area. These findings are equally pertinent to the current marketing situation. To provide location adjustments which would increase the price structure at outlying northern California plants would distort the existing price alignment among competing regulated and non-regulated plants which is essential for continuing orderly marketing in the region. Thus, to increase Class I prices at plants located in northern California, as advocated by proponents, could only have the effect of limiting outside handlers access to the regulated market.

In view of the foregoing considerations, it is concluded that the general pattern of location pricing in the Oregon-Washington order must be maintained both at the handler and producer level. Accordingly, the proposals to add Medford as a basing point and to extend the base zone to 150 miles from either Portland, Eugene, or Medford, which in effect would eliminate all location pricing in the marketing area except at certain plants in southeastern Washington, are denied.

Notwithstanding, some modification of the location adjustments applicable in the southern Oregon counties of Jackson and Josephine is appropriate. It is concluded that in this area the present maximum 20 cent adjustment should be revised to a maximum 10 cent adjustment.

At the time of the hearing, there were five pool plants located in the two county area, four in the Medford area and one at Grants Pass. Presently, a 20 cent per hundredweight location adjustment applies at Medford and a 19.5 cent rate at Grants Pass.

The five handlers located in the two-county area compete with a handler located at Roseburg for both milk supplies and sales. No location adjustment applies at the latter handler's plant since it is in the base zone. The Roseburg plant is located about 71 miles south of the Eugene basing point and 68 and 96 miles from Grants Pass and Medford, respectively.

A substantial part of the milk supply for the Roseburg handler is obtained from dairy farmers located in the Grants Pass area. Also, this production area is a major source of milk supplies for the nearby Grants Pass–Medford handlers. The relationship of the price structure at plants located in or near this supply area with the Roseburg plant price is thus an important consideration.

Using the 1.5-cent per 10 mile transportation rate as a measure of price alignment which is generally used as an indicator of the cost of bulk movements of milk, the present price in the Roseburg area relative to the price in either Grants Pass or Medford appears to provide producers in the Grants Pass supply area with a more remunerative market than is the case if such producers deliver to nearby plants. In this connection if producers delivering to the Grants Pass-Medford plants in the location adjustment areas shipped their milk instead to the Roseburg area at which no location adjustments apply, they would incur additional increased hauling costs of about 10 cents per hundredweight. The present order, however, provides a unform price for base milk 20 cents higher for delivery to a plant in the Roseburg area than in the Grants Pass-Medford area. For producers who have a choice of outlets, there thus is an economic incentive to ship to the Roseburg area plant rather than to Grants Pass-Medford area plants. There is little doubt that this has occurred without regard to need for fluid milk supplies at the Roseburg location since considerable volume of this milk also is moving to manufacturing outlets. If this situation is allowed to continue, it could, over time jeopardize an adequate supply of milk for handlers in the two county area.

Accordingly, limiting the location adjustment applicable to plants in the Grants Pass-Medford area to ten cents, as herein provided, appears reasonable under existing circumstances and will more appropriately reflect the value of milk at such location in relation to the nearby plant where no location adjustment applies.

A Medford proprietary handler excepted to the recommended modification of location adjustments described above. The handler claimed that no one proposed such a modification and there was insufficient evidence in the record to support the recommendation.

The fact that no interested party specifically proposed the change in location adjustments as adopted in the recommended decision provides no basis for taking a different position on this matter. Paramount in the resolution of an issue (location adjustments in this case) is the evidence adduced at the hearing. Such evidence is not restricted to the terms of a specific proposal but is received relative to all aspects of marketing conditions having a relationship to any and all issues of the proceeding.

It is concluded, therefore, that on the basis of the available evidence placed in the record, and for the reasons already set forth, the adoption of a lower location adjustment applicable at plants located in these two Oregon counties is reasonable under the present marketing situation. Accordingly, the exception is denied.

Testimony suggests that certain other areas of the Oregon portion of the marketing area also might warrant a reconsideration of location adjustments, particularly in the Bend-Redmond area. The record evidence in this regard was not compelling.

3. *Partial payments to producers.* The order should provide that all handlers be required to make partial payments to producers, or to cooperative associations that collect for their members, for producer milk delivered during the first 15 days of the month. Such payments to individual producers should be made on or before the last day of the month. Payments to cooperative associations should be made two days earlier. The rate of payment should be not less than the Class III price for the preceding month.

The order does not now provide for partial payments to producers. Most handlers in the market, however, make some form of partial payments to individual producers. The rates, time of payment and other aspects of such payments vary among handlers.

The three cooperative associations of the OWMI federation proposed partial payments to producers, or to a cooperative association(s) authorized to collect payments for milk of their member producer deliveries. They proposed that the rate of payment be the Class III price for the preceding month.

This proposal was supported by Mayflower Farms, a producer organization (a non-cooperative association) and a proprietary handler. There was no opposition to the proposal.

In support of the proposal, various spokesmen stated that most of the handlers in the market presently make partial payments in varying degrees to individual producers and cooperative associations. They stated, however, that there are a few handlers who do not make such payments for producer milk which cooperatives cause to be delivered to their respective pool plants as a bulk tank handler. The witnesses pointed out that even though the cooperatives do not receive partial payments on such milk they nevertheless pay a partial payment to all their member producers. This, it was contended, places an additional financial burden on cooperative associations and in effect provides a subsidy to those handlers who purchase part or all of their producer milk in this manner. In further support of their proposal, proponents argued that a uniform partial payment plan to producers and

V 41 158 AUG 13 76 UMI

cooperative associations under the order will eliminate certain handler inequities that now exist under the present voluntary partial payment practices in the market.

Provisions requiring handlers to make partial payments to producers each month are customarily included in Federal milk orders. Such provisions assure producers supplying the market a uniform and more orderly system of partial payments, and reduce the period they must wait to be reimbursed in part for their milk sales.

With the diversity of partial payment practices existing in the Oregon-Washington market, producers supplying the market can not be assured of a regular partial payment schedule for milk delivered during the first part of the month. Under current milk production practices, producers require substantial operating capital. They must make substantial cash outlays during the month and have the ready cash available to meet such obligations. Requiring handlers to make regular and uniform partial payments for milk delivered during the first part of the month will improve the ability of producers to meet their financial obligations during the month.

Partial payment provisions, as herein adopted, also provide handlers with a uniform payment procedure. As indicated, many of these handlers in the market presently are making some form of partial payments to producers. Such payment practices among handlers, however, vary considerably because of their voluntary nature. Such variation in payment practices, can result in certain handlers who make partial payments being financially disadvantaged over others who take a longer period in accumulating the necessary funds for the purchase of their milk. This contributes to market disorder by affecting the competitive position of handlers in the market.

Requiring a handler to make partial payments to producers for milk he receives during the first half of the month, is not unreasonable. When only a final settlement for producer milk is required, payable by the 16th of the next month, any handler not making partial payments has had the use of the money resulting from its sale for up to 45 days.

Various proprietary handlers excepted to the date adopted in the recommended decision when partial payments would be required to be made by handlers. Exceptors pointed out that they follow a business practice of billing customers monthly and that payments are not received from customers until about the 10th to the 15th day of the following month. Under such circumstances, the exceptors contend, if they are required to make a partial payment to producers before they receive payment from their customers, it would seriously affect their operating capital to the extent that they would have to borrow additional capital to meet such payment obligations. This, they pointed out, would result in additional operating costs in the form of interest on loans.

The cost that a handler may incur in meeting partal payment obligations must be considered a necessary business expense to be borne by the handler. There is no reason why producers should be required to incur any of the handler's business expenses by delaying the date when partial payments are due.

One exceptor requested that if mandatory partial payments are adopted, the due date for such payments be instituted on a gradual basis, i.e., that the partial payment for milk deliveries on the 1st through the 16th of the month be initially made on the 12th of the following month. This due date to be advanced two days each month until the partial payment due date coincides with that set forth in the recommended decision. This procedure, he pointed out, would give handlers a period of time to adjust their financial arrangements to compact with the additional partial payment requirement. The allowance of a six month period for the partial payment plan to be fully implemented is not warranted on the basis of the record evidence and the considerations set forth in these findings.

The points raised by the exceptors were taken into consideration in arriving at the position adopted herein and do not provide a basis for reaching a different conclusion regarding this issue.

The three cooperative associations of the OWMI federation excepted to the proposed date that partial payments should be made to producers. They reiterated the position they took at the hearing. The cooperatives exceptions provide no basis, however, for taking a different position on this matter.

In view of these considerations, greater equity among producers and handlers can be achieved by requiring mandatory partial payments for producer milk.

The rate of partial payment should be not less than the Class III price for the preceding month. No adjustment should be made for butterfat content or plant location. Use of the Class III price for the previous month in making the partial payment will minimize the possibility of any overpayments on the part of a handler. The proposal of Mayflower Farms to use a partial payment rate of 120 percent of the Class III price for the preceding month is denied since its use could result in an increased incidence of overpayments by handlers.

Proponents suggested that handlers be required to make partial payments directly to producers. Presently, handlers under the order are required to make a single payment to the market administrator reflecting the total value of their milk according to its use classification. The market administrator then pays individual producers or their cooperatives. For those producers who are under the Oregon State Quota Plan, the payments due such participating quota producers are paid to the State for redistribution to individual producers in accordance with the Plan.

No substantial purpose would be served in requiring that monies for partial payments to producers be channeled through the market administrator. Such a procedure likely would only delay a producer's receipt of the partial payment. Accordingly, it should be provided that partial payments be paid by such handlers directly to producers and/or cooperative associations.

A handler should be required to make partial payment only to producers who have not discontinued delivery of milk to the handler as of the 15th day of the month. This will essentially remove any possibility of over payments.

The order should provide that partial payments to a cooperative association, either in its capacity as the marketing agent of the producer or in its capacity as a bulk tank handler, be made at least two days prior to the last day of the month. This procedure is necessary in order that a cooperative will have the monies in hand to pay its members on the same dates that other producers are paid.

4. *Charges on overdue obligations.* The current charge on overdue payment obligations should be increased to three-fourths of 1 percent. Such charge should be applied on the first day that a payment is overdue and shall be increased by three-fourths of 1 percent on the 1st day of each succeeding month until the obligation is paid.

The order now applies a charge of one-half of 1 percent per month on handler obligations to the market administrator that are overdue. Such obligations include those due the producer-settlement fund, the administrative expense fund, and the marketing service fund, all of which are maintained by the market administrator. Currently, the late payment charge does not apply until the beginning of the first month following the date that the payment was due. Unpaid obligations, including late payment charges are further increased by one-half of 1 percent on the first day of each succeeding month until the obligations are paid.

The three cooperative associations of the OWMI federation proposed that the charge on overdue obligations be increased to at least three-fourths of 1 percent, to be applied on the fourth day following the due date of such obligation and at a similar rate on the first day of each month thereafter until the entire obligation is paid. At the hearing, proponents modified their proposal as it appeared in the hearing notice to require that a handler's unpaid obligation be increased at least three-fourths of one percent on the fourth day after the due date and on the same day of each month thereafter.

Another cooperative association supported an increase in the late payment charge to three fourths of 1 percent per month. This association proposed, however, that the late payment charge be applied on the 3rd day after the due date of such obligation.

In support of a late payment charge of three-fourths of 1 percent per month and advancing the date in which such charge should apply, witnesses for the four cooperative associations indicated

that such changes are necessary to encourage prompt payment of obligations to the market administrator by regulated handlers. Witnesses stressed that late payments by handlers are a serious problem in the market and have impeded the ability of the market administrator to make required payments from the producer settlement fund on time, thus necessitating a delay in payments to certain producers in the market.

Proponents argued that the present charge on overdue obligations as provided by the order is not encouraging prompt payment of handler obligations but rather is providing a situation wherein some handlers are finding it to their financial advantage to delay payment obligations to the market administrator as a means of obtaining additional operating capital. This, they pointed out, creates an inequitable situation among handlers in the market since those handlers who are delinquent in their payments can have a substantial financial advantage over handlers who make timely payments to the market administrator.

The position of proponent cooperatives regarding charges on overdue obligations was supported by one other cooperative associated with the market, a proprietary handler and two producer groups (non-cooperative associations).

It is essential that payments to the funds maintained by the market administrator be made promptly so that the order may be administered in an efficient and timely manner. The successful operations of a Federal milk order depends, in large measure, upon prompt compliance by all regulated parties. The order provides for a sequence of dates that must be met by a handler that enables the market administrator to execute producer payments on schedule. Failure on the part of a handler to meet such due dates, including the payment due dates, is unfair to producers and other handlers and undermines the confidence which handlers and producers have in the program.

Prompt payment of amounts due the administrative expense and marketing funds, also, is essential to the performance by the market administrator of the various administrative functions prescribed by the order in a timely and efficient manner.

The charge on overdue accounts and the date that charges on overdue obligations apply are designed to encourage prompt settlement of accounts. The rate of charge, however, must be such that it does not provide an incentive for handlers to use producer money as a source of credit. Moreover, it is not reasonable to provide a grace period which can only encourage a delay in payments due the market administrator beyond the due date.

In this market, all handlers are required to make payments to the market administrator for the total value of all their milk according to its classification. The market administrator then pays individual producers or cooperative associations who do not participate in the Oregon Quota Plan.[1] With respect to producers participating in the Oregon quota plan (thus authorizing the State to collect for them) the market administrator pays the State the total amount otherwise due each participating quota producer. The State, in turn, settles with such producers and cooperative associations in accordance with the terms of the Oregon plan.

The market administrator usually mails handlers' billings on the 14th day of the month, following the month the transactions were made. This is the date he is required under the terms of the order to announce the uniform prices. If the 14th falls on a Saturday or Sunday the billings are mailed either the prior Friday or the following Monday, depending upon the extent that handler reports are available to the market administrator at the time. It should be noted, however, that since each handler's obligation to the market administrator reflects the full use value of his milk the uniform price announcement is not a necessary condition to the mailing by the market administrator of handler's billings. Hence, such billing reasonably can be issued promptly following receipt of a handler's report.

The due date for payment of handlers' obligations to the market administrator is the 16th and the market administrator in turn is required to make payments to individual producers by the 20th and two days earlier (18th) for such payments that are made to cooperative associations and to the State. Under the current provisions of the order, a handler has at least 14 days after the due date to make payment to the market administrator, from the 16th to the 30th or 31st of the month before he incurs a late payment charge. Since the current provisions do not specify what is considered as the date of payment—i.e., the postmark date of mailing, or the date payment actually is received in the market administrator's office, the postmark has been accepted as the "date of receipt."

Any handler, therefore, who posts his payment in the mail just prior to the first of the month following the due date incurs no additional charge. In such circumstances, he has the continued use of producer monies and is indemnified by the prolonged grace period presently allowed.

It is quite evident that the incidence of late payments by handlers is a serious problem and that the present order provisions as they relate to charges on overdue obligations are not achieving their desired purpose. Data submitted in evidence by the market administrator detailed the payment practices of 43 handlers required to make payments to the producer settlement and administrative funds during each of the six months, July through December 1975. During the six month period there were 258 payments made by the 43 handlers to the market administrator. For this period, only 63 percent of handler payments were received by the market administrator from the 16th through the 20th of the month. On a monthly basis, the number of payments received by the 20th during such period ranged from 54 to 70 percent. During the next five day period (21st through the 25th) payments were received during the 6-month period from 26 percent of the handlers. During the two periods of the 26th through the 30th, and the 31st (when applicable), and the 1st of the following month through the 3rd, payments from an average of 5 handlers in each period were received by the market administrator.

In terms of money owed, the payment delinquency experience for this period was a little better. For the same six month period, 73 percent of the total value of handler payments were received by the market administrator between the 16th and 20th of the month. The market administrator cannot be expected to make full payments to producers, cooperatives, and/or the State, whichever the case may be, if all payments from handlers are not available to him on the dates such payments are required to be made—i.e., the 18th to cooperatives and the State, and the 20th to individual producers. To accommodate to such payment delinquencies, the market administrator withholds funds from the particular producer(s) who supply a delinquent handler until such handler submits payment for his order obligations.

The current provisions for late payment charge, therefore, have had little impact in encouraging prompt handler payments. Since payments apparently are made in time to avoid a late charge in the majority of circumstances, the increase in the rate on overdue obligations as adopted herein reasonably can be expected to increase the flow of money to the market administrator and thus to implement final payment to producers on the prescribed payment dates.

Because of the extent of the late payment problem that has persisted in the market, it is appropriate that charges on overdue obligations apply on the first day that such obligation is overdue. Further, any such overdue obligation should be increased by three-fourths of 1 percent on the first day of each succeeding month until the obligation is paid.

A late payment charge of this amount should apply irrespective of whether the obligation is paid for example three or four days late or nearly a month late. If the late payment charge were treated as interest and computed on a daily basis, the order would merely represent a banking service for handlers who desire to use producer funds as an alternative source of money at the going interest rate. This is not the intended purpose of the late payment charge. Rather, it is a charge that will induce handlers to pay their obligations to the market administrator on time.

Proponents' proposal to provide either a 3 or 4 day grace period for payment to reach the market administrator could not achieve the objective sought.

[1] The Oregon quota plan is discussed in more detail elsewhere in these findings.

V 41 I 158 AUG 13 76 UMI

The application of the late payment charge on the day following the date when payment is due may require some adjustment in the billing procedures of the market administrator to handlers. In this connection, the market administrator may need to reduce the period customarily taken to notify a handler of his monthly obligations so that the handler in turn will have sufficient time to mail the payment by the due date. This adjustment can be accomplished within the framework of the existing order and thus requires no amendatory action.

Proprietary handlers and the proponent OWMI federation excepted to the recommended decision to eliminate the grace period before a late payment charge is assessed on overdue payment obligations by handlers to the market administrator. For reasons already set forth, such provisions as modified in this proceeding are appropriate under the present marketing arrangements in the Oregon-Washington order market, and the exceptions therefore are denied.

RULINGS ON PROPOSED FINDINGS AND CONCLUSIONS

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

GENERAL FINDINGS

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

RULINGS ON EXCEPTIONS

In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

MARKETING AGREEMENT AND ORDER

Annexed hereto and made a part hereof are two documents, a MARKETING AGREEMENT[1] regulating the handling of milk, and an ORDER amending the order regulating the handling of milk in the Oregon-Washington marketing area, which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That this entire decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of the marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which is published with this decision.

DETERMINATION OF PRODUCER APPROVAL AND REPRESENTATIVE PERIOD

March 1976 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order, as amended and as hereby proposed to be amended, regulating the handling of milk in the Oregon-Washington marketing area is approved or favored by producers, as defined under the terms of the order (as amended and as hereby proposed to be amended), who during such representative period were engaged in the production of milk for sale within the aforesaid marketing area.

Signed at Washington, D.C., on August 6, 1976.

RICHARD L. FELTNER,
Assistant Secretary.

Order[2] amending the order, regulating the handling of milk in the Oregon-Washington Marketing Area

FINDINGS AND DETERMINATIONS

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) Findings. A public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Oregon-Washington marketing area. The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure (7 CFR Part 900).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Oregon-Washington marketing area shall be in conformity to and in compliance with the terms and conditions of the order, as amended, and as hereby amended, as follows:

The provisions of the proposed marketing agreement and order amending the order contained in the recommended decision issued by the Deputy Administrator, Program Operations, on July 1, 1976 and published in the FEDERAL REGISTER on July 7, 1976 (41 FR 27844), shall be and are the terms and the provisions of this order, amending the order, and are set forth in full herein.

1. In § 1124.11, paragraphs (a) and (b) are revised as follows:

§ 1124.11 Producer.

* * * * *

(a) A cooperative association may divert for its account to a nonpool plant the milk of any producer whose milk has been received previously at a pool plant and from whom at least one delivery per month during each of the months of September, October and November is received at a pool plant, except that in the case of any producer whose milk has not been received at a pool plant for at least one day during each of the preceding months of September–November such producer shall be required to have at least one delivery of his milk received at a pool plant in any month to qualify his milk for diversion during such month. This delivery requirement for diversion purposes shall continue until such producer's milk has been received at a pool plant for three consecutive months beginning during or after the September–November period. The aggregate quantity diverted may not exceed the aggregate quantity received during the month from all such producers at pool plants. Two or more cooperative associations may have their allowable diversions computed on the basis of the combined deliveries of milk by their member producers if each association has filed such a request in writing with the market administrator on or before the first day of the month such agreement is effective. This request shall specify the basis for assigning any over-diverted milk to the producer members of each cooperative association according to a method approved by the market administrator.

(b) A handler in his capacity as the operator of a pool plant may divert for his account to a nonpool plant the milk of any producer whose milk has been received previously at a pool plant and from whom at least one delivery per month during each of the months of September, October, and November is received at his pool plant(s) and who is not a member of a cooperative association which is diverting milk pursuant to paragraph (a) of this section during the month, except that in the case of any producer whose milk has not been received at a pool plant for at least one day during each of the preceding months of September–November such producer shall be required to have at least one delivery of his milk received at a pool plant in any month to qualify his milk for diversion during such month. This delivery requirement for diversion purposes shall continue until such producer's milk has been received at a pool plant for three consecutive months beginning during or after the September–November period. The aggregate quantity diverted may not exceed the aggregate quantity received during the month from all producers at his pool plant(s);

* * * * *

2. In § 1124.52, paragraph (a) is revised as follows:

§ 1124.52 Location adjustment to handlers.

(a) The Class I price for producer milk and other source milk (for which a location adjustment is applicable) at a plant 100 miles or more from the nearer of the Multnomah County Court House in Portland, Oreg., or the city hall in Eugene, Oreg., by the shortest hard-surfaced highway distance as determined by the market administrator, shall be reduced 15 cents and an additional 1.5 cents for each 10 miles or fraction thereof that such distance exceeds 110 miles: *Provided*, That the location adjustment applicable at a plant located 100 miles or more from the nearer of such basing points but within the Oregon counties of Clatsop, Coos, Douglas, Jackson, Josephine, Lane, Lincoln, and Tillamook shall be not more than 10 cents and the location adjustment applicable at a plant located elsewhere in the marketing area or in Grant County, Wash., shall not be more than 20 cents; and

* * * * *

§ 1124.62 [Amended]

3. In § 1124.62 *Obligations of handler operating a partially regulated distributing plant*, the reference "1124.81(b)" in paragraph (a)(1)(i) is changed to "§ 1124.81(c)".

4. Section 1124.81 is revised as follows:

§ 1124.81 Payments to the producer-settlement fund.

On or before the 16th day after the end of each month, each handler shall pay to the market administrator his net pool obligation computed pursuant to § 1124.70, less:

(a) Payments made pursuant to § 1124.82a;

(b) The amount of the deductions and payments authorized by individual producers or cooperative associations which are itemized on the handler's producer payroll; and

(c)(1) The value at the weighted average price computed pursuant to § 1124.71 (a) applicable at the location of the plant(s) from which received (not to be less than the Class III price) with respect to other source milk for which values are computed pursuant to § 1124.70(e); and

(2) In the calculation of the total amount of the deductions and charges to be subtracted, the deductions and charges to be considered with respect to each individual producer shall not be greater than the total value of the milk received from such producer.

§ 1124.82 [Amended]

5. In § 1124.82 *Payments from the producer-settlement fund*, the reference to "§ 1124.81(a)" in paragraph (a) is changed to "§ 1124.81 (a) and (b)".

6. A new § 1124.82a is added as follows:

§ 1124.82a Partial payments to producers and to cooperative associations.

(a) On or before the last day of each month, each handler shall make payment, subject to paragraph (b) of this section, to each producer, who had not discontinued shipping milk to such handler before the 15th day of the month, for milk received from such producer during the first 15 days of the month, at not less than the Class III price per hundredweight for the preceding month;

(b) In making payments to producers pursuant to paragraph (a) of this section, each handler, on or before the second day prior to the date specified in such paragraph, shall pay to each cooperative association that so requests for those producers for whom it markets milk and who are certified to the market administrator by the cooperative association as having authorized the cooperative association to receive such payment an amount equal to the sum of the individual payments otherwise due such producers pursuant to paragraph (a) of this section; and

(c) On or before the second day prior to the last day of the month, each handler shall make payment to a cooperative association for milk received from such association in its capacity as a handler described in § 1124.7 (c) and

(d) for milk received during the first 15 days of the month at not less than the Class III price per hundredweight for the preceding month.

§ 1124.83 [Amended]

7. In § 1124.83 *Location differentials to producers and on nonpool milk*, the reference "§ 1124.81(b)" in paragraph (b) is changed to "§ 1124.81(c)".

8. In § 1124.85, paragraph (b) is revised as follows:

§ 1124.85 Adjustment of accounts.

* * * * *

(b) Any unpaid obligation of a handler pursuant to §§ 1124.81, 1124.86, and 1124.87, or paragraph (a) of this section, including any obligation incurred under this paragraph, shall be increased three-fourths of 1 percent on the next day following the due date of such obligation and at a similar rate on the first day of each month thereafter until paid.

[9 CFR Part 327]

IMPORTATION OF MEAT AND MEAT PRODUCTS

Proposed Addition of Republic of China, Taiwan, to List of Approved Countries

● *Purpose.* The purpose of this docket is to propose adding the Republic of China, Taiwan, to the list of countries from which carcasses, parts thereof, meat, and meat food products of cattle, sheep, swine, and goats may be imported into the United States. ●

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553 that pursuant to the authority contained in the Federal Meat Inspection Act, as amended (21 U.S.C. 601 et seq.), the Animal and Plant Health Inspection Service is considering amending § 327.2(b) of the Federal meat inspection regulations (9 CFR 327.2(b)) by adding the Republic of China, Taiwan, to the list of countries specified therein.

Statement of Considerations. Section 20 of the Federal Meat Inspection Act (21 U.S.C. 620) prohibits the importation into the United States of carcasses, parts thereof, meat, and meat food products of cattle, sheep, swine, or goats capable of use as human food, unless they comply with all the provisions of the Act and regulations issued thereunder applicable to such articles in commerce within the United States. Such articles from approved plants in the countries listed in § 327.2(b) are eligible for importation into the United States as provided in the regulations. The laws and regulations of the Republic of China, Taiwan, concern-

[1] Marketing agreement filed as part of original document.

[2] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

V 41 158 AUG 13 76 UMI

ing these matters have been reviewed and appear to be acceptable. Further, on-site reviews of the export meat inspection program of the Republic of China, Taiwan, indicate that it is equal to our program in the United States. Certificates issued by the Republic of China, Taiwan, officials for export of carcasses, parts thereof, meat, and meat food products to the United States, are reliable.

Any person wishing to submit written data, views, or arguments concerning the proposed amendment may do so by filing them, in duplicate, with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, or if the material is deemed to be confidential, with the Foreign Programs Staff, Field Operations, Meat and Poultry Inspection Program, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250, by September 9, 1976.

Any person desiring opportunity for oral presentation of views should address such requests to the Staff identified in the preceding paragraph, so that arrangements may be made for such views to be presented prior to the date specified in the preceding paragraph. A record will be made of all views orally presented.

All written submissions and records of oral views made pursuant to this notice will be made available for public inspection in the Office of the Hearing Clerk during regular hours of business, unless the person makes the submission to the Staff identified in the preceding paragraph and requests that it be held confidential. A determination will be made whether a proper showing in support of the request has been made on grounds that its disclosure could adversely affect any person by disclosing information in the nature of trade secrets or commercial or financial information obtained from any person and privileged or confidential. If it is determined that a proper showing has been made in support of the request, the material will be held confidential; otherwise, notice will be given of denial of such request and an opportunity afforded for withdrawal of the submission. Requests for confidential treatment will be held confidential (7 CFR 1.27(c)).

Comments on the proposal should bear a reference to the date and page number of this issue of the FEDERAL REGISTER.

Done at Washington, D.C., on August 5, 1976.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

DEPARTMENT OF LABOR

Employment Standards Administration

[20 CFR Parts 701, 702]

LONGSHOREMEN'S AND HARBOR WORKERS' COMPENSATION ACT AND RELATED STATUTES

Proposed Procedural Rules

Notice is hereby given that the Employment Standards Administration of the U.S. Department of Labor proposes to amend certain provisions of 20 CFR 701 and 702, which contain the rules of the Department of Labor governing the administration of the Longshoremen's and Harbor Workers' Compensation Act, 33 U.S.C. 90 et al., as amended by Pub. L. 92-576, 86 Stat. 1251. The proposed amendments are intended to clarify and expand certain procedural rules applicable to filing, processing and adjudication of claims. Special attention is appropriately given to the following proposed amendments:

1. Section 701.201 is revised to reflect that the Office of Workmen's Compensation Programs has been redesignated as the Office of Workers' Compensation Programs. A similar amendment is being made in 20 CFR 701.301(a)(5).

2. Section 702.101 is revised to reflect the establishment of two new compensation districts—District No. 11 and District No. 12—and to indicate that the boundaries of Districts No. 10 and 14 have been revised. These changes are deemed appropriate for proper administration.

3. 20 CFR 702.161 of the Secretary's regulations as amended describes the circumstances under which a claimant shall be entitled to obtain a lien against the assets of a carrier or employer which is unable to pay appropriate compensation. Section 702.161(b) describes the rights of subrogation to which the special fund established pursuant to section 44 of the Act may be entitled.

4. Section 17(b) of the Act, 33 U.S.C. 917(b), provides that if a trust fund created in accordance with section 302 (c) of the Labor-Management Relations Act of 1947, 29 U.S.C. 186(c), under a collective bargaining agreement has paid an employee disability benefits which must be paid back by the employee if he receives compensation under the Act, the Secretary or his designee may place a lien on the compensation due the employee under the Act in favor of the trust fund. 20 CFR 702.161 of the Secretary's regulations simply repeats the language of section 17(b) of the Act. It is proposed, therefore, to describe more fully the operation of sections 17(b) in a new § 702.-162. As proposed § 702.162 sets forth the procedures pursuant to which liens may be requested and the criteria by which such request will be judged.

5. Section 14(g) of the Act, 33 U.S.C. 914(g), provides for the imposition of a civil penalty in the amount of $100 whenever an employer fails to notify the deputy commissioner that the final payment of compensation has been made. Such report must be submitted within "sixteen days after the final payment of compensation." It is proposed to amend 20 CFR 702.235 to define "final payment" for purposes of section 14(g) of the Act.

6. Section 49 of the Act, 33 U.S.C. 949, generally prohibits the discharge of an employee or employment discrimination against an employee by an employer because such employee claimed or attempted to claim compensation from the employer or because of his testimony in a proceeding under the Act. The proposed § 702.271-702.275 describes the procedures available to any person seeking redress against an employer because of an alleged violation of section 49.

7. Section 33 of the Act, 33 U.S.C. 933, sets forth the rights and duties of various persons in those situations where a third party may be liable in damages to an employee who is entitled to compensation under the Act. It is proposed that a new § 702.281 be added to the Secretary's regulations which will require the employee to promptly notify the employer and the deputy commissioner whenever certain actions are taken in relation to a third party claim.

8. In defining the term physician, the Secretary has been guided by the definition given to that term under the Federal Employee's Compensation Act, 5 U.S.C. 8101 et seq. On September 7, 1974, Pub. L. 93-416 amended the definition of physician in section 8101(a) of title 5, United States Code to include "podiatrists, dentists, clinical psycologists, optometrists, and chiropractors." The proposed § 702.404 will conform the definition of physician as it is used under the Act to that of the Federal Employees' Compensation Act.

9. In addition to the foregoing, these proposed amendments to Parts 701 and 702 contain other technical and clarifying provisions. The proposed amendments shall be applicable to all claims pending adjudication on the date of adoption of these amendments and to all other claims as may subsequently be adjudicated pursuant to the Act.

Interested persons are invited to submit written comments concerning these proposed rules to the Director, Office of Workers' Compensation Programs, United States Department of Labor, Washington, D.C. 20211, on or before September 13, 1976.

Pursuant to authority contained in section 39 of the Act as amended, 33 U.S.C. 939, I propose to amend Parts 701 and 702 of Chapter VI of Title 20, Code of Federal Regulations, as set forth below.

1. It is proposed to amend § 701.201 to read as follows:

§ 701.201 Establishment of the Office of Workers' Compensation Programs.

The Assistant Secretary of Labor for Employment Standards, by authority vested in him by the Secretary of Labor in Secretary's Order 16-75, 40 FR 55913, established in the Employment Standards Administration (ESA) an Office of Workers' Compensation Programs (OWCP) by Employment Standards Order 2-75, 40 FR 56743. The Assistant Secretary has further designated as the head thereof a Director who, under the general supervision of the Assistant Secretary, shall administer the programs assigned to that Office by the Assistant Secretary.

2. It is proposed to amend § 701.301 (a)(5) to read as follows:

§ 701.301 Definitions and use of terms.

(a) • • •

(5) "Office of Workers' Compensation Programs" or "OWCP" or "the Office" means the Office of Workers' Compensation Programs in the Department of Labor, described in § 701.201 of this part. Whenever the term "Office of Workmen's Compensation Programs" appears in this part or in Part 702, it shall have the same meaning as "Office of Workers' Compensation Programs."

• • • • •

3. It is proposed to amend § 702.101 to read as follows:

§ 702.101 Establishment of compensation districts.

Pursuant to section 39(b) of the Longshoremen's and Harbor Workers' Compensation Act, 33 U.S.C. 939(b), the following compensation districts have been established:

District No. 1. Comprises the States of Massachusetts, Maine, New Hampshire, Vermont, Rhode Island, and Connecticut; with headquarters at Boston, Mass.

District No. 2. Comprises the States of New York and New Jersey; with headquarters at New York, N.Y.

District No. 3. Comprises the States of Pennsylvania, Delaware, and West Virginia; with headquarters at Philadelphia, Pa.

District No. 4. Comprises the State of Maryland and the District of Columbia; with headquarters at Baltimore, Md.

District No. 5. Comprises the State of Virginia; with headquarters at Norfolk, Va.

District No. 6. Comprises the States of Florida, North Carolina, Kentucky, Tennessee, South Carolina, Georgia, Alabama, and Mississippi; with headquarters at Jacksonville, Fla.

District No. 7. Comprises the States of Louisiana and Arkansas; with headquarters at New Orleans, La.

District No. 8. Comprises the States of Texas, Oklahoma, and New Mexico; with headquarters at Houston, Tex.

District No. 9. Comprises the States of Ohio, Indiana, and Michigan; with headquarters at Cleveland, Ohio.

District No. 10. Comprises the States of Illinois, Minnesota, and Wisconsin; with headquarters at Chicago, Ill.

District No. 11. Comprises the States of Missouri, Iowa, Kansas and Nebraska; with headquarters at Kansas City, Mo.

District No. 12. Comprises the States of Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming; with headquarters at Denver, Colo.

District No. 13. Comprises the States of California, Arizona, and Nevada; with headquarters at San Francisco, Calif.

District No. 14. Comprises the States of Washington, Idaho, Oregon, and Alaska; with headquarters at Seattle, Wash.

District No. 15. Comprises the State of Hawaii; with headquarters at Honolulu, Hawaii.

4. It is proposed to amend § 702.104 to read as follows:

§ 702.104 Transfer of individual case file.

(a) At any time after a claim is filed, the deputy commissioner having jurisdiction therof may, with the prior or subsequent approval of the Director, transfer such case to the deputy commissioner in another compensation district for the purpose of making an investigation, ordering medical examinations, or taking such other action as may be necessary or appropriate to further develop the claim. If, after filing a claim, the claimant moves to another compensation district, the deputy commissioner may, upon request by the claimant and with the approval of the Director, transfer the case to such other compensation district.

(b) The deputy commissioner making the transfer may by letter or memorandum to the deputy commissioner to whom the case is transferred give advice, comments, suggestions, or directions if appropriate to the particular case. The transfer of cases shall be by registered or certified mail. All interested parties shall be advised of the transfer.

5. It is proposed to amend § 702.161 to read as follows:

LIENS ON COMPENSATION

§ 702.161 Liens against assets of insurance carriers and employers.

(a) Where a claimant is entitled to compensation under the provisions of this Act, and the carrier or employer shall have suffered insolvency, bankruptcy, or reorganization in bankruptcy proceedings and be unable to pay appropriate compensation, the claimant shall have a lien against the assets of such carrier or employer, or both. Such lien shall be without limit and shall be entitled to preference and priority in the distribution of the assets of such carrier or employer, or both.

(b) Where payments have been made from the special fund pursuant to section 18(b) of the Act and section 704.145 (f) of this part, the Secretary of Labor shall, for the benefit of the fund, be subrogated to all the rights of the person receiving such payments including the right of lien and priority provided for by section 17(a) of the Act, 33 U.S.C. 917(a). The Secretary may institute proceedings under either section 18 or 21 (c) of the Act, 33 U.S.C. 918 or 921(c), or both, to recover the amount expended by the fund or so much as in the judgment of the Secretary is possible, or the Secretary may settle or compromise any such claim.

6. It is proposed to add a new § 702.162 which will read as follows:

§ 702.162 Liens on compensation authorized under special circumstances.

(a) Pursuant to section 17(b) of the Act, 33 U.S.C. 917(b), when a trust fund which complies with section 302(c) of the Labor-Management Relations Act of 1947, 29 U.S.C. 186(c) [LMRA], established pursuant to a collective bargaining agreement in effect between an employer and an employee entitled to compensation under this Act, has paid disability benefits to an employee which the employee is legally obligated to repay by reason of his entitlement to compensation under this Act, a lien may be authorized on such compensation in favor of the trust fund for the amount of such payments.

(b)(1) An application for such a lien shall be filed on behalf of the trust fund with the deputy commissioner for the compensation district where the claim for compensation has been filed. 20 CFR 702.101. Such application shall include a certified statement by an authorized official of the trust fund that:

(i) The trust fund is entitled to a lien in its favor by reason of its payment of disability payments to a claimant-employee (including his name therein);

(ii) The trust fund was created pursuant to a collective bargaining agreement covering the claimant-employee;

(iii) The trust fund complies with section 302(c) of the Labor-Management Relations Act of 1947, 29 U.S.C. 186(c);

(iv) The trust agreement contains a subrogation provision entitling the fund to reimbursement for disability benefits paid to the claimant-employee who is entitled to compensation under the Longshoremen's Act;

(2) The statement shall also state the amount paid to the named claimant-employee and whether such disability benefit payments are continuing to be paid.

(3) If the claimant has signed a statement acknowledging receipt of disability benefits from the trust fund and/or a statement recognizing the trust fund's entitlement to a lien against compensation payments which may be received under the Longshoremen's and Harbor Workers' Compensation Act as a result of his present claim and for which the fund is providing disability payments, such statement[s] shall also be included with or attached to the application.

(c) Upon receipt of this application, the deputy commissioner shall, within a reasonable time, notify the claimant, the employer and/or its compensation insurance carrier that the request for a lien has been filed and each shall be provided with a copy of the application. If the claimant disputes the right of the trust fund to the lien or the amount stated, if any, he shall, within a reasonable time, notify the deputy commissioner and he shall be given an opportunity to challenge the right of the trust fund to, or the amount of, the asserted lien; notice to either the employer or its compensation insurance carrier shall constitute notice to both of them.

(d) If the claim for compensation benefits is resolved without a formal hearing and if there is no dispute over the amount of the lien or the right of the trust fund to the lien, the deputy commissioner may order and impose the lien and he shall notify all parties of the amount of the lien and manner in which it is to be paid.

(e) If the claimant's claim for compensation cannot be resolved informally, the deputy commissioner shall transfer the case to the Office of the Chief Administrative Law Judge for a formal hearing, pursuant to section 19(d) of the Act, 33 U.S.C. 919(d), and 20 CFR 702.-317. The deputy commissioner shall also submit therewith the appliction for the lien and all documents relating thereto.

(f) If the administrative law judge issues a compensation order in favor of the claimant, he may include therein a lien in favor of the trust fund if it is determined that the trust fund has satisfied all of the requirements of the Act and regulations.

V 41 1158 AUG 13 76 UMI

(g) If the claim for compensation is not in dispute, but there is a dispute as to the right of the trust fund to a lien, or the amount of a lien, the deputy commissioner shall transfer the matter together with all documents relating thereto to the Office of the Chief Administrative Law Judge for a formal hearing pursuant to section 19(d) of the Act, 33 U.S.C. 919(d), and 20 CFR 702.317.

(h) In the event that either the deputy commissioner or the administrative law judge is not satisfied that the trust fund qualifies for a lien under section 17(b), he may require further evidence including but not limited to the production of the collective bargaining agreement, trust agreement, or portions thereof.

(i) Before any such lien is finally approved, if the trust fund has provided continued disability payments after the application for a lien has been filed, the trust fund shall submit a further certified statement showing the total amount paid to the claimant as disability payments. The claimant shall likewise be given an opportunity to contest the amount alleged in this subsequent statement.

(j) In approving a lien on compensation, the deputy commissioner or administrative law judge shall not order an initial payment to the trust fund in excess of the amount of the past due compensation. The remaining amount to which the trust fund is entitled may thereafter be deducted from the affected employee's subsequent compensation payments and paid to the trust fund, but any such payment to the trust fund shall not exceed 10 percent of the claimant-employee's bi-weekly compensation payments.

7. It is proposed to amend § 702.212 to read as follows:

CLAIMS

§ 702.212 Claims for compensation; time limitations.

(a) Claims for compensation for disability or death shall be filed with the deputy commissioner in the compensation district in which the injury or death occurred. A claim may be any writing evidencing a claimant's intent to claim compensation and benefits provided by this Act. Such claims may be filed anytime after the first 7 days of disability following an injury, or at anytime after death. However, the right to such compensation shall be barred unless a claim therefor is filed within 1 year of such injury or death, except as provided in §§ 702.213 and 214.

(b) The time limitations set forth, supra, do not apply to claims filed under section 49 of the Act, 33 U.S.C. 949, see § 702.271.

8. It is proposed to amend § 702.235 to read as follows:

§ 702.235 Report by employer of final payment of compensation.

(a) Within 16 days after the final payment of compensation has been made, the employer shall notify the deputy commissioner on a form prescribed by the Secretary, stating that such final payment has been made, the total amount of compensation paid, the name and address of the person(s) to whom payments were made, the date of the injury or death and the name of the injured or deceased employee, and the inclusive dates during which compensation was paid.

(b) A "final payment of compensation" for the purpose of applying the penalty provision of § 702.236 of this subpart shall be deemed any one of the following or other payment of compensation which anticipates no further payments under the Act:

(1) The last payment of compensation made in accordance with a compensation order awarding disability or death benefits, issued by either a deputy commissioner or an administrative law judge;

(2) The payment of an agreed settlement approved under section 8(i)(A) or (B), of the Act, 33 U.S.C. 908(i);

(3) A lump sum payment of future compensation payments commuted under section 14(j) of the Act, 33 U.S.C. 914(j);

(4) The last payment made pursuant to an agreement reached by the parties through informal proceedings.

9. It is proposed to add new § 702.271 which will read as follows:

§ 702.271 Review of discharge or other acts of discrimination.

(a) Under the provisions of section 49 of the Act, 33 U.S.C. 949, any employer or its duly authorized agent who discharges, or in any other manner discriminates against an employee because he or she has claimed or attempted to claim compensation or has testified or is about to testify in a proceeding under this Act, shall be liable to a penalty of not less than $100 nor more than $1,000.

(b) When a deputy commissioner receives a complaint from an employee alleging discrimination as defined under section 49, he or she shall, within five working days, initiate specific inquiry to determine all the facts and circumstances pertaining thereto. This may be accomplished by interviewing the employee, employer representatives and other parties who may have information about the matter. Interviews may be conducted by written correspondence, telephone or personal interview.

(c) If circumstances warrant, the deputy commissioner may also conduct an informal conference on the issue as described in §§ 702.312–314.

(d) Any employee discriminated against is entitled to be restored to his employment and to be compensated by the employer for any loss of wages arising out of such discrimination provided that the employee is qualified to perform the duties of the employment. If it is determined that the employee has been discriminated against, the deputy commissioner shall also determine whether the employee is qualified to perform the duties of the employment. The deputy commissioner may use medical evidence submitted by the parties or he may arrange to have the employee examined by a physician selected by the deputy commissioner. The cost of the medical examination arranged for by the deputy commissioner may be charged to the special fund established by section 44, 33 U.S.C. 944.

10. It is proposed to add a new § 702.272 which will read as follows:

§ 702.272 Informal recommendation by deputy commissioner.

(a) If the deputy commissioner determines that the employee has been discharged or suffered discrimination and is able to resume his or her duties, the deputy commissioner will recommend that the employer reinstate the employee and/or make such restitution as is indicated by the circumstances of the case, including compensation for any wage loss suffered as the result of the discharge or discrimination. The deputy commissioner may also assess the employer an appropriate penalty, as determined under authority vested in the deputy commissioner by the Act. If the employer and employee accept the deputy commissioner's recommendation, it will be incorporated in an order and mailed to each party within 10 days.

(b) If the parties do not agree to the recommendation, the deputy commissioner shall, within 10 days after receipt of the rejection, prepare a memorandum summarizing the disagreement, mail a copy to all interested parties, and shall within 14 days thereafter refer the case to the Office of the Chief Administrative Law Judge for hearing pursuant to § 702.317.

11. It is proposed to add a new § 702.273 which will read as follows:

§ 702.273 Adjudication by Office of the Chief Administrative Law Judge.

The Office of Administrative Law Judges is responsible for final determinations of all disputed issues connected with the discrimination complaint, except the amount of penalty to be assessed, and shall proceed with a formal hearing as described in §§ 702.331 to 702.394.

12. It is proposed to add a new § 702.274 which will read as follows:

§ 702.274 Imposition of penalty.

(a) After a decision is rendered by an administrative law judge, the matter will be referred to the deputy commissioner, who will review the decision and determine the amount of the penalty, if any, to be assessed against the employer.

(b) If a penalty is to be assessed, the employer shall be advised by letter of the amount and rationale therefor, and shall be requested to submit payment by check to the deputy commissioner within 30 days following the date of the letter. The check will be transmitted to the National Office, Division of Longshore and Harbor Workers' Compensation, for deposit in the special fund as described in section 44, 33 U.S.C. 944.

13. It is proposed to add a new § 702.275 which will read as follows:

§ 702.275 Employer's refusal to pay penalty.

In the event the employer refuses to pay the penalty assessed, the deputy commissioner shall refer the complete administrative file to the Associate Director, Division of Longshore and Harbor Workers' Compensation, for subsequent transmittal to the Associate Solicitor for Employee Benefits, with the request that appropriate legal action be taken to recover the penalty.

14. It is proposed to add a new § 702.281 which will read as follows:

§ 702.281 Third party action.

(a) Every person claiming benefits under this Act (or the representative) shall promptly notify the employer and the deputy commissioner when:

(1) A claim is made that someone other than the employer or person or persons in its employ, is liable in damages to the claimant because of the injury or death and identify such party by name and address.

(2) Legal action is instituted by the claimant or the representative against some person or party other than the employer or a person or persons in his employ, on the ground that such other person is liable in damages to the claimant on account of the compensable injury and/or death; specify the amount of damages claimed and identify the person or party by name and address.

(3) Any settlement, compromise or any adjudication of such claim has been effected and report the terms, conditions and amounts of such resolution of claim. (Caution: See 33 U.S.C. 933(g))

15. It is proposed to amend § 702.312 to read as follows:

§ 702.312 Informal conferences: Called by and held before whom.

Informal conferences shall be called by the deputy commissioner or his designee assigned or reassigned the case and held before that same person, unless such person is absent or unavailable. When so assigned, the designee shall perform the duties set forth below assigned to the deputy commissioner, except that a compensation order following an agreement shall be issued only by a person so designated by the Director to perform such duty.

16. It is proposed to amend § 702.315 (a) to read as follows:

§ 702.315 Conclusion of conference; agreement on all matters with respect to the claim.

(a) Following an informal conference at which agreement is reached on all issues, the deputy commissioner shall, within 10 days after conclusion of the conference, embody the agreement in a memorandum or within 30 days issue a formal compensation order, to be filed and mailed in accordance with § 702.349. Where the problem was of such nature that it was resolved by telephone discussion or by exchange of written correspondence, the parties shall be notified by the same means that agreement was reached and the deputy commissioner shall prepare, a memorandum or order setting forth the terms agreed upon. In either instance, when the employer or carrier has agreed to pay, reinstate or increase monetary compensation benefits, or to restore or appropriately change medical care benefits, such action shall be commenced immediately upon becoming aware of the agreement, and without awaiting receipt of the memorandum or the formal compensation order.

* * * * *

17. It is proposed to amend § 702.316 to read as follows:

§ 702.316 Conclusion of conference; no agreement on all matters with respect to the claim.

When it becomes apparent during the course of an informal conference or other informal proceedings (such as correspondence on a claim, telephone discussion or other informal communications) that agreement on all issues cannot be reached, the deputy commissioner shall bring the conference or informal proceedings to a close and within 10 days thereafter prepare a memorandum setting forth only the issue or issues in dispute, such pertinent background as may be appropriate thereto, and his recommendations for resolution of the dispute. Copies of this memorandum shall then be sent by certified mail to each of the parties or their representatives, who shall then have 14 days in which to signify in writing to the deputy commissioner whether they agree or disagree with his recommendations. If they agree, the deputy commissioner shall proceed as in § 702.315(a). If they disagree (Caution: See § 702.134(b)), then the deputy commissioner may schedule such further conference or conferences as, in his opinion, may bring about agreement or, if he is satisfied that any further conference would be unproductive or if any party has requested a hearing, he shall within 10 days after determination or after receipt of a request prepare the case for transfer to the Office of the Chief Administrative Law Judge (see § 702.331 et seq.).

18. It is proposed to amend § 702.403 to read as follows:

§ 702.403 Employee's right to choose physician; limitations.

The employee shall have the right to choose his attending physician from among those authorized by the Director, OWCP, to furnish such care and treatment. In determining the choice of a physician, consideration must be given to availability, the employee's condition and the method and means of transportation. Generally 25 miles from the place of injury, or the employee's home is a reasonable distance to travel, but other pertinent factors must also be taken into consideration.

19. It is proposed to amend § 702.404 to read as follows:

§ 702.404 Physician defined.

The term "physician" includes doctors of medicine (MD), surgeons, podiatrists, dentists, clinical psychologists, optometrists and osteopathic practitioners within the scope of their practice as defined by State law. The term also includes chiropractors, but payment for their services will be limited to charges for physical examinations, related laboratory tests and x-rays made or required by a chiropractor to diagnose a subluxation of the spinal column, and treatment consisting of manual manipulation of the spine to correct a subluxation shown by x-ray. Physicians defined in this part may interpret their own x-rays. All physicians in these categories are authorized by the Director to render medical care under the Act. Naturopaths, faith healers and other practitioners of the healing arts which are not listed herein are not included within the term "physician" as used in this part.

20. It is proposed to amend § 702.411 (a) to read as follows:

§ 702.411 Special Examinations; Nature of Impartiality of Specialists.

(a) The special examinations required by § 702.408 shall be accomplished in a manner designed to preclude prejudgment by the impartial examiner. No physician previously connected with the case shall be present, nor may any other physician selected by the employer, carrier, or employee be present. The impartial examiner may be made aware, by any party or by the OWCP, of the opinions, reports, or conclusions of any prior examining physician with respect to the nature and extent of the employee's impairment, its cause, or its effect upon the wage-earning capacity of the injured employee, if the Deputy Commissioner determines that, for good cause, such opinions, reports or conclusions shall be made available.

* * * * *

21. It is proposed to amend § 702.412 to read as follows:

§ 702.412 Special examinations; costs chargeable to employer or carrier.

(a) The Director or his designee ordering the special examination shall have the power in the exercise of his discretion, to charge the cost of the examination or review to the employer, to the insurance carrier, or to the special fund established by section 44 of the Act, 33 U.S.C. 944.

(b) The Director or his designee may also order the employer or the insurance carrier to provide the employee with the services of an attendant, where the deputy commissioner considers such services necessary, because the employee is totally blind, has lost the use of both hands or both feet or is paralyzed and unable to walk, or because of other disability making the employee so helpless as to require constant attendance in the discretion of the deputy commissioner. Fees payable for such services shall be in accord with the provisions of § 702.413.

22. It is proposed to amend § 702.413 to read as follows:

V 41 158 AUG 13 76 UMI

§ 702.413 Fees for medical services; prevailing community charges.

All fees charged by physicians for the care of persons covered by this Act, or any other charges for medical treatment or supplies within the purview of this Act, shall be limited to such charges for similar treatment, services or supplies as prevail in the community in which the physician, medical facility or supplier is located. In those jurisdictions where there are official State medical fee schedules for workers' compensation, they may be used as guidelines.

Signed at Washington, D.C., this 4th day of August, 1976.

JOHN C. READ,
Assistant Secretary for Employment Standards.

Occupational Safety and Health Administration

[29 CFR Part 1952]

ALASKA

Proposed Supplement to Approved Plan

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under Section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter called the Act) for the review of changes and progress in State plans which have been approved in accordance with Section 18 (c) of the Act and 29 CFR Part 1902. On August 10, 1973, notice was published in the FEDERAL REGISTER (38 FR 21628) of the approval of the Alaska Plan and the adoption of Subpart R to Part 1952 containing the decision. On February 5, 1976, the State of Alaska submitted to the Seattle Regional Office of the Occupational Safety and Health Administration a supplement to the plan involving a developmental change. Following regional review, the supplement was forwarded to the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter referred to as the Assistant Secretary) for his determination as to whether it should be approved. The supplement is described below.

2. *Description of the supplement.* The State has submitted a revision to the plan to change the number of industrial hygienists employed under its plan. The revision reduces the original commitment of four industrial hygienists to three industrial hygienists (two (2) enforcement; one (1) consultation). The State has determined through experience in industrial hygiene enforcement and consultation activities that three hygienists provide sufficient overall State coverage. The State will include an additional industrial hygiene position in its 1977 fiscal year budget, beginning October 1, 1976. However, the fourth industrial hygienist would not be hired prior to completion of the State's three year developmental period also on October 1, 1976.

3. *Location of the plan and its supplement for inspection and copying.* A copy of the plan and the supplement may be inspected and copied during normal business hours at the following locations: Office of the Associate Assistant Secretary for Regional Programs, Occupational Safety and Health Administration, Room N-3112, 200 Constitution Avenue, NW., Washington, D.C. 20210; Office of the Regional Administrator, Occupational Safety and Health Administration, Room 6048, 909 First Avenue, Seattle, Washington 98174; and the Alaska Department of Labor, Juneau, Alaska 99801.

4. *Public participation.* Interested persons are hereby given until September 13, 1976 in which to submit written data, views, and arguments concerning whether the supplement should be approved. Such submissions are to be addressed to the Associate Assistant Secretary for Regional Programs, Occupational Safety and Health Administration, Room N-3112, 200 Constitution Avenue, NW., Washington, D.C. 20210, where they will be available for inspection and copying.

Any interested person may request an informal hearing concerning the proposed supplement by filing particularized written objections with respect thereto within the time allowed for comments with the Associate Assistant Secretary for Regional Programs. If in the opinion of the Assistant Secretary, substantial objections are filed which warrent further public discussion, a formal or informal hearing on the subjects and issues involved may be held.

The Assistant Secretary shall consider all revelant comments, arguments, and requests submitted in accordance with this notice and shall thereafter issue his decision as to approval or disapproval of the supplement, make appropriate amendments to Subpart R of Part 1952 and initiate further proceedings, if necessary.

(Secs. 8(g), 18, Pub. L. 91-596, 84 Stat. 1600, 1608 (29 U.S.C. 657(g), 667).)

Signed at Washington, D.C., this 9th day of August 1976.

B. M. CONCKLIN,
Deputy Assistant Secretary of Labor.

Office of Federal Contract Compliance Programs

[41 CFR Part 60-1]

OBLIGATIONS OF CONTRACTORS AND SUBCONTRACTORS

State and Local Government Equal Employment Opportunity Requirements for Federally Assisted Construction Contracts

On March 28, 1975 (40 FR 14091) the Secretary of Labor solicited comments on a proposed amendment to § 60-1.4(b) (2) of Chapter 60, Title 41, Code of Federal Regulations, which would require U.S. Department of Labor approval of state and local government equal employment requirements to be included in federally assisted construction contracts already subject to federal minority hiring and/or training plans established pursuant to Executive Order 11246, as amended, and which would establish standards and procedures for such approvals.

After considering all comments received, the Department of Labor has decided to withdraw the proposed amendment.

Dated: August 9, 1976.

W. J. USERY, Jr.,
Secretary of Labor.

JOHN C. READ,
Assistant Secretary for Employment Standards.

LAWRENCE Z. LORBER,
Director, Office of Federal Contract Compliance Programs.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Child Support Enforcement

[45 CFR Part 302]

STATE PLAN REQUIREMENTS

Good Cause for Refusing To Cooperate

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Director, Office of Child Support Enforcement, with the approval of the Secretary of Health, Education, and Welfare.

The basis of this proposal is section 208 of Pub. L. 94-88 which amends section 454 of the Act to provide that the State IV-D agency will not undertake to establish paternity or secure support when the State IV-A agency determines in accordance with standards prescribed by the Secretary (see proposal amending 45 CFR 232 published today at 42 FR 34299) that such action would be against the best interests of the child.

The purpose of this proposal is to require that the agency administering the State plan under title IV-D of the Act not attempt to establish paternity or collect support in any case in which a finding has been made that the caretaker relative has good cause for refusing to cooperate. An exception is provided where the State IV-A agency has determined that child support enforcement could proceed without risk of substantial danger, physical harm, or undue harrassment if the enforcement activities did not involve the participation of the caretaker relative.

The Office believes that there are situations in which it could be against the best interests of the child for the caretaker relative to cooperate, but that child support enforcement could proceed without risk of harm to the child or its caretaker relative. For example, a State's child support agency may be able to secure child support without any involvement on the part of the caretaker relative. It could be determined by the State that the absent parent would not make any reprisals against the child or caretaker relative if he knew that all action against him was taken by the State independent of the caretaker relative.

Prior to the adoption of the proposed regulation, consideration will be given to written comments, suggestions, or objections thereto addressed to the Director, Office of Child Support Enforcement, Department of Health, Education, and Welfare, P.O. Box 2372, Washington, D.C. 20013, and received on or before September 13, 1976.

Such comments will be available for public inspection in room 5225 of the Department's offices at 330 C Street, SW., Washington, D.C., beginning approximately two weeks after publication of this notice in the FEDERAL REGISTER, on Monday through Friday of each week from 8:30 a.m. to 5 p.m. (area code 202-245-0950).

(Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302))

(It is hereby certified that the economic and inflationary effects of this proposal have been carefully evaluated in accordance with Executive Order No. 11821.)

Dated: July 1, 1976.

ROBERT FULTON,
Director, Office of Child Support Enforcement.

Approved: August 6, 1976.

MARJORIE LYNCH,
Acting Secretary.

Part 302, Chapter III, Title 45 of the Code of Federal Regulations is amended by revising § 302.31 to read as follows:

§ 302.31 Establishing paternity and securing support.

The State plan shall provide that: (a) The IV-D agency will undertake:

(1) In the case of a child born out of wedlock with respect to whom an assignment under § 232.11 of this title is effective, to establish the paternity of such child; and

(2) In the case of any child with respect to whom such assignment is effective, to secure support for such child from any person who is legally liable for such support, utilizing reciprocal arrangements adopted with other States when appropriate; and

(b) The IV-D agency will not undertake to establish paternity or secure child support if there has been a finding of good cause pursuant to 45 CFR 232.12 unless there has been a determination by the State or local IV-A agency pursuant to 45 CFR 232.12(g) that child support enforcement may proceed without the participation of the caretaker relative. If there has been such a determination, the IV-D agency will undertake to establish paternity or secure child support but may not involve the caretaker relative in such undertaking.

[FR Doc.76-23563 Filed 8-12-76;8:45 am]

Social and Rehabilitation Service

[45 CFR Part 232]

SPECIAL PROVISIONS APPLICABLE TO TITLE IV-A

Good Cause for Refusing to Cooperate

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Administrator, Social and Rehabilitation Service, with the approval of the Secretary of Health, Education, and Welfare.

This proposal is designed to implement section 208 of Pub. L. 94-88, which requires the Secretary to prescribe standards for use by State agencies in determining whether an applicant or recipient has good cause for refusing to cooperate (as required by section 402(a)(26)(B) of the Act) because such cooperation would not be "in the best interests of the child." The purpose of this proposal is to specify standards under which State and local welfare agencies shall determine the best interests of the child. The basis of the standards proposed herein is the Service's belief that the "best interests of the child" necessitate a balance between protecting the children and their caretaker relatives from potential harm and maintaining the integrity of the Child Support Enforcement program which can secure important legal and financial benefits for children.

In developing the proposed regulations we have attempted to accomplish two goals which are difficult to achieve simultaneously: protect children and their custodial parents or caretaker relatives from being harmed by the child support process; and, maintain the integrity of the Child Support Enforcement program under title IV-D of the Act. Further, the mandate from Congress is that the child's right to support, to inheritance, and to know who his father is deserves the higher social priority unless identification of the father is clearly against the best interests of the child. If standards are drawn too tightly, they prevent the creation of a loophole in the child support program but expose the child to the risk of harm. If standards are drawn too loosely, they guarantee more than adequate protection but have the potential for seriously damaging the Child Support Enforcement program. The Service believes that the Child Support Enforcement program produces significant benefits for children, including the establishment of paternity which can result in the entitlement to veterans and social security benefits, as well as the direct financial benefits of child support. The program also results in benefits to taxpayers through reimbursement of assistance payments. It is hoped that public comments will assist in refining the achievement of our goals.

Under the proposed regulations, the applicant for, or recipient of, Aid to Families with Dependent Children (AFDC) would be excused from cooperating in establishing paternity or securing support in five specific circumstances as outlined in § 232.13(d). Cases in which the applicant's or recipient's cooperation would be likely to result in in substantial danger, physical harm, or undue harassment to the child or its caretaker relative, would presumably be the major category. Others include forcible rape, incest, adoption, and related circumstances. In order to establish this good cause for refusing to cooperate, the applicant or recipient would be required by § 232.13(e) to provide either evidence of the five specific circumstances or sufficient information to the welfare agency to permit an investigation to verify the circumstances. The State would be required by § 232.13(1) to maintain records on the number of applicants and recipients claiming to have good cause, the number of applicants or recipients found to have good cause, and similar information.

The confidentiality of all information obtained by the Title IV-A agency and the Title IV-D agency would be protected under the applicable safeguarding regulations, 45 CFR 205.50 and 302.18, which provide in essence that the use or disclosure of information concerning applicants or recipients of AFDC or Child Support Enforcement Services will be limited to purposes directly connected with the administration of the Federal or Federally assisted programs (under titles I, IV, X, XIV, XVI, XIX, or XX) including establishing eligibility, providing benefits and services, and investigations and proceedings in connection with the administration of such programs.

Other major provisions of the proposed regulations are as follows:

1. The welfare agency must notify any applicant or recipient who would be required to cooperate of the provisions for cooperation and good cause for refusing to cooperate. (§ 232.13(b))

2. The welfare agency may find that good cause exists only if evidence supplied by the applicant or recipient establishes a prima facie case, or an investigation verifies the claim of good cause, or through a combination of evidence and an investigation. (§ 232.13(f))

3. Evidence is defined to include such items as court, medical, law enforcement and social services records. (§ 232.13(g))

4. In cases involving risk of danger, harm or harrassment, the welfare agency must make a determination of whether child support enforcement could proceed without such risk if the enforcement or collection activity did not involve the participation of the caretaker relative. (§ 232.13(h))

5. The welfare agency may not deny, delay or discontinue assistance pending a determination of good cause if the applicant or recipient has supplied the necessary information (§ 232.13(i))

Other standards were considered in developing the proposed regulations, but were tentatively rejected, pending public comments, in the belief that they were inappropriate to the best interests of the child. For example, an applicant or recipient could be excused from cooperating merely on the basis of an assertion that to cooperate would be against the best interests of the child. This was rejected on the belief that such a procedure would tip the balance too far away from protecting the integrity of the Child Support Enforcement program and could result in spurious claims. We also considered allowing the welfare agency to determine good cause without specifying in the regulations which circumstances would be against the best interests of the child. This was rejected on the basis that this would result in no standards at all and would be inconsistent with the requirements of the

V 41 1158 AUG 13 76 UMI

statute. Finally, we considered limiting the standards to those affecting only the child. This approach was rejected on the belief that, under certain circumstances, adverse consequences to the child's caretaker relative are in fact against the best interests of the child and could outweigh the benefits to the child in the form of paternity and support.

Although all comments are welcome and will be taken into consideration, there are several aspects of the proposal for which we are particularly desirous of obtaining comments. Those areas are as follows:

1. Are there circumstances in which it would be against the best interests of the child to require cooperation other than those listed in § 232.13(d)?

2. Are there any circumstances listed in § 232.13(d) which are outweighed by the legal and financial benefits that result from establishing paternity and collecting support and should therefore be excluded?

3. Are there any items of evidence which should either be added to or deleted from the list in § 232.13(g)?

4. Is there any better aproach to implementing the good cause provision than by specifying each circumstance involving the best interests of the child, and requiring evidence or an investigation to prove the existence of the circumstance?

Prior to the adoption of the proposed regulation, consideration will be given to written comments, suggestions, or objections thereto addressed to the Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare, P.O. Box 2372, Washington, D.C. 20013, and received on or before September 12, 1976.

Such comments will be available for public inspection in room 5225 of the Department's offices at 330 C Street, S.W., Washington, D.C., beginning approximately two weeks after publication of this Notice in the FEDERAL REGISTER, on Monday through Friday of each week from 8:30 a.m. to 5 p.m. (area code 202-245-0950).

(Catalog of Federal Domestic Assistance Program No. 13.761, Public Assistance—Maintenance Assistance (State Aid)

(It is hereby certified that the economic and inflationary affects of this proposal have been carefully evaluated in accordance with Executive Order No. 11821.)

Dated: July 1, 1976.

ROBERT FULTON,
Administrator, Social and Rehabilitation Service.

Approved: August 6, 1976.

MARJORIE LYNCH,
Acting Secretary.

Part 232, Chapter II, Title 45 of The Code of Federal Regulations is amended by revising § 232.12 and by adding a new § 232.13, as set forth below:

§ 232.12 Cooperation in obtaining support.

The State plan must provide that:

(a) As a condition of eligibility for assistance, each applicant for or recipient of AFDC will be required to cooperate (unless good cause for refusing to do so is determined to exist in accordance with § 232.13 of this chapter) with the State in:

(1) Identifying and locating the parent of a child with respect to whom aid is claimed;

(2) Establishing the paternity of a child born out of wedlock with respect to whom aid is claimed;

(3) Obtaining support payments for such applicant or recipient and for a child with respect to whom aid is claimed; and

(4) Obtaining any other payments or property due such applicant or recipient of such child.

(b) "Cooperate" includes the following:

(1) Appearing at the offices of the State or local agency or the child support agency as necessary to provide verbal or written information, or documentary evidence, known to, possessed by, or reasonably obtainable by him, that is relevant to achieving the objectives of paragraph (a) of this section;

(2) Appearing as a witness at court or other hearings or proceedings necessary to achieving the objectives of paragraph (a) of this section;

(3) Providing information, or attesting to the lack of information, under penalty of prejury; and

(4) After an assignment under § 232.11 has been made, paying to the child support agency any child support payments received from the absent parent which are covered by such assignment.

(c) If the child support agency notifies the State or local agency of evidence of failure to cooperate, the State or local agency shall act upon such information in order to enforce the eligibility requirements of this section.

(d) If the relative with whom a child is living fails to comply with the requirements of paragraph (a) of this section, such relative shall be denied eligibility without regard to other eligibility factors.

(e) If the relative with whom a child is living is found to be ineligible for assistance because of failure to comply with the requirements of paragraph (a) of this section, any aid for which such child is eligible (determined without regard to the needs of the caretaker relative) will be provided in the form of protective payments as described in § 234.60 of this chapter.

§ 232.13 Good cause for refusing to cooperate.

The State plan must provide that:

(a) An applicant for, or recipient of, AFDC may claim to have good cause for refusing to cooperate as required by § 232.12 of this chapter;

(b) The State or local agency shall notify any applicant for, or recipient of, AFDC who is required to cooperate pursuant to § 232.12 of this chapter, prior to requiring such cooperation, that:

(1) The applicant or recipient may claim to have good cause for refusing to cooperate;

(2) The applicant or recipient must comply with the requirements of paragraph (e) of this section in order to permit a determination of good cause for refusing to cooperate; and

(3) Unless the State or local agency determines pursuant to the provisions of this section that there is good cause for refusing to cooperate, the applicant or recipient is required, as a condition of eligibility, to cooperate pursuant to section 232.12 of this chapter.

(c) The State or local agency shall determine, for each applicant for, or recipient of, AFDC who claims to have good cause for refusing to cooperate, whether or not such applicant or recipient has good cause for refusing to cooperate. The applicant or recipient shall be determined to have good cause only if cooperation would be against the best interests of the child (as determined pursuant to paragraphs (d), (e), and (f) of this section) for whom support would be sought;

(d) It is "against the best interests of the child" only if one or more of the following circumstances exists:

(1) The applicant's or recipient's cooperation in establishing paternity and securing support is likely to result in substantial danger, physical harm, or undue harassment to the child or the caretaker relative with whom the child is living;

(2) The child for whom support is sought was conceived as a result of incest or forcible rape, and proceeding to establish paternity and secure support would, in the opinion of the State or local agency, be detrimental to the child or caretaker relative;

(3) Legal proceedings for the adoption of the child are pending before a court of competent jurisdiction;

(4) The applicant's or recipient's legal rights to the child have been terminated by a court of competent jurisdiction; or

(5) The applicant or recipient is planning to relinquish, or has relinquished, the child to a public or licensed social agency for the purposes of adoption, or the applicant or recipient is actively engaged (for a period not to exceed 3 months) with a public or licensed private social agency in resolving the issue of whether to keep or relinquish the child for adoption;

(e) An applicant for, or recipient of, AFDC who claims to have good cause for refusing to cooperate will be required to:

(1) Provided evidence, as defined in paragraph (g) of this section of the existence of the circumstances specified in paragraph (d) of this section; or

(2) Provide sufficient information, such as the absent parent's name and address, to permit an investigation or enable the agency to assist the applicant or recipient in obtaining information to determine the existence of one or more of the circumstances specified in paragraph (d) of this section;

(f) The State or local agency will find that good cause for refusing to cooperate exists only if:

(1) The evidence supplied pursuant to paragraph (e)(1) of this section establishes a prima facie case that cooperating would be against the best interests of the child; or

(2) An investigation of the circumstances of the case verifies the applicant's or recipient's claim that cooperating would be against the best interests of the child; or

(3) A combination of both the evidence supplied pursuant to paragraph (e)(1) of this section and an investigation of the circumstances of the case establishes that cooperating would be against the best interests of the child;

(g) "Evidence" includes only the following:

(1) Birth certificates or medical or law enforcement records which indicate that the child was conceived as the result of incest or forcible rape;

(2) Court documents or other records which indicate that legal proceedings for adoption are pending before a court of competent jurisdiction;

(3) Court, medical, criminal, child protective services, social services or law enforcement records which indicate the likelihood of violent behavior on the part of the absent parent;

(4) Court documents that demonstrate that parental rights have been terminated;

(5) A written statement from a public or licensed private social agency that the applicant or recipient has relinquished, or is planning to relinquish, the child for adoption, or is actively engaged with the agency in resolving the issue of whether to keep or relinguish the child for adoption; and

(6) Such other elements as SRS may determine constitute acceptable evidence;

(h) If the State or local agency makes a determination of good cause on the basis of the circumstances specified in paragraph (d)(1) of this section, it shall also make a determination of whether or not child support enforcement could proceed without risk of substantial danger, physical harm, or undue harassment to the child or caretaker relative if the enforcement or collection activities did not involve the participation of the caretaker relative;

(i) The State or local agency will not deny, delay, or discontinue assistance pending a determination of good cause for refusal to cooperate if the applicant or recipient has complied with the requirements of paragraph (e) of this section;

(j) The State or local agency will promptly report to the IV-D agency all cases in which it has determined that there is good cause for refusal to cooperate and specify those cases, if any, in which it has determined pursuant to paragraph (h) of this section that child support enforcement may proceed without the participation of the caretaker relative;

(k) The State or local agency will periodically review, not less frequently than at each redetermination of eligibility required by § 206.10(a)(9) of this chapter, all cases in which a finding of good cause has been made pursuant to this section. If the agency determines that circumstances have changed such that good cause no longer exists, it will rescind its findings and proceed to enforce the requirements of § 232.12 of this chapter;

(l) The State shall maintain such records relating to its activities under this section as will permit it, upon being required to do so by SRS, to produce reports concerning at least the following:

(1) The number of cases in which the applicant or recipient claimed to have good cause for refusing to cooperate;

(2) The number of cases in which the applicant or recipient was found to have good cause for refusing to cooperate;

(3) The number of cases in which the applicant or recipient was found not to have good cause for refusing to cooperate;

(4) The number of cases in which the applicant or recipient was found to have good cause for refusing to cooperate but there was a determination pursuant to paragraph (h) of this section that child support enforcement may proceed without the participation of the caretaker relative; and

(5) For those cases in which good cause was found

(i) Which of the circumstances specified in paragraph (d) of this section was found to exist; and

(ii) Whether the finding of good cause was made pursuant to paragraph (f)(1), (2), or (3) of this section.

[FR Doc.76-23652 Filed 8-12-76;8:45 am]

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistance Secretary for Community Planning and Development

[24 CFR Part 570]

[Docket No. R-76-410]

COMMUNITY DEVELOPMENT BLOCK GRANTS

Applications and Criteria for Discretionary Grants

On February 27, 1976, the Department of Housing and Urban Development (HUD) published in the FEDERAL REGISTER (41 FR 8612) regulations setting forth application requirements and criteria for awarding discretionary grants under title I of the Housing and Community Development Act of 1974. Those regulations apply to grants made from appropriations for Fiscal Year 1976.

Notice is hereby given that HUD proposes to amend 24 CFR Part 570, Subpart E, Applications and Criteria for Discretionary Grants, for the purpose of making discretionary grants in Fiscal Year 1977. This amendment affects only grants made from general purpose funds for metropolitan and nonmetropolitan areas which are described in § 570.402.

Additional changes are proposed in § 570.400 which is a general introductory section that precedes specific regulations for each discretionary funding source under the community development block grant program. The changes in § 570.400, however, which are technical in nature, are all for the purpose of transferring material to § 570.402 which deals exclusively with general purpose funds for metropolitan and nonmetropolitan areas. Specifically, all references to preapplications, dates for submitting preapplications and full applications for general purpose funds, and letters to proceed, all of which apply only to general purpose funds, are moved from § 570.400 to § 570.402.

The significant changes to § 570.402 are discussed below:

1. Paragraph (b) sets forth the requirements for preapplications which were previously a part of Section 570.400. Changes to this paragraph indicate that the purpose of the preapplication is for HUD to make funding decisions by comparing the conditions of substandard housing and poverty and proposed activities or programs of applicants. The Secretary may establish a single maximum grant amount on a State by State basis for assistance under this section.

2. Paragraph (b)(1) sets forth the scope of the preapplication.

3. Paragraph (b)(2) specifies the items that are to be submitted as a part of the preapplication including a report on the status of prior assistance received by the applicant under this Part.

4. Paragraph (b)(3) indicates that the earliest and latest dates for submission of preapplications for general purpose funds for nonmetropolitan areas are October 15, 1976, and November 30, 1976, respectively, and for metropolitan areas are January 15, 1977, and February 15, 1977, respectively.

5. Paragraph (b)(4) specifies that applicants are to transmit preapplications concurrently to HUD and the appropriate State and areawide A-95 clearinghouses. The preapplications will serve as a notice of intent to apply for federal funds. A thirty day A-95 review period prior to submission of the preapplication to HUD will no longer be required.

6. Paragraph (b), Criteria for selection, and paragraph (c), HUD review procedures, as published in § 570.402 on February 27, 1976 in the FEDERAL REGISTER (41 FR 8612), have been combined to form a new paragraph (c), HUD review procedures. The new paragraph states that each HUD Regional Office shall establish a review and rating system.

7. Paragraph (c)(1) sets forth three threshold requirements that must be met before a preapplication may be considered for rating. A negative finding on one or more of the threshold factors would disqualify a preapplication from consideration. The first threshold factor is performance by the applicant with previous community development block grants. The standards of performance shall measure progress toward completion of approved activities by taking into account among other factors—expenditures and obligations of funds; award of third party contracts; the provision of other Federal, State, or local funds committed to the activities; and compliance with the applicable block grant program requirements. The second threshold is whether the applicant has taken appropriate local steps to provide for assisted housing in accordance with a previously approved housing assistance plan if such plan exists. Where housing has not actually been provided, such steps may include the removal of impediments to

V41158 AUG 13 76 UMI

the development of assisted housing in local ordinances and land use requirements, the formation of a local housing authority where necessary to carry out the housing assistance plan, the provision of sites for assisted housing, and other actions appropriate for implementing the housing assistance plan. The third threshold is that the activities proposed in the preapplication appear eligible for assistance in accordance with § 570.200.

8. Paragraph (e)(2) sets forth the criteria for selection of preapplications meeting the threshold requirements for funding. The extent of substandard housing conditions, the proportion and extent of poverty, and the alleviation of serious threats to health and safety were part of the criteria for Fiscal Year 1976. New criteria in paragraph (c)(2) are the extent to which the proposed activities are designed to benefit low and moderate-income families in paragrph (c)(2)(iii); paragraph (c)(2)(iv), the extent to which the proposed activities are designed to support the expansion or conservation of the applicant's low- and moderate-income housing stock (including infrastructure and facilities in support of housing); and paragraph (c)(2)(vi) which permits the Regional Administrator to grant, at his discretion, additional consideration for preapplications which have evidence of firm commitments of other Federal or State funds for a portion of the cost of activities.

9. Paragraph (c)(3) sets forth the range of the maximum percentage of the total points which may be assigned to each selective criterion in the base rating system of one hundred percent developed by HUD Regional Offices. The activities or programs proposed in the preapplication receive a greater weight than the base demographic characteristic of the applicant. Paragraph (c)(3)(vi) provides that the percentage assigned at the discretion of the Regional Administrator for the criteria in paragraph (c)(2)(vi) may not be more than ten percent in addition to the base rating system. Paragraph (c)(3)(vi) clarifies that in those instances where an applicant proposes a program of coordinated activities in a general location to meet a specific objective, the program as a whole shall receive a single rating and not the individual activities. In other cases, activities shall be rated separately.

10. Paragraph (c)(4) sets forth a special procedure that may be used only in cases where there is an imminent threat to public health or safety which is of such an extraordinary nature that it requires immediate action to be alleviated. For example, a community with documented cases of serious disease resulting from a contaminated drinking water supply would have an immediate threat to public health appropriate for assistance; whereas, a community which has been ordered to improve the quality of its water supply over the next five years would not receive consideration under this provision. Under the qualifying circumstances, the Secretary may immediately invite an application for assistance under this section to alleviate the imminent threat at any time by waiving the preapplication requirements of paragraph (b) of this section in which case no rating under paragraph (c) of this section shall be required. Prior to the approval of such an application, HUD shall verify the nature, urgency, and the immediacy of the threat with appropriate authorities other than the applicant.

11. Paragraph (d) sets forth the requirements for full applications for general purpose funds for metropolitan and nonmetropolitan areas previously a part of § 570.400. Changes indicate that HUD shall invite full applications based upon review of preapplications or the special procedure set forth in paragraph (c)(4) of this section for imminent threats. The Secretary may invite an applicant to submit a full application for an amount less than requested in its preapplication. In determining the amount an applicant is invited to submit a full application for, the Secretary may take into account the level and complexity of the activities proposed and the capacity of the applicant to complete the activities within a reasonable period of time and within estimated costs.

12. Paragraph (d)(1) indicates that full applications shall comply with the requirements of § 570.303 and include schedules showing target dates for the start and the completion of all proposed activities.

13. Paragraph (d)(3) indicates that full applications are to be submitted to the appropriate A–95 State and areawide clearinghouses for review and comment at least 45 days prior to submission to HUD.

14. Paragraph (d)(5) sets forth HUD procedures for review of full applications. Paragraph (d)(5)(i) sets forth the conditions for accepting a full application. Paragraph (d)(5)(ii) prescribes that the HUD review of full applications will insure that any other resources necessary for the completion of proposed activities are available; that any conditions that were a part of the invitation for full application are satisfied; and that any findings of inconsistency developed through the A–95 process have been resolved.

The Secretary will notify the applicant in writing that the full applications has been approved, partially approved, disapproved or otherwise not acted upon.

Paragraph (d)(5)(iii) specifies that the Secretary may make conditional approvals for reasons set forth in paragraphs (e)(1) through (e)(4) of § 570.306 and to insure the provision of other resources committed to complete activities within a reasonable period of time.

15. Paragraph (e) sets forth requirements for general purpose grants for metropolitan and nonmetropolitan areas previously contained in § 570.400.

16. Paragraph (f) sets forth requirements regarding amendments to applications for general purpose funds for metrolopitan and nonmetropolitan areas. Such amendments must have prior HUD approval which may be granted when the circumstances are beyond the control of the recipient or when funds remain after completion of all approved activities. If new activities are to be added or substituted, such new activities shall receive a rating comparable to the original rating of the activities in the initial application.

17. Paragraph (g) contains clarification of the citizen participation requirements of this Part as these apply to preapplications and applications for assistance under this section. Applicants shall inform citizens of the maximum grant amount, the criteria for selection, and that the number of preapplications may substantially exceed the number of applications to be funded. Applicants shall comply with all public hearing requirements of paragraph (e)(4)(ii) of § 570.303 prior to submission of a preapplication, and additional public hearings are not required prior to submission of the full application unless the substance of the preapplication has been altered significantly. All applicable citizen participation requirements shall be met nonetheless prior to resubmission in the current year of a preapplication which was submitted in a previous year.

18. Paragraph (h) sets forth the requirements for applications by States. A differentiation is made between the requirements for a State application in behalf of units of general local government and for direct assistance to the State. The requirements for a State application in behalf of units of general local government are essentially as previously stated with a clarification of the housing assistance plan requirements. For an included unit of general local government with a HUD approved housing assistance plan conforming to the current requirements of paragraph (c) of § 570.303, the approved housing assistance plan may be included in the State application by reference. For an included unit of general local government which does not have a current approved housing assistance plan, a housing assistance plan meeting the requirements of paragraph (c) of § 570.303 and adopted by the unit of general local government shall be submitted as a part of the State application. In those instances where a State is submitting an application for direct assistance for itself and not in behalf of units of general local government and the area to be served is multijurisdictional, regional, or statewide in nature, a HUD approved 701 housing element may serve as the housing assistance plan for the purposes of this section.

Interested persons are invited to participate in the making of the final rule by submitting written comments or views on the proposed amendments. Comments should be filed with the Office of the Rules Docket Clerk, Room 10141, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C. 20410. All relevant materials received on or before September 14, 1976, will be considered before adoption of final rules. Copies of comments will be available for examination during business hours at the above address.

In connection with the environmental review of the proposed amendments to §§ 570.400 and 570.402, a Finding of Inapplicability has been made under HUD Handbook 1390.1, (38 FR 19182). A copy of the Finding is available for inspection in the Office of the Rules Docket Clerk, Room 10141, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C.

It is hereby certified that the economic and inflationary impacts of these proposed regulations have been carefully evaluated in accordance with OMB Circular No. A–107.

(Title I of the Housing and Community Development Act of 1974 (42 U.S.C. 5301 et seq.), and Section 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).)

In consideration of the foregoing, it is proposed to amend 24 CFR Part 570 as follows:

1. Section 570.400 would be amended by revising paragraph (d)(1) and deleting paragraphs (b), (c)(2)(i), (d)(2), and (e) as follows:

§ 570.400 General.

* * * * *

(b) [Reserved]
(c) * * *
(2) * * *
(i) [Reserved]

* * * * *

(d) *Meeting the requirements of OMB Circular A–95.* (1) *General.* All applicants under this subpart must comply with the requirements set forth in OMB Circular A–95, Federally-recognized Indian tribes are not subject to the regular A–95 requirements; however, they are encouraged to participate voluntarily in the A–95 Project Notification and Review System. HUD will notify the appropriate State and areawide clearinghouses of any applications from Federally recognized Indian tribes upon their receipt.

(2) [Reserved]
(e) [Reserved]

* * * * *

2. Section 570.402 would be revised to read as follows:

§ 570.402 General purpose funds for metropolitan and nonmetropolitan areas.

(a) *Eligible applicants.* Eligible applicants are States, and units of general local government as defined in § 570.3(v), excluding metropolitan cities, urban counties and units of general local government which are included in urban counties as described in § 570.105(b)(3)(ii) and (iii). For the purpose of this section, the second sentence in § 570.3(v) includes those entities described in § 570.403(b)(1), (2) and (3).

(b) *Preapplications.* Preapplications are required for grants from general purpose funds for metropolitan and nonmetropolitan areas. The purpose of the preapplication is for HUD to make funding decisions by comparing the conditions of substandard housing and poverty within an applicant's jurisdiction and the activities or programs proposed by the applicant in accordance with the criteria for selection, with similar conditions and activities from other jurisdictions. The Secretary may establish a single maximum grant amount on a State-by-State basis for assistance under this part.

(1) *Scope of preapplication.* A preapplication may include any number of eligible activities up to the maximum dollar amount established by the Secretary for all applicants within that State. A preapplication may propose activities to be undertaken during any reasonable period of time necessary to complete them. The applicant shall apply for discretionary funds in an amount, which together with other resources that may be available, will be adequate to complete the proposed activities without additional block grant funds. While a recipient remains eligible for discretionary grant funding in subsequent years, an applicant shall not assume that additional funding will be available in subsequent years to continue or expand activities. A preapplication may not, however, be only for planning purposes, as defined in § 570.200(a)(12).

(2) *Submission requirements.* Preapplications shall be submitted on HUD forms to the appropriate HUD Area Office and shall consist of the following:

(i) A brief description of the applicant's community development needs and objectives;

(ii) A description of the activities to be carried out with assistance provided under this Part;

(iii) An estimate of the cost of the proposed activities;

(iv) A map of the applicant's jurisdiction;

(v) The certification required under § 570.303(e)(4);

(vi) The status of any prior assistance under this Part.

(3) *Preapplication submission date.* The Secretary will establish from time to time the earliest and latest dates for submission of preapplications for each fiscal year. For Fiscal Year 1977, the earliest submission date will be October 15, 1976, and the latest submission date will be November 30, 1976 for nonmetropolitan areas, and the earliest submission date will be January 15, 1977, and the latest submission date will be February 15, 1977, for metropolitan areas.

(4) *Modified OMB Circular A–95 procedures for preapplications.* The following special procedure applies to the general purpose funds for metropolitan and nonmetropolitan areas for which a preapplication is required. A copy of the preapplication shall be submitted to the appropriate A–95 State and areawide clearinghouses concurrent with the submission of the preapplication to HUD. The submission of the preapplication will serve as the notification of intent to apply for a Federal grant. The clearinghouses should respond to the applicant regarding their review of the preapplication.

(c) *HUD review procedures.* Each HUD Regional Office shall establish a review and rating system to evaluate preapplications within its jurisdiction. The Regional Administrator may permit variations on a State by State basis, within the limitations pursuant to § 570.402(c)(3). Copies of HUD review and rating systems may be obtained from the appropriate Regional or Area Office prior to submission of a preapplication. HUD will review preapplications based upon the criteria set forth in § 570.402(c)(2). Applicants will be advised of HUD's determinations and judgments on the preapplication, and the availability of funds.

(1) *Threshold factors.* The review and rating system will provide that affirmative determinations shall be made on each of the following threshold factors in order for a preapplication to be considered for rating.

(i) With respect to previously approved assistance under this Part, the applicant has satisfactorily met the performance standards established by HUD. These standards will take into account progress toward completion of approved activities as measured by such factors as expenditure of funds; obligation of funds; award of third party contracts; provision of committed funds from other Federal, State, or local sources; and compliance with applicable program requirements.

(ii) The applicant has taken appropriate local actions to provide assisted housing in accordance with any HUD-approved housing assistance plan applicable to the applicant's jurisdiction. Where housing has not actually been provided, such local actions may include the removal of impediments to the development of assisted housing in local ordinances and land use requirements, the formation of a local housing authority when necessary to carry out the housing assistance plan, the provision of sites for assisted housing when resources are available, and other actions appropriate for implementation of the housing assistance plan.

(iii) Based on information contained in the preapplication, the proposed activities appear to be eligible.

(2) *Criteria for selection.* Preapplications which meet the threshold requirements shall be rated competitively in accordance with the following selection criteria:

(i) Extent of substandard housing conditions as represented by the sum of the number of overcrowded housing units as defined in § 570.3(i) and the number of housing units lacking plumbing, expressed both as an absolute amount and as a percentage of the total housing units within the jurisdiction of the unit of general local government.

(ii) The proportion and extent of poverty as defined in § 570.3(j) and expressed both as an absolute amount and as a percentage of the total population within the jurisdiction of the unit of general local government.

(iii) The extent to which the proposed activities or program are designed exclusively, principally, or incidentally to benefit low- or moderate-income families.

(iv) The extent to which the proposed activities or program are designed to support the expansion or conservation of the low- or moderate-income housing stock (including infrastructure or facilities in support of housing).

V 41 1158 AUG 13 76 UMI

(v) The activities or program as proposed are designed to alleviate a serious threat to health or safety.

(vi) At the discretion of the Regional Administrator, additional points may be awarded to those preapplications which involve matching other Federal or State grants or which involve identifiable commitments of other Federal or State resources, including Federal grants administered by States.

(3) *Numerical ratings.* Rating systems developed pursuant to § 570.402(c) shall assign numerical ratings for each criterion set forth in § 570.402(c)(2). In each Regional rating system, § 570.402(c)(3)(i) through (v) shall total one hundred percent of the base rating system. § 570.402(c)(3)(vi) shall be in addition to the base rating system if included. The range of maximum percentage of points for each criterion shall be:

(i) Ten to fifteen percent for the substandard housing described in the criterion in § 570.402(c)(2)(i), one-half for absolute amount and one-half for percent;

(ii) Five to ten percent for poverty described in the criterion in § 570.402(c)(2)(ii), one-half for absolute amount and one-half for percent;

(iii) Twenty-five to thirty-five percent for benefits to families of low- or moderate-income in the criterion in § 570.402(c)(2)(iii);

(iv) Twenty-five to thirty-five percent for housing efforts in the criterion in § 570.402(c)(2)(iv);

(v) Ten to twenty percent for health or safety pursuant to the criterion as described in § 570.402(b)(2)(v);

(vi) In addition to the ratings assigned pursuant to § 570.402(c)(2)(i) through (v), a maximum of an additional ten percent may be assigned for involvement of other resources described in the criterion in § 570.402(c)(2)(vi).

(vii) Activities shall normally receive numerical ratings individually in accordance with § 570.402(c)(3)(iii) through (vi) except that groups of activities which are designed as a coordinated effort concentrated within a general location to meet a specific objective shall receive a single rating jointly as a program and not as individual activities.

(4) *Imminent threat to public health or safety.* Notwithstanding the provisions of § 570.402(b), the Secretary may, at any time, invite a full application for funds available under this section in response to a request for assistance to alleviate an imminent threat to public health or safety that requires immediate resolution by waiving the requirements of § 570.402(b). The urgency and the immediacy of the threat shall be verified by HUD with an appropriate authority other than the applicant prior to approval of the application. For example, an applicant with documented cases of disease resulting from a contaminated drinking water supply would have an immediate threat to public health, while an applicant ordered to improve the quality of its drinking water supply over the next five years would not have an imminent threat within the definition of this paragraph.

(d) *Applications.* HUD shall invite full applications based upon the review of preapplication or based upon an imminent threat to public health or safety pursuant to § 570.402(c)(4). The Secretary may request that an applicant submit a full application for assistance under this Part for an amount less than requested by the applicant in its preapplication. In determining the amount of the grant for which an applicant is invited to submit a full application, the Secretary may take into account the level and complexity of the proposed activities and the capacity of the applicant to complete such activities within a reasonable period of time and within estimated costs.

(1) *Application requirements.* Full applications will be accepted only upon invitation from HUD. Addition of new activities from those proposed in the preapplication will not be approved if such addition or substitution will lower HUD's rating of the preapplication. Full applications shall meet the application requirements of § 570.303 and shall include schedules showing target dates for start up and completion of all proposed activities.

(2) *Timing of submission.* The latest date for submission of a full application shall be established by HUD at the time an applicant is invited to submit a full application.

(3) *Modified OMB Circular A-95 procedure for full applications.* At least 45 days prior to the submission of a full application to HUD for general purpose funds for metropolitan and nonmetropolitan areas, the applicant shall transmit the application to the appropriate State and areawide clearinghouses for review and comment unless the clearinghouses relinquish this requirement. They shall be provided forty-five days for review and comment.

(4) *Waiver of application requirements.* The provisions of § 570.304 shall also apply to applications under this section.

(5) *HUD review and approval of full application.* (i) *Acceptance of application.* Upon receipt of the full application, the HUD Area Office will accept it for review, provided that it has been received before the deadline established pursuant to § 570.402(d)(2); the application requirements specified in § 570.402(d)(1) are complete, except with regard to those applications for which certain submission requirements are waived pursuant to § 570.402(d)(4); the funds requested do not exceed the amount of the invitation by HUD; and any comments and recommendations received from clearinghouses are attached to the application.

(ii) *HUD action on full applications.* Full applications will be reviewed to insure that any other necessary resources that may be required to complete the proposed activities are in fact available; that any conditions that may have been established at the time of invitation to submit a full application have been satisfied; and that any findings on inconsistency developed through the OMB Circular A-95 process have been resolved. The Secretary will notify the applicant in writing that the full application has been approved, partially approved, disapproved, or otherwise not acted on for any reason.

(iii) *Conditional approval.* The Secretary may make conditional approval, in which case the grant will be approved, but the utilization of funds for affected activities will be restricted. Conditional approvals will be made only pursuant to § 570.306(e)(1) through (e)(4) and to insure provision of other resources committed to complete activities with a reasonable period of time and within estimated costs.

(e) *Letter to proceed.* In response to a request by a unit of general local government, the Secretary may, in cases of demonstrated need, issue a letter to proceed authorizing an applicant for funds to incur costs for the planning and preparation of an application for funds available under this subpart. Reimbursement for such costs will be dependent upon HUD approval of such application. Costs incurred by an applicant prior to notification of a funding approval or issuance of a letter to proceed by HUD are not eligible for assistance under this Part.

(f) *Program amendments.* Recipients shall request prior HUD approval for all program amendments to approved applications under § 570.402. HUD approval of program amendments may be granted to those requests which meet the following criteria:

(1) The program amendment is necessitated by actions beyond the control of the applicant, or funds remain after completion of all approved activities, and

(2) In cases where activities are added or are significantly altered, the new activities shall have a rating under the criteria of § 570.402(c) comparable to rating of the original activities.

(g) *Citizen participation.* The citizen participation requirements of this Part shall be met by the applicant prior to the submission of the preapplication. Preapplications from a previous year being resubmitted are again required to meet all citizen participation requirements for the current year. As a part of the information provided pursuant to § 570.303(e)(1), the applicant shall inform citizens of the maximum discretionary grant for which the applicant may apply, the criteria for selection of preapplications, and that the number of preapplications submitted may substantially exceed the number of applications that may be ultimately approved from the available funds. The requirements of § 570.303(e)(4)(ii) shall be met prior to the submission of the preapplication. Additional public hearings are not required for the full application unless there have been significant changes in the activities.

(h) *Applications submitted by states.* States (including the Commonwealth of Puerto Rico) may apply for general purpose funds for metropolitan and nonmetropolitan areas to carry out eligible activities in metropolitan and nonmetropolitan areas, respectively. Separate applications are required for metropolitan and nonmetropolitan areas. A State may at its option submit separate applications for each metropolitan area for which it seeks funds or submit a single application for more than one metropolitan area, provided that such application clearly identifies the proposed cost attributable to each metropolitan area.

(1) *Applications in behalf of units of general local government.* If a State is submitting an application for assistance under this section in behalf of a unit or units of general local government, the provisions of § 570.303 shall apply only to those units of general local government covered by a State application. The application shall be pursuant to an agreement with the covered units of general local government.

(2) *State applications for direct assistance.* If a State is submitting an application for direct assistance for itself and not in behalf of units of general local government for activities which are otherwise eligible pursuant to § 570.200, the provisions of § 570.303 shall be applied on a statewide basis.

(3) *State application housing assistance plans.* (i) In those instances where there is a HUD approved housing assistance plan meeting the requirements of § 570.303(c) for units of general local government in which the activities are to be carried out, the State need only indicate in the application that it subscribes to and adopts such housing assistance plan.

(ii) In those instances where there is no HUD approved housing assistance plan for a covered unit of general local government, the State shall submit as a part of its application a housing assistance plan adopted by the unit of general local government.

(iii) In those instances where the State is applying for direct assistance and the activities are by nature multijurisdictional, regional, or statewide in nature, a HUD approved State 701 housing element may serve as a housing assistance plan for the purposes of this section.

(4) *Activities in urban counties and metropolitan cities.* A State may not apply for activities to be located in or carried out in metropolitan cities, urban counties or units of general local government which are included in urban counties, unless such funds have been reallocated in accordance with § 570.107.

Issued at Washington, D.C., August 9, 1976.

DAVID O. MEEKER, Jr.,
FAIA, AIP, Assistant Secretary for Community Planning and Development.

Federal Insurance Administration

[24 CFR Part 1917]

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Town of Collins, Erie County, New York

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.4(a)) hereby gives notice of his proposed determinations of flood elevations for the Town of Collins, Erie County, New York.

Under these acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the Town must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the Main Entrance in Town Hall, 14093 Mill Street, Collins.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mr. Robert F. Gaylord, Supervisor, Town Hall, 14093 Mill Street, Collins, New York 14034. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level	Width in feet from bank of stream to 100-yr flood boundary facing downstream	
			Left	Right
Clear Creek	West corporate limits	713	0	220
	Bagdad Rd. (north)	798	30	0
	Bagdad Rd. (central)	812	5	10
	Conrail	829	240	50
	Bagdad Rd. (south)	862	10	30
	Jennings Rd	971	20	40
	North Division Rd. (extended)	1,000	5	170
	School St	1,080	230	50
	Collins Center Zoar Rd	1,094	200	30

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: July 13, 1976.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

[FR Doc.76-23317 Filed 8-12-76;8:45 am]

[24 CFR Part 1917]

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Town of Evans, Erie County, New York

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.4(a)) hereby gives notice of his proposed determinations of flood elevations for the Town of Evans, Erie County, New York.

Under these acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the Town must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review on the Bulletin Board in Evans Town Hall, 42 North Main Street, Angola.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mr. Robert R. Catalino, Supervisor for the Town of Evans, 42 North Main Street, Angola, New York 14006. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community.

The proposed 100-year Flood Elevations are:

V 41 I 158 AUG 13 76 UMI

Source of flooding	Location	Elevation in feet above mean sea level	Width in feet from shoreline to 100-year flood boundary

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Town of Kirkwood, Broome County, New York

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 Pub. L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1917 (§ 1917.4(a)) hereby gives notice of his proposed determinations of flood elevations for the Town of Kirkwood, Broome County, New York.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the Town must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood

elevations are available for review at the Town Hall, Box 502, Crescent Drive, Kirkwood, New York.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mr. Arthur J. Shafer, Town Supervisor for Kirkwood, Town Hall, Box 502, Crescent Drive, Kirkwood, New York 13795. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level	Width in feet from bank of stream to 100-yr flood boundary facing downstream	
			Left	Right
Susquehanna River	Upstream corporate limits	867	(1)	1,080
	Gorman Rd. (extended)	866	(1)	510
	Blakesley Rd. (extended)	863	(1)	760
	Conklin-Kirkwood connection	861	(1)	200
	Trim St. (extended)	857	(1)	140
	Ostrum Rd. (extended)	855	(1)	160
	Loughlin Rd. (extended)	851	(1)	470
	Downstream corporate limits	850	(1)	200

[1] Corporate limits.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: July 28, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determinations for the Town of Belhaven, North Carolina

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 Pub. L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1917 (§ 1917.4(a)), hereby gives notice of his proposed determinations of flood elevations for the Town of Belhaven, North Carolina.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the Town of Belhaven must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at Town Hall, Belhaven, North Carolina 27810.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mayor C. O. Boyette, Town Hall, Belhaven, North Carolina 27810. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level
Pungo River and Pantego Creek	Entire town, except the 300 northernmost feet of U.S. Route 264.	7

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: July 26, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determinations for the City of Roseburg, Oregon

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 Pub. L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1917 (§ 1917.4(a)), hereby gives notice of his proposed determinations of flood elevations for the City of Roseburg, Oregon.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the City of Roseburg must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at City Hall, 900 S.E. Douglas Street, Roseburg, Oregon 97470.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mayor Mike Wyatt, City Hall, 900 S.E. Douglas Street, Roseburg, Oregon 97470. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
South Umpqua River	Oak Street Bridge	448.5	210	168

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Borough of Myerstown, Lebanon County, Pennsylvania

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 Pub. L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1917 (§ 1917.4 (a)) hereby gives notice of his proposed determinations of flood elevations for the Borough of Myerstown, Lebanon County, Pennsylvania.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the Borough must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the Borough Hall, 515 South College Street, Myerstown.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify the Honorable Lester Frantz, 36 East Main Street, Myerstown, Pennsylvania 17067. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level	Width in feet from bank of stream to 100-yr flood boundary facing downstream	
			Left	Right
Tulpehocken Creek	Corporate limits	437	630	160
	Cherry St	442	110	380
	Railroad St	445	160	280
	College St	448	110	220
	Locust St	449	120	(1)

[1] Corporate limits.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: July 22, 1976.

HOWARD B. CLARK,
Acting Federal Insurance Administrator.

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Borough of North Wales, Montgomery County, Pennsylvania

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 Pub. L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1917 (§ 1917.4(a)) hereby gives notice of his proposed determinations of flood elevations for the Borough of North Wales, Montgomery County, Pennsylvania.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the Borough must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the Counter in the Municipal Building, 300 School Street, North Wales.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mayor Leon T. Lewis, Jr., Municipal Building, 300 School Street, North Wales, Pennsylvania 19454. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community.

The proposed 100-year Flood Elevations are:

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of San Angelo, Tom Green County, Texas

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 Pub. L. 90–448), 42 U.S.C. 4001–4128, and 24 CFR Part 1917 (§ 1917.4(a)) hereby gives notice of his proposed determinations of flood elevations for the City of San Angelo, Tom Green County, Texas.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the Main Lobby in City Hall Plaza, San Angelo.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mayor Robert L. McClellan, P.O. Box 1751, San Angelo, Texas 76901. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community.

The proposed 100-year Flood Elevations are:

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Stephenville, Erath County, Texas

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.4(a)) hereby gives notice of his proposed determinations of flood elevations for the City of Stephenville, Erath County, Texas.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at City Hall, 354 North Belknap Street, Stephenville.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mayor Donald R. Jones, City Hall, 354 North Belknap Street, Stephenville. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level	Width in feet from bank of stream to 100-yr flood boundary facing downstream	
			Left	Right
Town Creek	Upstream corporate limit	1,364	175	95
	Brenda St	1,328	60	160
	West Washington St	1,324	200	45
	Downstream corporate limit	1,310	115	150
Bosque River	Upstream corporate limit	1,276	(1)	680
	Route 108	1,270	(1)	225
	F.M. 8	1,263	80	280
	East Washington St	1,252	115	220
	South Graham St	1,244	295	265
	U.S. Route 377, 67	1,239	1,080	90
	Downstream corporate limit	1,237	730	540
East Fork Dey Branch	At S.C.S. Dam No. 7	1,280	50	20
	Clark St	1,260	40	100
Dry Branch	Upstream corporate limit	1,263	80	100
	Confluence Dry Branch	1,255	500	520

[1] Corporate limits.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968); effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determinations for the Town of Manchester, Vermont

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.4(a)), hereby gives notice of his proposed determinations of flood elevations for the Town of Manchester, Vermont.

Under these Acts, the Administrator, to whom the Secretary has delegated the statutory authority, must develop criteria for flood plain management in identified flood hazard areas. In order to participate in the National Flood Insurance Program, the Town of Manchester must adopt flood plain management measures that are consistent with the flood elevations determined by the Secretary.

Proposed flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at Town Hall, Manchester Center, Vermont 05255.

Any person having knowledge, information, or wishing to make a comment on these determinations should immediately notify Mr. Henry Lambert, Town Manager, Manchester Center, Vermont 05225. The period for comment will be ninety days following the second publication of this notice in a newspaper of local circulation in the above-named community.

The proposed 100-year Flood Elevations are:

Source of flooding	Location	Elevation in feet above mean sea level	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
Batten Kill	Union St	682	10	435

ENVIRONMENTAL PROTECTION AGENCY

[FRL 599-6]

[40 CFR Part 52]

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Tennessee: Revised SO_2 Emission Limits

On August 8, 1974 (39 FR 28528), the Administrator approved, with certain exceptions, revised SO_2 emission limits for the Tennessee implementation plan. These were contained in Chapter XIV of the Tennessee air pollution control regulations, which was rewritten by the State to include all its SO_2 emission limiting rules, including those for sulfuric acid plants. Chapter XIV as now constituted sets the following SO_2 emission limits for fuel combustion and process sources respectively: Polk County (Class 1A)—1.6#/10^6 Btu and 500 ppm; Maury, Roane, and Sullivan Counties (Class I)—1.6#/10^6 Btu and 1000 ppm; Humphreys County (Class II)—3#/10^6 Btu and 1000 ppm; and all other Counties (Class III)—4#/10^6 Btu and 2000 ppm. The Administrator at that time disapproved these revised limits as they applied to large fuel combustion sources (heat input of 1000 million Btu or more per hour) in Humphreys and Roane Counties, leaving in effect for these sources the Tennessee plan's original SO_2 emission limit of 1.2#/10^6 Btu.

The State now proposes to delete the existing Chapter XIV of its regulations and replace it with a new one, styled Chapter 1200-3-14. This was adopted after notice and public hearing on October 23, 1975, became State law on March 20, 1976, and was submitted to EPA as a proposed plan revision on April 30, 1976. In support of the proposed SO_2 revision, the State of Tennessee also submitted a revised SO_2 control strategy intended to show that the revised limits will not interfere with the attainment and maintenance of the national ambient air quality standards. The purpose of this notice is to describe the provisions of Chapter 1200-3-14 and to invite public comment on it.

A new County classification system is established which applies throughout Chapter 1200-3-14. There are six classifications and the Counties in them are as follows: Class I—Polk; Class II—Humphreys, Maury, and Roane; Class III—Sullivant; Class IV—Shelby; Class V—Anderson, Davidson, Hamilton, Hawkins, Knox, and Rhea; Class VI—all others.

Paragraph (1) of rule .02 deals with fuel burning sources in operation prior to April 3, 1972, the date on which the original regulations of the Tennessee plan became effective. For Shelby County, allowable emisisons depend on the fuel burned: coal—4#/10^6 Btu; No. 5 and No. 6 fuel oil and solid fuels other than coal—2.7#/10^6 Btu; and for other fuels—0.5#/10^6 Btu. In all other counties, the emission limits depend on source size and/or County classification. In Sullivan County, the limit is 2.4#/10^6 Btu for all sources; in Class V Counties, 4#/10^6 Btu; and in Class VI Counties, 5#/10^6 Btu. For larger sources, those with a rated capacity of less than 1000 million Btu/hr. input, the limit is 1.2#/10^6 Btu in Polk, Humphreys, Maury, and Roane Counties; for sources with a rated capaciyt of less than 1000 million Btu/hr., the limit is 1.6#/10^6 Btu in Polk County, and 5#/10^6 Btu in Humphreys, Maury, and Roane Counties. In addition to meeting these emission limits, owners or operators of larger sources must demonstrate that their SO_2 emissions, either alone or in combination with emissions from other sources, will not interfere with the attainment and maintenance of the national ambient air quality standards; the same sources must also conduct ambient air quality monitoring in a manner prescribed by the State. Finally, for sources subject to paragraph (1), allowable emissions will be calculated on the basis of maximum rated capacity of all fuel combustion units at a plant.

Paragraph (2) of rule .02 provides emission limits for units constructed after April 3, 1972. For units with a rated capacity of more than 250 million Btu per hour, limits are set which are equivalent to those set forth at 40 CFR 60.43

in the Agency's New Source Performance Standards—0.8#/10^6 Btu when liquid fossil fuel is burned; 1.2#/10^6 when solid fossile fuel is burned. For smaller units, are imits are set as follows: Class I County—1.6#/10^6 Btu; Class II and VI Counties—5#/10^6 Btu; Class III County—2.4#/10^6 Btu; and Class IV and V Counties—4#/10^6 Btu.

Rule .03 sets forth emission limits for process sources, which include thermal oxidizers and incinerators. In Polk County, the limit is 500 ppm; in Humphreys, Maury, Roane, and Sullivan Counties, 1000 ppm; in all others, 2000 ppm. Process sources in Shelby County may request to be regulated on an alternative basis rather than meet the 2000 ppm standard; this alternative involves not exceeding the source's SO_2 emission capacity as of 1974, and is limited by certain safeguards. These 1974 emission limits are contained in Table 9-F of the revised control strategy. For regulations to be approvable, they must contain an identifiable emission limit. An additional requirement is that sources which emitted more than 1000 tons of SO_2 during calendar year 1972 or during any succeeding calendar year must perform ambient air quality monitoring and satisfy the State that their emissions, either alone or in combination with those of other sources, will not interfere with the attainment and maintenance of the national ambient air quality standards. All new process sources must use best available control technology as determined by the State.

All emission limits set forth in rules .02 and .03 are expressed as one-hour averages.

Maintenance of air quality should not be a major problem for most of the State. Modelling indicates that ambient SO_2 concentrations, even under worst conditions, will not approach the national standards. Therefore an adequate margin for normal growth exists. In isolated cases, the introduction of a major new source may have to be accompanied by a tightening of regulations or by a trade-off in emissions from existing sources.

The materials submitted by Tennessee are available for public inspection during normal business hours at the following locations:

Air & Hazardous Materials Division, Environmental Protection Agency, 1421 Peachtree Street, NE., Atlanta, Georgia 30309.

Public Information Reference Unit, Library Systems Branch, Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460.

Division of Air Pollution Control, Tennessee Department of Public Health, Room 256, Capitol Hill Building, 301 Seventh Avenue, Nashville, Tennessee 37219.

The public is invited to participate in the present rulemaking by submitting written comments on the proposed Tennessee revision. To be considered, comments must be received on or before September 13, 1976, and should be addressed to Archie Lee at the Atlanta address given above. After considering all relevant comments and other available information in the light of requirements set forth in the Clean Air Act and in the Agency's implementing regulations (40 CFR Part 51), the Administrator will take approval/disapproval action on the Tennessee revision described in this notice.

(Section 110(a) of the Clean Air Act (42 U.S.C. 1857c-5(a)))

Dated: July 22, 1976.

JOHN A. LITTLE,
Regional Administrator,
Region W.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 15]

[Docket No. 20620; RM-2426]

OPERATION OF WIDE-BAND SWEPT RF EQUIPMENT AS ANTI-PILFERAGE DEVICES

Order Extending Time To File Comments

In the matter of the amendment of Part 15 to provide for the operation of wide-band swept RF equipment used as anti-pilferage devices.

1. The Knogo Corporation has requested a thirty-day extension of time for filing comments in this proceeding, on the grounds that, it has undertaken a broad review of its position in this proceeding. The additional time is also required to permit its newly retained counsel to familiarize himself with the matters at issue.

2. Because of the Commission's desire to have the most definitive response possible, Knogo's request is granted.

3. Accordingly, under the authority granted by § 0.241(d), *it is ordered*, That the time for filing comments is extended to September 9, 1976 and the time for filing reply comments is extended to September 20, 1976.

Adopted: August 6, 1976.

Released: August 10, 1976.

RAYMOND E. SPENCE,
Chief Engineer.

TABLE OF ASSIGNMENTS FM BROADCAST STATIONS

Alabama: Order Extending Time for Filing Comments and Reply Comments

By the Chief, Broadcast Bureau:

1. On June 22, 1976, the Commission adopted a Notice of proposed rule making in the above-entitled proceeding (41 FR 27390). The dates for filing comments and reply comments are presently August 6 and August 26, 1976, respectively.

2. On July 29, 1976, counsel for Phillips Radio, Inc., requested that the time for filing comments be extended to and including August 20, 1976. Counsel states that he is preparing comments, based on an engineering study, for submission in this proceeding proposing the assignment of Channel 252A to Chickasaw, Alabama, as a counterproposal. In addition, he states, because of his vacation schedule and the need to compile comparative demographic data concerning the communities of Theodore and Chickasaw, additional time is necessary.

3. We are of the view that the public interest would be served by extending the time in this proceeding. Accordingly, *it is ordered*, That the dates for filing comments and reply comments are extended to and including August 20 and September 10, 1976, respectively.

4. This action is taken pursuant to authority found in Sections 4(i), 5(d)(1) and 303(r) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

Adopted: August 6, 1976.

Released: August 10, 1976.

TABLE OF ASSIGNMENTS; FM BROADCAST STATIONS

New York: Order Extending Time for Filing Comments and Reply Comments

1. On June 23, 1976, the Commission adopted a Notice of proposed rule making in the above-entitled proceeding (41 FR 27389). The dates for filing comments and reply comments are presently August 9 and August 30, 1976, respectively.

2. On July 30, 1976, counsel for Promedia Communications, Incorporated, requested that the time for filing comments and reply comments be extended to and including September 8 and September 29, 1976, respectively. Counsel states that he was on vacation between July 15 and July 26 and was unable to be in contact with his client or to research the questions raised in the proceeding; that during the period immediately prior to vacation, he was preparing for the continuing cable television hearings of the Communications Subcommittee of the House Committee on Interstate and Foreign Commerce; and that coordination between himself and the consulting engineer was made more difficult by the engineer's business residence being located in Massachusetts, necessitating correspondence by mail.

3. It appears that the requested extension of time is warranted. Accordingly, *It is ordered*, That the dates for filing comments and reply comments are extended to and including September 8 and September 29, 1976, respectively.

4. This action is taken pursuant to authority found in sections 4(i), 5(d)(1)

V 41 N 158 AUG 13 76 UMI

and 303(r) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

Adopted: August 6, 1976.

Released: August 10, 1976.

SETTLEMENT OF DISPOSITION OF PARTICULAR ISSUES IN PROCEEDINGS

Extension of Time

AUGUST 6, 1976.

On July 30, 1976, the Section of Administrative Law of the American Bar Association filed a motion to extend the date for filing comments in the above-designated proceeding (41 FR 30688, July 26, 1976).

Upon consideration, notice is hereby given that the date for filing comments is extended to and including September 8, 1976.

KENNETH F. PLUMB,
Secretary.

OFFICE OF MANAGEMENT AND BUDGET

[34 CFR Ch. I]

OFFICE OF FEDERAL PROCUREMENT POLICY

Proposed Regulations; Public Meeting; Invitation for Public Comment

The Office of Federal Procurement Policy ((OFPP), Office of Management and Budget, plans to promulgate the following OFPP Regulations Nos. 1 and 2 pursuant to the authority and requirements of Pub. L. 93-400, 41 U. S.C. 401 (the Act), and invites the written comments of interested parties for consideration in the drafting of the regulations.

Regulation No. 1 is in implementation of the Act's requirements for establishment of (i) a system of coordinated and, to the extent feasible, uniform procurement regulations for the executive agencies, and (ii) criteria and procedures for soliciting the viewpoints of interested parties in the development of procurement policies and regulations. Regulation No. 2 is in implementation of the Act's requirement for a regulation governing designated formal meetings of this Office held for the purpose of establishing procurement policies and regulations.

Regulation No. 1, establishing the Federal Procurement Regulatory System, was previously published for comment in the FEDERAL REGISTER (41 FR 779) on January 5, 1976. Because it has been extensively revised since that time, in the light of comments received from executive agencies and the public, it is considered desirable to publish it once more in its revised form for further comment. Regulation No. 2, establishing criteria and procedures for public meetings of OFPP, was previously published for comment in the FEDERAL REGISTER (40 FR 60124) on December 31, 1975. Although only minor revisions have been made in Regulation No. 2, it too is reissued for comment in order that the two regulations may be considered together.

A public meeting for the purpose of formal discussion of the two regulations will be held September 21, 1976, in Room 2008, New Executive Office Building, 726 Jackson Place, NW., Washington, D.C., from 10 a.m. until 4:30 p.m. Any interested person or organization desiring to make an oral presentation at the meeting shall provide an advance copy or a written statement, with a request to be heard, which must be received at the Office of Federal Procurement Policy not later than September 17, 1976. Copies of agency, industry, and public comments on the initial drafts of the two regulations are available for examination in the Office of Management and Budget Library, Room G-102, New Executive Office Building, during the hours 9 a.m.-5 p.m. Entrance to the building may be facilitated by telephoning 395-3487 approximately one hour before arrival.

Comments on the proposed Office of Federal Procurement Policy Regulations Nos. 1 and 2 must be received by October 13, 1976, to be considered. Comments should be addressed to the Administrator for Federal Procurement Policy, Office of Management and Budget, Washington, D.C. 20503.

HUGH E. WITT,
Administrator for Federal Procurement Policy.

TO THE HEADS OF EXECUTIVE DEPARTMENTS AND ESTABLISHMENTS

AUGUST 9, 1976.

Subject: Proposed Office of Federal Procurement Policy Regulations Nos. 1 and 2

Enclosed are revised drafts of two regulations proposed to be issued by this Office pursuant to the authority and requirements of Public Law 93-400, 41 U.S.C. 401.

The first implements the requirements for establishment of (i) a system of coordinated and, to the extent feasible, uniform procurement regulations for the executive agencies, and (ii) criteria and procedures for soliciting the viewpoints of interested parties in the development of procurement policies and regulations. The second implements the requirement for a regulation governing designated formal meetings of this Office held for the purpose of establishing procurement policies and regulations.

Proposed Regulation No. 1, establishing the Federal Procurement Regulatory System, was previously mailed to you for comment on December 22, 1975, and was published in the FEDERAL REGISTER (41 FR 779) on January 5, 1976. Because it has been extensively revised since that time, in the light of both agency and industry comments, we are publishing it in its revised form for further comment. Regulation No. 2, establishing criteria and procedures for public meetings of this Office, was previously mailed for comment on January 6, 1976, and was published in the FEDERAL REGISTER (40 FR 60124) on December 31, 1975. Although only minor revisions have been made in proposed Regulation No. 2, it too is reissued for comment in order that the two regulations may be considered together.

A public meeting for the purpose of formal discussion of the two regulations will be held at 10 a.m., September 21, 1976, in Room 2008, New Executive Office Building. If your agency desires to make an oral presentation, please submit a written statement and a request to be heard to this Office not later than September 17, 1976. Copies of agency, industry, and public comments on the initial drafts of the two regulations are available for examination in the Office of Management and Budget Library, Room G-102, New Executive Office Building.

Official agency views on the enclosed draft Office of Federal Procurement Policy Regulations Nos. 1 and 2 are requested by October 13, 1976.

Questions may be referred to Mr. LeRoy J. Haugh, Assistant Administrator for Regulations, telephone (202) 395-6186.

HUGH E. WITT,
Administrator.

REGULATION NO. 1

FEDERAL PROCUREMENT REGULATORY SYSTEM

1. *Purpose.* a. The purpose of this regulation is to establish the Federal Procurement Regulatory System (FPRS), an integrated system of coordinated and, to the extent feasible, uniform procurement regulations for the executive agencies, under the direction of the Administrator for Federal Procurement Policy.

b. The objectives of the system are to bring greater coordination, simplicity, and uniformity into the Federal procurement process, to arrest and reduce the proliferation of diverse and inconsistent procurement regulations, including those implementing or supplementing the primary regulations, and to establish criteria and procedures for public participation in the regulatory process.

2. *Background.* Pub. L. 93-400, which established the Office of Federal Procurement Policy (OFPP), delineates the functions of the Administrator for Federal Procurement Policy. This regulation implements the following provisions of that law:

a. Establishment of a system of coordinated and, to the extent feasible, uniform procurement regulations for the executive agencies; and

b. Establishment of criteria and procedures for soliciting the viewpoints of interested parties in the development of procurement policies, regulations, procedures, and forms.

3. *Authority.* Under Pub. L. 93-400, authority overall direction of Federal procurement policy is vested in the Administrator for Federal Procurement Policy. All executive agency procurement

policies, regulations, procedures, and forms are subject to those prescribed by the Administrator, who shall, in the development of such policies, regulations, procedures, and forms, consult with the executive agencies affected. This authority extends to the procurement aspects of all agency regulations and procedures, whether or not promulgated as part of agency procurement regulations.

4. *Applicability.* a. The provisions of this regulation apply to all executive agencies of the Federal Government making procurements from appropriated funds of:

(i) Property other than real property in being;

(ii) Services, including research and development; and

(iii) Construction, alteration, repair, or maintenance of real property;

and to all executive agencies issuing regulations affecting Federal procurement policy.

b. The term "executive agency" means an executive department, a military department, and an independent establishment within the meaning of sections 101, 102, and 104(1), respectively, of Title 5, United States Code, and also a wholly-owned Government corporation within the meaning of section 101 of the Government Corporation Control Act (31 U.S.C. 846).

5. *Federal Procurement Regulatory System (FPRS).* a. The FPRS, under the direction of OFPP, is hereby established, and shall consist of the following primary procurement regulations: OFPP Regulations; the Armed Services Procurement Regulation (ASPR), applicable to the Department of Defense (DOD) and to the National Aeronautics and Space Administration (NASA); and the Federal Procurement Regulations (FPR), applicable, except for NASA, to the civilian executive agencies and in certain authorized areas to all executive agencies. In addition, the FPRS includes the subsidiary procurement regulations of executive agencies which implement or supplement the ASPR or FPR, as well as the procurement aspects of all intra-agency regulations, procedures, directives, manuals, or other issuances. Also included are the procurement aspects of all interagency regulations, standards, guidelines, and other directives which are applicable to Federal contractors or subcontractors, or which are to be implemented through the Federal procurement process.

b. OFPP Regulations will be issued by the Administrator for Federal Procurement Policy, will be published in Title 41 of the Code of Federal Regulations, and will be independent of the Office of Management and Budget (OMB) system of Circulars and Bulletins. (Some instructions issued through the OMB system of Circulars and Bulletins, published in Title 34 of the Code of Federal Regulations, may also affect procurement policy, but the applicability and implementation of such Circulars and Bulletins will be as provided in that system.)

c. In addition to issuing regulations, OFPP will, on a selective basis, coordinate the development of, or approve in advance, the text of ASPR and FPR provisions. Such OFPP coordination or approval will be transmited to DOD and the General Services Administration (GSA) by numbered letter.

d. OFPP Regulations shall generally be implemented through the ASPR and FPR, and, except as otherwise specified in a particular OFPP Regulation, executive agencies other than DOD and GSA shall not themselves issue regulations or procedures directly implementing OFPP Regulations. Regulations issued by executive agencies implementing or supplementing the ASPR or FPR, as applicable, shall not contain provisions which are inconsistent with coverage in the ASPR or FPR, except as necessitated by special statutory provisions, or by special agency needs arising from program requirements or agency operations, in which case the procedures in paragraph e below shall be followed.

e. Any agency subject to the FPR, or major component of such an agency, which has a need for a regulation inconsistent with the FPR, whether necessitated by statute, by program requirements, or by agency operations, shall notify OFPP and GSA when it initiates the development of such a regulation, and shall not promulgate the regulation without GSA's concurrence. If the agency is unable to reach agreement with GSA on the need for, or content of, an inconsistent regulation, the matter shall be resolved by OFPP. A like procedure shall be applicable to NASA in the promulgation of regulations inconsistent with the ASPR.

f. Nothing herein is intended to stifle beneficial innovation in procurement procedures. Exceptions or deviations from the ASPR and FPR may continue to be granted in the same manner as provided in those regulations. Records of both individual and class deviations shall be maintained by DOD and GSA, and shall be furnished to OFPP quarterly. Instructions regarding deviations from a policy or procedure prescribed by a particular OFPP Regulation will be set forth in such regulation.

g. OFPP cognizance of procurement policy extends to the procurement aspects of regulations issued by any executive agency. These include, for example, regulations implementing the Service Contract Act, or pertaining to small business, equal employment opportunity, clean air, or contract safety standards, issued by such agencies as the Department of Labor, the Small Business Administration, and the Environmental Protection Agency. Accordingly, any executive agency proposing to issue a regulation which, although not primarily concerned with the procurement process, may have an effect on Federal procurement, shall, if the regulation is to be applicable to other agencies, consult with DOD, GSA, and the other principal agencies affected, and shall submit the regulation for review by the Administrator for Federal Procurement Policy before promulgation.

h. Any DOD directive, circular, procedure, or other issuance which is to be implemented in whole or in part through the ASPR, or which otherwise has an effect on procurement policy or procedure, shall be submitted for review by the Administrator for Federal Procurement Policy before promulgation.

6. *Development and Issuance of the ASPR and FPR.* a. Subject to the general guidance of the Administrator for Federal Procurement Policy, the Secretary of Defense and the Administrator of General Services are authorized to prescribe instructions and procedures for the development and issuance of the ASPR and FPR, respectively.

b. DOD and GSA shall closely coordinate the development and revision of the ASPR and FPR in order to minimize duplication of effort and achieve the greatest feasible uniformity in the two regulations. As part of such process, OFPP shall be consulted on significant issues, and otherwise irreconcilable differences shall be resolved by the Administrator for Federal Procurement Policy. In areas where both primary regulations have coverage, neither agency will amend that coverage without the concurrence of the other. The ASPR and FPR shall be made uniform except to the extent necessary to accommodate significant differences in laws, program requirements, or agency operations. "Uniform," for this purpose, means identical except for unavoidable differences required to identify agency organizational elements or officials, to identify documents incorporated by reference, or to describe inherently different organizational procedures.

c. Those parts of the ASPR and FPR which are uniform shall be so identified in those regulations.

d. In the development of the ASPR and FPR, the views and, so far as possible, agreement of agencies and departments affected shall be obtained.

7. *Public Participation.* a. The views of interested nongovernmental parties and organizations shall be given due consideration in the formulation of Federal procurement policy. Accordingly, the public will be afforded an opportunity to comment on proposed OFPP Regulations, and on proposed significant changes or additions to the ASPR and FPR, including related procurement regulations such as Defense Procurement Circulars, by means of the publication of a notice in the FEDERAL REGISTER. Such notice shall include a statement of background and purpose sufficient to explain the reason for the proposed issuance and the text or a summary of the proposed issuance, and shall invite interested parties to comment. If a summary is published, the notice shall advise where the text may be examined. The notice shall also advise whether a copy of any related agency or other official report or recommendation is available for examination.

b. Lists will be maintained of industry associations, professional societies, and other interested parties that have expressed a continuing desire to comment on proposed OFPP Regulations or proposed changes in the ASPR and FPR, and comments on significant changes will ordinarily be solicited directly from such associations and parties in addition

V 41 1158
AUG 13 76
UMI

to any notice that may be published in the FEDERAL REGISTER.

c. The solicitation of views from outside the Government may be waived, with the advance approval of the Administrator for Federal Procurement Policy, when circumstances make such solicitation impracticable, such as a requirement to implement a new statute in a relatively short time or when the proposed issuance is not considered to be significant.

d. Normally, at least 60 days shall be provided for the submission of comments, unless a shorter time period is required by unusual circumstances.

e. Unsolicited proposals for changes or additions to OFPP Regulations, the ASPR, and FPR shall be considered, and the reasons for any rejection shall be furnished to the proposers.

f. The foregoing procedures shall not be applicable to ASPR or FPR issuances which implement without substantive change OFPP Regulations or policies which have themselves been developed pursuant to such procedures.

g. Procurement regulations of executive agencies and their major components shall be issued in a manner consistent with the foregoing procedures, except that such procedures need not be followed for regulations which implement without substantive change one of the primary regulations.

h. Intra-agency regulations or directives which deal primarily with matters other than procurement, or which are concerned primarily with matters of agency procedure or management, shall be subject to the foregoing procedures only if their procurement aspects are considered by an agency to be of significant public interest; questionable cases should be referred to OFPP.

8. *Public Meetings.* a. A public meeting shall be convened in connection with the adoption, amendment, or repeal of a procurement policy or regulation whenever an agency determines that such a meeting would be likely to develop significant additional information or views, or would otherwise benefit the consideration of the issues involved.

b. When a public meeting is to be held, notice shall be published in the FEDERAL REGISTER at least 30 days prior thereto. (Such notice may be given at the same time the proposed regulation or policy is published for comment, in which case the notice period may run concurrently with the time allowed for comment.) The notice shall give the time and place of the meeting and shall include a statement of purpose and either the text or a summary of the matter to be considered. If a summary is published, the notice shall advise where the text may be examined. If the purpose of the meeting is to further the development of a policy or regulation for which there is no preliminary text or other formulation, the notice shall include background information and describe the issues to be considered. The notice shall advise whether a copy of any related agency or other official report or recommendation is available for examination. The notice shall also invite interested organizations, associations, firms, and members of the public to submit data, views, or arguments in writing, and shall offer an opportunity for oral presentation by or on behalf of any interested party requesting to be heard and making a written submission which is received at least one working day in advance of the meeting.

c. Any executive agency proposing to convene a public meeting in connection with the development of a procurement policy or regulation shall coordinate such action with OFPP, in order to ensure participation by all interested agencies and to avoid undue burden on the interested public which might result from meetings on the same topic held by different agencies. A public meeting should ordinarily not be convened by an individual executive agency except in connection with a proposed regulation peculiar to that agency's enabling statute, program requirements, or operations.

d. In addition to publication of a notice in the FEDERAL REGISTER, a notice shall be published in the *Commerce Business Daily*. Such notice should be forwarded to the Director of the *Commerce Business Daily* at least two weeks prior to the desired publication date, and should follow the normal format of the Daily's "Business News" items. The length should be less than 150 words, and should refer to a source for obtaining further details.

e. Criteria and procedures for public meetings involving proposed policies and regulations of the Office of Federal Procurement Policy are the subject of a separate OFPP Regulation.

9. *Advance Notice to OFPP.* DOD and GSA shall give the Administrator for Federal Procurement Policy advance notice of all major procurement regulations under consideration at the time development of such regulations is initiated. The purposes of this requirement are: (a) To enable the Administrator to keep the Congress fully and currently informed; (b) to permit timely designation by the Administrator of proposed procurement policies and regulations which shall be subject to formal public meetings of the OFPP; (c) to permit identification of regulations whose text is to be approved by the Administrator; and (d) to ensure the maximum feasible uniformity in the regulations.

10. *Reporting.* DOD and GSA shall submit to OFPP a quarterly report listing all open cases or actions in process to adopt, repeal, or amend the primary procurement regulations (ASPR and FPR) and the subsidiary procurement regulations of the executive agencies and their major components. Reports shall be obtained from the agencies for this purpose. Such listing shall be brief, but descriptive enough to indicate the substance and purpose of each action contemplated and the relative priorities of the actions. Matters believed to be of particular or unusual significance shall be stressed appropriately. The disposition of cases closed since the previous report shall be described.

11. *Implementation.* Implementation of the reequirement of Section 6.b. hereof, that the ASPR and FPR shall be made uniform, shall be through a plan to be developed by DOD and GSA and approved by OFPP. Similarly, the applicability of the ASPR to NASA shall be the subject of a plan to be developed by DOD and NASA and approved by OFPP.

REGULATION NO. 2

PUBLIC MEETINGS OF THE OFFICE OF FEDERAL PROCUREMENT POLICY

1. *Purpose.* This regulation provides for the conduct of formal public meetings by the Office of Federal Procurement Policy (OFPP) in connection with the establishment of procurement policies by the Administrator for Federal Procurement Policy.

2. *Authority.* Section 14(b) of the Office of Federal Procurement Policy Act (Pub. L. 93-400; 41 U.S.C. 412(b)) provides that the Administrator shall, by regulation, require that formal meetings of the Office, as designated by him, for the purpose of establishing procurement policies and regulations, shall be open to the public, and that public notice of each such meeting shall be given not less than 10 days prior thereto.

3. *Applicability.* This regulation applies to all procurement policy and regulation matters designated by the Administrator pursuant to 2 above in accordance with the criteria set forth in 6 below.

4. *Scheduling.* In matters designated by him, the Administrator will schedule one or more formal public meetings of the OFPP in connection with the establishment of OFPP policies and regulations.

5. *Conduct.* Meetings will be conducted to provide an opportunity for formal discussion of policies or regulations under consideration by OFPP. Members of the public who have made written submissions at least one working day in advance of the meeting shall be permitted to make brief oral presentations. The Administrator may require that such oral presentations be limited to a brief summary of the main points in the written submissions. At his discretion, the Administrator may allow other members of the public an opportunity to comment briefly on matters under discussion. In any case, the conduct of such meetings and the participation of all present will be subject to the control and direction of the Administrator at all times.

6. *Criteria.* A public meeting shall be convened in connection with the adoption, amendment or repeal of an OFPP policy or regulation when the Administrator determines that a public meeting would materially benefit the consideration of the issues, or would be likely to develop significant additional information or views, or would provide useful public visibility to the policy determination of the Office. However, the convening of such a meeting may be forgone if the Administrator determines that it is not feasible, as in matters of urgency or for other good cause.

7. *Notice.* Notice of any such public meeting shall normally be published in the FEDERAL REGISTER at least 30 days prior thereto. If comments have not previously been invited on the policy or regulation being considered, notice of the meeting shall normally be published at least 60 days prior thereto. The notice shall give the time, place, and purpose of the meeting and shall include either the text or a summary of the matter to be considered. If a summary is published, the notice shall advise where the text may be examined. If the purpose of the meeting is to further the development of a policy or regulation for which there is no preliminary text or other formulation, the notice shall include background information and describe the issues to be considered. If a copy of any related agency or other official report or recommendation is available for inspection, the notice shall advise where it may be examined. The notice shall also invite interested organizations, associations, firms, and members of the public to comment in writing and shall offer an opportunity for oral presentation by or on behalf of any interested party requesting to be heard and making a written submission which is received at least one working day in advance of the meeting. The notice may set a time limit for oral presentations if considered necessary. In addition to publication of a notice in the FEDERAL REGISTER, a brief notice shall be published in the "Business News" section of the *Commerce Business Daily*, which shall refer to a source for obtaining further details.

notices

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF THE TREASURY

Comptroller of the Currency

REGIONAL ADVISORY COMMITTEE ON BANKING POLICIES AND PRACTICES FOR THE SECOND NATIONAL BANK REGION

Meeting

A meeting of the Advisory Committee on Banking Policies and Practices for the Second National Bank Region will be held at The Club, World Trade Center, 107th Floor, Room A, New York City, New York, on Monday, August 30th, 1976. The meeting will begin at 9:30 a.m. and run until 4 p.m. Topics to be discussed will include an update on the regional implementation of the Haskins & Sells recommendations, EFTS, CBCTs and other topics of interest in the Region. The meeting will be open to the public and interested members will be admitted on a first come basis.

Persons or groups planning to make statements please submit three copies to the Regional Administrator of National Banks, Second National Bank Region, 33 Liberty Street, New York, New York 10005, prior to August 25, 1976.

Dated: August 9, 1976.

ROBERT BLOOM,
Acting Comptroller of the Currency.

Office of the Secretary

[Public Debt Series No. 20-76]

TREASURY BONDS OF 1996-2001

Interest Rates

AUGUST 9, 1976.

The Secretary of the Treasury announced on August 6, 1976, that the interest rate on the bonds described in Department Circular, Public Debt Series No. 20-76 dated July 29, 1976, will be 8 percent per annum. Accordingly, the bonds are hereby redesignated 8 percent Treasury Bonds of 1996-2001. Interest on the bonds will be payable at the rate of 8 percent per annum.

DAVID MOSSO,
Fiscal Assistant Secretary.

[FR Doc.76-23669 Filed 8-12-76;8:45 am]

DEPARTMENT OF DEFENSE

Department of the Army

REGIONAL DISCHARGE REVIEW SYSTEM

Establishment

The Army Discharge Review Board (ADRB) is authorized under 10 U.S.C. 1553 to review the discharge or dismissal of any former member of the Army either at the request of the former member or upon the Board's motion. A person who requests a review of a discharge or dismissal is entitled to appear before the Board in person or by counsel. In a memorandum dated June 18, 1975, the Department of Defense directed the military services to establish procedures for the review of discharges in locations outside of Washington, D.C. The purpose of the Department of Defense directive is to make it easier and less expensive for applicants who live at great distances from Washington, D.C., to appear in person before the Board.

Pursuant to this directive, the Army has now in part time operation Regional Panels in each of the following locations: Atlanta, Georgia; Colorado Springs, Colorado; San Francisco, California; and Indianapolis, Indiana. These panels convene and conduct hearings for a number of days each month on a continuing basis as determined by President, ADRB. The ADRB has expanded its operations as they presently appear in 32 CFR 581.2.

ADDITIONAL HEARING LOCATIONS

Notice is hereby given that approval has been granted for the Army Discharge Review Board (ADRB) to conduct hearings, within assigned resources, in areas other than those mentioned above, when the concentration of petitioners in a geographical area so warrants. This expanded availability will facilitate personal appearances before the Board.

ADRB Traveling Panels and Hearing Examiners are tentatively scheduled in accordance with the listing below. Travel to any particular location on the schedule will be at the discretion of the ADRB President based on the number of applications received from that location. The initial hearings by the traveling groups will be for cases already on hand and prepared for presentation. An applicant desiring to bring his case before one of the ADRB traveling units must submit an application at least six months before the visit scheduled for his location as indicated in the chart below. A former soldier desiring to apply for a review of his discharge may obtain information on how to initiate a discharge review from the local Veterans Administration Office or Commander, US Army Reserve Components Personnel and Administrative Center (USARCPAC), 9700 Page Boulevard, St. Louis, Missouri 63132. The ADRB traveling program will continue as long as there are sufficient applicants.

A Traveling Panel, consisting of six field grade officers, can hear and decide a case referred to it. Under the Hearing Examiner concept, an officer from the ADRB and a video technician travel to a field location where applicants, with counsel, present their cases before the Examiner and the video camera. The Examiner may, if appropriate, question the applicants and any witnesses that appear. A panel of the ADRB in Washington, D.C., will then hear the applicant's case by viewing the video tape and reviewing the applicant's personnel file and any written evidence introduced at the hearing. The Hearing Examiner is not a voting member of the ADRB panel deciding the case. His role is to present the video tape and evidence gathered in the field to the panel.

A three-month test of Traveling Panels and Hearing Examiners conducted in 12 cities and two penal institutions earlier this year proved the concept to be workable and well received in the areas visited.

The following table reflects the tentative annual schedule for ADRB Traveling Panels and Hearing Examiners and the dates by which applications must be submitted:

Month	Location			Application submission date
	Traveling panel	Hearing examiner	Hearing examiner	
January	None scheduled	None scheduled	None scheduled	
February	Los Angeles, Calif	Mobile, Ala	Spokane, Wash	Mar 1 to Aug 31.
March	Salt Lake City, Utah	Syracuse, N.Y	Hawaii [1]	Apr 1 to Sep 30.
April	Jackson, Miss	Phoenix, Ariz	Puerto Rico [1]	May 1 to Oct 31.
May	Pittsburgh, Pa	Omaha, Nebr	Las Vegas, Nev	Jun 1 to Nov 30.
June	Minneapolis, Minn	Buffalo, N.Y	Shreveport, La	Jul 1 to Dec 31.
July	Seattle, Wash	Helena, Mont	Alaska [1]	Aug 1 to Jan 31.
August	Austin, Tex	Raleigh, N.C	Madison, Wis	Sep 1 to Feb 28.
September	St. Petersburg, Fla	Oklahoma City, Okla	Norfolk, Va	Oct 1 to Mar 31.
October	Boston, Mass	Boise, Idaho	El Paso, Tex	Nov 1 to Apr 30.
November	Kansas City, Mo	Portland, Maine	Flint, Mich	Dec 1 to May 31.
December	None scheduled	None scheduled	None scheduled	

[1] Scheduled only when sufficient applications have been received.

Notice is hereby given that, since the foregoing itinerary is subject to modification and since, following receipt of a new application, the ADRB must obtain the petitioner's military records before a hearing may be scheduled, the receipt of an application by the ADRB is not tantamount to scheduling such hearing. Petitioners and/or their counsel will be notified by mail of the date and place of their hearing when personal appearance is requested.

Dated: August 9, 1976.

WILLIAM E. WEBER,
Colonel, Infantry, President, Army Discharge Review Board.

Office of the Attorney General

VOTING RIGHTS ACT AMENDMENTS OF 1975

Partial List of Determinations Made Pursuant to Section 4(b) of the Voting Rights Act of 1965, as Amended

Section 4(b) of the Voting Rights Act of 1965, 42 U.S.C. 1973, et seq., as amended by the Voting Rights Act Amendments of 1975 (Pub. L. 94-73) requires that the Director of the Census determine whether, in any State or any political subdivision of a State "less than 50 percentum of the citizens of voting age were registered on November 1, 1972, or that less than 50 percentum of such persons voted in the Presidential Election of November 1972." (42 U.S.C. 1973b(b).) Section 4(b) requires the Attorney General to determine whether any State or political subdivision of a State "maintained on November 1, 1972, any test or device," 42 U.S.C. 1973b(b). For purposes of this determination test or device is defined as "any practice or requirement by which any State or political subdivision provided any registration or voting notices, forms, instructions, assistance, or other materials or information relating to the electoral process, including ballots, only in the English language, where the Director of the Census determines that more than 5 percentum of the citizens of voting age residing in such State or political subdivision are members of a single language minority." (42 U.S.C. 1973b(f)(3).)

The Director of the Bureau of the Census and the Attorney General have made their respective determinations pursuant to sections 4(b) and 4(f)(3) with regard to some States and political subdivisions. Those jurisdictions which to date have been determined to meet the requirements of Section 4(b) and for which determinations have not been previously published in the FEDERAL REGISTER are listed in the following table. Determinations of coverage of additional jurisdictions under section 4(b) will appear in later issues of the FEDERAL REGISTER.

Dated: August 9, 1976.

EDWARD H. LEVI,
Attorney General.

Dated: August 10, 1976.

VINCENT P. BARABBA,
Director, Bureau of the Census.

FAIRBANKS DISTRICT ADVISORY BOARD

Meeting

Notice is hereby given that the Fairbanks District Advisory Board of the Bureau of Land Management will meet at the Fairbanks Inn Banquet Room, 1521 Cushman Street, Fairbanks Alaska, October 15–16, 1976, beginning at 8 a.m. both days. The meeting will be concerned primarily with the following issues: Wild and Scenic Rivers; National Petroleum Reserve Number 4; Minerals Management (access and invalid claims as a result of ANCSA withdrawals); and, Recreational Use Permit System.

The meeting will be open to the public. Time will be made available beginning at 1 p.m. on Friday, October 15, for brief statements by members of the public and, also, on Saturday, October 16, beginning at 1 p.m. Those wishing to make an oral statement should notify the District Manager, Fairbanks District, Bureau of Land Management, 1028 Aurora Drive, Fairbanks, Alaska 99701 by the close of business on October 12, 1976. Any interested person or organization may file a written statement with the Board for its consideration. Such statements may be submitted at the meeting or mailed to the District Manager, Fairbanks District, Bureau of Land Management. Further information concerning the meeting may be obtained from Bill Robertson, Public Affairs Officer, Fairbanks District, Bureau of Land Management, 1028 Aurora Drive, Fairbanks, Alaska 99701, or by calling (901) 452–4725.

CURTIS V. MCVEE,
State Director, Alaska.

Wisconsin

6. LOCATION WHERE PROPOSED ACTIVITY IS TO BE CONDUCTED
Import from Holland, and West Germany to Baraboo, Wisconsin direct (quarantine Clifton, N.J.)

7. DO YOU HOLD ANY CURRENTLY VALID FEDERAL FISH AND WILDLIFE LICENSE OR PERMIT? [X] YES [ ] NO
(If yes, list license or permit number)

8. IF REQUIRED BY ANY STATE OR FOREIGN GOVERNMENT, DO YOU HAVE THEIR APPROVAL TO CONDUCT THE ACTIVITY YOU PROPOSE? [ ] YES [ ] NO
(If yes, list jurisdictions and type of document)
not required

9. CERTIFIED CHECK OR MONEY ORDER (if applicable) PAYABLE TO THE U.S. FISH AND WILDLIFE SERVICE ENCLOSED IN AMOUNT OF

10. DESIRED EFFECTIVE DATE: 15 Sep 76

11. DURATION NEEDED

12. ATTACHMENTS: THE SPECIFIC INFORMATION REQUIRED FOR THE TYPE OF LICENSE/PERMIT REQUESTED (See 50 CFR 13.11(b)) MUST BE ATTACHED, IT CONSTITUTES AN INTEGRAL PART OF THIS APPLICATION. LIST SECTIONS OF 50 CFR UNDER WHICH ATTACHMENTS ARE PROVIDED.
4 Incl: Certificate submitted according to 50 CFR 13. Statement and picturen submitted as requested in 50 CFR 17.22

CERTIFICATION

I HEREBY CERTIFY THAT I HAVE READ AND AM FAMILIAR WITH THE REGULATIONS CONTAINED IN TITLE 50, PART 13, OF THE CODE OF FEDERAL REGULATIONS AND THE OTHER APPLICABLE PARTS IN SUBCHAPTER B OF CHAPTER I OF TITLE 50, AND I FURTHER CERTIFY THAT THE INFORMATION SUBMITTED IN THIS APPLICATION FOR A LICENSE/PERMIT IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE AND BELIEF. I UNDERSTAND THAT ANY FALSE STATEMENT HEREIN MAY SUBJECT ME TO THE CRIMINAL PENALTIES OF 18 U.S.C. 1001.

SIGNATURE (In ink) George W. Archibald
DATE June 23, 1976.

FORM 3-200 (6-75)

INTERNATIONAL CRANE FOUNDATION,
Baraboo, Wis., May 6, 1976.

C. R. BAVIN,
Chief, Division of Law Enforcement,
U.S. Department of the Interior,
Fish and Wildlife Service,
Washington, D.C. 20240.

DEAR DR. BAVIN: The International Crane Foundation is requesting an Endangered Species Permit for the importation of the following cranes for breeding purposes:

1 pair (male and female) White Naped Cranes (*Grus vipio*), from Mr. Jack Van der Brink, Amsterdam, Holland.

1 pair (male and female) White Naped Cranes (*Grus vipio*), from Mr. Wolfe Brom, Director, Walsrode Bird Park, Walsrode, West Germany.

1 each male Siberian Crane (*Grus leucogeranus*), from Mr. Wolfe Brem, Director, Walsrode Bird Park, Walsrode, West Germany.

1 each male Siberian Crane (*Grus leucogeranus*), from Dr. Heinz-Georg Klos, Director, West Berlin Zoo, West Berlin, West Germany.

The above listed birds are available for shipment and the owners are willing to ship them to us for propagation purposes.

These birds will be shipped via air to Clifton, New Jersey quarantine station for 30 days, then to Chicago, Illinois, and then they will be transported via truck from Chicago, Illinois to Baraboo, Wisconsin.

Please make the expiration date no less than 6 months for this permit as there is much coordinating to be done regarding so many quarantine units.

Sincerely,

MILDRED L. ZANTOW,
Administrator.

Submitted under "Rules and Regulations" Title 50, FEDERAL REGISTER, Vol. 40, No. 223, Tuesday, November 18, 1975, Part 17.22 Permits for scientific purposes or for the enhancement of propagation or survival.

1. To import 2 each adult female White Naped Cranes (*Grus vipio*), 2 each adult male White Naped Cranes (*Grus vipio*), and 2 each adult male Siberian Cranes (*Grus leucogeranus*) for propagation purposes.

2. These cranes are in captivity at the present time having been removed from the wild.

3. The only supply of these cranes at the present time is from the wild or from collectors who have breeding stock in their possession.

4. The exact location of removal from the wild is not known at the International Crane Foundation.

5. The cranes to be covered by this permit are the property of Mr. Jack Vande Brink of Amsterdam, Holland and the Walsrode Zoo, Walsrode, West Germany and are to be shipped to ICF on loan for propagation.

6. These cranes will be kept at the International Crane Foundation, City View Road, Baraboo, Wisconsin in individual confines. Each will have an enclosed wooden structure 15' x 15', and an outdoor exercise pen 40' x 60'. There are 15 such confines in the immediate area. Enclosed photo.

Dr. George Archibald is a Ph. D. from Cornell University, New York. He has studied and researched cranes in many countries of the world. At the present time he has 13 of the existing 15 species in his care at the International Crane Foundation. Dr. Archibald is considered an authority on crane care and propagation.

I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13, of the Code of Federal Regulations and the other applicable parts of Subchapter B of Chapter I of Title 50, and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

GEORGE W. ARCHIBALD,
Director,
International Crane Foundation.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), U.S. Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. This application has been assigned File Number PRT 2–215–07; please refer to this number when submitting comments. All relevant comments received on or before September 12, 1976 will be considered.

Dated: August 9, 1976.

C. R. BAVIN,
Chief, Division of Law Enforcement, U.S. Fish and Wildlife Service.

Packers and Stockyards Administration

LOGAN COUNTY LIVE STOCK MARKET, INC., RUSSELLVILLE, KENTUCKY, ET AL.

Proposed Posting of Stockyards

The Chief, Registrations, Bonds, and Reports Branch, Packers and Stockyards Administration, United States Department of Agriculture, has information that the livestock markets named below are stockyards as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 202), and should be made subject to the provisions of the Act.

KY-162	Logan County Live Stock Market Inc., Russellville, Kentucky.
KY-161	Henry County Stock Yards, Inc., Sligo, Kentucky.
NC-147	Mountain Livestock Auction, Murphy, North Carolina.
ND-131	Central Livestock Association, Inc., Dickinson, North Dakota.
OK-196	Fairfax Livestock Auction, Fairfax, Oklahoma.
OK-195	Woodward Livestock Auction, Inc., Woodward, Oklahoma.
WI-134	Equity Livestock Auction Market, Monroe, Wisconsin.

Notice is hereby given, therefore, that the said Chief, pursuant to authority delegated under the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.), proposes to issue a rule designating the stockyards named above as posted stockyards subject to the provisions of the Act as provided in section 302 thereof.

Any person who wishes to submit written data, views, or arguments concerning the proposed rule, may do so by filing them with the Chief, Registrations, Bonds, and Reports Branch, Packers and Stockyards Administration, United States Department of Agriculture, Washington, D.C. 20250, by August 27, 1975.

All written submissions made pursuant to this notice shall be made available for public inspection at such times and places in a manner convenient to the public business (7 U.S.C. 1.27(b)).

Done at Washington, D.C., this 10th day of August, 1976.

EDWARD L. THOMPSON,
Registrations, Bonds, and Reports Branch, Livestock Marketing Division.

Rural Electrification Administration

BASIN ELECTRIC POWER COOPERATIVE

Draft Environmental Impact Statement

Notice is hereby given that the Rural Electrification Administration intends to prepare a Draft Environmental Impact Statement in accordance with section 102(2)(C) of the National Environmental Policy Act of 1969 in connection with an anticipated request for a loan guarantee commitment for Basin Electric Power Cooperative, 1717 East Interstate Avenue, Bismarck, North Dakota 58501, to provide for new generation facilities and related transmission facilities.

The proposed generating facilities are expected to consist of two 450 MW lignite-fired steam generating units. It is presently proposed that these units will be constructed adjacent to the site of the planned American Natural Gas coal gasification plant near Beulah, North Dakota. The two plants propose to mutually share and exchange certain joint operations including water, coal and steam. Possible transmission facilities are being studied.

Interested persons are invited to submit comments which may be helpful in preparing the Draft Environmental Impact Statement.

Comments should be forwarded to the Assistant Administrator—Electric, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250, with a copy to the borrower whose address was given above. Additional information may be obtained at the borrower's office during regular business hours.

Dated at Washington, D.C., this 6th day of August, 1976.

DAVID A. HAMIL,
Administrator.

[FR Doc.76-23667 Filed 8-12-76;8:45 am]

BASIN ELECTRIC POWER COOPERATIVE AND TRI-STATE GENERATION AND TRANSMISSION ASSOCIATION, INC.

Proposed Loan Guarantees

Under the authority of Pub. L. 93-32 (87 Stat. 65) and in conformance with applicable agency policies and procedures as set forth in REA Bulletin 20-22 (Guarantee of Loans for Bulk Power Supply Facilities), notice is hereby given that the Administrator of REA will consider providing guarantees supported by the full faith and credit of the United States of America for loans in the approximate amount of $668,000,000 to Basin Electric Power Cooperative of Bismarck, North Dakota, and $381,000,000 to Tri-State Generation and Transmission Association, Inc. of Denver, Colorado, for undivided interest shares of the proposed Missouri Basin Power Project. These loan funds will be used to finance Basin's 42.27 percent share and Tri-State's 24.13 percent share of the Missouri Basin Power Project, which consists of a generation plant having three 500 MW coal-fired units, approximately 621 miles of transmission line (including 60 miles of double circuit transmission facilities) and various related facilities. The total cost of the Missouri Basin Power Project is currently estimated by REA to be $1,581,000,000.

Legally organized lending agencies capable of making, holding and servicing the loans proposed to be guaranteed may obtain information on the proposed project, including the engineering and economic feasibility studies and the proposed schedule for the advances to the borrowers of the guaranteed loan funds from Mr. James L. Grahl, Manager, Basin Electric Power Cooperative, 1717 East Interstate Avenue, Bismarck, North Dakota 58501.

In order to be considered, separate loan proposals should be developed for Basin's proposed 42.27 percent share and for Tri-State's proposed 24.13 percent share of the Missouri Basin Power Project and submitted within 30 days of the date of this notice. Proposals for Basin's share should be submitted to Mr. Grahl and financing proposals for Tri-State's share should be submitted to Mr. William E. Mickey, Manager, Tri-State Generation and Transmission Association, Inc., Post Office Box 29198, Denver, Colorado 80229. The right is reserved to give such consideration and make such evaluation or other disposition of all proposals received, as Basin Electric Power Cooperative, Tri-State Generation and Transmission Association, Inc., and the Rural Electrification Administration deem appropriate. Prospective lenders are advised that guaranteed financing for this project is available from the Federal Financing Bank under a standing agreement with the Rural Electrification Administration.

Copies of REA Bulletin 20-22 are available from the Director, Information Services Division, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250.

Dated at Washington, D.C., this 10th day of August 1976.

DAVID H. ASKEGAARD,
Acting Administrator,
Rural Electrification Administration.

MINNKOTA POWER COOPERATIVE, INC.

Draft Environmental Impact Statement

Notice is hereby given that the Rural Electrification Administration intends to prepare a Draft Environmental Impact Statement in accordance with section 102(2)(C) of the National Environmental Policy Act of 1969 in connection with an anticipated request for a loan guarantee commitment for Minnkota Power Cooperative, Inc., Box 1318, Grand Forks, North Dakota 58201, to provide for new generation facilities and related transmission facilities.

The proposed generating facilities are a joint venture to construct a nominal 440 MW generating station near Beulah, North Dakota. The participants at this time include Minnkota Power Cooperative, Inc. (30 percent share), Otter Tail Power Company (35 percent share), Montana-Dakota Utilities Company (20 percent share), Northwestern Public Service Company (10 percent share), and Minnesota Power and Light Company (5 percent share). Possible transmission facilities are being studied.

Interested persons are invited to submit comments which may be helpful in preparing the Draft Environmental Impact Statement.

Comments should be forwarded to the Assistant Administrator—Electric, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250, with a copy to the borrower whose address was given above. Additional information may be obtained at the borrower's office during regular business hours.

Dated at Washington, D.C., this 5th day of August, 1976.

DAVID A. HAMIL,
Administrator.

BUREAU OF INTERNATIONAL COMMERCE

Organization and Function

This order effective July 4, 1976 amends the material appearing at 39 FR 20622 of June 12, 1974, 39 FR 35694 of October 3, 1974, and 40 FR 41160 of September 5, 1975.

DIBA Organization and Function Order 43-2, dated March 25, 1974, as amended, is hereby further amended as follows:

1. Section 5. *Office of Export Development.* Subsection 5.10a is revised as follows to reflect the transfer of staff support for the President's Interagency Committee on Export Expansion (PICEE):

a. The President's Export Council Staff shall promote Government dialogue with U.S. business by providing coordination, program guidance and support services to the President's Export Council (PEC), the Regional Export Councils (REC) and the District Export Councils (DEC); shall assist the PEC in communicating its recommendations through the Secretary of Commerce to the President, the Council on International Economic Policy, and the President's Interagency Committee on Export Expansion (PICEE); and shall provide coordination and support services for PICEE.

2. Subsection 5.03 Export Information Division is revised by a pen and ink change to reflect transfer of the control intelligence function to the Bureau of East-West Trade:

Delete: and shall support the export control function of the Department and the economic defense activities of other U.S. agencies.

3. Subsection 5.04 Domestic Export Programs Division is amended as follows to reflect the transfer of PICEE staff support to the Office of the Director, OED:

.04 The Domestic Export Programs Division shall serve as the focal point for conducting domestic programs which stimulate an interest in exporting and provide information and assistance to firms interested in international trade. In this regard it shall organize conferences, seminars and other promotional techniques to familiarize U.S. industry with the advantages of exporting; shall develop promotional literature to acquaint U.S. firms with export opportunities and procedures and with BIC programs; shall direct the national multiplier program which enlists the support of service organizations such as banks and airlines in delivery of informational material on overseas marketing opportunities to carefully identified elements of industry; shall work with trade associations to promote exporting among their membership; shall serve as Washington liaison with DIBA's District Offices in support of the Export Assistance Masters Program (TEAM) which utilizes graduate university students to prepare foreign market surveys for individual U.S. firms; shall stimulate and arrange visits to expositions and industry for foreign businessmen and government officials; shall identify, with the assistance of the foreign Service, prospective foreign buyers and shall direct these buyers to appropriate domestic trade shows and arrange for meetings with U.S. manufacturers in order to facilitate sales; shall provide development, scheduling and displays for and shall participate in selected domestic trade shows to promote DIBA and Departmental programs; shall administer the President's "E" and "E Star" Award and other national incentive programs; shall direct national marketing and advertising efforts undertaken to stimulate export awareness; shall serve as liaison for the Bureau of International Commerce with the Office of Field Operations for the preparation of comprehensive prepackaged sales programs for the District Offices to use in their calls on target industries.

4. Section 6. *Office of International marketing* is revised to reflect the creation of a new division—*Operational Planning Division* and the abolishment of the Program Coordination Division, as follows:

.01 The Office of the Director includes: The Director who shall plan and direct the execution of the policies and programs of the Office, and the Deputy Director who shall provide principal direction to overseas operations, coordinate the development of individual Country Commercial Programs and the scheduling of trade promotion events, assure concurrence with Government policy and program documents such as Policy Analysis and Resource Allocation (PARA) and Country Analysis and Strategy Papers (CASP), and perform the functions of the Director in his absence. The Office of the Director shall also prepare or coordinate the preparation of OIM Publications, including the Commercial News for the Foreign Service. The Director shall supervise and direct the following:

.02 The Assistant Director for Program Development shall develop and coordinate information programs for industry; collect and disseminate foreign market data; be responsible for developmental planning of international trade promotion events; and maintain the planning interface with U.S. industry for all international trade promotion events.

a. The Operational Planning Division shall have responsibility for all phases of planning and market research specification development for all international trade promotion events including trade fairs, trade center exhibitions, trade missions, the joint export expansion program, technical sales seminars

V 41 158
AUG 13 76
UMI

and catalog events; analyze manufacturer/end-user relationships to develop new themes and precise definitions of targeted event participants; plan and prepare Global Market Surveys within each industry segment; establish international market research requirements; and develop and maintain a working relationship with U.S. industry to insure that the business community needs and desires are reflected in all planning.

b. The Market Research Division shall analyze market research bids received from contractors, determine the contractor, and arrange for the printing and production of Global Market Surveys and sectoral studies which are multiple product studies in a country.

5. Subsection 6.05 is revised as follows:

.05 The Developed Markets and Emergent Market areas shall each be responsible for the content and overall management of country marketing programs for assigned territory within global export priorities and targets established by the Office of Market Planning; serve as the focal point in DIBA for the development of the Country Commercial Program; provide overseas marketing information and counseling services to the U.S. business community and to other U.S. Government agencies; identify key economic, trade, financial and marketing problems in overseas country or country groupings; provide to the U.S. business community a regular review of the prospects for increased U.S. exports in significant overseas markets on a geographical basis; provide for development in detail of the annual country commercial programs; schedule and direct trade promotional activities within the country, including Trade Centers and commercial fairs; within the framework of Bureau-approved country programs, provide guidance and direction to overseas personnel engaged in commercial activities; i.e., the Commercial Foreign Service, Trade Center staffs, commercial fair staffs, and other trade promotion personnel; and maintain contact with foreign government representatives in the United States on matters concerning the marketing programs developed for their countries.

In addition to the functions set forth in paragraph .05, the Office of the Assistant Director for Emergent Markets shall administer the Department's responsibilities pursuant to the China Trade Act of 1922, as amended.

6. The attached BIC organization chart supersedes the organization chart dated August, 1975. A copy of the chart is on file with the original of this document in the Office of the FEDERAL REGISTER.

CHARLES W. HOSTLER,
Deputy Assistant Secretary for International Commerce.

Approved:

DONALD E. JOHNSON,
Deputy Assistant Secretary for Domestic and International Business.

[Order No. 48-1]

OFFICE OF FIELD OPERATIONS

Organization and Function

This order effective July 26, 1976 supplements the material appearing at 41 FR 1935 of January 13, 1976.

Section 1. *Purpose.* This order prescribes the scope of authority of the Deputy Assistant Secretary for Field Operations and describes the functions of the Office of Field Operations.

Section 2. *Organization and Line of Authority.* .01 The Deputy Assistant Secretary for Field Operations shall report and be responsible to the Assistant Secretary for Domestic and International Business. The Deputy Assistant Secretary shall be assisted by the Deputy Director who will coordinate Program development and implementation and who will also perform the functions of the Deputy Assistant Secretary in the latter's absence.

.02 The Deputy Assistant Secretary shall head the following organizational elements:

Office of the Deputy Assistant Secretary, District Offices, Satellite Offices.

Section 3. *Office of the Deputy Assistant Secretary.* .01 The Deputy Assistant Secretary for Field Operations shall be responsible to the Assistant Secretary, Domestic and International Business. He shall plan and direct the execution of policies and programs of the Office of Field Operations which shall serve as the principal medium of contact with the business community at local levels through District Offices located in principal cities throughout the country.

.02 The Deputy Director shall assist in the direction of the Office and perform the functions of the Deputy Assistant Secretary in his absence.

.03 OFO Headquarters Office shall plan, direct, control and evaluate effectiveness of the field implementation of DIBA programs and the business-related programs of other Commerce organizations, and shall be responsible for assisting DIBA Bureaus and other Commerce organizations in the planning and design of business information. Field implementation includes the delivery of export information and related business aids; the conduct of domestic marketing and business reference services, including publication of the Commerce Business Daily and guidance and direction of Federal Preparedness Programs, Crisis Management and Emergency Operations. The Office of the Director also shall be responsible for issuing and maintaining the Field Operations Manual and for the necessary administrative liaison between the Directorate of Administrative Management for DIBA, and the field structure.

.04 Each District Office under the direction of a District Office Director shall serve as the Department's principal medium of contact wtih the business community within its area. Under guidelines and priorities established by the DAS/FO, District Offices shall ascertain the needs and desires for information and assistance relevant to the private economy that fall within the scope of Commerce's responsibilities; deliver to business and industry export promotion and expansion programs, information, and services; maintain and operate domestic informational services and related activities; and effect support and multiplier activities with business and professional organizations, state and local government agencies, educational institutions, and other appropriate organizations. In addition, District Office Directors designated as Emergency Coordinators shall, in coordination with other appropriate Commerce District Directors, execute such Federal Preparedness Planning, Crisis Management and Emergency Operations as are outlined in D.O.O. 40-1 and as may be directed by the Department.

.05 Each Satellite Office under the direction of the responsible District Office Director shall serve as a vehicle to complement the efforts of District Office in carrying out the Department's foreign trade and domestic trade business programs in its area, and to coordinate State and Federal activities related to these programs. Under guidelines and priorities established by District Office Directors, Satellite Offices shall answer business inquiries; make out-of-office calls on local business firms to promote and encourage the use of the business services of the Department; establish an "account executive program" for providing services to firms having high export potential; counsel firms on business problems; conduct both domestic and international trade seminars; and explain, as appropriate, to personnel of the agency in which the Satellite Office is located, the services available to business firms from the Department of Commerce.

Section 4. *Administrative and Public Affairs.* .01 The Office of Public Affairs, DIBA shall furnish public affairs and information services to the Office of Field Operations and its District Offices.

.02 The Directorate of Administrative Management, DIBA shall furnish management, budget, personnel, travel and administrative services. The Directorate will also serve as liaison with Departmental elements providing other administraitve services.

LEONARD S. MATTHEWS,
Assistant Secretary for Domestic and International Business.

National Bureau of Standards

FEDERAL INFORMATION PROCESSING STANDARDS TASK GROUP 15, COMPUTER SYSTEMS SECURITY

Meeting

Pursuant to the Federal Advisory Committee Act, 5 U.S.C. App. 1 (Supp. IV, 1974), notice is hereby given that the Federal Information Processing Standards Task Group 15 (FIPS TG-15), "Computer Systems Security" will hold a meeting from 9 a.m. to 4 p.m. on Tuesday, September 21, 1976 in Room B-163, Building 222 and on Wednesday, September 22 and Thursday, September 23, 1976 in Room B-27, Building 225 of the National Bureau of Standards at Gaithersburg, Maryland.

The purpose of this meeting is to review the efforts of the task teams in their specific assignments and to continue the development of guidelines in the management and technological areas of information processing security.

The meeting will be open to the public, who may participate with oral or written statements. Inquiries may be addressed to Miss Susan K. Reed, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C. 20234 (phone 301-921-3861).

Dated: August 10, 1976.

ERNEST AMBLER,
Acting Director.

[FR Doc.76-23764 Filed 8-12-76;8:45 am]

National Oceanic and Atmospheric Administration

ECOLOGICAL SERVICES, TEXAS INSTRUMENTS, INC.

Receipt of Application for Endangered Species Permit

Notice is hereby given that the following Applicant has applied in due form for a permit to take an endangered species of fish for scientific purposes as authorized by the Endangered Species Act of 1973 (16 U.S.C. 1531-1543) and the National Marine Fisheries Service Regulations Governing Endangered Fish and Wildlife Permits (50 CFR 217-222).

Ecological Services, Texas Instruments, Inc., P.O. Box 237, Buchanan, New York 10511, to take for research purposes, an endangered species of fish, the shortnose sturgeon (*Acipenser brevirostrum*) in the Hudson River in the State of New York during a 3-year period.

The Applicant will in the course of assessing the status of fish populations and the impact of power generation facilities on these populations occasionally take shortnose sturgeon by such means as gill netting or trawling. Live specimens so captured will be measured, weighed and returned immediately to the Hudson River. Any specimen found dead upon the retrieval of the collecting gear will be preserved after being weighed and measured. Such specimens will be deposited in scientific collections.

The data collected from these occasionally captured specimens will be provided to other researchers who are conducting more extensive work on shortnose sturgeon.

Documents submitted in connection with this application are available for review in the following offices:

Director, National Marine Fisheries Service, Department of Commerce, 3300 Whitehaven Street, NW., Washington, D.C.; and Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930.

Written data or views, or requests for a public hearing on this application, should be submitted to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, on or before September 13, 1976. The holding of such a hearing is at the discretion of the Director. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular application would be appropriate.

Any statements and opinions that may be contained in this notice in support of this application are summarized from information supplied by the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: August 6, 1976.

HARVEY M. HUTCHINGS,
Acting Associate Director, for Resource Management, National Marine Fisheries Service.

[FR Doc.76-23703 Filed 8-12-76;8:45 am]

INTERNATIONAL MARINE MAMMAL PROGRAM

Report of NOAA/FWS Task Force

Under section 108(a) of the Marine Mammal Protection Act, the Secretaries of Commerce and Interior, through the Secretary of State, are charged with the responsibility to see that the concepts embodied in the Act are implemented in the conservation of all marine mammals in all parts of the world.

Therefore, the National Oceanic and Atmospheric Administration (NOAA) and the U.S. Fish and Wildlife Service (FWS) established a Task Force to prepare recommendations for an International Marine Mammal Program. The Task Force report, which does not necessarily reflect policy of NOAA or FWS, but which will be used to help develop it, will now be submitted to an interagency committee of all interested government agencies. In order to give all interested individuals an opportunity to express their views for consideration by the interagency committee, copies of the Task Force report are available from the Office of International Affairs, National Oceanic and Atmospheric Administration, Main Commerce Building, Room 5804, Washington, D.C. 20230 (telephone 202-377-2977). Comments on the report, directed to the same address, are requested by August 27, 1976.

Dated: August 10, 1976.

ROBERT W. SCHONING,
Director, National Marine Fisheries Service.

STATE OF OREGON

Public Hearing on Draft Environmental Impact Statement

Notice is hereby given that the Office of Coastal Zone Management, National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce, will hold two public hearings for the purpose of receiving comments on the draft environmental impact statement for the Coastal Zone Management Program of the State of Oregon.

The first hearing will be held in the Oregon State University Marine Science Center Auditorium, Newport, Oregon, at 7:30 p.m., Wednesday, September 15, 1976. The second hearing will be held on September 16, 1976, at 7:30 p.m., in the Multnomah County Courthouse, County Commissioners Chambers, 1021 SW. 4th Street, Portland, Oregon.

The views of interested persons and organizations are solicited. These may be expressed orally or in written statements. Presentations will be scheduled on a first-come, first served basis, but may be limited to a maximum of ten minutes or as otherwise appropriate. Priority will be given to those with written statements. Time will be available at the end of the meeting for persons without statements to present their views orally. The Office of Coastal Zone Management staff may question any speaker following presentation of his statement. No verbatim transcript of the hearing will be maintained; but staff present will record the general thrust of remarks.

Persons or organizations wishing to be heard on this matter should contact the Office of Coastal Zone Management as soon as possible so that an appearance schedule may be drawn up and definite times established for presentations. Please contact:

Grant Dehart, National Oceanic and Atmospheric Administration, Office of Coastal Zone Management, 3300 Whitehaven Street NW., Washington, D.C. 20235 (phone: 202/634-4235).

Written comments may also be submitted by mail to the Office of Coastal Zone Management. Such comments must be received before September 24, 1976, to be considered for inclusion in the final environmental impact statement.

Copies of the draft environmental impact statement may be obtained by contacting the Office of Coastal Zone Management or:

Oregon Land Conservation and Development Commission, 1175 Court Street, NE., Salem, Oregon 97310 (phone: 503/378-4926).

The statement is also available for inspection by the public, both at the Office of Coastal Zone Management and at the following locations:

Astoria Public Library, 450 10th Avenue, Astoria, Oregon 97103.
Bandon Public Library, Box 128, Bandon, Oregon 97411.
Bay City Library, Bay City, Oregon 97107.

Seaside Public Library, 60 North Roosevelt Drive, Seaside, Oregon 97138.
Tillamook County Library, 210 Ivy Avenue, Tillamook, Oregon 97141.
Toledo Public Library, 150 North Alder Street, Toledo, Oregon 97391.
Southwestern Oregon Community College Library, Box 518, Empire Station, Coos Bay, Oregon 97420.
Library, Umpqua Community College, P.O. Box 967, Roseburg, Oregon 97470.
Library, University of Oregon, Eugene, Oregon 97403.

Comments may address the adequacy of the impact statement and/or the nature of the Oregon Coastal Zone Management Program itself.

Following consideration of the comments received at this hearing, as well as written comments submitted, the Office of Coastal Zone Management will prepare the final environmental impact statement pursuant to the National Environmental Policy Act of 1969 and implementing guidelines.

T. P. GLEITER,
Assistant Administrator for Administration.

ROBERT ELSNER

Modification of Permit

Notice is hereby given that, pursuant to the provisions of § 216.33 (d) and (e) of the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216), the Scientific Research Permit issued to Robert Elsner, Institute of Marine Science, University of Alaska, Fairbanks, Alaska 99701, on July 3, 1974, is modified in the following manner:

The period of validity, during which the authorized marine mammals may be taken, is extended from August 1, 1976, to August 1, 1973.

This modification is effective on August 13, 1976.

The permit, as modified, and documentation pertaining to the modification is available for review in the following offices:

Director, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.; and
Regional Director, National Marine Fisheries Service, Alaska Region, P.O. Box 1668, Juneau, Alaska 99801.

Dated: July 27, 1976.

JACK W. GEHRINGER,
Deputy Director, National Marine Fisheries Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. 76N-0282; DESI 4589]

ALCOHOL-DEXTROSE INTRAVENOUS SOLUTIONS

Drugs for Human Use; Drug Efficacy Study Implementation; Followup Notice and Opportunity for Hearing

In a notice (DESI 4589; Docket No. FDC-D-490 (now Docket No. 76N-0282)) published in the FEDERAL REGISTER July 28, 1972 (37 FR 15184), the Food and Drug Administration announced its conclusions that the drug products described below are effective for increasing caloric intake and less than effective (possibly effective and lacking substantial evidence of effectiveness) for certain other indications. The notice provided an opportunity for hearing for the indication concluded at that time to lack substantial evidence of effectiveness. No person submitted data in support of the possibly effective indications, and they are now reclassified as lacking substantial evidence of effectiveness. This notice offers an opportunity for hearing concerning the possibly effective indications which are now reclassified as lacking substantial evidence of effectiveness and states the conditions for marketing the drugs for the indication for which they continue to be regarded as effective. Persons who wish to request a hearing may do so on or before September 13, 1976.

The notice that follows does not pertain to the indication stated in the July 28, 1972 notice to lack substantial evidence of effectiveness. No person requested a hearing concerning it, and it is no longer allowable in labeling. Any such product labeled for that indication is subject to regulatory action.

1. That part of NDA 4-589 pertaining to 5 percent Alcohol, 5 percent Dextrose in Normal Saline: McGraw Laboratories, 1015 Grandview Ave., Glendale, CA 91201.

2. That part of NDA 4-589 pertaining to 5 percent Alcohol, 5 percent Dextrose in Distilled Water; McGraw Laboratories.

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. An approved new drug application is a requirement for marketing such drug products.

In addition to the holder(s) of the new drug application(s) specifically named above, this notice applies to all persons who manufacture or distribute a drug product, not the subject of an approved new drug application, that is identical, related, or similar to a drug product named above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice to determine whether it covers any drug product he manufactures or distributes. Any person may request an opinion of the applicability of this notice to a specific drug product he manufactures or distributes that may be identical, related, or similar to a drug product named in this notice by writing to the Food and Drug Administration, Bureau of Drugs, Division of Drug Labeling Compliance (HFD-310), 5600 Fishers Lane, Rockville, MD 20852.

A. *Effectiveness classification.* The Food and Drug Administration has reviewed all available evidence and concludes that the drugs are effective for the indication listed in the labeling conditions below. The drugs now lack substantial evidence of effectiveness for the indications evaluated as possibly effective in the July 28, 1972 notice.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug applications under conditions described herein.

1. *Form of drug.* The drug is in sterile aqueous solution form suitable for intravenous administration.

2. *Labeling conditions.* a. The label bears the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drug is labeled to comply with all requirements of the act and regulations, and the labeling bears adequate information for safe and effective use of the drug. The Indication is as follows:

For increasing caloric intake.

3. *Marketing status.* a. Marketing of such drug products that are now the subject of an approved or effective new drug application may be continued provided that, on or before October 12, 1976, the holder of the application submits, if he has not previously done so, (i) a supplement for revised labeling as needed to be in accord with the labeling conditions described in this notice, and complete container labeling if current container labeling has not been submitted, and (ii) a supplement to provide updating information with respect to items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of new drug application form FD-356H (21 CFR 314.1(c)) to the extent required in abbreviated applications (21 CFR 314.1 (f)).

b. Approval of an abbreviated new drug application (21 CFR 314.1(f)) must be obtained prior to marketing such product. Marketing prior to approval of a new drug application will subject such products, and those persons who caused the products to be marketed, to regulatory action.

C. *Notice of opportunity for hearing.* On the basis of all the data and information available to him, the Director of the Bureau of Drugs is unaware of any adequate and well-controlled clinical investigation, conducted by experts qualified by scientific training and experience, meeting the requirements of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355), 21 CFR 314.111 (a)(5), and 21 CFR 300.50, demonstrating the effectiveness of the drug(s) for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice.

Notice is given to the holder(s) of the new drug application(s), and to all other interested persons, that the Director of the Bureau of Drugs proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), withdrawing approval of the new drug application(s) (or, if indicated above, those part of the application(s) providing for the drug product(s) listed above) and all amendments and supplements thereto providing for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice on the ground that new information before him with respect to the drug product(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug product(s) will have all the effects it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling. An order withdrawing approval will not issue with respect to any application(s) supplemented, in accord with this notice, to delete the claim(s) lacking substantial evidence of effectiveness.

In addition to the ground for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug products subject to it (including identical, related, or similar drug products as defined in 21 CFR 310.6), e.g., any contention that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201(p) of the act or because it is exempt from part or all of the new drug provisions of the act pursuant to the exemption for products marketed prior to June 25, 1938, contained in section 201(p) of the act, or pursuant to section 107(c) of the Drug Amendments of 1962; or for any other reason.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Parts 310, 314), the applicant(s) and all other persons who manufacture or distribute a drug product which is identical, related, or similar to a drug product named above (21 CFR 310.6), are hereby given an opportunity for a hearing to show why approval of the new drug application(s) providing for the claim(s) involved should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of a drug product named above and all identical, related, or similar drug products.

If an applicant or any person subject to this notice pursuant to 21 CFR 310.6 elects to avail himself of the opportunity for a hearing, he shall file (1) on or before September 13, 1976, a written notice of appearance and request for hearing, and (2) on or before October 12, 1976, the data, information, and analyses on which he relies to justify a hearing, as specified in 21 CFR 314.200. Any other interested person may also submit comments on this proposal to withdraw approval. The procedures and requirements governing this notice of opportunity for hearing, a notice of appearance and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing, are contained in 21 CFR 314.200.

The failure of an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 to file timely written appearance and request for hearing as required by 21 CFR 314.200 constitutes an election by such person not to avail himself of the opportunity for a hearing concerning the action proposed with respect to such drug product and a waiver of any contentions concerning the legal status of such drug product. Any such drug product labeled for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice may not thereafter lawfully be marketed, and the Food and Drug Administration will initiate appropriate regulatory action to remove such drug products from the market. Any new drug product marketed without an approved NDA is subject to regulatory action at any time.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, or when a request for hearing is not made in the required format or with the required analyses, the Commissioner will enter summary judgment against the person(s) who requests the hearing, making findings and conclusions, denying a hearing.

All submissions pursuant to this notice of opportunity for hearing shall be filed in quintuplicate. Such submissions, except for data and information prohibited from public disclosure pursuant to 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the office of the Hearing Clerk (address given below) during working hours, Monday through Friday.

Communications forwarded in response to this notice should be identified with the reference number DESI 4589, directed to the attention of the appropriate office named below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852.

Supplements (identify with NDA number): Division of Surgical-Dental Drug Products (HFD-160), Rm. 18B-08, Bureau of Drugs.

Original abbreviated new drug applications (identify as such): Division of Generic Drug Monographs (HFD-530), Bureau of Drugs.

Request for Hearing (identify with Docket number appearing in the heading of this notice): Hearing Clerk, Food and Drug Administration (HFC-20), Rm. 4-65.

Requests for the report of the National Academy of Sciences-National Research Council: Data Preparation Branch (HFD-614), Division of Drug Information Resources, Bureau of Drugs.

Other communications regarding this notice: Drug Efficacy Study Implementation Project Manager (HFD-101), Bureau of Drugs.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050-1053, as amended (21 U.S.C. 352, 355)) and under the authority delegated to the Director of the Bureau of Drugs (21 CFR 5.31) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)).

Dated: August 5, 1976.

J. RICHARD CROUT,
Director, Bureau of Drugs.

[FR Doc. 76-23628 Filed 8-12-76;8:45 am]

[DESI 9296]

CERTAIN ANTIHYPERTENSIVE COMBINATION DRUGS

Drugs for Human Use; Drug Efficacy Study Implementation

In a notice published in the FEDERAL REGISTER of October 11, 1973 (38 FR 28093), the Commissioner of Food and Drugs withdrew approval of that part of NDA 12-359 providing for Salutensin Tablets containing protoveratrine A, reserpine, and hydroflumethiazide. The basis for that action was the drug product lacked substantial evidence of effectiveness as a fixed combination. The product had been used in the treatment of high blood pressure. The manufacturer reformulated the product to delete the component protoveratrine A leaving only reserpine and hydroflumethiazide in the product. Combinations similar to that reformulated product were reviewed in the Drug Efficacy Study, were concluded to be effective for the treatment of hypertension, and that conclusion was published in the FEDERAL REGISTER of February 6, 1973 (38 FR 3418) (DESI 9296). The Director of the Bureau of Drugs concludes that the reserpine and hydroflumethiazide combination is also effective for the treatment of hypertension. The notice that follows states that conclusion and sets forth the conditions for marketing such product.

NDA 12-359; Salutensin Tablets containing hydroflumethiazide and reserpine; Bristol Laboratories, Division Bristol-Myers Co., P.O. Box 657, Syracuse, NY 13201.

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. An approved new drug application

V 41 1158 AUG 13 76 UMI

is a requirement for marketing such drug products.

In addition to the holder(s) of the new drug application(s) specifically named above, this notice applies to all persons who manufacture or distribute a drug product, not the subject of an approved new drug application, that is identical, related, or similar to a drug product named above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice to determine whether it covers any drug product he manufactures or distributes. Any person may request an opinion of the applicability of this notice to a specific drug product he manufactures or distributes that may be identical, related, or similar to a drug product named in this notice by writing to the Food and Drug Administration, Bureau of Drugs, Division of Drug Labeling Compliance (HFD–310), 5600 Fishers Lane, Rockville, MD 20852.

A. *Effectiveness classification.* The Food and Drug Administration has reviewed all available evidence and concludes that the drug is effective for the indications listed in the labeling conditions below.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug applications under conditions described herein.

1. *Form of drug.* The drug is in tablet form suitable for oral administration.

2. *Labeling conditions.* a. The label bears the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drug is labeled to comply with all requirements of the act and regulations, and the labeling bears adequate information for safe and effective use of the drug. The Indication is as follows:

For treatment of hypertension (see box warning). The labeling should contain the following warning in a box and dosage statement.

WARNING

This fixed combination drug is not indicated for initial therapy of hypertension. Hypertension requires therapy titrated to the individual patient. If the fixed combination represents the dosage so determined, its use may be more convenient in patient management. The treatment of hypertension is not static, but must be reevaluated as conditions in each patient warrant.

DOSAGE: As determined by individual titration (see box warning).

3. *Marketing status.* a. Marketing of such drug products that are now the subject of an approved or effective new drug application may be continued provided that, on or before October 12, 1976, the holder of the application submits, if he has not previously done so, (i) a supplement for revised labeling as needed to be in accord with the labeling conditions described in this notice, and complete container labeling if current container labeling has not been submitted, and (ii) a supplement to provide updating information with respect to items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of new drug application form FD–356H (21 CFR 314.1(c)) to the extent required in abbreviated applications (21 CFR 314.1(f)).

b. Approval of an abbreviated new drug application (21 CFR 314.1(f)) must be obtained prior to marketing such products. Marketing prior to approval of a new drug application will subject such products, and those persons who caused the products to be marketed, to regulatory action.

Communications forwarded in response to this notice should be identified with the reference number DESI 9296, directed to the attention of the appropriate office named below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852.

Supplements (identify with NDA number): Division of Cardio-Renal Drug Products (HFD–110), Rm. 16B–45, Bureau of Drugs.

Original abbreviated new drug applications (identify as such): Division of Generic Drug Monographs (HFD–530), Bureau of Drugs.

Other communications regarding this notice: Drug Efficacy Study Implementation Project Manager (HFD–101), Bureau of Drugs.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–1053, as amended (21 U.S.C. 352, 355)) and under the authority delegated to the Director of the Bureau of Drugs (21 CFR 5.31) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)).

Dated: August 5, 1976.

Director, Bureau of Drugs.

[FR Doc.76–23625 Filed 8–12–76;8:45 am]

[Docket No. 76N–0281; DESI 8943]

CERTAIN CARBONIC ANHYDRASE INHIBITORS

Drugs for Human Use; Drug Efficacy Study Implementation; Followup Notice and Opportunity for Hearing

In a notice (DESI 8943; Docket No. FDC–D–306 (now Docket No. 76N–0281)) published in the FEDERAL REGISTER, July 25, 1972 (37 FR 14828), the Food and Drug Administration announced its conclusions that the drug products described below containing dichlorphenamide are effective in the adjunctive treatment of glaucoma, and the drug product containing ethoxzolamide is effective in the adjunctive treatment of glaucoma and edema due to congestive heart failure. The drug products were also classified as less than effective (possibly effective, probably effective, and lacking substantial evidence of effectiveness) for certain other indications. The notice provided an opportunity for hearing for the indications concluded at that time to lack substantial evidence of effectiveness. No person submitted data in support of the probably effective or possibly effective indications, and they are now reclassified as lacking substantial evidence of effectiveness. The holders of the new drug applications listed below have deleted all less-than-effective indications from the labeling of the drug products. This notice offers an opportunity for hearing concerning the probably effective and possibly effective indications, which are now reclassified as lacking substantial evidence of effectiveness, and states the conditions for marketing the drugs for the indications for which they continue to be regarded as effective. Persons who wish to request a hearing may do so on or before September 13, 1976. Other products included in the July 25, 1972 notice are not affected by this notice.

The notice that follows does not pertain to the indications stated in the July 25, 1972 notice to lack substantial evidence of effectiveness. No person requested a hearing concerning them, and they are no longer allowable in labeling. Any such product labeled for those indications is subject to regulatory action.

1. NDA 11–047; Cardrase Tablets containing ethoxzolamide; The Upjohn Co., 7171 Portage Rd., Kalamazoo, MI 49002.

2. NDA 12–499; Oratrol Tablets containing dichlorphenamide; Alcon Laboratories, Inc., 6201 S. Freeway Rd., Box 1959, Ft. Worth, TX 76101.

3. NDA 11–366; Daranide Tablets containing dichlorphenamide; Merck Sharp & Dohme, Division of Merck & Co., Inc., West Point, PA 19486.

4. NDA 16–144; Ethamide Tablets containing ethoxzolamide; Allergan Pharmaceuticals, Inc., 2525 DuPont Dr., P.O. Box DP, Irvine, CA 92664 (NDA 16–144 was approved after publication of the July 25, 1972 notice. Although it was not included in that notice, the conclusions described herein apply to it.)

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. An approved new drug application is a requirement for marketing such drug products.

In addition to the holder(s) of the new drug application(s) specifically named above, this notice applies to all persons who manufacture or distribute a drug product, not the subject of an approved new drug application, that is identical, related, or similar to a drug product named above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice to determine whether it covers any drug product he manufactures or distributes. Any person may request an opinion of the applicability of this notice to a specific drug product he manufactures or distributes that may be identical, related, or similar to a drug product named in this notice by writing to the Food and Drug Administration, Bureau of Drugs, Division of Drug Labeling Compliance (HFD–310), 5600 Fishers Lane, Rockville, MD 20852.

A. *Effectiveness classification.* The Food and Drug Administration has reviewed all available evidence and concludes that the drugs are effective for the indications listed in the labeling conditions below. The drugs now lack substantial evidence of effectiveness for the indications evaluated as probably effective and possibly effective in the July 25, 1972 notice.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug applications under conditions described herein.

1. *Form of drug.* The drug is in conventional tablet form suitable for oral administration.

2. *Labeling conditions.* a. The label bears the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drug is labeled to comply with all requirements of the act and regulations, and the labeling bears adequate information for safe and effective use of the drug. The Indications are of follows:

ETHOXZOLAMIDE

The adjunctive treatment of: edema due to congestive heart failure; chronic simple (open angle) glaucoma, secondary glaucoma, and preoperatively in acute angle closure glaucoma where delay of surgery is desired in order to lower intraocular pressure.

DICHLORPHENAMIDE

For adjunctive treatment of: chronic simple (open angle) glaucoma, secondary glaucoma, and preoperatively in acute angle closure glaucoma where delay of surgery is desired in order to lower intraocular pressure.

3. *Marketing status.* a. Marketing of such drug product that is now the subject of an approved or effective new drug application may be continued provided that, on or before October 12, 1976, the holder of the application submits, if he has not previously done so, (i) a supplement for revised labeling as needed to be in accord with the labeling conditions described in this notice, and complete container labeling if current container labeling has not been submitted, and (ii) a supplement to provide updating information with respect to items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of new drug application form FD–356H (21 CFR 314.1(c))) to the extent required in abbreviated applications (21 CFR 314.1(f)).

b. Approval of an abbreviated new drug application (21 CFR 314.1(f)) must be obtained prior to marketing such product. Marketing prior to approval of a new drug application will subject such products, and those persons who caused the products to be marketed, to regulatory action.

C. *Notice of opportunity for hearing.* On the basis of all the data and information available to him, the Director of the Bureau of Drugs is unaware of any adequate and well-controlled clinical investigation, conducted by experts qualified by scientific training and experience, meeting the requirements of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and 21 CFR 314.111(a)(5), demonstrating the effectiveness of the drug(s) for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice.

Notice is given to the holder(s) of the new drug application(s), and to all other interested persons, that the Director of the Bureau of Drugs proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), withdrawing approval of the new drug application(s) and all amendments and supplements thereto providing for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice on the ground that new information before him with respect to the drug product(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug product(s) will have all the effects it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling. An order withdrawing approval will not issue with respect to any application(s) supplemented, in accord with this notice, to delete the claim(s) lacking substantial evidence of effectiveness.

In addition to the ground for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug products subject to it (including identical, related, or similar drug products as defined in 21 CFR 310.6), e.g., any contention that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201(p) of the act or because it is exempt from part or all of the new drug provisions of the act pursuant to the exemption for products marketed prior to June 25, 1938, contained in section 201(p) of the act, or pursuant to section 107(c) of the Drug Amendments of 1962; or for any other reason.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Parts 310.314), the applicant(s) and all other persons who manufacture or distribute a drug product which is identical, related, or similar to a drug product named above (21 CFR 310.6), are hereby given an opportunity for a hearing to show why approval of the new drug application(s) providing for the claim(s) involved should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of a drug product named above and all identical, related, or similar drug products.

If an applicant or any person subject to this notice pursuant to 21 CFR 310.6 elects to avail himself of the opportunity for a hearing, he shall file (1) on or before September 13, 1976, a written notice of appearance and request for hearing, and (2) on or before October 12, 1976, the data, information, and analyses on which he relies to justify a hearing, as specified in 21 CFR 314.200. Any other interested person may also submit comments on this proposal to withdraw approval. The procedures and requirements governing this notice of opportunity for hearing, a notice of appearance and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing, are contained in 21 CFR 314.200.

The failure of an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 to file timely written appearance and request for hearing as required by 21 CFR 314.200 constitutes an election by such person not to avail himself of the opportunity for a hearing concerning the action proposed with respect to such drug product and a waiver of any contentions concerning the legal status of such drug product. Any such drug product labeled for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice may not thereafter lawfully be marketed, and the Food and Drug Administration will initiate appropriate regulatory action to remove such drug products from the market. Any new drug product marketed without an approved NDA is subject to regulatory action at any time.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, or when a request for hearing is not made in the required format or with the required analyses, the Commissioner will enter summary judgment against the person(s) who requests the hearing, making findings and conclusions, denying a hearing.

All submissions pursuant to this notice of opportunity for hearing shall be filed in quintuplicate. Such submissions, except for data and information prohibited from public disclosure pursuant to 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the office of the Hearing Clerk (address given below) during working hours, Monday through Friday.

Communications forwarded in response to this notice should be identified with the reference number DESI 8943, directed to the attention of the appropriate office named below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852.

[Docket No. 76N-0312; DESI's 7913 and 9130]

CERTAIN STEROID PREPARATIONS FOR OPHTHALMIC AND/OR OTIC USE

Drugs for Human Use; Drug Efficacy Study Implementation; Followup Notice and Opportunity for Hearing

In a notice (DESI 9130; Docket No. FDC-D-221 (now Docket No. 76N-0312)) published in the FEDERAL REGISTER of August 26, 1970 (35 FR 13605), and in a subsequent notice (DESI 7913; Docket No. FDC-D-323 (now also Docket No. 76N-0312)) published in the FEDERAL REGISTER of October 22, 1971 (36 FR 20451), the Food and Drug Administration announced its conclusions that certain steroid preparations described below are effective for the treatment of various inflammatory disorders of the eye and/or ear. The notices also classified the preparations as less than effective (probably effective, possibly effective, and lacking substantial evidence of effectiveness) for certain other indications and provided an opportunity for hearing for the indications concluded at that time to lack substantial evidence of effectiveness. No person submitted data in support of the probably or possibly effective indications, and they are now reclassified as lacking substantial evidence of effectiveness. This notice offers an opportunity for hearing concerning the probably effective and possibly effective indications, which are now reclassified as lacking substantial evidence of effectiveness, and states the conditions for marketing the drugs for the indications for which they continue to be regarded as effective. Persons who wish to request a hearing may do so on or before September 13, 1976.

The notice that follows does not pertain to the indications stated in the August 26, 1970 or the October 22, 1971 notices to lack substantial evidence of effectiveness. No person requested a hearing concerning them, and they are no longer allowable in labeling. Any such product labeled for those indications is subject to regulatory action.

1. NDA 8-765; Cortisone Acetate Ophthalmic Ointment containing 1.5 percent cortisone acetate; The Upjohn Co., 7171 Portage Rd., Kalamazoo, MI 49002.

2. That part of NDA 7-913 pertaining to Cortone Acetate Ophthalmic Suspension containing 0.5 percent cortisone acetate; Merck Sharp & Dohme, Division of Merck & Co., Inc., West Point, PA 19486.

3. NDA 9-018; Hydrocortone Ophthalmic Ointment containing 1.5 percent hydrocortisone acetate and Suspension containing 0.5 percent and 2.5 percent hydrocortisone acetate; Merck Sharp & Dohme.

4. NDA 10-231; Hydrin-2 Ophthalmic Suspension containing 2 percent hydrocortisone acetate; Riker Laboratories, Inc., Subsidiary 3M Co., 19901 Nordhoff St., Northridge, CA 91324.

5. NDA 10-645; Optef Eye Drops containing 0.2 percent hydrocortisone; The Upjohn Co.

6. NDA 9-130; Cortril Ophthalmic Ointment containnig 0.5 percent and 2.5 percent hydrocortisone acetate; Pfizer Laboratories, Division Pfizer Inc., 235 E. 42d St., New York, NY 10017.

7. NDA 9-825; Isopto Hydrocortisone Eye Drops containing 0.5 percent and 2.5 percent hydrocortisone with hydroxypropyl methylcellulose; Alcon Laboratories, Inc., 6201 S. Freeway, Box 1959, Ft. Worth, TX 76101.

8. NDA 10-639; Hydeltrasol Ophthalmic Solution containing 0.5 percent prednisolone sodium phosphate; Merck Sharp & Dohme.

9. NDA 11-028; Hydeltrasol Ophthalmic Ointment containing 0.25 percent prednisolone sodium phosphate; Merck Sharp & Dohme.

10. NDA 13-422; Maxidex Ophthalmic Solution containing 0.1 percent dexamethasone; Alcon Laboratories, Inc.

11. NDA 11-984; Decadron Phosphate Ophthalmic Solution containing 0.1 percent dexamethasone sodium phosphate; Merck Sharp & Dohme.

12. NDA 11-977; Decadron Phosphate Ophthalmic Ointment containing 0.05 percent dexamethasone sodium phosphate; Merck Sharp & Dohme.

The following drug products were not included in the August 26, 1970 or the October 22, 1971 notices, but the conclusions described in this notice are applicable to them.

1. NDA 9-816; Cortef Aectate Ophthalmic and Otic Suspension containing hydrocortisone acetate; The Upjohn Co.

2. NDA 9-817; Cortef Acetate Opthalmic Ointment containing hydrocortisone acetate; The Upjohn Co.

3. That part of NDA 10-439 pertaining to Isopto P.H.N. Opthalmic Solution containing hydrocortisone or hydrocortisone acetate; Alcon Laboratories, Inc.

4. NDA 8-054; Cortogen Ophthalmic Suspension containing cortisone acetate; Schering Corp., Galloping Hill Rd., Kenilworth, NJ 07033.

5. NDA 9-841; Isopto Cortisone Ophthalmic Suspension containing cortisone acetate; Alcon Laboratories, Inc.

6. NDA 10-776; Delta Cortef Eye Solution containing prednisolone acetate; The Upjohn Co.

7. That part of NDA 7-913 pertaining to Cortone Acetate Ophthalmic Ointment containing cortisone acetate; Merck, Sharp & Dohme.

In a notice published in the FEDERAL REGISTER of October 27, 1971 (36 FR 20619), the approval of NDA 7-913 for Cortone Acetate Ophthalmic Ointment and Suspension was withdrawn on the ground of failure to submit required reports under section 505(j) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(j)). At the time that notice was published, no final conclusions concerning its less than effective (probably effective) indication had been reached. Those conclusions have now been reached, and the purpose of including Cortone (cortisone acetate) Ophthalmic Ointment and Suspension in this notice is to inform all interested persons of such conclusions and offer them the opportunity to request a hearing concerning all issues relating to its legal status.

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. An approved new drug application is a requirement for marketing such drug products.

In addition to the holder(s) of the new drug application(s) specifically named above, this notice applies to all persons who manufacture or distribute a drug product, not the subject of an approved new drug application, that is identical, related, or similar to a drug product named above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice to determine whether it covers any drug product he manufacturers or distributes. Any person may request an opinion of the applicability of this notice to a specific drug product he manufacturers or distributes that may be identical, related, or similar to a drug product named in this notice by writing to the Food and Drug Administration, Bureau of Drugs, Division of Drug Labeling Compliance (HFD-310), 5600 Fishers Lane, Rockville, MD 20852.

A. *Effectiveness classification.* The Food and Drug Administration has reviewed all available evidence and concludes that the drugs are effective for the indications listed in the labeling conditions below. The drugs now lack substantial evidence of effectiveness for the indications evaluated as probably or possibly effective in the August 26, 1970 and the October 22, 1971 notices. The probably effective indications in the October 22, 1971 notice included the otic indication for dexamethasone sodium phosphate 0.05 percent. This 0.05 percent strength of dexamethasone sodium phosphate now lacks substantial evidence of effectiveness for the otic indication.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug applications under conditions described herein, except that abbreviated applications are not appropriate for hydrocortisone preparations for otic use containing less than 0.5 percent hydrocortisone since such low strengths have not been shown to be effective for that route of administration. The manufacturer's labeling for the product described in this notice that contains 0.2 percent hydrocortisone does not recommend the product for otic use.

1. *Form of drug.* The drugs are in ointment, aqueous solution, or aqueous suspension forms formulated to be suitable for the intended route of administration. Dosage forms for ophthalmic use shall be sterile.

2. *Labeling conditions.* a. The label bears the statement, "Caution: Federal law prohibits dispensing without prescription." Labels for ophthalmic preparations state that the preparation is sterile.

b. The drug is labeled to comply with all requirements of the act and regulations, and the labeling bears adequate information for safe and effective use of the drug. The Indications are as follows:

OPHTHALMIC

Steroid responsive inflammatory conditions of the palpebral and bulbar conjunctiva, cornea, and anterior segment of the globe, such as allergic conjunctivitis, acne rosacea, superficial punctate keratitis, herpes zoster keratitis, iritis, cyclitis, selected infective conjunctivitis when the inherent hazard of steroid use is accepted to obtain an advisable diminution in edema and inflammation: corneal injury for chemical or thermal burns, or penetration of foreign bodies.

OTIC

(For all except the 0.05 percent dexamethasone sodium phosphate)

Steroid responsive inflammatory conditions of the external auditory meatus, such as allergic otitis externa, selected purulent and nonpurulent infective otitis externa when the hazard of steroid use is accepted to obtain an advisable diminution in edema and inflammation.

3. *Marketing status.* a. Marketing of drug products that are now the subject of an approved or effective new drug application may be continued provided that, on or before October 12, 1976, the holder of the application submits, if he has not previously done so, (1) a supplement for revised labeling as needed to be in accord with the labeling conditions described in this notice, and complete container labeling if current container labeling has not been submitted, and (ii) a supplement to provide updating information with respect to items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of new drug application form FD-356H (21 CFR 314.1(c)) to the extent required in abbreviated applications (21 CFR 314.1(f)).

b. Approval of an abbreviated new drug application (21 CFR 314.1(f)) must be obtained prior to marketing such product. Marketing prior to approval of a new drug application will subject such products, and those persons who caused the products to be marketed, to regulatory action.

C. *Notice of opportunity for hearing.* On the basis of all the data and information available to him, the Director of the Bureau of Drugs is unaware of any adequate and well-controlled clinical investigation, conducted by experts qualified by scientific training and experience, meeting the requirements of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and 21 CFR 314.111(a)(5), demonstrating the effectiveness of the drug(s) for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice.

Notice is given to the holder(s) of the new drug application(s), and to all other interested persons, that the Director of the Bureau of Drugs proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), withdrawing approval of the new drug application(s) (or, if indicated above, those parts of the application(s) providing for the drug product(s) listed above) and all amendments and supplements thereto providing for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice on the ground that new information before him with respect to the drug product(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug product(s) will have all the effects it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling. An order withdrawing approval will not issue with respect to any application(s) supplemented, in accord with this notice, to delete the claim(s) lacking substantial evidence of effectiveness.

In addition to the ground for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug products subject to it (including identical, related, or similar drug products as defined in 21 CFR 310.6), e.g., any contention that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201(p) of the act or because it is exempt from part or all of the new drug provisions of the act pursuant to the exemption for products marketed prior to June 25, 1938, contained in section 201(p) of the act, or pursuant to section 107(c) of the Drug Amendments of 1962; or for any other reason.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Parts 310, 314), the applicant(s) and all other persons who manufacture or distribute a drug product which is identical, related, or similar to a drug product named above (21 CFR 310.6), are hereby given an opportunity for a hearing to show why approval of the new drug application(s) providing for the claim(s) involved should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of a drug product named above and all identical, related, or similar drug products.

If an applicant or any person subject to this notice pursuant to 21 CFR 310.6 elects to avail himself of the opportunity for a hearing, he shall file (1) on or before September 13, 1976, a written notice of appearance and request for hearing, and (2) on or before October 12, 1976, the data, information, and analyses on which he relies to justify a hearing, as specified in 21 CFR 314.200. Any other interested person may also submit comments on this proposal to withdraw approval. The procedures and requirements governing this notice of opportunity for hearing, a notice of appearance and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing, are contained in 21 CFR 314.200.

The failure of an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 to file timely written appearance and request for hearing as required by 21 CFR 314.200 constitutes an election by such person not to avail himself of the opportunity for a hearing concerning the action proposed with respect to such drug product and a waiver of any contentions concerning the legal status of such drug product. Any such drug product labeled for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice may not thereafter lawfully be marketed, and the Food and Drug Administration will initiate appropriate regulatory action to remove such drug products from the market. Any new drug product marketed without an approved NDA is subject to regulatory action at any time.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, or when a request for hearing is not made in the required format or with the required analyses, the Commissioner will enter summary judgment against the person(s)

V41158 AUG 13 76 UMI

who requests the hearing, making findings and conclusions, denying a hearing.

All submissions pursuant to this notice of opportunity for hearing shall be filed in quintuplicate. Such submissions, except for data and information prohibited from public disclosure pursuant to 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the office of the Hearing Clerk (address given below) during working hours, Monday through Friday.

Communications forwarded in response to this notice should be identified with the reference number DESI 7913 or 9130, as appropriate, directed to the attention of the appropriate office named below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852.

Supplements (identify with NDA number): Division of Anti-Infective Drug Products (HFD–140), Rm. 12B–45, Bureau of Drugs.

Original abbreviated new drug applications (identify as such): Division of Generic Drug Monographs (HFD-530), Bureau of Drugs.

Request for Hearing (identify with Docket number appearing in the heading of this notice): Hearing Clerk, Food and Drug Administration (HFC–20), Rm. 4–65.

Requests for the report of the National Academy of Sciences-National Research Council: Data Preparation Branch (HFD–614), Division of Drug Information Resources, Bureau of Drugs.

Other communications regarding this notice: Drug Efficacy Study Implementation Project Manager (HFD–101), Bureau of Drugs.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–1053, as amended (21 U.S.C. 352, 355)) and under the authority delegated to the Director of the Bureau of Drugs (21 CFR 5.31) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)).

Dated: August 5, 1976.

J. RICHARD CROUT,
Director, Bureau of Drugs.

FOOD, FOOD CONTAINERS, AND FOOD-RELATED ARTICLES AND EQUIPMENT

Memorandum of Understanding With Consumer Product Safety Commission

The Food and Drug Administration is announcing that a Memorandum of Understanding has been executed with the Consumer Product Safety Commission on July 26, 1976. The purpose of the memorandum is to delineate areas of jurisdiction in the administration of the Consumer Product Safety Act and the Federal Food, Drug, and Cosmetic Act with respect to food, food containers, and food-related articles and equipment.

Pursuant to the announcement published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697) that future memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs is issuing this notice.

MEMORANDUM OF UNDERSTANDING
BETWEEN THE
CONSUMER PRODUCT SAFETY COMMISSION
AND THE
FOOD AND DRUG ADMINISTRATION

PURPOSE

The purpose of this Memorandum of Understanding is to delineate the areas of jurisdiction of the respective signatories for administration of the Consumer Product Safety Act and the Federal Food, Drug, and Cosmetic Act with respect to food, food containers, and food-related articles and equipment.

LEGAL BACKGROUND

A. *CPSC Responsibilities.* The Consumer Product Safety Commission (CPSC) administers the Consumer Product Safety Act (CPSA) (15 U.S.C. 2051 *et seq.*), which was enacted to protect the public from unreasonable risks of injury associated with consumer products. In order to accomplish its mission the Commission is authorized, among other things to issue consumer product safety standards, to establish requirements for warnings and instructions, to declare consumer products banned hazardous products when the public cannot be protected adequately by feasible consumer product safety standards, and to require manufacturers, distributors, and retailers to report potential substantial product hazards associated with consumer products to the Commission, and after opportunity for a hearing, to give notice, and/or repair, replace, or refund the purchase price of the consumer product found to present a substantial product hazard.

The term "consumer product" is defined in section 3(a)(1) of the CPSA (15 U.S.C. 2052(a)(1)) as follows:

The term "consumer product" means any article, or component part thereof, produced or distributed (i) for sale to a consumer for use in or around a permanent or temporary household or residence, a school, in recreation, or otherwise, or (ii) for the personal use, consumption or enjoyment of a consumer in or around a permanent or temporary household or residence, a school, in recreation, or otherwise; but such term does not include—* * *

(I) food, The term "food" as used in this subparagraph means all "food", as defined in section 201(f) of the Federal Food, Drug, and Cosmetic Act, * * *

Thus, articles classified as "food" under the Federal Food, Drug, and Cosmetic Act (FDC Act) (21 U.S.C. 301 et seq.) are not "consumer products" and cannot be regulated under the CPSA.[1] The definition of the term "food" in Section 201(f) of the FDC Act (21 U.S.C. 321(f)) is, therefore, critical in delineating the scope of CPSC's jurisdiction over "consumer products":

The term "food" means (1) articles used for food or drink for man or other animals, (2) chewing gum, and (3) articles used for components of any such article.

B. *FDA Responsibilities.* The Food and Drug Administration (FDA) of the Department of Health, Education, and Welfare has the responsibility for enforcing the FDC Act which, among other things, prohibits the introduction into interstate commerce of articles of food that are adulterated or misbranded. An "adulterated food", as described in section 402 (21 U.S.C. 342), is one which, because of its contents is, among other things, injurious to health or otherwise unfit for food. A "misbranded food", under section 403 of the Act (21 U.S.C. 343), is one which, among other things, is false or misleading in any particular of its labeling. The purpose of the FDC Act is to ensure that foods are wholesome, safe to eat, produced under sanitary conditions, and labeled and packaged in a truthful, informative, and nondeceptive manner. Under the FDC Act, FDA is also responsible for ensuring that "food additives", as defined in section 201(s) (21 U.S.C. 321(s)), are safe under the conditions of their intended use.

NEED FOR CLARIFICATION

The need for this Memorandum of Understanding arose because of uncertainty concerning the scope of the statutory exclusion under the CPSA for all articles defined as "food" by the FDC Act. The need for clarification is acute because determination of whether a potentially hazardous consumer article is a "food" determines as well whether consumers are to be protected from risk of injury or illness by CPSC pursuant to the CPSA or by FDA pursuant to the FDC Act. Congress recognized the need for cooperation between CPSC and other federal agencies when, in section 29(c) of the CPSA (15 U.S.C. 2078(c)), it provided that the Commission and the heads of other departments and agencies engaged in administering programs related to product safety shall, to the maximum extent practicable, cooperate and consult in order to insure fully coordinated efforts.

While this Memorandum addresses the significant food-related jurisdictional issues encountered since enactment of the CPSA in 1972, it is recognized by the two agencies that additional points needing clarification may arise in the future and that changes in this agreement may become necessary.

AGREEMENT

CPSC and FDA have agreed upon the following principles:

[1] Substances which are "foods" subject to the FDC Act are also excluded from the definition of "hazardous substance" under section 2(f)2 of the Federal Hazardous Substances Act (15 U.S.C. 1261(f)2). They therefore cannot be regulated by CPSC under that Act. However, under section 2(2)(C) of the Poison Prevention Packaging Act of 1970 (15 U.S.C. 1471(2)(C)), "food" may be made subject by CPSC to a child-resistant (special) packaging requirement.

A. *Aerosol Propellants.* Aerosol propellants included in a food product may be substantially dissipated before the food is ingested. Nevertheless, they are "components" of food and thus "food" within the meaning of the FDC Act and subject to regulation by FDA.

B. *Food Contact Surfaces (Migration).* Articles having food contact surfaces, such as food containers, and food cooking, eating, and preparation articles, from which there is migration of a substance from the contact surface to the food are food "components" and thus "food" within the meaning of the FDC Act and subject to regulation by FDA. *Natick Paperboard Co. v. Weinberger*, 525 F. 2d 1102 (1st Cir. 1975); *United States v. Articles of Food Pottery*, 370 F. Supp. 371 (E.D. Mich. 1974). However, in any case where there is migration, FDA will have regulatory authority over the article as a "food", and CPSC will have regulatory authority over the article for hazards unrelated to migration (see paragraph C below).

C. *Food Contact Surfaces (No "Migration").* Articles employed in the preparation or holding of food may cause contamination or spoilage without migrating or otherwise becoming a component of the food, e.g., home canning equipment that fails to provide a seal adequate to keep air from passing into stored food; pressure cookers, slow cookers, refrigerators, or freezers which fail to perform at proper temperatures, thereby rendering food unfit to eat; can openers which, in opening a can, cause metal particles from the can (not from the can opener) to be deposited in food. Because such articles do not present a hazard by becoming components of food, they are subject to regulation as "consumer products" by CPSC under the CPSA. (FDA may, of course, take action under the FDC Act against food contaminated or spoiled by such articles if interstate commerce is involved. FDA may also regulate the equipment and procedures employed by commercial processors of food which has been or is to be shipped in interstate commerce when necessary to assure the wholesomeness or safety of such food.)

D. *Food Containers (Mechanical Hazards).* Food containers may present mechanical risks of injury not related to food contamination or spoilage, e.g., a defect in the container which leads to an explosion or breakage of the container, sharp edges presented by the container, defects in the nozzle, etc. Because such articles do not present hazards by becoming components of food, they are subject to regulation by CPSC under the CPSA. Such articles may also be subject to overlapping jurisdiction of FDA under the FDC Act, because FDA has jurisdiction over a food container (even where the container is not a food) which "is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents (food) injurious to health," and because FDA has jurisdiction as well over a food which "bears * * * any * * * deleterious substance" (Sec. 402(a)(1), (6) of the FDC Act, 21 U.S.C. 342(a)(1), (6)).

E. *Technical Assistance.* The Food and Drug Administration will provide, upon the request of CPSC, technical assistance, such as evaluation of sealing efficiency of home canning lids, where FDA determines that it has the technical and laboratory capability to provide such assistance. Results of all evaluations will be reported to CPSC.

F. *Future Jurisdictional Questions.* Each agency will fully cooperate with the other in administrative, regulatory, and technical matters, and will continue to discuss and reach understandings in future jurisdictional questions. This agreement may be modified by mutual consent of both parties, and may be terminated by either party upon a thirty (30) day advance written notice to the other. Any modification or notice of termination will be published in the FEDERAL REGISTER.

For the Consumer Product Safety Commission:

S. JOHN BYINGTON,
Chairman.

Dated: July 23, 1976.

For the Food and Drug Administration:

SHERWIN GARDNER,
for Alexander M. Schmidt, M.D.
Commissioner of Food and Drugs.

Dated: July 26, 1976.

Effective date: This Memorandum of Understanding became effective July 26, 1976.

Dated: August 9, 1976.

JOSEPH P. HILE,
Acting Associate Commissioner for Compliance.

[FR Doc.76–23629 Filed 8–12–76;8:45 am]

[Docket No. 76N–0316; DESI 11657]

PROPIOLACTONE FOR STERILIZATION

Drugs for Human Use; Drug Efficacy Study Implementation; Followup Notice and Opportunity for Hearing

In a notice (DESI 11657; Docket No. FDC–D–305 (now Docket No. 76N–0316)) published in the FEDERAL REGISTER of July 17, 1971 (36 FR 13285), the Food and Drug Administration announced its conclusions that the drug product described below is effective for the sterilization of arterial and osseous (bone) tissue grafts and rabies vaccine. The drug product was also classified as possibly effective for the sterilization of other vaccines and lacking substantial evidence of effectiveness for certain other indications. The notice provided an opportunity for hearing for the indications lacking substantial evidence of effectiveness. No person requested a hearing. The manufacturer of the drug product has deleted the indications classified as possibly effective and lacking substantial evidence of effectiveness. No data were submitted in support of the possibly effective indication.

This notice offers an opportunity for hearing concerning the possibly effective indication, which is now reclassified as lacking substantial evidence of effectiveness, and sets forth the conditions for marketing the drug for the indications for which it continues to be regarded as effective. Persons who wish to request a hearing may do so on or before September 13, 1976.

The notice that follows does not pertain to the indications stated in the July 17, 1971 notice to lack substantial evidence of effectiveness. No person requested a hearing concerning those indications, and they are no longer allowable in labeling. Any such drug product labeled for those indications is subject to regulatory action.

NDA 11–657; Betaprone containing propiolactone; Fellows Medical Division, Chromalloy Inc., 12741 Capital Ave., Oak Park, MI 48237.

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. An approved new drug application is a requirement for marketing such drug products.

In addition to the holder(s) of the new drug application(s) specifically named above, this notice applies to all persons who manufacture or distribute a drug product, not the subject of an approved new drug application, that is identical, related, or similar to a drug product named above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice to determine whether it covers any drug product he manufactures or distributes. Any person may request an opinion of the applicability of this notice to a specific drug product he manufactures or distributes that may be identical, related, or similar to a drug product named in this notice by writing to the Food and Drug Administration, Bureau of Drugs, Division of Drug Labeling Compliance (HFD–310), 5600 Fishers Lane, Rockville, MD 20852.

A. *Effectiveness classification.* The Food and Drug Administration has reviewed all available evidence and concludes that the drug is effective for the indications listed in the labeling conditions below and lacks substantial evidence of effectiveness for all its other labeled indications.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug applications under conditions described herein.

1. *Form of drug.* The drug is in liquid form suitable for sterilization of biological materials (not to be used as an injection for humans or animals).

2. *Labeling conditions.* a. The label bears the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drug is labeled to comply with all requirements of the act and regulations, and the labeling bears adequate information for safe and effective use of the drug. The indications are as follows:

Propiolactone is indicated for the sterilization of (a) arterial and osseous

V 41 1158 AUG 13 76 UMI

(bone) tissue grafts; and (b) rabies vaccine.

3. *Marketing status.* a. Marketing of such drug products that are now the subject of an approved or effective new drug application may be continued provided that, on or before October 12, 1976 the holder of the application submits, if he has not previously done so, (i) a supplement for revised labeling as needed to be in accord with the labeling conditions described in this notice, and complete contafner labeling if current container labeling has not been submitted, and (ii) a supplement to provide updating information with respect to items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of new drug application form FD–356H (21 CFR 314.1(c)) to the extent required in abbreviated applications (21 CFR 314.1(f)).

b. Approval of an abbreviated new drug application (21 CFR 314.1(f)) must be obtained prior to marketing such product. Marketing prior to approval of a new drug application will subject such products, and those persons who caused the products to be marketed, to regulatory action.

C. *Notice of opportunity for hearing.* On the basis of all the data and information available to him, the Director of the Bureau of Drugs is unaware of any adequate and well-controlled clinical investigation, conducted by experts qualified by scientific training and experience, meeting the requirements of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and 21 CFR 314.111 (a)(5), demonstrating the effectiveness of the drug(s) for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice.

Notice is given to the holder(s) of the new drug application(s), and to all other interested persons, that the Director of the Bureau of Drugs proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), withdrawing approval of the new drug application(s) and all amendments and supplements thereto providing for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice on the ground that new information before him with respect to the drug product(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug product(s) will have all the effects it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling. An order withdrawing approval will not issue with respect to any application(s) supplemented, in accord with this notice, to delete the claim(s) lacking substantial evidence of effectiveness.

In addition to the ground for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug products subject to it (including identical, related, or similar drug products as defined in 21 CFR 310.6), e.g., any contention that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201(p) of the act or because it is exempt from part or all of the new drug provisions of the act pursuant to the exemption for products marketed prior to June 25, 1938, contained in section 201(p) of the act, or pursuant to section 107(c) of the Drug Amendments of 1962; or for any other reason.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Parts 310, 314), the applicant(s) and all other persons who manufacture or distribute a drug product which is identical, related, or similar to a drug product named above (21 CFR 310.6), are hereby given an opportunity for a hearing to show why approval of the new drug application(s) providing for the claim(s) involved should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of a drug product named above and all identical, related, or similar drug products.

If an applicant or any person subject to this notice pursuant to 21 CFR 310.6 elects to avail himself of the opportunity for a hearing, he shall file (1) on or before September 13, 1976, a written notice of appearance and request for hearing, and (2) on or before October 12, 1976, the data, information, and analyses on which he relies to justify a hearing, as specified in 21 CFR 314.200. Any other interested person may also submit comments on this proposal to withdraw approval. The procedures and requirements governing this notice of opportunity for hearing, a notice of appearance and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing, are contained in 21 CFR 314.200.

The failure of an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 to file timely written appearance and request for hearing as required by 21 CFR 314.200 constitutes an election by such person not to avail himself of the opportunity for a hearing concerning the action proposed with respect to such drug product and a waiver of any contentions concerning the legal status of such drug product. Any such drug product labeled for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice may not thereafter lawfully be marketed, and the Food and Drug Administration will initiate appropriate regulatory action to remove such drug products from the market. Any new drug product marketed without an approved NDA is subject to regulatory action at any time.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, or when a request for hearing is not made in the required format or with the required analyses, the Commissioner will enter summary judgment against the person(s) who requests the hearing, making findings and conclusions, denying a hearing.

All submissions pursuant to this notice of opportunity for hearing shall be filed in quintuplicate. Such submissions, except for data and information prohibited from public disclosure pursuant to 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the office of the Hearing Clerk (address given below) during working hours, Monday through Friday.

Communications forwarded in response to this notice should be identified with the reference number DESI 11657, directed to the attention of the appropriate office named below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852.

Supplements (identify with NDA number): Division of Surgical-Dental Drug Products (HFD–160), Rm. 18B–08, Bureau of Drugs.

Original abbreviated new drug applications (identify as such): Division of Generic Drug Monographs (HFD–530), Bureau of Drugs.

Request for Hearing (identify with Docket number appearing in the heading of this notice): Hearing Clerk, Food and Drug Administration (HFC–20, Rm. 4–65.

Requests for the report of the National Academy of Sciences-National Research Council: Data Preparation Branch (HFD–614), Division of Drug Information Resources, Bureau of Drugs.

Other communications regarding this notice: Drug Efficacy Study Implementation Project Manager (HFD–101), Bureau of Drugs.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–1053, as amended (21 U.S.C. 352, 355)) and under the authority delegated to the Director of the Bureau of Drugs (21 CFR 5.31) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)).

Dated: August 5, 1976.

J. RICHARD CROUT,
Director, Bureau of Drugs.

[FR Doc.76–23624 Filed 8–12–76;8:45 am]

[Docket No. 76N–0319; DESI 5319]

RADIOPAQUE MEDIUM CONTAINING SODIUM ACETRIZOATE AND POVIDONE

Drugs for Human Use; Drug Efficacy Study Implementation; Followup Notice and Opportunity for Hearing

In a notice (DESI 5319; Docket No. FDC–D–310 (now Docket No. 76N–0319)) published in the FEDERAL REGISTER of June 18, 1971 (36 FR 11765), the Food and Drug Administration announced its conclusions that the drug product described below is effective in hysterosalpingography and possibly effective for the mechanical release of tubal obstruction. The manufacturer of the drug product has deleted the possibly effective indication from the labeling. No person has submitted any data in support of the possibly effective indication, and that indication is now reclassified as lacking substantial evidence of effectiveness. This notice offers an opportunity for a hearing concerning that indication and sets forth the conditions for marketing the drug product for the indication for which it continues to be regarded as effective. Persons who wish to request a hearing may do so on or before September 13, 1976.

NDA 9–008; Salpix Contrast Medium; containing sodium acetrizoate and povidone; Ortho Pharmaceutical Corp., Rt. 202, Raritan, NJ 08869.

Such drugs are regarded as new drugs (21 U.S.C. 321 (p)). Supplemental new drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. An approved new drug application is a requirement for marketing such drug products.

In addition to the holder(s) of the new drug application(s) specifically named above, this notice applies to all persons who manufacture or distribute a drug product, not the subject of an approved new drug application, that is identical, related, or similar to a drug product named above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice to determine whether it covers any drug product he manufactures or distributes. Any person may request an opinion of the applicability of this notice to a specific drug product he manufactures or distributes that may be identical, related, or similar to a drug product named in this notice by writing to the Food and Drug Administration, Bureau of Drugs, Division of Drug Labeling Compliance (HFD–310), 5600 Fishers Lane, Rockville, MD 20852.

A. *Effectiveness classification.* The Food and Drug Administration has reviewed all available evidence and concludes that the drug is effective for the indications listed in the labeling conditions below. The drug now lacks substantial evidence of effectiveness for the indication evaluated as possibly effective in the June 18, 1971 notice.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug applications under conditions described herein.

1. *Form of drug.* Preparations containing sodium acetrizoate and povidone are in sterile form suitable for hysterosalpingography.

2. *Labeling conditions.* a. The label bears the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drug is labeled to comply with all requirements of the act and regulations, and the labeling bears adequate information for safe and effective use of the drug. The Indication is as follows:

For use in hysterosalpingography.

3. *Marketing status.* a. Marketing of such drug products that are now the subject of an approved or effective new drug application may be continued provided that, on or before October 12, 1976, the holder of the application submits, if he has not previously done so, (i) a supplement for revised labeling as needed to be in accord with the labeling conditions described in this notice, and complete container labeling if current container labeling has not been submitted, and (ii) a supplement to provide updating information with respect to items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of new drug application form FD–356H (21 CFR 314.1(c)) to the extent required in abbreviated applications (21 CFR 314.1 (f)).

b. Approval of an abbreviated new drug application (21 CFR 314.1(f)) must be obtained prior to marketing such product. Marketing prior to approval of a new drug application will subject such products, and those persons who caused the products to be marketed, to regulatory action.

C. *Notice of opportunity for hearing.* On the basis of all the data and information available to him, the Director of the Bureau of Drugs is unaware of any adequate and well-controlled clinical investigation, conducted by experts qualified by scientific training and experience, meeting the requirements of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and 21 CFR 314.111(a)(5), and 21 CFR 300.50, demonstrating the effectiveness of the drug(s) for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice.

Notice is given to the holder(s) of the new drug application(s), and to all other interested persons, that the Director of the Bureau of Drugs proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), withdrawing approval of the new drug application(s) and all amendments and supplements thereto providing for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice on the ground that new information before him with respect to the drug product(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug product(s) will have all the effects it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling. An order withdrawing approval will not issue with respect to any application(s) supplemented, in accord with this notice, to delete the claim(s) lacking substantial evidence of effectiveness.

In addition to the ground for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug products subject to it (including identical, related, or similar drug products as defined in 21 CFR 310.6), e.g., any contention that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201(p) of the act or because it is exempt from part or all of the new drug provisions of the act pursuant to the exemption for products marketed prior to June 25, 1938, contained in section 201(p) of the act, or pursuant to section 107(c) of the Drug Amendments of 1962; or for any other reason.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Parts 310, 314), the applicant(s) and all other persons who manufacture or distribute a drug product which is identical, related, or similar to a drug product named above (21 CFR 310.6), are hereby given an opportunity for a hearing to show why approval of the new drug application(s) providing for the claim(s) involved should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of a drug product named above and all identical, related, or similar drug products.

If an applicant or any person subject to this notice pursuant to 21 CFR 310.6 elects to avail himself of the opportunity for a hearing he shall file (1) on or before September 13, 1976, a written notice of appearance and request for hearing, and (2) on or before October 12, 1976, the data, information, and analyses on which he relies to justify a hearing, as specified in 21 CFR 314.200. Any other interested person may also submit comments on this proposal to withdraw approval. The procedures and requirements governing this notice of opportunity for hearing, a notice of appearance and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing, are contained in 21 CFR 314.200.

The failure of an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 to file timely written appearance and request for hearing as required by 21 CFR 314.200 constitutes an election by such person not to avail himself of the opportunity for a hearing concerning the action proposed with respect to such drug product and a waiver of any contentions concerning the legal status of such drug product. Any such drug product labeled for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice may not thereafter lawfully be marketed, and the Food and Drug Administration will initiate appropriate regulatory action to remove such drug products from the market. Any new drug product marketed without an approved NDA is subject to regulatory action at any time.

V 41 158 AUG 13 76 UMI

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, or when a request for hearing is not made in the required format or with the required analyses, the Commissioner will enter summary judgment against the person(s) who requests the hearing, making findings and conclusions, denying a hearing.

All submissions pursuant to this notice of opportunity for hearing shall be filed in quintuplicate. Such submissions, except for data and information prohibited from public disclosure pursuant to 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the office of the Hearing Clerk (address given below) during working hours, Monday through Friday.

Communications forwarded in response to this notice should be identified with the reference number DESI 5319, directed to the attention of the appropriate office named below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852.

Supplements (identify with NDA number): Division of Oncology and Radiopharmaceutical Drug Products (HFD–150), Rm. 17–34, Bureau of Drugs.

Original abbreviated new drug applications (identify as such): Division of Generic Drug Monographs (HFD–530), Bureau of Drugs.

Request for Hearing (identify with Docket number appearing in the heading of this notice): Hearing Clerk, Food and Drug Administration (HFC–20), Rm. 4–65.

Request for the report of the National Academy of Sciences-National Research Council: Data Preparation Branch (HFD–614), Division of Drug Information Resources, Bureau of Drugs.

Other communications regarding this notice: Drug Efficacy Study Implementation Project Manager (HFD–101), Bureau of Drugs.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–1053, as amended (21 U.S.C. 352, 355)) and under the authority delegated to the Director of the Bureau of Drugs (21 CFR 5.31) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)).

Dated: August 5, 1976.

J. RICHARD CROUT,
Director, Bureau of Drugs.

Health Services Administration

APPOINTMENT OF UNIFORMED GUARDS AS SPECIAL POLICEMEN

Delegation of Authority

Notice is hereby given that, in furtherance of the delegation of authority to the Secretary of Health, Education, and Welfare by the Administrator of General Services concerning the appointment of uniformed guards of the Department of Health, Education, and Welfare as special policemen for duty in connection with the policing of the Staten Island, New York, U.S. Public Health Service Hospital (41 FR 19162, May 10, 1976), the following delegation, with authority to redelegate, has been made effective:

1. From the Secretary of Health, Education, and Welfare to the Assistant Secretary for Health, pursuant to the Federal Property and Administrative Services Act of 1949 (63 Stat. 377), as amended, and the Act of June 1, 1948 (62 Stat. 281), as amended, authority to appoint uniformed guards as special policemen, to make all needful rules and regulations, and to annex to such rules and regulations such reasonable penalties (not to exceed those prescribed in 40 USC 318(c) as will ensure their enforcement for the protection of persons and property at the U.S. Public Health Service Hospital, Staten Island, New York, over which the United States has exclusive jurisdiction. Such authority to be exercised in accordance with the limitations and requirements of the above cited acts and the policies, procedures, and controls prescribed by the General Services Administration.

Dated: August 5, 1976.

JOHN OTTINA,
Assistant Secretary for Administration and Management.

[Contract No. HEW—100–76–0133]

DESIGN OF AN ANALYTIC MODEL AND SURVEY INSTRUMENT FOR DATA ON SINGLE-PARENT HOUSEHOLDS FOR A FOLLOW-ON SIE SURVEY

Contract Award

Pursuant to section 606 of the Community Services Act of 1974 (Pub. L. 93–644) 42 U.S.C. 2946, this agency announces the award of Contract No. HEW—100–76–0133 to Radd Associates, Ltd., 1750 Pennsylvania Avenue NW., Suite 301, Washington, D.C. 20006 for a research project entitled, "Design of an Analytic Model and Survey Instrument for Data on Single-Parent Households for a Follow-On SIE Survey." This effort will include: 1) the design of a questionnaire to be administered to a sample of single heads of families, with minor children, identified by the Survey of Income and Education (Bureau of the Census); and 2) the development of a model for analyzing the resulting data. The purpose of the follow-on survey is to generate basic demographic data about this population. The cost of this contract is $9,251.96 and the intended completion date is July 19, 1976.

Dated: August 9, 1976.

WILLIAM A. MORRILL,
Assistant Secretary for Planning and Evaluation.

EVALUATION OF PERSONAL CARE ORGANIZATIONS AND OTHER IN-HOME ALTERNATIVES TO NURSING HOME CARE FOR ELDERLY AND LONG-TERM DISABLED

Program Results

Pursuant to section 606 of the Community Services Act of 1974 (Pub. L. 93–644) 42 U.S.C. 2946, this agency announces the results, findings, data, or recommendations reported as a result of activities associated with HEW project entitled, "Evaluation of Personal Care Organizations and Other In-Home Alternatives to Nursing Home Care for the Elderly and Long-Term Disabled."

This final report focused upon the identification, critical assessment and integration of the available evidence concerning the cost-effectiveness and efficiency of in-home alternatives to institutional care. Major findings revealed a lack of standard methodologies and instruments across previous studies, limitations in size of programs, and little variation in location. Because of these limitations, results of these projects will provide only answers in the most qualified sense on the effectiveness and cost-efficiency of alternatives to institutionalization.

Experimentation using local day care and home care projects did not appear feasible due to the negativism exhibited toward randomization among clients in addition to the limited capacity of such projects to significantly alter the scope of their operations.

Finally, this report described requirements of a prospective design to assess alternatives to institutional care. The feasibility of the experimental options was judged on the basis of four factors: technical, contractual, environmental, and financial.

A copy of this report will be filed and available as soon as possible, from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151.

Dated: August 9, 1976.

WILLIAM A. MORRILL,
Assistant Secretary of Planning and Evaluation.

OFFICE OF THE ASSISTANT SECRETARY, COMPTROLLER

Statement of Organization, Functions, and Delegations of Authority

Part 1 of the statement of organization, functions, and delegations of authority for the Department of Health, Education and Welfare, Office of the Secretary, is amended to revise Section 1W0902—Division of Accounting Operations (39 FR 42407, December 5, 1974, as amended). The change is made to expand the mission statement and to reflect the transfer of systems programming and analysis support from the Division of Systems Planning to the Division of Accounting Operations under the Deputy Assistant Secretary, Finance. This change is reflected as follows:

Replace Section 1W0902.00 Mission with the following Section 1W0902.00 Mission. The Division of Accounting Operations provides accounting, financial reporting, and fiscal services for the Office of the Secretary, which includes the Working Capital and Consolidated Funds, Office of Human Development, Departmental Management, Office for Civil Rights and the Office of Consumer Affairs.

Add to Section 1W0902.20 Functions the following:

11. Plans, develops, and maintains the accounting system for the Office of the Secretary.

Dated: August 5, 1976.

JOHN OTTINA,
Assistant Secretary for Administration and Management.

[FR Doc.76–23655 Filed 8–12–76;8:45 am]

POLICY ANALYSIS SOURCE BOOK FOR SOCIAL PROGRAMS

Program Results

Pursuant to section 606 of the Community Services Act of 1974 (Pub. L. 93–644) 42 USC 2946, this agency announces the results of the HEW project entitled "The Policy Analysis Source Book for Social Programs." The Source Book was prepared by the National Planning Association under contract to the National Science Foundation's Research Applied to National Needs Program, with support from NSF and HEW's Policy Research Program.

The Source Book is an annotated bibliography of materials analyzing the effectiveness and efficiency of current and alternative social programs, including health, housing, education, income maintenance, transportation, social services, energy, and environmental protection.

The 1,200 page, two volume Source Book contains about 4,000 abstracts, each summarizing the scope and findings of a book, article, or report dealing with social programs or problems. Items were selected on the basis of policy relevance and quality. Indexing is designed to enable a user to find materials using a given methodology such as benefit-cost analysis, or dealing with a specific aspect of program effectiveness such as income distribution effects, regardless of original source or subject field. The book is intended for the desk-side use of policy analysts and evaluators. It provides quick reference to pertinent materials a busy staff person would otherwise never know about.

The basic purpose of the Source Book is to improve the quality of the analysis and information used in reaching social decisions. It is primarily intended for use by Federal government staff, but will also be of value to state and local officials, academic researchers, and others concerned with improving the functioning of social programs.

The approach used in creating the Source Book was to select the small portion of research, analysis, and evaluation most useful and relevant to policy-making. Journals, libraries, bibliographies, and experts were consulted to obtain nominations. No known substitute in coverage or focus exists, since most other systems or collections include all material from specific sources or on a given subject, regardless of its policy relevance.

Copies of the book are available through the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, at a price of $15.00 paperbound.

Dated: August 9, 1976.

WILLIAM A. MORRILL,
Assistant Secretary for Planning and Evaluation.

YEAR ROUND SCHOOL EVALUATION DESIGN

Program Results

Pursuant to section 606 of the Community Services Act of 1974, (Pub. L. 93–644) 42 USC 2946, this agency announces the results of an HEW project entitled "Year Round School Evaluation Design."

This project reviewed the history of year-round schools in the United States, ascertained the extent of year-round school programs in 1975, reviewed the research literature, and presented case studies of programs; which were planned but never implemented, implemented and discontinued or are ongoing.

Considerable interest and activity in year-round schools at the State and local level was identified and contrasted with a lack of knowledge at the Federal level. The general inadequacy of existing year-round school research was identified and

V41158A AUG 13 76 UMI

a proposed agenda for research at the Federal level was described.

A copy of this report will be available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151.

Dated: August 9, 1976.

WILLIAM A. MORRILL,
Assistant Secretary for Planning and Evaluation.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

[Docket No. N-76-589]

NEWLY CONSTRUCTED HOUSING FOR LOWER-INCOME FAMILIES IN RURAL AREAS

Memorandum of Understanding on Use of Section 8 of the United States Housing Act of 1937 and Section 515 of the Housing Act of 1949

I. INTRODUCTION

For the purpose of encouraging and facilitating the use of assistance under Section 8 of the United States Housing Act of 1937 and Section 515 of the Housing Act of 1949, as amended, to provide newly constructed housing for lower-income families in rural areas, the Department of Agriculture (hereinafter referred to as the Farmers Home Administration (FmHA)) and the Department of Housing and Urban Development (HUD) hereby agree to the policies, procedures and joint working arrangements set forth in this Memorandum. The Secretary of each Department will expedite all necessary actions to implement this Memorandum.

II. PROPERTY STANDARDS

FmHA agrees that any Section 515 Rural Rental Housing Project to be assisted by the Section 8 Housing Assistance Payments Program pursuant to this Memorandum will be in accord with HUD Minimum Property Standards, (7 CFR 1804.-3) and appropriate State and local laws, codes, ordinances and regulations.

III. CONTRACT AND FAIR MARKET RENTS

A. FmHA agrees to provide interest credit on any newly constructed Section 515 project to be assisted by Section 8 housing assistance payments to reduce the effective interest rate applicable to the Section 8 units by one percentage point below the FmHA interest rate in effect for Section 515 loans at the time of loan closing.

B. HUD agrees to accept FmHA certifications on a project-by-project basis that Contract Rents are reasonable based on the quality, location, amenities and management and maintenance services to be provided and do not exceed the applicable Fair Market Rents for newly constructed Section 8 units. HUD will provide the FmHA State Directors on request with the current applicable Fair Market Rents for newly constructed Section 8 units as published in the FEDERAL REGISTER and in effect at the time the certification is made.

C. HUD agrees to provide the FmHA State Directors on request with the current income limits for determining eligibility for the Section 8 program.

IV. SITE AND NEIGHBORHOOD STANDARDS

The site (location) and neighborhood standards to be set forth in the revised FmHA regulations which have been agreed to by HUD and FmHA shall be applicable to all newly constructed Section 515 projects to be assisted by Section 8 housing assistance payments. HUD agrees to accept FmHA's certification as to compliance with such standards on a project-by-project basis.

V. EQUAL OPPORTUNITY REQUIREMENTS

A. FmHA agrees to assure compliance with Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, Executive Orders 11063 and 11246, and Section 3 of the Housing and Urban Development Act of 1968 and will issue regulations pursuant thereto.

B. HUD agrees to accept certifications from FmHA that projects approved by FmHA will be developed and operated in accordance with the provisions of paragraph V(A) above.

VI. ENVIRONMENTAL STANDARDS

A. HUD and FmHA have issued regulations to implement the National Environmental Policy Act (NEPA) in accordance with guidelines issued by the Council on Environmental Quality (CEQ). HUD and FmHA agree to discuss their environmental regulations, procedures and forms to achieve uniform thresholds and forms.

B. FmHA shall comply with NEPA and all rules, regulations and requirements issued by FmHA pursuant thereto including:

1. Environmental assessments will be made for such projects with 5 or more units;

2. The suitability and effect of the existing environment will be considered for each project for which an assessment is required, as well as the impacts that would result from a project approval;

3. Proposals shall be rejected if, after appropriate modifications to a proposal, there would remain environmental impacts which are unacceptable under NEPA and FmHA policies.

C. HUD agrees to accept the certification that sites approved by FmHA are in accordance with the provisions of paragraph VI (B) above.

VII. RELOCATION

In the case of a Public Housing Agency (PHA)-Owner project which is to be constructed on a site which has occupants, the requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 will be met.

VIII. DAVIS-BACON WAGE RATES

A. FmHA agrees to assure that not less than the wages prevailing in the locality, as predetermined by the Secretary of Labor pursuant to the Davis-Bacon Act (49 Stat. 1011), shall be paid to all laborers and mechanics employed in the development of any new construction project with nine or more assisted units.

B. HUD agrees to accept a certification on a project-by-project basis from FmHA that there will be compliance with the provisions of paragraph VIII (A) above.

IX. OTHER FEDERAL REQUIREMENTS

FmHA agrees to comply with the following requirements:

1. Clean Air and Federal Water Pollution Control Act and all rules and regulations and requirements issued by FmHA pursuant thereto.

2. The National Historic Preservation Act (Pub. L. 89-665), the Archeological and Historic Preservation Act of 1974 (Pub. L. 93-291) and Executive Order 11593 on Protection and Enhancement of the Cultural Environment.

X. DISTRIBUTION OF HOUSING ASSISTANCE FUNDS

A. Housing assistance funds shall be allocated by HUD in accordance with the requirements of Section 213(d)(1) of the Housing and Community Development (HCD) Act of 1974 and HUD regulations pursuant thereto.

B. The HUD field office director, in planning the utilization of housing assistance funds in accordance with the Section 213(d)(1) factors, shall consult with the appropriate FmHA State Director(s) in order that the use of the housing assistance funds be coordinated as nearly as possible with FmHA Section 515 activities.

C. HUD agrees to make a set-aside during Fiscal Year 1976, including the transition quarter, sufficient Section 8 contract authority to assist not less than 4,000 newly constructed dwelling units to be financed by the FmHA under the Section 515 rural rental housing program. Subject to congressional authorization of contract authority, HUD agrees to make a set-aside of such assistance for not less than 10,000 units in subsequent fiscal years.

D. To the extent any Section 8 housing assistance funds set-aside for use with Section 515 projects are not committed to such projects 45 days prior to the end of any fiscal year, HUD may withdraw and redistribute such funds except that HUD will not withdraw any Section 8 funds which FmHA advises HUD will be committed before the end of the fiscal year. Funds shall be deemed to be committed for such projects after receipt and review by HUD of the Form AD-621 (Preapplication for Federal Assistance) and the verification by HUD's Regional Accounting Division of the availability of funds.

XI. BASIC PROCESSING

A. When FmHA has a completed Form AD-621 (Preapplication for Federal Assistance) for a section 515 project for which a commitment for Section 8 assistance is desired, it shall transmit a copy of the completed form and all completed attachments with a covering letter stating that Section 8 is desired. Upon receipt thereof, the HUD field office director shall initiate reviews under Section 213 of the HCD Act, all reviews to establish acceptability under HUD's previous participation requirements, and any reviews necessary to establish consistency with the Section 8 requirements. HUD shall indicate to FmHA any negative information on the proposed project as submitted, the availability of funds and that funding is contingent upon compliance with Section 213 requirements and clearance under the previous participation requirements.

B. Such reports as may be deemed necessary by HUD and FmHA concerning Section 8/Section 515 projects will be provided to HUD.

XII. EXECUTION OF AGREEMENTS TO ENTER INTO HOUSING ASSISTANCE PAYMENTS CONTRACT AND HOUSING ASSISTANCE PAYMENTS CONTRACT

A. HUD will prepare an Agreement to Enter Into Housing Assistance Payments Contract for execution by the owner only after receipt of certifications on a project-by-project basis by FmHA. The certifications to be submitted at this time are as specified in paragraphs III(B), IV, V(B), VI(C), and VIII(B).

B. HUD will prepare a Housing Assistance Payments Contract for execution by HUD and the owner after the project is completed and FmHA submits on a project-by-project basis, certifications that:

1. The project was completed in accordance with the requirements of the Agreement to Enter Into Housing Assistance Payments Contract.

2. The project is in good and tenantable condition.

3. The project has been constructed in substantial compliance with drawings and specifications except for ordinary punchlist items or incomplete work awaiting seasonal opportunity.

4. There has been no change in management capability.

C. If HUD has any information or other substantial reason to question the correctness of any FmHA certification, HUD shall promptly bring the matter to the attention of FmHA and FmHA shall advise HUD of its final determination in the matter.

XIII. HUD REVIEW RESPONSIBILITIES

A. FmHA assumes no responsibility for assuring compliance by the owner with the terms of the Housing Assistance Payments (HAP) Contract. FmHA and HUD agree to attempt to work out procedures for FmHA to assume responsibility for Housing Assistance Payments Contract compliance for Private-Owner and Public Housing Agency-Owner projects.

B. It is understood that to carry out its responsibilities for the administration of the Section 8 program, HUD may audit and review FmHA Section 8 related activities for compliance with outstanding HUD requirements covered by the provisions of this Memorandum of Understanding.

XIV. INTER-DEPARTMENTAL TASK FORCE

FmHA and HUD agree to the establishment of an inter-departmental task force, consisting of Headquarters and field office personnel, which will periodically, and as needed, convene for the purpose of reviewing program issues and recommending solutions thereto to assure the effective coordination of the Section 8 and Section 515 in areas served by the FmHA.

XV. TRAINING

FmHA and HUD agree to make available appropriate personnel to carry out any inter-departmental training that may be necessary to implement an effective combination of the Section 8 and Section 515 programs.

Dated: June 23, 1976.

CARLA A. HILLS,
Secretary of Housing and Urban Development.

EARL L. BUTZ,
Secretary of Agriculture.

Proposed Addition

Notice is hereby given pursuant to section 2(a)(2) of Pub. L. 92-28; 85 Stat. 77, of the proposed addition of the following commodity to Procurement List 1976, November 25, 1975 (40 FR 54742).

Class 8465: Bag, Soiled Clothes, Nylon; 8465-00-122-3869.

V41 I158 AUG 13 76 UMI

Comments and views regarding the proposed addition may be filed with the Committee on or before September 13, 1976. Communications should be addressed to the Executive Director, Committee for Purchase from the Blind and Other Severely Handicapped, 2009 Fourteenth Street North, Suite 610, Arlington, Virginia 22201.

This notice is automatically cancelled six months from the date of this FEDERAL REGISTER.

By the Committee.

C. W. FLETCHER,
Executive Director.

PROCUREMENT LIST 1976

Proposed Deletions

Notice is hereby given pursuant to section 2(a) (2) of Pub. L. 92-28; 85 Stat. 77, of the proposed deletion of the following commodities from Procurement List 1976, November 25, 1975 (40 FR 54742).

MILITARY RESALE ITEM NUMBERS AND DESCRIPTIONS

906—Broom, corn
921—Mop, self-wringing
927—Mophead, wet
929—Mop, dusting
930—Applicator, wax
931—Refill, wring easy mop
938—Refill, wax applicator
939—Refill, mophead, dusting
942—Cloth, dish
943—Cloth, dishwashing
953—Scrubber, plastic
967—Bag, laundry
981—Cloth, all purpose
982—Cloth, polishing
984—Cloth, wash
985—Bib, terrycloth
992—Mat, floor
997—Duster, all purpose

Comments and views regarding these proposed deletions may be filed with the Committee on or before September 13, 1976. Communications should be addressed to the Executive Director, Committee for Purchase from the Blind and Other Severely Handicapped, 2009 Fourteenth Street North, Suite 610, Arlington, Virginia 22201.

This notice is automatically cancelled six months from the date of this FEDERAL REGISTER.

By the Committee.

C. W. FLETCHER,
Executive Director.

CONSUMER PRODUCT SAFETY COMMISSION

FOOD, FOOD CONTAINERS, AND FOOD-RELATED ARTICLES AND EQUIPMENT

Memorandum of Understanding With the Food and Drug Administration

CROSS REFERENCE: For a document giving notice of a Memorandum of Understanding between the U.S. Consumer Product Safety Commission and the Food and Drug Administration regarding certain related objectives in carrying out their respective responsibilities in the administration of the Consumer Product Safety Act and the Federal Food, Drug, and Cosmetic Act with respect to food, food containers, and food-related articles and equipment, see FR Doc. 76-28269 appearing at page 34342 of this issue of the FEDERAL REGISTER.

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS

Receipt

Environmental impact statements received by the Council on Environmental Quality from August 2 through August 6, 1976. The date of receipt for each statement is noted in the statement summary. Under Council Guidelines the minimum period for public review and comment on draft environmental impact statements in forty-five (45) days from this FEDERAL REGISTER notice of availability. (September 27, 1976) The thirty (30) day period for each final statement begins on the day the statement is made available to the Council and to commenting parties.

Copies of individual statements are available for review from the originating agency. Back copies will also be available at cost, from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

DEPARTMENT OF AGRICULTURE

Contact: Coordinator of Environmental, Quality Activities, Office of the Secretary, U.S. Department of Agriculture, Room 359-A, Washington, D.C. 20250, (202) 447-3965.

FOREST SERVICE

Draft

Magpie-Confederate Planning Unit, Helena N.F., Broadwater, Lewis and Clark Counties, Montana. August 2: Proposed is the implementation of a Multiple Use Plan for the Magpie-Confederate Planning Unit, Helena National Forest. The unit encompasses 83,773 acres of National Forest in the Big Belt Mountains of Montana. The goal of the proposed plan is economic stability of the surrounding community with proper use of resources. Adverse impacts range from those normally associated with complete vegetation removal by clear-cutting and dozer piling, road construction, or mining, to selective removal of grass and forbs by grazing cattle or wildlife. (194 pages) (ELR ORDER No. 61130.)

Ninemile-Mill Unit Plan, Lolo N.F., several Counties in Montana, August 4: The proposed action is for the implementation of a revised multiple use plan for the Ninemile-Mill Planning Unit, Lolo National Forest. This action affects 120,950 acres of National Forest land of which 115,262 acres are in Missoula County, 5,120 acres are in Mineral County, 330 acres are in Lake County, and the remaining 238 acres are in Sanders County. Adverse effects include alteration of the natural landscape and disturbance of the natural condition of vegetation, soil, water, and wildlife. (199 pages) (ELR ORDER No. 61137.)

Gallina Unit Plan, Santa Fe National Forest, Rio Arriba and Sandoval Counties, New Mexico, August 6: Proposed is a management plan for the 59,780 acre Gallina Planning Unit, Santa Fe National Forest. The proposal recognizes the need to continue commodity management at about the current level while continuing the protection of amenity values. Adverse effects include temporary impacts from commodity production resulting in soil disturbance, dust from unsurfaced roads, vegetative debris, and surface erosion when ground cover is reduced (115 pages). (ELR Order No. 61145.)

Final

Twelvemile Unit Land Use Plan, Salmon National Forest, Lemhi County, Idaho, August 2: Proposed is a land use plan for the 54,500 acre Twelvemile Planning Unit, Salmon National Forest, which is located in the north central portion of Idaho. The major environmental effects resulting from project implementation will be due to timber harvest, access road construction, and possible mining activities. Adverse effects include landscape alterations due to implementation of resource activities and some accelerated erosion and water degradation associated with access road construction (206 pages). Comments made by: HUD, DOI, EPA, USDA, State agencies and concerned citizens. (ELR Order No. 61124.)

Long Park Reservoir, Daggett County, Utah, August 2: The proposed project provides for constructing an earth filled dam approximately 103 feet high and 725 feet long, located at Long Park in Sections 13, 14, and 15 on National Forest lands within Daggett County, Utah. The reservoir capacity will be about 13,700 acre feet with a surface area of 400 acres. Adverse effects include the inundation of about 400 acres of timber and forage producing land, and considerable soil disturbance. (102 pages). Comments made by: DOI, USDA, State and local agencies, and concerned citizens. (ELR Order No. 61121.)

Salina Planning Unit, Fishlake National Forest, Sevier County, Utah, August 2: Proposed is a Land Use Plan for the 328,990-acre Salina Planning Unit located on the Fishlake National Forest, Utah. Adverse effects include the elimination of vegetative cover by mining, road construction, and heavy recreation pressure. Some wildlife habitat, primarily big game winter range, will be destroyed where the remainder of I-70 is to be constructed. (97 pages.) Comments made by: USDA, DOC, EPA, DOI, FEA, State and local agencies, and concerned citizens. (ELR Order No. 61123.)

Ryan Park Winter Sports Site, Medicine Bow National Forest, Carbon County, Wyo., August 2: Proposed is the allocation of 280 acres of National Forest land adjacent to Ryan Park, Wyoming for a winter sports site. The current allocation of 67 acres for a winter sports site at the nearby Ryan Park Ski Village would be terminated. Adverse effects include the loss of 10 acres of land from wood production, and an increase in the consumption of energy. (155 pages). Comments made by: EPA, DOI, USDA, State and local agencies, and concerned citizens. (ELR Order No. 61116.)

SOIL CONSERVATION SERVICE

Final

Anasco River Watershed, Puerto Rico, August 2: This project entails the construction of flood detention and sediment control structures and 26.62 miles of channel works in the Anasco River Watershed, Puerto Rico. Impacts include the conversion of 145 acres of crop and pasture land into channels, the conversion of 78 acres of crop and pasture land into maintenance berms and spoil areas, relocation of 25 families and 2 farms, loss of agricultural and wildlife use on 88 acres, inundation of 4,720 feet of perennial streams, and increased turbidity in project channels during construction. (114 pages). Comments made by: DOT, HEW, COE, EPA, DOC, HUD, Commonwealth agencies, and private organizations. (ELR Order No. 61129.)

DEPARTMENT OF DEFENSE

ARMY CORPS

Contact: Dr. C. Grant Ash, Office of Environmental Policy Development, Attention: DAEN-CWR-P, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue, SW., Washington, D.C. 20314. (202) 693-6795.

Draft

Bay Port and Caseville Harbors, Maintenance, Michigan, August 3: Proposed is the maintenance dredging of the navigation channels at Bay Port and Caseville Harbors during May and June of 1977 (FY 1977) to remove the shoaling. It is estimated that about 17,000 cubic yards of unpolluted material must be removed from Bay Port Harbor and about 30,000 cubic yards from Caseville Harbor. Adverse effects include temporary turbid conditions and a decline in water quality in dredging and disposal areas. Aquatic life in both locations will be disturbed or destroyed. (Detroit District) (134 pages). (ELR Order No. 61134.)

Final

Red Rock Dam and Lake, Maintenance, several counties, Iowa, August 2: Proposed is the operation and maintenance of Red Rock Dam and Lake Red Rock which provides flood protection and low-flow augmentation downstream. Adverse impacts include periodic inundation of terrestrial habitat between 725 msl and 780 msl, an estimated 4,400 acre-feet of sediment deposited in the upper reaches of the lake, seasonal fluctuations in Lake levels resulting in an unstable environment for aquatic life, and period inundation of historical and archaeological sites. (Rock Island District) (295 pages) Comments made by: EPA, DOI, DOC, USDA, DOT, HEW, and State and local agencies, and concerned citizens. (ELR Order No. 61118.)

Grand Haven Harbor, Shore Damage Mitigation, Ottawa County Mich., August 4: Proposed is a project to mitigate shore erosion in the vicinity of Grand Haven Harbor that is attributable to the Federal navigation structures at the harbor. Sediment accumulation at the harbor mouth will serve as the unpolluted source of material for seven beach nourishment supply sites. The dredging will cause temporary benthic damage, displacement of fish, night-time nuisance light, exhaust emissions discharge, inconvenience during operations, and associated detraction from the recreational and aesthetic qualities of the area. (Detroit District). (217 pages).

Comments made by: DOI, USDA, DOC, DOT, and FPC. (ELR Order No. 61136.)

Iatan Steam-Electric Generating Facility, Platte County, Mo., August 6: Kansas City Power and Light Company and St. Joseph Light and Power Company have applied for a permit for proposed construction of a 630 Megawatt coal-fired steam-electric generating facility and appurtenant structures on and in the Missouri River near the town of Iatan, Missouri. The project will require the displacement of 2 families. The use of a once-through cooling system would adversely affect plankton, fish, fish eggs, and larvae carried through the system. Some fish would be lost from impingement on the intake screens. Construction disruption would result. (Kansas City District) (204 pages) Comments made by: USDA, HUD, DOC, 2HEW, 2DOI, 2EPA, FPC, and State and local agencies. (ELR Order No. 61149.)

Conchas Lake O&M, Canadian River, San Miguel, County, N. Mex., August 3: Proposed is the continued operation and maintenance of Conchas Lake for irrigation and flood control. Project implementation would involve implementation of the current Master Plan including expansion and upgrading of roads and project lands and landscaping. Adverse effects include the loss of existing vegetation and small animal habitat, and the intermittent inundation of some 13,375 acres. (Albuquerque District). (111 pages). Comments made by: IBWC, DOI, HEW, ERDA, EPA, AHP, USDA. FPC and State agencies. (ELR Order No. 61133.)

Fort Fisher and Vicinity, New Hanover County, N.C., August 6: The statement proposes a project that would preserve the Fort Fisher Historic Site and related facilities by means of a rubble revetment along the entire upland bluff fronting the Site, artificial beach fill, and periodic beach replenishment. Temporary construction disruption would result. (Wilmington District). (98 pages). Comments made by: DOI, DOT, EPA, and State agencies. (ELR Order No. 61147.)

San Juan Harbor, Puerto Rico, August 6: The statement refers to consideration of a plan to deepen, widen, and possibly realign and extend San Juan Harbor navigation channels, turning basins, maneuvering areas, and anchorages, creation of a new anchorage and cruiseship basin and incorporation of Sabana approach channel into the authorized Federal project. Adverse impacts include the destruction of benthic organisms, temporary increased turbidity and some localized increased toxicity. (133 pages). Comments made by: USDA, DOC, DOI, FPC, EPA, DOT, USCG, and Commonwealth agencies. (ELR Order No. 61146.)

Lavon Lake, East York Trinity River, Texas, August 2: The statement refers to the on-going modification of Lavon Lake, East York Trinity River, for increased storage of conservation water. The project is operated for flood control, water conservation, and recreational purposes. Adverse impact of the action includes the commitment of 10,230 acres of agricultural lands to project measures. (Fort Worth District). (144 pages). Comments made by: USCG, USDA, HEW, DOI, and State and local agencies, and concerned citizens. (ERL Order No. 61119.)

Offshore Terminal & Submarine Pipeline, Permit, Virgin Islands, August 6: Proposed is the issuance of a dredge and construction permit to Hess Oil Virgin Islands Corporation (HOVIC) for the purpose of constructing an offshore oil tanker unloading terminal and submarine pipeline approximately 2 miles south of the HOVIC refinery at Limetree Bay, St. Croix. Adverse effects include destruction of 4½ acres of reef coral habitat and killing of some fish by blasting. Suffocation of adjacent corals, benthic algaes, and seagrasses would also occur due to suspended solids. (Jacksonville District) (195 pages). Comments made by: DOC, EPA, DOI, USCG, USDA, and FPC. (ELR Order No. 61148.)

Supplement

Saw Mill River Flood Control (S-2), New York, August 4: The supplement concerns the modified plan for flood control on the Saw Mill River at Yonkers, New York. The modified plan consists of a U-shaped concrete channel in lieu of the vertical sheet pile plan previously recommended. The project will result in the loss of fish and wildlife habitat and the aesthetic effect of the modified appearance of the streams and the land due to the presence of structural works. (New York District). (104 pages). Comments made by: HUD, DOI, EPA, HEW, AHP, and State and local agencies, N.Y. University. (ELR Order No. 61135.)

DEPARTMENT OF DEFENSE

NAVY

Contact: Mr. Peter M. McDavitt, Special Assistant to the Assistant Secretary of the Navy (Installations and Logistics) Washington, D.C. 20350, (202) 692-3227.

Draft

NAS OCEANA/ALF FENTRESS Land Use Zoning, Virginia, August 4: Proposed are restrictive use easements on lands in high accident potential areas and high noise areas adjacent to NAS OCEANA in Virginia Beach, Virginia, and adjacent to ALF FENTRESS in Chesapeake, Virginia. Also proposed is the acquisition, by fee title, of land within the runway clear zone at NAS OCEANA. Adverse effects are expected to be minimal and include a potential reduction of the value and marketability of the land involved, and removal from the city tax rolls of the land to be acquired by fee title. (67 pages). (ELR Order No. 61138.)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Director, Office of Environmental Quality, Room 7258, 451 7th Street, SW., Washington, D.C. 20410, (202) 755-6308.

Draft

White Marsh Joint Venture, Baltimore County, Md., August 4: Proposed is a subdivision of 430 acres with local planning and zoning approval for 3,000 mixed housing units, in White Marsh, Maryland. The residential community is part of a larger 1,500 acre development which will include a 200 acre shopping mall, an office park, and industrial development. Negative impacts include conversion of woodland to urban use, some increase in air pollution and noise levels and increased traffic congestion on local roads. (Region 3). (70 pages). (ELR Order No. 61141.)

104h

The following are Community Development Block Grant statements prepared and circulated directly by applicants pursuant to section 104(h) of the 1974 Housing and Community Development Act. Copies may be obtained from the office of the appropriate local chief executive. (Copies are not available from HUD).

Final

Park Forest—Richton Park Stormwater Retention, Illinois, August 6: Proposed is the construction of one stormwater detention basin in Park Forest Census Tract 8304, Illinois. The project will benefit all persons in the Villages of Park Forest and Richton Park by preventing the flooding that now occurs on the project site and adjacent area, and by increasing active recreational facilities. Adverse effects include disturbance of marshland. (214 pages). Comments made by: EPA, DOI, State agencies, and concerned groups and individuals. (ELR Order No. 61150.)[1]

DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260,

[1] CEQ did not receive copies of the draft EIS or publish notice of its availability, but it appears that all other appropriate parties did receive copies by early June. EPA's date of receipt was June 1. In such cases, CEQ counts the review period from EPA's receipt date. Thus the minimum review period for the draft EIS expired on July 15. The 30 day review period for the final EIS begins, as usual, on CEQ's date of receipt, which was August 6.

V41I158 AUG 13 76 UMI

Department of the Interior, Washington, D.C. 20240, 202-343-3891.

BUREAU OF LAND MANAGEMENT

Draft

Emery Power Plant, Emery County Utah, August 3: Proposed is the construction and operation of two 420 megawatt coal-fired, steam-electric generating units by the Utah Power and Light Co. in Emery County, Utah. Two 345 Kilovolt transmission lines would deliver power to substations near Camp Williams and Sigurd, with a third line tying the two substations together. The project would meet Class II air quality limitations under the Prevention of Significant Deterioration Regulations, but the plant would be within a 100 mile radius of a number of National Parks, Recreational areas, Monuments and Forests, all of which have the potential of redesignation to a Class I area. (679 pages). (ELR Order No. 61131.)

BUREAU OF OUTDOOR RECREATION

Final

Upper Delaware National Scenic River, Pennsylvania, and New York, August 2: The statement refers to a proposal that 75.4 miles of the Upper Delaware River, between Hancock, New York and Matamoras, Pennsylvania, be included in the National Wild and Scenic River System upon a determination by the Secretary of the Interior that adequate land protection measures have been taken. No significant adverse effects are anticipated on ecological systems. (176 pages). Comments made by: DOI, USDA, DOD, HUD, EPA, FPC, TVA, State and local agencies, and concerned citizens. (ELR Order No. 61127.)

New River Gorge, National Wild and Scenic Rivers, Fayette, Summers, and Raleigh Counties, W. Va. Proposed is the legislative designation of the New River Gorge in West Virginia as part of the National Wild and Scenic Rivers System under overall management of the National Park Service. Inclusion in the System will provide protection of existing scenic, recreational, historic, fish and wildlife, and water quality values of the river. No significant adverse effects are anticipated on ecological systems (157 pages). Comments made by: USDA, COE, DOI, EPA, FPC, State and local agencies. (ELR Order No. 61128.)

NATIONAL PARK SERVICE

Final

Knife River Indian Villages National Historic Site, Mercer County, N. Dak., August 2: The National Park Service proposes the establishment of Knife River Indian Villages National Historic Site in North Dakota, to protect and interpret a cluster of four Indian village sites on 1291.56 acres of land near the confluence of the Knife and Missouri Rivers north of Stanton, North Dakota. The project will result in social impact from acquisition of properties and ecological impact through increased visitor use (94 pages). Comments made by: USDA, DOI, USA, EPA. (ELR Order No. 61126.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, U.S. Department of Transportation, 400 7th Street, SW., Washington, D.C. 20590, 202-426-4357.

FEDERAL AVIATION ADMINISTRATION

Draft

Anchorage International Airport, N-S Runway, Alaska, August 4: Proposed is the construction of a new North-South runway at Anchorage International Airport, Alaska. Construction plans also include a parallel taxiway system, runway and and taxiway lighting, navigational aids, service roads, a storm drain system, and security fencing. Adverse effects include loss of relatively undisturbed habitat due to clearing, grading, and gravel extraction necessitated by runway and ancillary construction. (4 volumes). (ELR Order No. 61140.)

Mecklenburg-Brunswick Regional Airport, Mecklenberg, and Brunswick counties, Va., August 4: Proposed is a new aviation airport project to serve Mecklenburg and Brunswick Counties, Virginia. The project would include land acquisition, construction of paved runway, taxiway, parking apron, airport access road and relocation of a secondary road. Adverse impacts include the clearing of 273 acres of farmland and 60 acres of woodland, the loss of wildlife habitat and exposure to noise in excess of 100 CNR of 2 churches, 2 residences and a store. (78 pages). (ELR Order No. 61143.)

FEDERAL HIGHWAY ADMINISTRATION

Draft

Hawaii Belt Road, Holualoa-Papa, Kona County, Hawaii, August 4: The proposed project consists of the construction over a 12- to 15-year period of approximately 31 miles of highway in the districts of North and South Kona on the island of Hawaii. The project would extend from Keala Kowaa Helau at Honolulu to Milolii Junction at Papa. Adverse effects include the displacement of about 12 resident individuals and families. The possibility exists for some adverse effect on the archeologically important Kona Field System. (154 pages). (ELR Order No. 61139.)

Interstate 15 West Interchange, American Falls Dam, Power County, Idaho, August 2: Proposed is Project RS-RSG-1721(19) which would improve State Highway 39 through the City of American Falls. The project begins at the east end of the American Falls Dam and ends at the I-15W interchange east of the city. Approximately 2 miles of urban secondary highway would be built with four lanes, curb and gutter, painted median and left turn bays in the urban area. Also, a new railroad crossing structure would be provided. Adverse impacts include displacement of residences and businesses, short term effects on air and noise quality and the conversion of private residential, commercial, and agricultural lands to highway use. (Region 10), (57 pages). (ELR Order No. 61125.)

FAP Route 409, O'Fallon to Sandoval, St. Clair, Clinton, and Marion counties Ill., August 3: Proposed is the completion of a freeway system known as F-409, which begins at I-64 near O'Fallon, generally parallels U.S. Route 50 across the state, and connects to an already existing freeway in Indiana near Vincennes. It intersects with I-64 on the west, I-57 in the middle, and F-411 near the eastern border of the state. Between I-64 and I-57, the portion from U.S. Route 51 to I-57 has received Design Approval. This statement covers the remaining portion in this area, that being from I-64 to U.S. Route 51. Adverse effects include acquisition of 1,800 acres of right-of-way and the relocation of between 7 and 14 families. (Region 5), (171 pages). (ELR Order No. 61132.)

New Hampshire Route 9, Sullivan-Nelson-Stoddard, Cheshire County N.H., August 2: Proposed is the improvement of a deficient two-lane section of N.H. Route 9 located in the communities of Sullivan, Nelson, and Stoddard. Four two-lane corridors will be constructed on new location with a minimum 200 foot controlled access right-of-way. The adverse impacts include acquisition of property, residences and businesses, increased noise levels and intrusion upon conservation areas, wetlands and wildlife habitat. (Region 1), (256 pages). (ELR Order No. 61120.)

Knowlton Bridge and Approaches (State Truck Highway 34), Marathon County, Wisc., August 6: Proposed is the construction of a new bridge over Lake DuBay and the updating of the approaches to that bridge to current standards. This bridge carries State Truck Highway 34 and is called the Knowlton Bridge. The project begins just north of the community of Dancy in south central Marathon County and proceeds north across Lake DuBay, ending at a recently constructed portion of Highway 34 north of Knowlton. Adverse effects include acquisition of approximately 37 acres of land and the displacement of one home. (110 pages). (ELR Order No. 61144.)

Final

Iowa 9, Waukon to Lansing, Allamakee County, Iowa, August 2: Proposed is the upgrading of a segment of Iowa 9 in Allamakee County from 7th Street S.E. in Waukon, northeasterly approximately 17.4 miles to 2nd Street in Lansing. The proposed construction would consist of 24-foot wide pavement with 10-foot stabilized shoulders on an improved vertical and horizontal alignment. Adverse impacts include the loss of 65 to 90 acres of pastureland, the removal of wildlife habitat, and an increase in dust and noise levels. (134 pages). Comments made by: HEW, HUD, USDA, DOI, EPA, COE, DOT, USCG, and State agencies. (ELR Order No. 61122.)

Interstate 20, Dallas and Kaufman Counties, Tex., August 2; The statement refers to the construction of I-20 on new location from the intersection of U.S. 175 and I.H. 635, east to east of Forney in the cities of Balch Springs, Kleberg, Mesquite, Forney, and Terrell. The proposed project consists of a 4 to 8 lane controlled access freeway facility. Adverse impacts include the displacement of 105 residences, and 4 businesses, the crossing of 8 farms and temporary increases in air, water, and noise pollution during construction. (242 pages). Comments made by: HEW, HUD, COE, USDA, DOI, EPA, State and local agencies, and concerned citizens. (ELR Order No. 61117.)

Virgin Islands. The proposed highway improvement is a continuation of the Cross Island Highway, St. Croix, Virgin Islands. The project would begin at the Sunny Isle intersection in Estate Sion Farm, proceed in a generally easterly direction, and terminate at the Contentment Road/Centerline Road junction in Estate Herman Hill, Project length is approximately 2.75 miles. Subject to the alternate chosen, between 2 and 6 residences will be displaced. (Region 1), (125 pages.) Comments made by: DOT, EPA, DOI. (ELR Order No. 61142.)

GARY L. WIDMAN,
General Counsel.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

[ERDA-1548]

INTENSE NEUTRON SOURCE FACILITY LOS ALAMOS SCIENTIFIC LABORATORY, NEW MEXICO

Availability of Final Environmental Statement

Notice is hereby given that the Final Environmental Statement, ERDA-1548, Intense Neutron Source Facility, Los Alamos Scientific Laboratory, Los Alamos, New Mexico, was issued pursuant to the Energy Research and Development Administration's (ERDA) implementation of the National Environmental Policy Act of 1969. The statement was prepared in support of legislative action related to the ERDA request for appropriation of funds for Fiscal Year 1977 for the project.

Copies of the final statement are available for public inspection in the ERDA public document rooms at:

ERDA Headquarters, 20 Massachusetts Avenue, NW. Washington, D.C.
Albuquerque Operations Office, Kirtland Air Force Base East, Albuquerque, New Mexico.
Chicago Operations Office, 9800 South Cass Avenue, Argonne, Illinois.
Idaho Operations Office, 550 Second Street, Idaho Falls, Idaho.
Oak Ridge Operations Office, Federal Building, Oak Ridge, Tennessee.
Richland Operations Office, Federal Building. Richland, Washington.
San Francisco Operations Office, 1333 Broadway, Oakland, California.
Savannah River Operations Office, Savannah River Plant, Aiken, South Carolina.

Copies have been furnished to those who commented on the draft statement that was issued by the Energy Research and Development Administration as ERDA-1548, January 28, 1976. Copies are also available for public inspection at designated Federal Depository Libraries.

A limited number of single copies are available for distribution by the Technical Information Center, P.O. Box 62, Oak Ridge, Tennessee 27830 (615) 483-8611, Extension 34672. The statement is also available from the National Technical Information Service, Springfield, Virginia 22161.

Dated at Germantown, Maryland, this 10th day of August 1976.

For the Energy Research and Development Administration.

JAMES L. LIVERMAN,
Assistant Administrator for Environment and Safety.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 599-3]

ECOLOGY ADVISORY COMMITTEE

Renewal

Pursuant to section 7(a) of the Office of Management and Budget Circular No. A-63, Transmittal Memorandum No. 1, dated July 19, 1974, it is hereby determined that renewal of the Ecology Advisory Committee of the Science Advisory Board is in the public interest in connection with the performance of duties imposed on the Agency by law. The charter which continues the Ecology Advisory Committee through August 8, 1978, unless otherwise sooner terminated, will be filed at the Library of Congress.

JOHN QUARLES,
Acting Administrator.

AUGUST 6, 1976.

[FR Doc.76-23569 Filed 8-12-76;8:45 am]

[FRL 596-7]

CALIFORNIA

Marine Sanitation Device Standard

On May 26, 1976, notice was given that the State of California had petitioned the Administrator, Environmental Protection Agency, to determine, pursuant to section 312(f)(3) of Pub. L. 92-500, that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for that portion of San Diego Bay that is less than 30 feet deep at mean lower low water (MLLW), Mission Bay, Oceanside Harbor, and Dana Point Harbor (41 FR 21516, May 26, 1976). The portions of San Diego Bay affected by this determination are those waters less than 30 feet in depth at mean lower low water as determined from the most recent National Oceanic and Atmospheric Administration chart.

Section 312(f)(3) states:

[A]fter the effective date of the initial standards and regulations promulgated under this section, if any State determines that the protection and enhancement of the quality of some or all of the waters within such State require greater environmental protection, such State may completely prohibit the discharge from all vessels of any sewage, whether treated or not, into such waters, except that no such prohibition shall apply until the Administrator determines that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for such waters to which such petition would apply.

Following an examination of the petition and supporting information, and in consideration of all comments received pursuant to the May 26 FEDERAL REGISTER notice, I have determined that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for that portion of San Diego Bay that is less than 30 feet deep at mean lower low water (MLLW), Mission Bay, Oceanside Harbor, and Dana Point Harbor. This determination is made pursuant to section 312(f)(3) of Pub. L. 92-500.

In its petition, the State of California certified that there are six pump-out facilities for San Diego Bay, which include Harbor Police, Pearson Standard, Union Oil, Harbor Island Marina, Marina Cortez, and Coronado Cay's Marina, two pump-out facilities for Mission Bay, one pump-out facility in Oceanside Harbor, and two pump-out facilities for Dana Point Harbor. The State certified that adequate treatment is available for sewage removed from all vessels.

All pump-out facilities in San Diego Bay have an adjacent water depth of at least 10 feet and the Harbor Police facility has an approximate water depth of 20 feet. Pump-out facilities in the Bay can serve pleasure crafts and small boats that are able to dock. Merchant vessels for which adequate pump-out facilities are not provided in San Diego Bay, would not be subject to this determination since these vessels would not be able to traverse areas of less than 30 foot depth because of their greater drafts. Such ships would require berthing accommodations located outside of the designated area. Areas in San Diego Bay deeper than 30 feet should have greater flushing action in those waters, and, therefore, less potential for pollution from vessel sewage discharges.

One of the facilities at Mission Bay has an adjacent water depth of 20 feet, which is the depth of the dredged entrance channel. The other pump-out facility in Mission Bay has an adjacent water depth of eight feet. The Harbor District pump-out facility in Oceanside Harbor is located immediately adjacent to the entrance channel, which is dredged to approximately 19 feet. Both of the pump-out facilities located in Dana Point Harbor have an adjacent water depth of approximately 10 feet, which is the depth of the Harbor and which will accommodate all vessels that can use the other harbor facilities.

Each bay or harbor addressed by this determination has at least one pump-out facility that is available for use on a 24-hour basis. Other privately operated facilities normally are available during daylight hours. The pump-out rates of the dockside facilities vary between five and ten gallons per minute and all of the pumping units discharge directly to the sanitary sewer and to a treatment facility that meets State and Federal requirements. A survey conducted by the California Regional Water Quality Control Board revealed no evidence of boat overcrowding at any of the pump-out facilities. Most boats require only five minutes to empty the holding tanks.

The Agency received only one comment pursuant to the May 26 FEDERAL REGISTER notice of receipt of the State of California's petition; the San Diego County Department of Public Health commented in support of the State's petition.

Dated: August 6, 1976.

JOHN QUARLES,
Acting Administrator.

SCIENCE ADVISORY BOARD ECOLOGY ADVISORY COMMITTEE

Open Meeting

Pursuant to Pub. L. 92-463, notice is hereby given that a meeting of the Ecology Advisory Committee of the Science Advisory Board will be held beginning at 9 a.m., September 13-14, 1976, in the Administrator's Conference Room (Room 1101), Waterside Mall West Tower, 401 M Street, SW., Washington, D.C.

This is the ninth meeting of the Ecology Advisory Committee. The agenda includes a report on the Science Advisory Board activities; review of EPA's National Ecology Research Plan 1978-1982; discussions on the value of long-term ecosystem research to EPA's missions; ecological problems in the Office of Water and Hazardous Materials; a briefing on the Agency's standards and regulations development process; and member items of interest.

V41I158 AUG 13 76 UMI

The meeting is open to the public. Any member of the public wishing to attend, participate, or obtain additional information should contact Dr. J. Frances Allen, Executive Secretary, Ecology Advisory Committee, (703) 557-7720.

THOMAS D. BATH,
Staff Director,
Science Advisory Board.

AUGUST 6, 1976.

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 816]

DOMESTIC PUBLIC RADIO SERVICES

Common Carrier Services Information; Applications Accepted for Filing

AUGUST 9, 1976.

The applications listed herein have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of these applications, if upon further examination, it is determined they are defective and not in conformance with the Commission's rules and regulations or its policies.

Final action will not be taken on any of these applications earlier than 31 days following the date of this notice, except for radio applications not requiring a 30 day notice period (see § 309(c) of the Communications Act), applications filed under Part 68, or as otherwise noted. Unless specified to the contrary, comments or petitions may be filed concerning radio and section 214 applications within 30 days of the date of this notice and within 20 days for Part 68 applications.

In order for an application filed under Part 21 of the Commission's Rules (Domestic Public Radio Services) to be considered mutually exclusive with any other such application appearing herein, it must be substantially complete and tendered for filing by whichever date is earlier; (a) the close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which the subsequent application is in conflict) as having been accepted for filing. In common carrier radio services other than those listed under Part 21, the cut-off date for filing a mutually exclusive application is the close of business one business day preceding the day on which the previously filed application is designated for hearing. With limited exceptions, an application which is subsequently amended by a major change will be considered as a newly filed application for purposes of the cut-off rule. [See §§ 1.227(b)(3) and 21.30(b) of the Commission's rules.]

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

22541-CD-P-76 Greenville Telephone Answering Service (New) C.P. for a new 1-way station to operate on 152.24 MHz. to be located 1625 Dayton Road, Greenville, Ohio.

22542-CD-P-76 Swartzlander Radio Limited (New) C.P. for a new station to operate on 454.250 MHz. to be located at 1375 N. SR590, Gibsonburg, Ohio.

22543-CD-P-76 John W. Bennett (KQK772) C.P. to replace transmitter operating on 43.22 MHz located at Hurley Hospital, Begole & 6th Ave., Flint, Michigan.

22544-CD-P-76 Massachusetts-Connecticut Mobile (KQK747) C.P. to relocate and change antenna system operating on 158.70 MHz located at Andrews Hill, 1 mile West of Naugatuck, Connecticut.

22545-CD-P-76 L&L Service, Inc. d/b as Metro Communication Service (KIY519) C.P. for additional facilities to operate on 152.15 MHz to be located at City Water Tower, Colbert Height, Alabama.

22546-CD-P-76 Radio Paging, Inc. (KKI445) C.P. for additional facilities to operate on 72.24 MHz to be located at a new site described as Loc. #6: One Shell Plaza, Houston, Texas.

22547-CD-P-76 Industrial Communications Systems, Inc. (KSV926) C.P. to change antenna system operating on 158.70 MHz at approximately 23.3 miles West of downtown Los Angeles, Caddie Peak, California.

22548-CD-P-76 Airsignal of California, Inc. (KWU256) C.P. to change antenna system operating on 35.22 MHz located at Del Webb Town House, 2200 Tulare, Fresno, California.

22549-CD-P-76 Indiana Bell Telephone Company, Incorporated (KSC874) C.P. to change antenna system operating on 152.78 MHz located at 116 East Taylor Street, Kokomo, Indiana.

22550-CD-P-76 Farmers Independent Telephone Co. (New) C.P. for a new 1-way station to operate on 152.51 MHz. to be located at the Telephone Office, Faiun, Wisconsin.

22551-CD-P-(2)-76 Comex, Inc. (KCI295) C.P. for additional facilities to operate on 152.24 MHz at Loc. #2: Uncanoonuc Mtn., near Manchester; and 152.24 MHz at Loc. #3 Plausawa Hill, Pembroke, New Hampshire.

22552-CD-P-76 Radio Phone Communications, Inc. (KIG297) C.P. for additional facilities to operate on 35.58 MHz to be located at a new site described Loc. #2 to be located Northwest Intersection of Va., #190 & Centerville Turnpike, Virginia Beach, Virginia.

22553-CD-TC-76 Rosa I. Alonson Consent to Transfer of Control from Rosa I. Alonso, TRANSFEROR to Santos Mateo Negron and Santiago Acosta Rivera TRANSFEREE. (KUS408) (WWA336) St. Thomas, Virginia Island.

22554-CD-P-76 Otis L. Hale dba Mobilfone Communications (KLB500) C.P. for additional facilities to operate on 152.12 MHz at a new site described as Loc. #6: 5.6 miles NE of Benton Post Office, Exit 121 on Interstate 30, Benton, Arkansas.

22555-CD-TC-(2)-76 Empire Dispatch, Inc. Consent to Transfer of Control from Irene Eleanor Cooper, Executrix of Estate of Kenneth Hawn Cooper aka Kenneth H. Cooper, deceased, TRANSFEROR to Irene E. Cooper, TRANSFEREE. Stations: KAA279, Greely, Colorado and KRS659, Fort Collins, Colorado.

22559-CD-P-(6)-76 Pacific Northwest Bell Telephone Company (KOA246) C.P. to replace transmitter, change antenna system and relocate facilities operating on 35.26, 152.51, 152.54, 152.63, 152.66, & 152.69 MHz to be located on Sentinel Hill near SW Fairmount Boulevard, Portland, Oregon.

22560-CD-AL-(6)-76 Charlotte Electronics Corporation, acting by its Division, Charlotte Message Center. Consent to Assignment of License from Charlotte Message Center, ASSIGNOR to Charlotte Message Center, Inc., ASSIGNEE. Stations: KIM-903 & KRS668, Fort Myers, Florida; KRH-640 & KRM952, Naples, Florida; KIQ513, Punta Gorda, Florida; and KSV894, Immokalee Florida.

22561-CD-P-(2)-76 General Communications, Inc. (KEC516) C.P. for additional facilities to operate on 43.58 MHz at (2) new sites described as Loc. #2: 50 Presidential Plaza, Syracuse, New York; and Loc. #3: Corner Route 173 and Palmer Road, 7 miles ESE of Syracuse, New York.

22562-CD-P-(3)-76 John W. Bennett Radio Paging Service. Consent to Assignment of License from Bennett Radio Paging Service, ASSIGNOR to Bennett Communications Systems, Inc., ASSIGNEE. Station: Owosso, Michigan; KOP326 & KQK772, Flint, Michigan.

22656-CD-P-76 General Telephone Company of Illinois (KJU818) C.P. for additional facilities to operate on 152.63 MHz located 1 mile SW of Jacksonville, Illinois.

22566-CD-P-(2)-76 Digital Paging Systems of Pittsburgh, Inc. (KGA252) C.P. for additional facilities to operate on 454.025 & 454.125 MHz to be located at a new site described as Loc. #4: 1715 Grandview Avenue, Pittsburgh, Pennsylvania.

22567-CD-ML-76 Southwestern Bell Telephone Company (KKB395) Modification of License to change base frequency from 152.72 MHz to 152.69 MHz located 5 miles SSE of Goldsmith, Texas; and repeater frequency from 157.98 MHz to 157.95 MHz located at same location.

22568-CD-P-76 Indiana Bell Telephone Company Incorporated (KSC873) C. P. to relocate facilities operating on 152.57 MHz to be located 1100 Feet West of South 23rd and Raible Streets, Anderson, Indiana.

22571-CD-ML-76 Radio and Eletronic Service Company, Inc., dba Mobilfone (KIF 649) Modification of license to change frequency from 454.025 MHz to 454.325 MHz located at 3101 North "R" Street, Pensacola, Florida.

22572-CD-AL-76 L. T. Niethammer and Valera M. Mitchell dba Delta Mobile Radio Service. Consent to Assignment of License from Delta Mobile Radio Service, ASSIGNOR, to Delta Mobile Radio Service, Inc., ASSIGNEE. Station: KMJ221, Mt. Vaca, California.

22573-CD-P-(2)-76 Lester B. Biddle, Jr. (NEW) C. P. for a new 2-way station to operate on 454.100 & 454.200 MHz to be located at 100 Beck Avenue, Panama City, Florida.

22574-CD-P-76 Chicago Communications Service, Inc. (NEW) C. P. for a new 2-way station to operate on 454.225 MHz to be located at intersection of Arlington Heights Road and Hwy. 12, Arlington Heights, Illinois.

22575-CD-P-76 Lancaster Alarm Co., Inc. (NEW) C. P. for a new 2-way station to operate on 454.175 MHz to be located at North Queen and Chestnut Streets, Lancaster, Pennsylvania.

22576-CD-P-76 Airsignal Of Nevada, Inc. (KWU211) C. P. to relocate facilities operating on 35.22 MHz at Loc. #3 to be located at Black Mountain, 6.5 miles SW of Henderson, Nevada.

MAJOR AMENDMENT

Airsignal International of Philadelphia Pennsylvania, Inc. (KGC223) FN: 21765-CD-P-76. Amend to add the base frequency 43.58 MHz to Loc. #8 described as 2.5 miles ENE of Bridgeton (Cumberland) New Jersey; and to add a new Loc. #9: described as Claridge Hotel, Indiana & Boardwalk, Atlantic City (Atlantic) New Jersey to operate on the base frequencies 35.22 MHz & 43.58 MHz.

Correction

FN: 22468-CD-MP-76 Rogers Radio Communications Service, Inc. (KTS204) Lake Zurich, Illinois. Correct Location to read Loc. #8 instead of Loc. #7. All other particulars are to remain as reported on FN #816, dated July 26, 1976.

INFORMATIVE

It appears that the following applications may be mutually exclusive and subject to the Commission's Rules regarding Ex Parte presentations by reasons of potential electrical interference:

35.22 MHz & 43.58 MHz.

Airsignal International of Philadelphia, Pennsylvania, Inc., Atlantic City, N.J. 21765-CD-P-76 (as amended)

Radio Telephone Service, Inc., Atlantic City, N.J. 22117-CD-P-(3)-76

RURAL RADIO

60383-CR-P-76 The Mountain States Telephone and Telegraph Company (NEW) C. P. for a new Rural Subscriber station to operate on 157.95 to be located 8.6 miles South of Buford, Wyoming.

60384-CR-P-76 RCA Alaska Communications, Inc. (WGF82) C. P. to change frequency from 162.3V MHz to 162.15 MHz located at FAA VHF Bldg. at Cordova Airport, Alaska.

60387-CR-AL-(2)-76 Charlotte Message Center Consent to Assignment of Radio Station License from Charlotte Electronics Corporation, acting by its division, Charlotte Message Center, ASSIGNOR to Charlotte Message Center, Inc., ASSIGNEE. Stations: KJG88 & KJG89, Temporary-Fixed Location.

60434-CR-TC-76 West Indies Communications, Inc. Consent to Transfer of Control from Rosa I. Alonso, TRANSFEROR to Santos Mateo Negro & Santiago Acosta Rivera, TRANSFEREES. Station: WWY45, Temporary-Fixed Location.

[FCC 76R-228; Docket No. 20832; File No. BPH-9308]

GREAT TRAILS BROADCASTING CORP.

Construction Permit To Change Site and for Other Changes

1. The above-captioned application was designated for hearing by Memorandum Opinion and Order, FCC 76-502, released June 15, 1976, to determine, inter alia, whether the proposal of Great Trails Broadcasting Corporation (Great Trails) would realistically provide a local transmission facility to its proposed community of license (Suburban Community issue). In designating that issue, the Commission—without discussion—placed the burden of going forward on parties respondent Group One Broadcasting Co. (Group One) and WAVI Broadcasting Corporation (WAVI) and the burden of proof upon the applicant. Now before the Review Board is a motion to modify burden of proceeding, filed June 30, 1976, by Group One and WAVI, in which they urge that, consistent with the nature of the Suburban Community issue and applicable precedent, both burdens should be placed upon Great Trails.[1]

2. As properly noted by the Bureau, while it is true that the Commission need not place all burdens on an applicant when an issue is precipitated—such as here—by a petition to deny, it has customarily done so when the issue in question is raised by the terms of the application itself, rather than on extrinsic facts alleged by petitioners.[2] Rust Communications Group, Inc., FCC 76R-44, 36 RR 2d 244.

Here, it is evident from a reading of the designation Order that the primary factors upon which the Commission relied in determining that a Suburban Community issue was warranted were apparent upon a reading of Great Trails' application itself.[3] Moreover, it has been the customary practice in specifying Suburban Community issues to place both the burden of proceeding and proof on the applicant whose proposals are drawn into question. See, e.g., Berwick Broadcasting Corporation, 12 FCC 2d 8, 12 RR 2d 665 (Rev. Bd. 1968); Centerville Broadcasting Co., 21 RR 2d 216 (Rev. Bd. 1971). And, Great Trails has presented no argument which would persuade us to depart from this practice here.

3. Accordingly, *it is ordered*, That the motion to modify burden of proceeding, filed June 30, 1976, by Group One Broadcasting Co. and WAVI Broadcasting Corporation (WAVI) is granted; and that the fourth ordering clause of the designation Order herein (FCC 76-502, released June 15, 1976) is modified to read as follows:

It is further ordered, That the burden of proceeding with the introduction of evidence and the burden of proof on Issues 1 and 2 herein shall be on the applicant.

Adopted: August 3, 1976.

Released: August 10, 1976.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

[FR Doc.76-23658 Filed 8-12-76;8:45 am]

---

[1] Other related pleadings before the Board for consideration are: (a) Broadcast Bureau's comments, filed July 9, 1976; (b) opposition, filed July 14, 1976, by Great Trails; and (c) reply, filed July 23, 1976, by Group One and WAVI.

[2] See section 309(e) of the Communications Act of 1934, as amended.

[3] In the absence of a reasoned analysis with respect to the allocation of burdens, the Board may appropriately entertain the present request. Atlantic Broadcasting Co., 5 FCC 717, 8 RR 2d 991 (1966).

FEDERAL MARITIME COMMISSION

HOLT HAULING AND WAREHOUSING SYSTEM, INC., PIERPONT MANAGEMENT CO. AND RETLA STEAMSHIP CO.

Revisions

Notice of revisions filed by:

Ms. Amy Loeserman Klein, Galland, Kharasch, Calkins & Brown, Canal Square, 1054 Thirty-First Street, NW., Washington, D.C. 20007.

Notice of Agreement No. T-3323, among Holt Hauling and Warehousing System, Inc. (Holt), Pierpoint Management Company (Pierpoint) and Retla Steamship Company (Retla), appeared in the FEDERAL REGISTER on July 16, 1976, (41 FR 29493). The parties have now submitted three revised pages to the agreement, viz: pages 12, 12a and 39. The substance of the revisions will allow Pierpoint or Retla to perform necessary dredging, which Holt fails to perform, deducting such costs from the rent due. Holt shall assist in securing any licenses, permits or authorizations that may be advisable or required. The dredging shall be carried out to the maximum extent and manner permissible in accordance with the applicable rules and regulations of any governing public authority. Holt shall also provide, upon Pierpoint's request, suitable removable camels to allow a vessel to safely moor at a distance of four feet from the face of the pier. The recources available to Pierpoint and Retla in the event the depth as set forth in the agreement is not provided, are set forth in the revisions. An additional seven (7) days from the date of publication of this notice in the FEDERAL REGISTER will be allowed for comments with respect to the revised pages.

Interested parties may inspect and obtain a copy of the revisions at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the revisions at the Field Offices located at New York, New York; New Orleans, Louisiana; San Francisco, California; and Old San Juan, Puerto Rico. Comments on such revisions, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573. Any person desiring a hearing on the proposed revisions shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the revisions (as indicated hereinabove) and the statement should indicate that this has been done.

By order of the Federal Maritime Commission.

Dated: August 10, 1976.

FRANCIS C. HURNEY,
Secretary.

[No. 76-38]

ISLA GRANDE MARINE TERMINAL, SAN JUAN, PUERTO RICO

Further Enlargement of Time To Respond

Counsel for Puerto Rico Ports Authority has moved for an extension of time to respond to the order to show cause in this proceeding. Counsel also has filed various other motions concerning procedural aspects of the matter. In order to permit orderly consideration of these latter motions, we are extending the filing dates herein for one week.

Accordingly, it is ordered that affidavits of fact and memoranda of law shall be filed by respondents on or before August 16, 1976. Reply affidavits and memoranda shall be filed by Hearing Counsel, interveners and respondents on or before August 30, 1976. Requests for hearing shall be filed on or before September 7, 1976.

By the Commission.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.76-23723 Filed 8-12-76;8:45 am]

PUERTO RICO PORTS AUTHORITY AND PUERTO RICO MARITIME SHIPPING AUTHORITY

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before September 2, 1976. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

E. J. Sheppard, Esquire, Morgan, Lewis and Bockius, 1800 M Street, NW., Washington, D.C. 20036.

Agreement No. T-3211, as amended by T-3211-1, between Puerto Rico Ports Authority (Ports) and Puerto Rico Maritime Shipping Authority (PRMSA), provides for the 15-year lease by Ports to PRMSA of Parcels IV-F and IV-G, consisting of 9.98 cuerdas, located in the Central Market Development in Puerto Nuevo, Puerto Rico. PRMSA shall be entitled to the exclusive use of the premises for: (1) the operation and handling of vans, containers and highway vehicles; and (2) the reception, handling, delivery and temporary storage incidental to its transportation of cargo transported or to be transported. As compensation, PRMSA shall pay an annual rental of $12,800 per cuerda plus utility charges. After the first three-year period Ports will establish a new rental to reflect any increase in rental for comparably situated lots in the same area subject to review every three years thereafter on the same basis.

By order of the Federal Maritime Commission.

Dated: August 9, 1976.

FRANCIS C. HURNEY,
Secretary.

TRI-STATE TERMINALS, INCORPORATED V. TRANSOCEANIC TERMINAL CORPORATION, ET AL.

Filing of Complaint

AUGUST 9, 1976.

Notice is hereby given that a complaint filed by Tri-State Terminals against Transoceanic Terminal Corporation, Federal Marine Terminals, Inc., and Federal Commerce and Navigation Company, Limited was served August 9, 1976. The complaint alleges that respondents have violated sections 15 and 16 of the Shipping Act, 1916 by virtue of various agreements and activities involving Lake Michigan traffic at the Port of Chicago and the Port of Indiana.

Hearing in this matter shall commence on or before February 9, 1976.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.23722 Filed 8-12-76;8:45 am]

FEDERAL POWER COMMISSION

[Docket Nos. RP76-116 etc]

ALABAMA-TENNESSEE NATURAL GAS CO. ET AL.

Hearing Dates

AUGUST 10, 1976.

Pursuant to the directives prescribed in the Commission's order issued on July 20, 1976, in the above-styled proceedings the following dates will be fixed for the purpose of convening formal hearings with respect to particular interstate pipeline companies as provided for in the latter order:

Company	Docket No.	Date
El Paso Natural Gas Co.	RP76-122	Aug. 23, 1976
Texas Gas Transmission Corp.	RP76-129	Aug. 24, 1976
Trunkline Gas Co.	RP76-132	Aug. 31, 1976
Panhandle Eastern Pipe Line Co.	RP76-127	Sept. 1, 1976
Texas Eastern Transmission Corp.	RP76-131	Sept. 7, 1976
Cities Service Gas Co.	RP76-118	Sept. 9, 1976
Columbia Gas Transmission Corp.	RP76-119	Do.
Northwest Pipeline Corp.	RP76-126	Do.
Transwestern Pipeline Co.	RP76-121	Sept. 14, 1976
Transcontinental Gas Pipe Line Corp.	RP76-130	Do.
Arkansas-Louisiana Gas Co.	RP76-117	Do.
United Gas Pipe Line Co.	RP76-133 [1]	----------

[1] United Gas Pipe Line Co. is presently involved in an on-going curtailment hearing. The presiding judge has certified to the Commission the question relating to adequacy of the curtailment hearing record to provide the information sought by the above-styled proceeding involving United. A specific hearing date will be set for United when and if necessary.

Formal hearings are not contemplated for the following remaining pipelines specified in the above-styled proceedings and unless specifically noticed on or before September 3, 1976, such hearings will not be convened:

Company	Docket No.
Alabama-Tennessee Natural Gas Company	RP76-116
East Tennessee Natural Gas Company	RP76-120
Eastern Shore Natural Gas Company	RP76-121
Lawrenceburg Gas Transmission Corporation	RP76-123
Louisiana-Nevada Transit Company	RP76-124
Mid-Louisiana Gas Company	RP76-125
Tennessee Natural Gas Lines, Inc.	RP76-126

The aforementioned formal hearings scheduled herein will be held in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426 at 10 a.m., e.d.t.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP76-5]

CONSOLIDATED GAS SUPPLY CORP.

Motion To Amend

AUGUST 9, 1976.

Take notice that on July 6, 1976,[1] Consolidated Gas Supply Corporation (Con-

See footnote of p. 34358.

V 41 158 AUG 13 76 UMI

solidated), 4 Gateway Center, Pittsburgh, Pennsylvania 15222, filed in Docket No. CP76–5 a motion to amend the Commission's order issued December 2, 1975, in said docket pursuant to section 7(c) of the Natural Gas Act by authorizing Consolidated to render in 1976 and 1977 an additional one-year storage service for Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), consisting of an additional storage capacity volume of 500,000 Mcf and an additional daily demand volume of 3,300 Mcf of gsa, all as more fully set forth in the motion which is on file with the Commission and open to public inspection.

Consolidated states that the order of December 2, 1975, authorized it to render storage service for Tennessee for each of two injections and withdrawal seasons, beginning with the 1975 summer injection period and ending with the 1976–1977 withdrawal period, under Consolidated's supplemental storage service program, as follows:

[In thousands of cubic feet (11.73 lbs in 3 air)]

Period	Daily storage volume	Storage capacity volume
1st 12 mo of service	26,100	3,940,000
2d 12 mo of service	22,800	3,440,000

Consolidated indicates that these storage services were purchased by Tennessee for the purpose of enabling it to render off-peak storage services during both twelve-month periods to ten of its existing New England distribution customers with a total storage volume of 3,440,000 Mcf and to render a similar storage service during only the first twelve-month period to East Tennessee Natural Gas Company (East Tennessee), also an existing customer of Tennessee, with a total storage volume of 500,000 Mcf.

Consolidated now requests that the order of December 2, 1975, be amended to authorize it to render in the second twelve-month period the identical services rendered during the first twelve-month period for Tennessee, consisting in total of a storage capacity volume of 3,940,000 Mcf and a daily demand volume of 26,100 Mcf and representing additional volumes of 500,000 Mcf and 3,300 Mcf, respectively, to the volumes certificated by the December 2, 1975, order for the later period.

The application indicates that the proposed expanded storage service is requested by Tennessee to enable it to continue to render for another year, as requested by East Tennessee, the same storage service to East Tennessee rendered during the 1975–76 period.

Any person desiring to be heard or to make any protest with reference to said motion to amend should on or before August 24, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76–23757 Filed 8–12–76;8:45 am]

[1] The motion was tendered for filing July 6, 1976; however, the fee required by Section 159.1 of the Regulations under the Natural Gas Act (18 CFR 159.1) was not paid until July 30, 1976. Thus, filing was not completed until the latter date.

LANDS WITHDRAWN IN PROJECT NO. 1307

Order Vacating Land Withdrawal

AUGUST 6, 1976.

The Forest Service, United States Department of Agriculture, has requested that the land withdrawal for Project No. 1307 be vacated in its entirety, thereby requiring Commission consideration under Section 24 of the Federal Power Act.

The withdrawal for Project No. 1307 was effectuated February 23, 1935, pursuant to the filing by Henry Dahlem of Cody, Wyoming, of an application for license, and covers all United States lands (approximately 2 acres) lying within the boundary of the project as shown on map Exhibit F (FPC No. 1307–1). Protraction of public land surveys indicated that the lands lie within the unsurveyed NW¼ of sec. 12, T. 52 N., R. 109 W., Sixth Principal Meridian, Wyoming. Notice of the withdrawal was given to the General Land Office (now Bureau of Land Management) by letter dated March 13, 1935.

Project No. 1307 was a 17-horsepower diversion-conduit development on Grinnell Creek, a small tributary of the North Fork Shoshone River, near the east entrance to Yellowstone National Park, in Park County, Wyoming. The 25-year license for the project expired on April 5, 1960, and the project was subsequently operated under authority of a Forest Service special use permit which terminated May 14, 1971. The Forest Service reports that power development was discontinued prior to May 14, 1971, and that the project ditch is now included in a resort special use permit. Reactivation of the power plant is considered unlikely as the area is now served by a rural electric cooperative.

The Commission finds. The land withdrawal for Project No. 1307 no longer serves a useful purpose and should be vacated in its entirety.

The Commission orders. The land withdrawal for Project No. 1307 is hereby vacated in its entirety.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76–23752 Filed 8–12–76;8:45 am]

[Docket No. CP74–187]

MONTANA POWER CO.

Petition To Amend

AUGUST 9, 1976.

Take notice that on July 19, 1976, The Montana Power Company (Petitioner), 40 East Broadway, Butte, Montana 59701, filed in Docket No. CP74–187 a petition to amend further the Commission's order issued March 21, 1975, in said docket, as amended, pursuant to Section 3 of the Natural Gas Act by authorizing Petitioner to import nautral gas from Canada to the United States at a border price of $1.80 (Canadian) per million Btu's, effective September 1, 1976, and $1.94 (Canadian) per million Btu's, effective January 1, 1977, as such price is set forth in amendments to Canadian-Montana Pipeline Company's (Pipeline Company) export licenses issued by the National Energy Board of Canada (NEB), all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that it currently is authorized in this docket to import at a border point near Aden, Alberta, Canada, natural gas purchased from Pipeline Company at a price of $1.60 per million Btu's. It is further stated that on June 17, 1976, the NEB issued amendments to Pipeline Company's export licenses establishing the proposed higher border prices for the exportation of natural gas. Petitioner asserts that it imports from Canada more than 70 percent of the natural gas supply necessary to serve its market and that the ability of Petitioner to meet its market requirements and avoid curtailment of service directly depends on continued importation of natural gas under the authorization granted in the subject docket.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before August 24, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene

in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76–23758 Filed 8–12–76;8:45 am]

[Docket No. ER76–824]

NORTHERN INDIANA PUBLIC SERVICE CO.

Filing of Revised Tariff Sheet

AUGUST 6, 1976.

Take notice that on July 30, 1976, The Northern Indiana Public Service Company (Northern Indiana) tendered for filing a change to its FPC Electric Service Tariff, Second Revised Volume No. 1 for service to the Kosciusko County Rural Electric Membership Corporation and the LaGrange County Rural Electric Membership Corporation.

Northern Indiana states that copies of this filing have been mailed to all interested customers.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 19, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76–23753 Filed 8–12–76;8:45 am]

[Docket No. ER76–818]

NORTHERN STATES POWER CO. (MINNESOTA)

Proposed Rate Increase

AUGUST 6, 1976.

Take notice that Northern States Power Company, Minneapolis, Minnesota, (NSP) on July 29, 1976, tendered for filing Sixth Revised Schedule A to NSP's contracts with the following sixteen total requirements wholesale customers:

	FPC Rate Schedule No.
City of Anoka	338
City of Arlington	378
Village of Brownton	324
Village of Buffalo	369
City of Chaska	323
City of Granite Falls	355
Home Light and Power Co	335
Village of Kasota	318
Village of Kasson	379
City of Lake City	361
Village of North Saint Paul	371
City of Saint Peter	325
City of Shakopee	368
Town of Valley Springs	366
City of Waseca	380
City of Winthrop	364

The rate schedule is proposed to be effective for deliveries of power and energy on and after September 1, 1976, but NSP requests, in accordance with a settlement agreement in Docket No. E–9148 that the proposed increase be suspended by the Commission so as to allow the increase to become effective for deliveries of power and energy on and after January 1, 1977.

NSP states that the proposed rate schedule will increase revenues from the total requirements sales by $1,453,000, based on sales for the June 1, 1976, to May 31, 1977, test year. The proposed increase is needed, NSP states, so that the revenues will more nearly recover NSP's costs in rendering the service.

As provided in § 35.2 of the regulations under the Federal Power Act, a copy of the proposed rate schedule and comparative billing data have been mailed to each of NSP's customers affected by the proposed change, to the Minnesota Public Service Commission, and to the South Dakota Public Utilities Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 17, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76–23754 Filed 8–12–76;8:45 am]

[Docket No. CP76–459]

NORTHWEST PIPELINE CORP.

Application

AUGUST 6, 1976.

Take notice that on July 30, 1976, Northwest Pipeline Corporation (Applicant), P.O. Box 1526, Salt Lake City, Utah 84110, filed in Docket No. CP76–459 an application pursuant to Section 7(c) of the Natural Gas Act and Section 157.7 (b) of the Regulations thereunder (18 CFR 157.7(b)) for a certificate of public convenience and necessity authorizing the construction, during the calendar year 1977, and operation of facilities to enable Applicant to take into its certificated main pipeline system natural gas which would be purchased from producers and other sellers thereof, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in connecting to its pipeline system supplies of natural gas which may become available from various producing areas generally co-extensive with its pipeline system or the systems of other pipeline companies which may be authorized to transport gas for the account of or exchange gas with Applicant.

Applicant states that the total cost of the proposed facilities would not exceed $9,000,000 and that the cost of any single project would not exceed $1,500,000.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 30, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76–23755 Filed 8–12–76;8:45 am]

[Docket No. ER76–821]

TOLEDO EDISON CO.

Service Agreement

AUGUST 6, 1976.

Take notice that The Toledo Edison Company, on July 30, 1976, tendered for filing proposed changes in its FPC Electric Service Tariff, Original Volume Number 1 applicable to sales to Municipalities for Resale. The changes consist of filing a Service Agreement executed by the Village of Oak Harbor, Ohio and Sixth Revised Sheet Number 3, List of Purchasers.

Toledo Edison states that the executed Service Agreement with the Village of Oak Harbor provides that the Village will be served under rate Municipal Resale Service Rate—Small and that the Service Agreement replaces a contract (Rate Schedules FPC Number 16) which

V 41 158 AUG 13 76 UMI

will expire on August 31, 1976. An effective date of September 1, 1976 has been requested for the filed Service Agreement.

Copies of this filing were served upon the Village of Oak Harbor, Ohio and the Public Utilities Commission of Ohio.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with § 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 19, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP76-135]

CITIES SERVICE GAS CO.

Proposed Changes in FPC Gas Tariff

AUGUST 6, 1976.

Take notice that Cities Service Gas Company (Cities Service) on July 23, 1976, tendered for filing proposed changes in its FPC Gas Tariff, Second Revised Volume No. 1, consisting of the following tariff sheets:

Seventeenth Revised Sheet PGA-1
Third Revised Sheet No. 28
First Revised Sheet No. 29
Fourth Revised Sheet No. 37D
Original Sheet Nos. 37K, 37L, and 37M

Cities Service states that the filing proposes an increase above its presently effective rates which would increase revenues from jurisdictional sales by $13,489,441, based on the test period (the twelve months ended March 31, 1975, adjusted for known changes through December 31, 1976).

Cities Service states that the increased rates are required to reflect a rate of return of 12.60 percent, additional advance payments to producers for natural gas supplies, increases in plant and related cost of service items, increases in the cost of materials, supplies, wages and services, increases in ad valorem, payroll, franchise and state income taxes, and a reduction in gas purchase and sales volumes.

Cities Service's filing also includes in its General Terms and Conditions a minor amendment to Article 6 and a new Article 23 containing an advance payments rate adjustment provision.

Cities Service proposes an effective date of August 23, 1976, and states that copies of this filing were served on each of its customers and affected state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 16, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23638 Filed 8-12-76;8:45 am]

[Docket No. ER76-804]

COMMONWEALTH EDISON CO.

Tariff Change

AUGUST 6, 1976.

Take notice that on July 22, 1976 Commonwealth Edison (Com Ed) tendered for filing a new Appendix E dated July 31, 1976 to the Facility Use Agreement between it and Illinois Power Company (Illinois), dated March 1, 1964. Under this Appendix E, Com Ed has provided two 345,000 volt disconnect switches and transmission towers at the point of interconnection near Illinois' Latham substation on Com Ed's 345 Kv line No. 2102.

Com Ed requests waiver of the notice requirements in order to permit the retroactive payment of the monthly facilities use charge of $1,932 to June 1, 1974.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 20, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23639 Filed 8-12-76;8:45 am]

[Docket No. ER76-817]

INDIANAPOLIS POWER & LIGHT CO.

Filing of Rate Increase, and Petition for Waiver of Prefiling Requirements

AUGUST 6, 1976.

Take notice that on July 29, 1976, Indianapolis Power & Light Company (Indianapolis) tendered for filing rate schedules in the form of agreements which set forth the rates, charges, terms and conditions for providing wholesale electric service to all Indiana Rural Electric Membership Corporations (REMC) it serves. The new rate is intended to supersede and replace existing agreements and rates designated as Indianapolis Power & Light Company Rate Schedules FPC No. 10 and FPC No. 11, as amended, with respect to the type of service enumerated above.

The only customers presently affected by the proposed new rates are Boone County REMC and Morgan County REMC. Both have completed arrangements with Indianapolis, dated as of October 1, 1976, which bind Indianapolis to render service under the new rates for a period of two (2) years after their effective date, unless, in the case of Morgan County REMC, service by Indianapolis is replaced with that of another supplier.

Indianapolis alleges that the structure of the new rates have not been changed from the present rate; that the principal change in the new rates is to provide a total increase of $252,292 in annual revenues based upon the test year ended December 31, 1975, producing a rate of return for such test year of 8.10% on the original cost, less depreciation, of its facilities devoted to wholesale service under the new rates.

Indianapolis proposes that the Commission waive its prefiling of testimony and exhibits requirement, and any other requirement not satisfied by the subject filing. Indianapolis further proposes, in light of the fact that the present services contract rates to the REMCs expire October 23, 1976, that the new rate be effective as of that date.

Indianapolis states that copies of this filing, and all pertinent data, have been sent to Morgan County REMC, Boone County REMC and the Public Service Commission of Indiana.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 25, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RI76-131]

MARINE CONTRACTORS AND SUPPLY, INC.

Amended Petition for Special Relief

AUGUST 6, 1976.

Take notice that on July 23, 1976, Marine Contractors and Supply, Inc., P.O. Box 27344, Houston, Texas, filed an amended petition to its June 10, 1976 petition for special relief in Docket No. RI76-131 pursuant to §§ 2.76 and 1.11 of the Commission's regulations (18 CFR 2.76 and 1.11). In its June 10, 1976 petition, Marine Contractors and Supply, Inc. requested a rate of $1.00 per Mcf. for the sale of gas from the Lucy Field, (Rob 9 Suc consolidated unit) St. Charles Parish, Louisiana to Transcontinental Gas Pipe Line Corp., 2700 South Post Oak Road, Houston, Texas. That petition was noticed on July 8, 1976, in the FEDERAL REGISTER at 41 FR 28019. The amended petition requests a rate of 85¢ per Mcf. and in all other terms is identical to its June 10, 1976 petition.

Any person desiring to be heard or to make any protest with reference to said petition should on or before August 30, 1976, filed with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23641 Filed 8-12-76;8:45 am]

[Docket No. RP76-100]

MICHIGAN WISCONSIN PIPE LINE CO.

Order Granting Late Interventions

AUGUST 6, 1976.

By order issued May 28, 1976, in the captioned proceeding, the Commission accepted and suspended a proposed rate increase in the captioned proceeding. Untimely petitions to intervene have been received from Michigan Power Company, Natural Gas Pipeline Company of America, Iowa Electric Light and Power Company, and The Public Service Commission of Wisconsin. The Commission believes that the interest of these petitioners is sufficient to warrant intervention.

The Commission finds: It is desirable and in the public interest to allow the above-named petitioners to intervene.

The Commission orders: (A) The above-named petitioners are hereby permitted to intervene in these proceedings subject to the rules and regulations of the Commission: *Provided, however,* That participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in their petitions to intervene; and *Provided further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) The interventions granted herein shall not be the basis for delaying or deferring any procedural schedules heretofore established for the orderly and expeditious disposition of this proceeding.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER76-644]

MISSOURI PUBLIC SERVICE CO.

Request for Extension of Time for Filing Revised Rate Schedules

AUGUST 6, 1976.

Take notice that on July 22, 1976, Missouri Public Service Company (MPS) tendered for filing a request for a 180 day extension to file Revised Rate Schedules "A" and "C" to its Interchange Agreement with the City of Independence, Missouri, FPR Rate Schedule No. 26. MPS states that the additional time is needed to mutually agree upon revised schedules. Schedule "C" has a fuel clause which does not conform to the Commission's Order No. 517 according to MPS.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 20, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP76-106]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Order Granting Late Interventions

AUGUST 6, 1976.

By order issued June 30, 1976, the Commission accepted and suspended a proposed increase in rates in the captioned docket. Timely and untimely petitions to intervene have been received from the following parties:

Central Illinois Light Company
Iowa Electric Light and Power Company
Iowa Power and Light Company
Mississippi River Transmission Corporation
Northern Indiana Public Service Company
Wisconsin Southern Gas Company, Inc.
Illinois Commerce Commission

The Commission believes that the interest of these petitioners is sufficient to warrant intervention.

The Commission finds: It is desirable and in the public interest to allow the above-named petitioners to intervene.

The Commission orders: (A) The above-named petitoners are hereby permitted to intervent in these proceedings subject to the rules and regulations of the Commission; *Provided, however,* That participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in their petitions to intervene; and *Provided further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) The interventions granted herein shall not be the basis for delaying or deferring any procedural schedules heretofore established for the orderly and expeditious disposition of this proceeding.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23644 Filed 8-12-76;8:45 am]

[Docket No. CP73-219]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Petition To Amend

AUGUST 5, 1976.

Take notice that on July 19, 1976, Natural Gas Pipeline Company of America (Petitioner), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP73-219 a petition to amend the order accompanying Opinion No. 693 (51 FPC 1446) issuing a certificate of public convenience and necessity in said docket pursuant to Section 7(c) of the Natural Gas Act, by which petition Petitioner requests authorization to transport an increased volume of natural gas for United Gas Pipe Line Company (United) and Trunkline Gas Company (Trunkline) in Louisiana, all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner states that it is authorized in the instant docket to transport up to 200,000 Mcf of natural gas per day for United and up to 300,000 Mcf of natural gas per day for Trunkline. Petitioner requests authorization to transport from the existing Holly Beach delivery point in Cameron Parish to the existing Erath redelivery point in Vermilion Parish up

V41158 AUG 13 76 UMI

to 50,000 Mcf of gas per day on a firm basis and up to 20,000 Mcf of gas per day on a best efforts basis for United for 18 months from the date that Stingray Pipeline Company's (Stingray) facilities to the West Cameron Block 533 Field, as proposed in Docket No. CP75-329, are completed and placed in service. It is stated that the gas would be delivered or be caused to be delivered by United from production in Blocks 532, 533, 586, and 587 in the West Cameron Area, offshore Louisiana.

Petitioner also requests authorization to transport from the Holly Beach delivery point to the existing Cameron redelivery point in Cameron Parish a total of 400,000 Mcf of gas per day commencing October 1, 1976, and a total of 460,000 Mcf of gas per day commencing the date additional facilities, proposed by Stingray in Docket No. CP76-96, are placed in service. The service rendered by Petitioner for Trunkline would be reduced at such times as United is delivering the increased volumes as proposed in the instant petition and at such times as Trunkline is transporting for Petitioner up to 50,000 Mcf of gas per day.

The additional transportation services proposed in the instant petition would be rendered at the rates provided by Petitioner's Rate Schedules X-48 and X-49, the rate schedules for the existing services for United and Trunkline, respectively, the petition states.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before August 26, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23636 Filed 8-12-76;8:45 am]

[Docket No. CP76-463]

NORTHWEST PIPELINE CORP.

Application

AUGUST 6, 1976.

Take notice that on August 2, 1976, Northwest Pipeline Corporation (Applicant), P.O. Box 1526, Salt Lake City, Utah 84110, filed in Docket No. CP76-463 an application pursuant to section 7 of the Natural Gas Act and § 157.7(g) of the regulations thereunder (18 CFR 157.7(g)) for a certificate of public convenience and necessity authorizing the construction and for permission for and approval of the abandonment, during the calendar year 1977, and operation of field gas compression and related metering and appurtenant facilities, all as more fully set forth in the application on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in the construction and abandonment of facilities which would not result in changing Applicant's system salable capacity or service from that authorized prior to the filing of the instant application.

Applicant states that the total cost of the proposed construction and abandonment would not exceed $3,000,000 and that the cost of any single project would not exceed $500,000. These costs would be financed with working funds, supplemented, as necessary, by short-term borrowings.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 31, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23645 Filed 8-12-76;8:45 am]

[Docket No. RP73-89 (PGA 76-2A)]

SEA ROBIN PIPELINE CO.

Filing of Revised Tariff Sheet

AUGUST 6, 1976.

Take notice that on July 20, 1976, Sea Robin Pipeline Company (Sea Robin) tendered for filing Tenth Revised Sheet No. 4 to its FPC Gas Tariff, Original Volume No. 1 to become effective July 2, 1976.

This filing is being made pursuant to Commission order issued June 30, 1976 to reflect the elimination from the purchased gas cost in Sea Robin's May 14, 1976 PGA filing, volumes and costs related to three new purchase contracts which did not materialize by July 1, 1976.

A copy of the revised tariff sheet with supporting data is being mailed to all of Sea Robin's jurisdictional customers and interested state commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 17, 1976. Protests will be considered by the Commisslon in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23646 Filed 8-12-76;8:45 am]

[Docket No. CP71-151]

SOUTHERN ENERGY CO.

Application To Amend

AUGUST 6, 1976.

Take notice that on July 23, 1976, Southern Energy Company (Applicant) filed in Docket No. CP71-151 an application to amend the Commission's Opinion No. 622 and order issued June 28, 1972, in said docket (47 FPC 1624), as modified on rehearing by Opinion No. 622-A and order (48 FPC 723), pursuant to section 3 of the Natural Gas Act by removing the price limitation and allowing the contract pricing formula to operate without limitation on the price of liquefied natural gas (LNG) to be imported by Applicant or, in the alternative, by raising the ceiling on the operation of the contract pricing formula from 83.0 cents per million Btu's to 131.0 cents per million Btu's of LNG, all as more fully set forth in the application to amend which is on file with the Commission and open to public inspection.

Applicant states that Opinion No. 622, as modified, authorized it to import LNG from Algeria which LNG would be purchased from El Paso Algeria Corporation (El Paso) under a contract with a pricing formula which permits changes in the LNG price based on changes in (i) the price El Paso pays for LNG; (ii) the costs of tankers and other facilities; (iii) operating expenses, and (iv) the cost of debt. It is further stated that said contract pricing formula was approved but that the import authorization granted Applicant limited the price to 83.0 cents per million Btu's. It is indicated that the ceiling price of 83.0 cents per million Btu's was based on a 1972 cost estimate and that Opinion No. 622-A provided that the limitation on the price for LNG could be raised upon a showing that actual costs reasonably and prudently incurred exceeded the cost estimates upon which the 83.0-cent price was based.

Applicant asserts that 95 percent of El Paso's costs have now been incurred or contracted for and the total cost and resulting price to Applicant is therefore known with a great deal of certainty, and that the actual, reasonably and prudently incurred costs experienced by El Paso have exceeded the 1972 estimates upon which the 83.0-cent price was based. Applicant states that the current estimate of the price under the contract formula in the first full year of full deliveries is 130.29 cents per million Btu's.

Accordingly, Applicant requests that the Commission find that the additional costs incurred and to be incurred by El Paso serve the present and future public convenience and necessity and, therefore, that the Commission remove the price limitation and allow the contract pricing formula to operate without limitation. Applicant requests, in the alternative, that the Commission raise the ceiling on the operation of the contract pricing formula from 83.0 cents per million Btu's to 131.0 cents per million Btu's.

Any person desiring to be heard or to make any protest with reference to said application to amend should on or before August 27, 1976, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.76-23647 Filed 8-12-76;8:45 am]

[Docket Nos. RP74-41 and RP75-73 (PGA 76-5A)]

TEXAS EASTERN TRANSMISSION CORP.

Proposed Changes in FPC Gas Tariff

AUGUST 5, 1976.

Take notice that Texas Eastern Transmission Corporation (Texas Eastern) on July 20, 1976 tendered for filing proposed changes in its FPC Gas Tariff, Fourth Revised Volume No. 1, the following sheets; accordingly to Texas Eastern:

Second Substitute Twentieth Revised Sheet No. 14
Second Substitute Twentieth Revised Sheet No. 14A
Second Substitute Twentieth Revised Sheet No. 14B
Second Substitute Twentieth Revised Sheet No. 14C
Second Substitute Twentieth Revised Sheet No. 14D
Second Substitute Revised Twentieth Revised Sheet No. 14
Second Substitute Revised Twentieth Revised Sheet No. 14A
Second Substitute Revised Twentieth Revised Sheet No. 14B
Second Substitute Revised Twentieth Revised Sheet No. 14C
Second Substitute Revised Twentieth Revised Sheet No. 14D

Texas Eastern states that these sheets are being issued in substitution of tariff sheets filed by Texas Eastern on May 17, 1976 and June 15, 1976, for a PGA rate increase and a reduction due to repayments of advance payments, respectively. Texas Eastern states that such May 17, 1976 and June 15, 1976 filings were approved by the Commission by letter orders dated June 30, 1976 and July 8, 1976, respectively. Texas Eastern states that the PGA filing of May 17, 1974 was suspended, in part, for one day and accepted effective July 2, 1976, and accepted, in part, without suspension effective July 1, 1976, subject to revisions by Texas Eastern to reflect a change in rates by one of its pipeline suppliers.

Texas Eastern asserts that the above tariff sheets comply with the requirements of the Commission's letter order of June 30, 1976 and also reflect the advance payment reduction approved by letter order dated July 8, 1976. Texas Eastern requests effective dates for the above tariff sheets consistent with the effective dates allowed in the abovementioned letter orders.

Texas Eastern states that copies of the filing were served upon the company's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 18, 1976. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP76-84]

UNITED GAS PIPE LINE CO.

Order Granting Intervention

AUGUST 6, 1976

On April 9, 1976, United Gas Pipe Line Company (United) filed proposed tariff sheets which would increase its jurisdictional revenues. United requested that the tariff sheets be allowed to become effective on May 9, 1976.

Public notice of United's proposed rate increase was issued on April 16, 1976, with protests and petitions to intervene due on or before April 28, 1976. On June 25, 1976, an untimely petition to intervene was received from Algonquin Gas Transmission Company (Algonquin). Having reviewed Algonquin's petition, the Commission concludes that Algonquin has an interest in this proceeding which is sufficient to warrant its intervention herein.

The Commission finds: It is desirable and in the public interest to allow Algonquin to intervene in these proceedings.

The Commission orders: (A) Algonquin is hereby permitted to intervene in these proceedings subject to the rules and regulations of the Federal Power Commission: *Provided, however*, That participation of such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in the notice of intervention; and *Provided further*, That the admission of such intervenor shall not be construed as recognition by the Federal Power Commission that it might be aggrieved because of any order or orders of the Federal Power Commission entered in this proceeding.

(B) The intervention granted herein shall not be the basis for delaying or deferring any procedural schedules heretofore established for the orderly and expeditious disposition of this proceeding.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-94 (PGA 76-2)]

VALLEY GAS TRANSMISSION, INC.

Order Granting Intervention

AUGUST 6, 1976.

On May 14, 1976, Valley Gas Transmission, Inc. (Valley Gas) filed a proposed tariff sheet pursuant to its Purchased Gas Cost Provision. Valley Gas requested that the tariff sheet be allowed to become effective on July 1, 1976.

Public notice of Valley Gas proposed tariff revision was issued on May 21, 1976, with protests and petitions to intervene due on or before June 7, 1976. On June 7, 1976, a timely petition to intervene was received from Tennessee Gas Pipeline Company, a division of Tenneco, Inc. (Tennessee). Having reviewed Tennessee's petition, we conclude that

V41158 AUG 13 76 UMI

Tennessee has an interest in this proceeding which is sufficient to warrant its intervention herein.

The Commission finds: It is desirable and in the public interest to allow Tennessee to intervene in these proceedings.

The Commission orders: (A) Tennessee is hereby permitted to intervene in these proceedings subject to the rules and regulations of the Federal Power Commission; *Provided, however,* That participation of such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in the notice of intervention; and *Provided further,* That the admission of such intervenor shall not be construed as recognition by the Federal Power Commission that it might be aggrieved because of any order or orders of the Federal Power Commission entered in this proceeding.

(B) The intervention granted herein shall not be the basis for delaying or deferring any procedural schedules heretofore established for the orderly and expeditious disposition of this proceeding.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

CUBANC CORP.

Order Approving Formation of Bank Holding Company

CUbanc Corp., Columbus, Ohio, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 100 per cent (less directors' qualifying shares) of the voting shares of The Alexandria Bank Company, Alexandria, Ohio ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is a recently formed corporation organized for the purpose of becoming a bank holding company [1] through the acquisition of Bank. Bank holds total deposits of approximately $2.8 million, representing 1.1 percent of total deposits in commercial banks in the relevant banking market [2] and is the smallest of five banking organizations in the market.[3]

Since Applicant has no present operations or subsidiaries, consummation of the proposed transaction would not have any adverse effect on existing or potential competition,[4] nor would it increase the concentration of banking resources or have an adverse effect on other banks in the relevant market. Thus, the Board concludes that competitive considerations are consistent with approval of the application.

The financial and managerial resources of Applicant and Bank are regarded as satisfactory and the future prospects for each appear favorable. Applicant will not incur debt incident to the subject proposal. It is expected that, following consummation of this proposal, Bank will increase interest rates it pays on savings deposits, initiate a credit card program, and expand its hours of operation. Accordingly, considerations relating to the convenience and needs of the communities to be served lend some weight toward approval of the application. It is the Board's judgment that the proposed acquisition would be in the public interest and should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Cleveland pursuant to delegated authority.

By order of the Board of Governors, effective August 4, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.76-23694 Filed 8-12-76;8:45 am]

FIRST YUKON BANKSHARES, INC.

Order Approving Formation of Bank Holding Company

First Yukon Bankshares, Inc., Oklahoma City, Oklahoma, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 84.77 percent of the voting shares of The First National Bank of Yukon, Yukon, Oklahoma ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, a nonoperating corporation with no subsidiaries, was organized for the purpose of becoming a bank holding company through the acquisition of Bank. Bank holds deposits of $23.7 million [1] and is the 30th largest bank in the relevant banking market,[2] controlling less than one per cent of the total deposits in commercial banks in the

[1] Applicant was organized by The Ohio Central Credit Union, Inc., Columbus, Ohio, and The Ohio Credit Union League, Columbus, Ohio. Applicant's shares are to be held by seven individuals and 24 State chartered credit unions. No credit union will own more than 5 percent of the outstanding voting shares of Applicant.

[2] The relevant banking market is approximated by Licking County except for the Townships of Jersey, Lima, and Etna.

[3] All banking data are as of June 30, 1975.

[4] No credit union that will share in the ownership of Applicant operates in the relevant banking market.

[5] Voting for this action: Chairman Burns and Governors Wallich, Coldwell, Jackson, Partee, and Lilly. Absent and not voting: Governor Gardner.

[1] All banking data are as of December 31, 1975.

[2] The relevant banking market is approximated by the Oklahoma City SMSA, which is comprised of Canadian, Cleveland, McClain, Oklahoma and Pottawatomie Counties.

market. Upon acquisition of Bank, Applicant would control approximately 0.2 per cent of the total commercial bank deposits in the State of Oklahoma. Since the proposed transactions is essentially a reorganization of Bank's present ownership into corporate form, consummation of the proposal would not appear to have any adverse effects on other banks or on competition in the relevant market. Therefore, competitive considerations are consistent with approval of the application.

The financial and managerial resources of Applicant and Bank are regarded as satisfactory. The future prospects of Applicant are dependent upon those of Bank, which also are regarded as satisfactory. Although Applicant will assume debt in acquiring the shares of Bank, it appears that income and management fees from Bank will provide sufficient revenue to Applicant to service the debt adequately without adversely affecting the financial condition of Bank. In addition, Applicant has committed that, during the period of debt amortization, it will not retire or pay dividends on any of its non-cumulative preferred stock until after each respective year's principal and interest payments of Applicant's acquisition debt have been amortized as projected and unless Bank's capital has been maintained as projected. Accordingly, considerations relating to banking factors are consistent with approval. Although consummation of the transaction would have no immediate effect on area banking needs, considerations relating to the convenience and needs of the community to be served are consistent with approval of the application. It is the Board's judgment that consumation of the proposed transaction would be consistent with the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors,[1] effective August 6, 1976.

GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.76-23695 Filed 8-12-76;8:45 am]

FORT SAM HOUSTON BANKSHARES, INC.

Order Approving Acquisition of Greenwood Life Insurance Co.

Fort Sam Houston Bankshares, Incorporated, San Antonio, Texas ("Applicant"), a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR § 225.4(b)(2)), to acquire 100 percent of the outstanding shares of Greenwood Life Insurance Company, San Antonio, Texas ("Company"), a company that will engage in the activity of underwriting credit life insurance and credit accident and health insurance that is directly related to extensions of credit by the bank holding company system. Such activities have been determined by the Board to be closely related to banking (12 CFR 225.4(a)(10)).

Notice of the applications, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (41 FEDERAL REGISTER 23759). The time for filing comments and views has expired, and the Board has considered the application and all comments received in the light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)).

Applicant, the 34th largest banking organization in Texas, controls one bank, National Bank of Fort Sam Houston, San Antonio, with deposits of approximately $129.2 million, representing 1.3 percent of the total deposits in commercial banks in the State.[1]

Company is an existing life insurance company,[2] the activities of which are limited to reinsurance of ordinary life policies issued by its present parent company, Government Personnel Mutual Life Insurance Company ("GPMLIC"). After consummation, Company would terminate its captive reinsurance activities for its present parent,[3] and commence both reinsurance activities and direct underwriting activities for Applicant. Since the proposal thus essentially involves a de novo activity, consummation of the transaction would not have any significant adverse effects on existing or potential competition in the relevant market.[4]

Credit life and credit accident and health insurance is generally made available by banks and other lenders and is designed to assure repayment of a loan in the event of death or disability of the borrower. In connection with its addition of credit insurance underwriting to the list of permissible activities for bank holding companies, the Board stated:

> To assure that engaging in the underwriting of credit life and credit accident and health insurance can reasonably be expected to be in the public interest, the Board will only approve applications in which an applicant demonstrates that approval will benefit the consumer or result in other public benefits. Normally, such a showing would be made by a projected reduction in rates or increase in policy benefits due to bank holding company performance of this service.

Applicant's Bank, through two policies issued by an unaffiliated insurance company, now offers to its customers credit life insurance on a single life in connection with installment and revolving credit loans it originates. Rates now being charged for this coverage are 39.9 percent below maximum rates permitted by State law. Applicant proposes to reduce current rates by 3.57 percent resulting in rates that are 42.1 percent below State regulatory maxima. Applicant further proposes to begin offering coverage on single payment consumer loans and coverage on joint lives when applicable. The proposed rates for this coverage are 3.55 percent below State regulatory maxima. Moreover, Bank currently does not offer credit accident and health insurance to its credit customers. Applicant proposes to provide this coverage at 3.51 percent below State regulatory maxima. As an additional public benefit, Applicant would increase maximum credit life insurance coverage from $10,000, the present maximum, to $20,000 except on revolving credit loans, where the limit would remain at $10,000. Applicant also proposes to extend from one month to three months the period during which coverage on the life of a borrower in default would continue.

Although policies currently in use by Bank do not contain a suicide exclusion provision, Applicant proposes to include such a provision in its policies from Company. The suicide exclusion is a standard provision in policies issued by the six credit-related insurance subsidiaries of bank holding companies presently doing business in Texas. The Board does not view Applicant's proposed addition of the suicide exemption provision as significantly reducing the net public benefits that will result from the implementation of the other elements of the Applicant's proposal. Accordingly, the Board finds that Applicant's proposed premium rate reductions and its

[1] Voting for this action: Chairman Burns and Governors Wallich, Coldwell, Jackson, Partee and Lilly. Absent and not voting: Governor Gardner.

[1] All banking data are as of December 31, 1975, and reflect bank holding company acquisitions and formations as of April 1, 1976.

[2] Company holds life insurance policies with a face value of $236,500 pursuant to reinsurance agreements with its present parent. It does so to qualify as an insurer, and thereby retain its charter, under the Texas Insurance Code. At the time of consummation, Company will simultaneously reinsure approximately $3.8 million face value of insurance in force formerly underwritten by Bank's present insurance underwriter in connection with past extensions of credit by Bank. The reinsurance transaction is to be undertaken to allow Company to retain its charter; thereafter, Company will begin its underwriting activities.

[3] In order to ensure that Company will engage in no insurance activities carried over from its former parent that are impermissible for subsidiaries of bank holding companies, a clause in the contract of sale between Applicant and GPMLIC provides that the reinsurance agreements in existence between the two parties shall be terminated and that GPMLIC shall recapture all of such reinsurance, thereby relieving Company as reinsurer immediately following consummation.

[4] The San Antonio SMSA is the relevant credit-related insurance market for purposes of analyzing the competitive effects of the proposal.

V 41 158 AUG 13 76 UMI

proposed increases in policy coverage are procompetitive and in the public interest.

Based upon the foregoing and other considerations reflected in the record, including a commitment by Applicant to maintain on a continuing basis the public benefits that the Board has found to be reasonably expected to result from this proposal and upon which the approval of this proposal is based, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiares as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

The transaction shall be made not later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Dallas, pursuant to authority hereby delegated.

By order of the Board of Governors,* effective August 6, 1976.

GRIFFITH L. GARWOOD.
Assistant Secretary of the Board.

[FR Doc.76-23696 Filed 8-12-76;8:45 am]

LITCO CORPORATION OF NEW YORK

Acquisition of Bank

LITCO Corporation of New York, Garden City, New York, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares of Long Island National Bank, Hicksville, New York. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of New York. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than August 24, 1976.

Board of Governors of the Federal Reserve System, August 6, 1976.

SEILON, INC.

Acquisition of Bank

Seilon, Inc., Toledo, Ohio, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to retain approximately .4 per cent of the voting shares of Nevada National Bancorporation (formerly First Bancorporation), Reno, Nevada. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of San Francisco. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than September 7, 1976.

Board of Governors of the Federal Reserve System, August 6, 1976.

GRIFFITH L. GARWOOD.
Assistant Secretary of the Board.

[FR Doc 76-23698 Filed 8-12-76;8:45 am]

SPALDING CITY CORP.

Formation of Bank Holding Company

The Spalding City Corporation, Spalding City, Nebraska, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 80 percent or more of the voting shares of Spalding City Bank, Spalding, Nebraska. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. § 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit vews in writing to the Secretary, Board of Governors of the Federal Reserve System. Washington, D.C. 20551 to be received no later than September 8, 1976.

Board of Governors of the Federal Reserve System, August 9, 1976.

GRIFFITH L. GARWOOD.
Assistant Secretary of the Board.

FEDERAL TRADE COMMISSION

HARMSCO, INC.

Denial of Application for Waiver of Magnuson-Moss Warranty Act

I. By application dated September 4, 1975, Harmsco, Inc. (Harmsco), a manufacturer of swimming pool water treatment systems, requested a waiver of section 102(c) of the Magnuson-Moss Warranty Act, Pub. L. 93-637, 15 U.S.C. 2302(c) (the "Act").

Section 102(c) of the Act provides that no warrantor of a consumer product may condition has written or implied warranty of such product on the consumer's using, in connection with such product, any article or service (other than one provided without charge) identified by brand, trade or corporate name, unless a waiver of this provision is granted by the Commission.

Harmsco seeks the waiver in order to use the following clause in its warranty:

This guarantee is void if filter cartridges other than those manufactured by Harmsco, Inc. are used in this filter.

As required by section 102(c), the Commission published Harmsco's application in the December 18, 1975 FEDERAL REGISTER for public comment. The record was open for comment until February 16, 1976. The only evidence submitted and arguments made in connection with the waiver application were those of the applicant.

The application of Harmsco, Inc. for a waiver of section 102(c) is denied for the reasons set forth below.

II. There are two distinct products under consideration in this waiver request: (1) The filter unit ("unit") and (2) the filter cartridge ("cartridge"). The unit consists of pumps, pipes, tank, housing and related components. Harmsco's proposed warranty covers only the unit. The unit is a relatively expensive product with a service life expectancy of at least ten years (as evidenced by the duration of the warranty against defects offered by the manufacturer).

The cartridge is a cylindrical device which is inserted into the unit which acts as the filtering element. The unit pumps water through the cartridge to be filtered. Harmsco seeks a waiver so that the cartridge may be identified by brand name in the unit's warranty and its use made a condition of warranty coverage. Cartridges must be replaced regularly throughout the life-cycle of the unit to keep the filtration system operating; their cost is minor in comparison to the cost of the unit.

Section 102(c) provides that "the prohibition of this subsection may be waived by the Commission if—

(1) The warrantor satisfies the Commission that the warranted product will function properly only if the article or service so identified is used in connection with the warranted product and

(2) The Commission finds that such a waiver is in the public interest."

In support of the waiver request the applicant has submitted the following materials:

(1) Two photographs of weighted barrels each supported by three cartridges. One barrel is supported by three non-Harmsco cartridges while the other is supported by three Harmsco cartridges. These photographs show that the non-Harmsco cartridges deform under a weight of 255 lbs. while Harmsco cartridges can support at least 440 lbs. without similar deformation. There is no

indication on the record of the relevance of this feature to the statutory standard.

(2) Three advertisements for Harmsco cartridges. These advertisements set out the applicant's product claims for its products. There is no documentation in the advertisement supporting the advertised claims.

(3) A "Swimming Pool Filter Evaluation Program" report dated September 22, 1972 by Enviro-Engineers, Inc., 600 Bancroft Way, Berkeley, California ("1972 Report"). This report, commissioned by Harmsco compares the performance of the Harmsco filtration system to three other systems in six different areas: turbidity, pH, alkalinity, oil and grease, residual chlorine and hardness. The other systems used sand, sand and gravel, and earth, respectively, instead of cartridges as the filtering element. This report concludes that the Harmsco system has better overall performance characteristics than the other systems tested.

(4) A "Filter Evaluation Program" report dated January 24, 1974 by Engineering Science, Inc., 600 Bancroft Way, Berkeley, California ("1974 Report"). Also commissioned by Harmsco, this report contains 11 pages of description of test procedures, results and conclusions. Harmsco's cartridges were compared to systems using sand, earth and two different non-Harmsco cartridges as filtering elements. These systems were compared in terms of turbidity removal, length of filtration cycle, and filtration capacity. This report concludes that the Harmsco system gives better overall performance than both the non-cartridge systems. It further concludes that Harmsco cartridges used in conjunction with a Harmsco unit perform better than other cartridges used in conjunction with the same unit.

Initially, the two reports raise a crucial question: does a demonstration that the tied-in product is more efficient than, or superior in performance to, other products of the same kind satisfy the statutory standard that "the warranted product will function properly only if" the tied-in product is used in connection with it. To answer this an understanding of the underlying policy of section 102(c) is necessary.

The clear purpose of section 102(c) is to prohibit the implementation of tying arrangements by means of warranties. Tying arrangements have long been held to be "unreasonable in and of themselves whenever a party has sufficient economic power with respect to the tying product to appreciably restrain competition in the free market for the tied product and a 'not insubstantial' amount of interstate commerce is affected". "Northern Pacific R. Co. v. U.S.", 356 U.S. 1, 5–6 (1958). Congress indicated in section 102(c) its intention to prohibit those tying arrangements imposed upon consumers by means of a penalty of loss of warranty coverage.

With this background in mind, the Commission believes that a mere demonstration of the superior performance characteristics does not satisfy the "function properly" standard.

The proper functioning of the warranted product is not necesarily the best functioning of that product. Some consumers may wish to choose a lower level of performance in consideration of other factors such as price or availability. To consumers making such a choice the warranted product is still "functioning properly" in acordance with their desires, even though it may not perform at its highest efficiency.

This construction of section 102(c) does not prohibit a warrantor from requiring the consumer to use a secondary product or service of praticular objective specifications if the warrantor possesses a reasonable basis to conclude that such specifications: (1) Are reasonably related to the warranted product's performance or the warrantor's liability under the written warranty; and (2) are not being used to evade the prohibition of Section 102(c). For example, Harmsco may require the use of a cartridge with a particular porosity. (This specification is given as an illustration; it is not the Commission's view of an appropriate standard.) In contrast to brand name identification, such a requirement does not reduce competition because consumers may choose among those brands meeting the specifications, allowing any manufacturer to compete for the consumer's business.

Even assuming, arguendo, that a showing of superior performance would meet the statutory standard, the test reports submitted by Harmsco fail to demonstrate this, as the relevance and validity of the reports' conclusions are subject to considerable doubt.

The 1972 Report does not demonstrate such superior performance, as it does not compare Harmsco cartridges to other cartridges; rather, it compares Harmsco cartridges to filtration systems using sand, sand and gravel, and earth as the filtering element. These other elements are incompatible with the Harmsco unit. Thus while the report may support an assertion that cartridge filtration systems, in general, are superior to other types of filtration systems, it is not responsive to the issues that section 102(c) poses.

While the 1974 Report similarly compares Harmsco cartridge systems with non-cartridge systems, it also compares them with other cartridge systems. To this extent the 1974 Report gives more support to Harmsco's assertion that Harmsco cartridges are superior to other cartridges. However, this report has other weaknesses which compromise its validity as support for the assertion that Harmsco cartridges are superior to other cartridges.

First, there is no indication that the two non-Harmsco cartridges compared to the Harmsco cartridge are a representative sample of all possible substitute cartridges. Without such a showing, the Commission is unable to rely on the report's conclusions.

Second, the non-Harmsco cartridges were physically altered to fit into the Harmsco unit used in the tests conducted. This alteration raises serious doubts as to the validity of the test results. The applicant for a waiver bears the burden of proving that such comparative tests follow proper methodology in reaching their conclusions.

III. Accordingly, the Commission has concluded that Harmsco has failed to satisfy the statutory standard for obtaining a waiver of Section 102(c). The request is denied.

(Sec. 102, 88 Stat. 2183 (15 U.S.C. 2302).)

By direction of the Commission dated August 4, 1975.

CHARLES TOBIN.
Secretary.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Report Proposal

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on August 6, 1976. See 44 U.S.C. 3512(c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed EEOC form are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments (in triplicate) must be received on or before August 31, 1976, and should be addressed to Mr. John M. Lovelady, Acting Assistant Director, Regulatory Reports Review, Room 5216, 425 I Street, NW., Washington, D.C. 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202–376–5425.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

EEOC requests clearance of a revision to Form EEO–1, Equal Employment Opportunity Employer Information Report. The filing of this report is required of all employers with 100 or more employees and certain Federal government contractors and first-tier subcontractors with 50 or more employees who are subject to Title VII of the Civil Rights Act of 1964, as amended by the Equal Em-

V 41158 AUG 13 76 UMI

ployment Opportunity Act of 1972. Form EEO-1 will be revised to reflect five new race/ethnic categories as follows:

a. *White* (Not of Hispanic Origin). All persons having origins in any of the original peoples of Europe, North Africa, the Middle East, or the Indian Subcontinent.

b. *Black* (Not of Hispanic Origin). All persons having origins in any of the black racial groups.

c. *Hispanic*. All persons of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

d. *Asian or Pacific Islanders*. All persons having origins in any of the original peoples of the Far East, Southeast Asia, or the Pacific Islands. This area includes, for example, China, Japan, Korea, the Philippine Islands, and Samoa.

e. *American Indian or Alaskan Native*. All persons having origins in any of the original peoples of North America.

EEOC estimates respondent burden to average 20 hours per respondent. There are approximately 40,000 respondents as estimated by EEOC.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

INTERNATIONAL TRADE COMMISSION

[332-73]

HARMONIZED COMMODITY DESCRIPTION AND CODING SYSTEM

Public Notice of Hearings on Certain Draft Chapters

The United States International Trade Commission hereby gives notice that public hearings will be held at 10 a.m., e.d.t., on September 2, 1976, in the Hearing Room of the U.S. International Trade Commission Building, 701 E Street NW., Washington, D.C. 20436 on drafts of, and U.S. comments on, the following chapters of the Harmonized Commodity Description and Coding System:

Chapter 64: Footwear, gaiters and the like; parts of such articles.
Chapter 69: Ceramic products.
Chapter 70: Glass and glassware.

The purpose of this hearing is to obtain the comments and views of interested parties with respect to draft chapters of the Harmonized Commodity Description and Coding System, and of the U.S. comments submitted in connection therewith.

Requests to appear at the hearings on these chapters must be filed in writing with the Secretary of the Commission not later than August 27, 1976. Parties who have properly entered an appearance by this date will be individually notified of the date on which they are scheduled to appear. Such notice will be sent as soon as possible after August 27, 1976. Any person who fails to receive such notification by August 31, 1976, should immediately communicate with the Office of the Secretary of the Commission. Parties wishing to submit written comments in lieu of attendance at the hearings should do so by September 13, 1976.

In its public notice issued May 10, 1976, regarding hearings on the chapters of the Harmonized Commodity Description and Coding System (41 FR 19781 of May 13, 1976) interested parties were notified regarding the rules governing the conduct of the hearings, and the submission of written statements. The Commission's notice of May 10, 1976, applies to the hearings on the chapters being released today to the extent that it is applicable.

In its public notice of May 4, 1976 (41 FR 18716 of May 6, 1976), the Commission identified those chapters which have been considered thus far by the Harmonized System Committee, and the chapters for which a technical team draft has been released. Since that notice was issued the Commission has received the following draft chapters prepared by the technical team:

Chapter 12: Oil seeds and oleaginous fruit; miscellaneous grain seeds and fruit; industrial and medical plants; straw and fodder.
Chapter 16: Preparations of meat, of fish, of crustaceans or molluscs.
Chapter 17: Sugar and sugar confectionary
Chapter 24: Tobacco.
Chapter 27: Mineral fuels, mineral oils and products of their distillation; bituminous substances, mineral waxes.
Chapter 63: Old clothing and old textile articles; rags.
Chapter 87: Vehicles, other than railway or tramway rollingstock, and parts thereof.
Chapter 88: Aircraft and parts thereof.
Chapter 89: Ships, boats, and floating structures.
Chapter 98: Miscellaneous manufactured articles.

Copies of the foregoing chapters and of the chapters and U.S. comments thereon which are the subject of the hearing are available for public inspection at the offices of the Commission at 701 E Street NW., Washington, D.C. 20436 or at 6 World Trade Center, New York, New York 10048.

Issued: August 9, 1976.

By order of the Commission.

KENNETH R. MASON,
Secretary.

[FR Doc.76-23610 Filed 8-12-76;8:45 am]

NATIONAL CREDIT UNION ADMINISTRATION

PRIVACY ACT OF 1974

Adoption of Routine Use

On page 19872 of the May 13, 1976, edition of the FEDERAL REGISTER (41 FR 19872), pursuant to the provisions of the Privacy Act of 1974 (Pub. L. 93-579), the National Credit Union Administration proposed an addition to the routine uses of each of its systems of records as previously published on pages 47427-47434 of the FEDERAL REGISTER of October 8, 1975. Interested persons were given until June 18, 1976, to submit written comments as to whether this proposal should be adopted, rejected or modified.

In view of the fact that no unfavorable comments were received, the proposed addition is hereby adopted and shall be effective immediately.

C. AUSTIN MONTGOMERY,
Administrator.

AUGUST 6, 1976.

[FR Doc.76-23665 Filed 8-12-76;8:45 am]

OFFICE OF MANAGEMENT AND BUDGET

ADP SERVICES

Government Reliance on the Private Sector

The longstanding policy of Government reliance on the private sector for goods and services, currently expressed in OMB Circular A-76, has not been effectively implemented in many cases, including Government requirements for data processing services. Executive agencies are extensively involved in the operation of ADP activities which provide services that are available from commercial sources.

To facilitate agency efforts to improve the implementation of Circular A-76 in this functional area, supplemental guidance has been prepared in the form of a draft Transmittal Memorandum to the Circular. All interested parties are invited to submit their views and comments on this Memorandum for consideration by the Office of Federal Procurement Policy. Responses should be received by September 15, 1976 and should be addressed to:

Administrator for Federal Procurement Policy, Office of Management and Budget, 726 Jackson Place, NW., Washington, D.C. 20503.

Dated at Washington, D.C., on August 10, 1976.

HUGH E. WITT,
Administrator.

EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF MANAGEMENT AND BUDGET

[Circular No. A-76; Transmittal Memorandum No. —]

TO THE HEADS OF EXECUTIVE DEPARTMENTS AND ESTABLISHMENTS

SUBJECT: GOVERNMENT RELIANCE ON COMMERCIAL SERVICES TO MEET AUTOMATIC DATA PROCESSING REQUIREMENTS

1. *Purpose.* This memorandum provides guidance for executive agencies in meeting their requirements for general purpose data processing services in accordance with the Government's general policy of reliance on the private sector for its needs, as set forth in Office of Management and Budget (OMB) Circular No. A-76, Policies for Acquiring Commercial or Industrial Products and Services for Government Use.

2. *Authority and scope.* This Transmittal Memorandum is issued under the authority granted to the Office of Federal Procurement Policy by Pub. L. 93-400 to monitor, and revise "policies, regulations, procedures, and forms relating to reliance by the Federal Government on the private sector to provide needed property and services" (41 U.S.C. 405). It is applicable to all general purpose data processing activities operated and managed by executive agencies that provide services that are obtainable from a private source, as defined in Circular No. A-76.

3. *Background.* It is the longstanding policy of the Federal Government to rely on the private enterprise system to satisfy its needs for products and services, except in those specific cases where it is clearly demonstrated to be in the National interest for an agency to provide a product or service for its own use. In the area of data processing, agencies have generally purchased or leased equipment and facilities to provide their automatic data processing (ADP) services. In this approach, the nature and degree of reliance on the private sector is distinctly different from acquisition of the needed service directly from a private source.

An agency that procures facilities instead of services generally maintains a staff with the expertise necessary to perform system design, software development, operation, maintenance, and logistic support. The service approach, which shifts the agency role from performance to management of the ADP function, does not eliminate the need for in-house expertise, but establishes it at the level necessary to prepare service performance specifications and to monitor the performance of commercial services. Under the policy of Circular No. A-76, direct procurement of services, with all the associated functions being performed in the private sector, is the preferred alternative for meeting data processing requirements.

4. *Policy.* Consistent with the Government's general policy of reliance on the private sector, agencies will obtain ADP services from competitive commercial sources in preference to direct operation of in-house activities, except as provided in paragraph 5 of Circular No. A-76. All Government ADP activities that meet the Circular No. A-76 definition of a commercial or industrial activity are subject to the requirements of the Circular, including a "new start" review for initiation, expansion, upgrade, replacement, or modernization. Current agency ADP operations that cannot be justified under the criteria specified in Circular No. A-76 and this Transmittal Memorandum shall be terminated in a planned and appropriate manner.

5. *Planning and management guidelines.* Each agency will initiate a positive action program to ensure that the policy and requirements of this Transmittal Memorandum are fully and effectively implemented. This program will include the following elements:

a. Review (and revision as necessary) of all agency instructions and directives related to the acquisition of ADP support to identify and incorporate Circular No. A-76 requirements with emphasis on the application of this policy early in the ADP system planning process.

b. Maximum emphasis on "new starts" to avoid capital investment and financial commitments for new, expanded, or modernized facilities for ADP activities that have not been reviewed and justified under Circular No. A-76.

c. Preparation of a multiyear plan, to be included in the Spring ADP Plan submitted annually to OMB, beginning with the 1977 submission. This plan should project new and continuing ADP requirements, and include a schedule of actions that will achieve greater reliance on the private sector for ADP services. Where appropriate, agencies should set goals and make use of Management by Objective (MBO) methodology to increase reliance on the private sector.

d. Development of a program outline for achieving greater reliance on commercial services, with milestones and specific targets where appropriate, for submission to OMB within ninety days from the date of issuance of this Transmittal Memorandum.

6. *Acquisition guidelines.* Agency policies and procedures for acquiring ADP hardware, software, and services must reflect the policy of Circular No. A-76 and provide for the efficient procurement of commercial ADP services. As a minimum, the following guidelines will be implemented immediately:

a. Government ADP requirements normally will be expressed in terms of the services to be performed, rather than the equipment and software to be used in performing these services. The statement of requirements should allow the contractor maximum flexibility in the type of equipment and personnel used, as long as satisfactory services are provided.

b. Agency requests to the General Services Administration (GSA) for delegation of procurement authority for acquisition of ADP equipment to be operated by the agency will include a specific statement indicating that the proposed acquisition has been reviewed and approved under the provisions of Circular No. A-76, or an explanation of why the Circular does not apply.

c. Studies to determine whether a commercial or industrial ADP activity can be justified on the basis of cost should be limited to situations where there is reason to assume that in-house costs will be significantly less than competitive commercial prices. When cost studies are made they will include all the cost elements specified in Circular No. A-76. The cost differential favoring reliance on commercial sources will reflect the possibility of early obsolescence and the uncertainty of requirements which are characteristic of ADP operations. This differential (which Circular No. A-76 specifies should normally be at least 10 percent for any new start) should be established for each cost study at a level that is appropriate for the degree of risk and uncertainty involved in Government operation of that particular activity. In the case of ADP activities, this differential can be substantially more than 10 percent.

d. In the preparation of a cost comparison, particular attention must be given to the following areas to ensure an equitable and accurate result.

(1) Determination of a valid commercial cost figure presents a serious problem—generally this requires solicitation of competitive bids for the required services. Commercial firms have indicated a willingness to provide cost or price proposals if they are assured that an objective cost study will be made.

(2) The Government and commercial cost estimates must be based on equivalent services.

(3) Fair market value of equipment and facilities used in existing Government ADP activities, which would become excess if the service were obtained commercially, must be determined and included in the study as a cost of Government performance.

(4) Determination of the proper residual or salvage value of equipment that the agency proposes to acquire, in order to ensure the correct depreciation cost in the cost comparison.

e. More comprehensive guidelines are being developed to assist agencies in calculating both the Government and commercial costs of providing ADP services. In the interim, guidance available in Circular No. A-76 and this Memorandum will be used.

7. *Termination guidelines.* All agency ADP activities should be reviewed by September 30, 1977 to determine whether Government performance is justified under the exception criteria of Circular No. A-76. When a Government commercial or industrial activity is to be terminated or reduced, the action must be carefully planned to ensure transition without the disruption of vital services. Agency planning should include:

a. All reasonable consideration for Government employees displaced by termination or curtailment of Government ADP activities, including a phased reduction of operations to facilitate reassignment and reduction by attrition.

b. Careful coordination of contract services, including a period of overlap, when necessary, to avoid disruption of the agency mission.

8. *Inquiries.* Inquiries concerning this Transmittal Memorandum may be submitted to the Office of Management and Budget, Office of Federal Procurement Policy, 726 Jackson Place, NW., Washington, D.C. 20503, telephone 395-3327 (IDS Code 103).

JAMES T. LYNN,
Director.

[Policy Letter No. 76-1]

OFFICE OF FEDERAL PROCUREMENT POLICY

Energy Policy

AUGUST 6, 1976.

TO THE HEADS OF EXECUTIVE DEPARTMENTS AND ESTABLISHMENTS

Subject: Federal Procurement Policy Concerning Energy Conservation.

Pub. L. 94-163, the Energy Policy and Conservation Act, establishes a number of Federal energy conservation measures, one of which is to promote energy conservation and efficiency through procurement policies and decisions of the Federal Government. Responsibility for this program was delegated to me by section 3 of Executive Order 11912, April 13, 1976.

In the furtherance of this program, you are requested to ensure that the principles of energy conservation and efficiency are applied in the procurement of property and services whenever the application of such principles would be meaningful and practicable and consistent with agency programs and operational needs. These principles may be appropriate for application, along with price and other relevant factors, in the formulation of purchase requests and solicitations and during the evaluation and selection of bids and proposals. In addition, with respect to procurement of consumer products, as defined under Part B of Title III (42 U.S.C. 6291) of the Energy Policy and Conservation Act, agencies should take cognizance of energy use/efficiency labels (42 U.S.C. 6294) and prescribed energy efficiency standards (42 U.S.C. 6295).

Specific procedural implementation of this policy will be promulgated in the Armed Services Procurement Regulation and the Federal Procurement Regulations.

HUGH E. WITT,
Administrator.

PRIVACY ACT OF 1974

Reports on New Systems

The purpose of this notice is to list reports on new systems filed with the Office of Management and Budget to give

V41158 AUG 13 76 UMI

members of the public the opportunity to make inquiries about them and to comment on them.

The Privacy Act of 1974 requires that agencies give advance notice to the Congress and the Office of Management and Budget of their intent to establish or modify systems of records subject to the Act (5 U.S.C. 552a(o)). During the period July 26 through August 6, 1976 the Office of Management and Budget received the following reports on new (or revised) systems of records.

GENERAL SERVICES ADMINISTRATION

System name. Council of Governments (COG) Computerized Carpool Matching System.

Report date. July 23, 1976.

Agency point of contact. Philip Schmidt, Director of Management Services, General Services Administration (BR), Washington, D.C. 20405.

DEPARTMENT OF DEFENSE

System names. (1) Army Child Protection Case Management Files; (2) Army Apprenticeship Program Participation Files.

Report date. July 27, 1976.

Agency point of contact. William T. Cavaney, Executive Director, Defense Privacy Board, 1000 Independence Ave., SW., Washington, D.C. 20314.

VELMA N. BALDWIN,
Assistant to the Director for Administration.

SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 19641; 70-5885]

APPALACHIAN POWER CO.

Proposed Agreement With Municipal Authority for Construction of Pollution Control Equipment Financed by Sale of Revenue Bonds

AUGUST 6, 1976.

Notice is hereby given that Appalachian Power Company ("Appalachian"), 40 Franklin Road, Roanoke, Virginia 24009, an electric utility subsidiary company of American Electric Power Company Inc., a registered holding company, has filed an application-declaration and an amendment thereto with this Commission designation sections 9(a), 10 and 12(d) of the Public Utility Holding Company Act of 1935 ("Act") and Rule 44(b)(3) promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application-declaration, as amended, which is summarized below, for a complete statement of the proposed transaction.

Appalachian states that in order to comply with prescribed environmental quality control standards of the State of West Virginia it has been and will be necessary to construct a certain high efficiency electrostatic precipitator ("the Project") for particulate emission control and related facilities at its John E. Amos Generating Station ("the Plant"). By resolution of February 7, 1975, Putnam County, West Virginia ("County") determined that it would authorize and issue one or more series of its pollution control revenue bonds ("Revenue Bonds") to finance the acquisition, construction and installation of the Project.

Appalachian proposes to enter into an agreement of sale ("Agreement") with the County whereby the County will construct and equip the Project. To finance the Project, the County will issue Revenue Bonds in an initial principal amount of $25,000,000 ("Series A Bonds") and additional Revenue Bonds in principal amounts presently estimated not to exceed $65,000,000, sufficient to cover construction costs of the Project. The proceeds from the sale of the Series A Bonds will be deposited by the County with a Trustee ("Trustee") under an indenture to be entered into between the County and such Trustee (the "Indenture") pursuant to which the Series A Bonds are to be issued and secured. Such proceeds will be applied to payment of the cost of construction of the Project. The Agreement also will provide for the sale of the Project to Appalachian, the payment by Appalachian of the purchase price of the Project in semi-annual installments over a term of years, and the assignment and pledge to the Indenture Trustee of the County's interest in, and of the monies receivable by the County under, the Agreement.

The Agreement will provide that each installment of the purchase price for the Project payable by Appalachian will be in such an amount (together with other monies held by the Trustee under the Indenture for that purpose) as will enable the County to pay, when due, (i) the interest on the Revenue Bonds, any additional bonds and any refunding bonds, (ii) the principal amount of the Revenue Bonds, any additional bonds and any refunding bonds payable at the time of their respective stated maturities and (iii) amounts, including any accrued interest, payable in connection with any mandatory redemption of the Revenue Bonds, any additional bonds or any refunding bonds. The Agreement also obligates Appalachian to pay the fees and charges of the Trustee, as well as certain administrative expenses of the County. The Agreement further provides that Appalachian may prepay the purchase price of the Project (i) by paying, under certain conditions, amounts sufficient to redeem all the Revenue Bonds then outstanding and all other amounts payable under the Indenture or (ii) at any time by depositing in the Indenture's Bond Fund or delivering to the Trustee amounts sufficient to provide for the release of the Indenture. Upon prepayment, Appalachian may terminate the Agreement.

Appalachian proposes to convey equipment previously constructed (the "Existing Facilities"), subject to Appalachian's First Mortgage Lien to the County, and Appalachian will receive out of the Revenue Bond proceeds, an amount equal to Appalachian's original cost of the Existing Facilities. The Existing Facilities will thereupon become a part of the Project. Proceeds received by Appalachian in reimbursement of the cost of construction, as defined in the Agreement, are to be applied in connection with its 1976 construction program. Appalachian estimated that its construction costs in 1976 will be approximately $137,000,000. Appalachian had expended $5,748,000 for the Existing Facilities as of March 31, 1976, and it is estimated that the Project will cost approximately $90,000,000.

It is contemplated that the Revenue Bonds will be sold by the County pursuant to arrangements with a group of underwriters represented by Blyth Eastman Dillon & Co. Incorporated. In accordance with the laws of the State of West Virginia, the interest rate to be borne by the Revenue Bonds will be fixed by the County Commission of the County. While Appalachian will not be a party to the underwriting arrangements for the Revenue Bonds, the Agreement will provide that the terms of the Revenue Bonds and their sale by the County shall be satisfactory to Appalachian.

Appalachian has been advised that the annual interest rates on obligations, interest on which is tax exempt, historically have been and can be expected at the time of issue of the Revenue Bonds to be 1½% to 2½% lower than the rates on obligations of like tenor and comparable quality, interest on which is fully subject to federal income tax.

The Series A Bonds will be dated on or about the first day of the month in which they are issued, will bear interest semi-annually and will mature at a date or dates not more than 30 years from the date of their issuance. It is expected that the Series A Bonds will not be redeemable at the option of the County within 10 years from their issue date except under certain circumstances. Series A Bonds will be subject to mandatory redemption under the circumstances and terms specified in the Indenture.

The fees and expenses incident to the proposed disposition of the Existing Facilities and the acquisition of the Project (as distinguished from and excluding fees and expenses incident to the sale of the Revenue Bonds by the County payable out of the proceeds of the sale) will be supplied by amendment. It is stated that the Virginia State Corporation Commission and the West Virginia Public Service Commission have jurisdiction over the proposed transaction and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than August 31, 1976, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended, or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.76-23572 Filed 8-12-76;8:45 am]

[811-1994]

LIGHTHOUSE FUND B, INC.

Filing of Application for Order Declaring That Applicant Has Ceased To Be an Investment Company

Notice is hereby given that Lighthouse Fund B, Inc. ("Applicant"), 2211 Congress Street, Portland, Maine 04112, registered under the Investment Company Act of 1940 (the "Act") as a diversified, open-end, management investment company, filed an application on July 20, 1976, pursuant to section 8(f) of the Act, for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant, a Delaware corporation, registered under the Act on December 31, 1969. Applicant states that, on June 24, 1976, at a Special Meeting of shareholders, the sale of substantially all of Applicant's assets to Sigma Capital Shares, Inc. ("Sigma"), an open-end, diversified, management investment company registered under the Act, in return for shares of Sigma, was approved by Applicant's shareholders. Thereafter, on June 25, 1976, the sale of Applicant's assets to Sigma was consummated. Applicant states that the Sigma shares received in the sale have been distributed, pro-rata, to its shareholders and that as a consequence, Applicant is a shell corporation and will be dissolved in accordance with Delaware law.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission, on its own motion or upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than September 2, 1976, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the application accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon the Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.76-23762 Filed 8-12-76;8:45 am]

[Release No. 12688]

NASDAQ, INC.

Order Granting Extension of the Temporary Exemption From Registration

AUGUST 4, 1976.

By order dated February 6, 1976 (Release No. 34-12079) the Commission temporarily exempted NASDAQ, Inc. from registration as a securities information processor. The February 6, 1976 order stated that the exemption would extend from thirty (30) days after consummation of the sale of the NASDAQ system to the NASD and, upon receipt of an application for registration or exemption from registration, would continue for ninety (90) days following publication of notice of such application. By order dated March 10, 1976 (Release No. 34-12190) the Commission extended the exemption provided by the February 6, 1976 order for a period of fifteen (15) days to allow NASDAQ, Inc. additional time within which to file its application for registration.

On March 22, 1976, pursuant to Section 11A(b)(1) of the Securities Exchange Act of 1934 (the "Act"),[1] NASDAQ, Inc. filed an application with the Commission for registration as a securities information processor.[2] Section 11A(b)(3) of the Act requires the Commission to grant or deny the registration application within ninety days of the date notice of such application is published.[3]

Review of the NASDAQ, Inc. application raised certain technical questions for which additional information is required. NASDAQ, Inc., pursuant to section 11A(b)(3) of the Act, consented by letter dated June 28, 1976 to a thirty (30) day extension of time for Commission action upon its application so that it could discuss the necessary additional information with the Commission staff. Although, NASDAQ, Inc. has now completed its preparation and compilation of the necessary additional information to supplement its application, Commission action would be required on the application as supplemented by August 5, 1976. In view of the time required by NASDAQ, Inc. for preparation of this additional information and for review by the NASD Board of Governors, NASDAQ, Inc. has consented by letter dated July 29, 1976 to an additional forty-five (45) day extension of time to provide the Commission with a sufficient period for review of this additional information.

The Commission finds that an extension until September 20, 1976[4] of the February 6, 1976 and March 10, 1976 orders granting NASDAQ, Inc. a temporary exemption from registration is appropriate and consistent with the public interest, the protection of investors, and the purposes of section 11A of the Act provided, however, that all terms and conditions of the February 6, 1976 order shall continue in full effect during the term of this exemption.

Accordingly, *it is ordered*, Pursuant to section 11A(b)(1) of the Act, that the ninety (90) day exemptive period following publication of notice of the NASDAQ, Inc. application for registra-

[1] Section 11A(b)(1) of the Act provides for the registration with the Commission of those securities information processors which perform the function of "an exclusive securities information processor on behalf of a national securities exchange or registered securities association. NASDAQ, Inc. performs the functions of an exclusive securities information processor on behalf of the National Association of Securities Dealers, Inc., a registered securities association.

[2] Notice of the application was given by Release No. 34-12289 (March 31, 1976), 41 FR 14794 (April 7, 1976), 9 SEC Docket 323 (April 13, 1976).

[3] Section 11A(b)(3) states that "[w]ithin ninety days of the date of publication of such notice (or within such longer period as to which the applicant consents) the Commission shall—

(A) by order grant such registration, or

(B) institute proceedings to determine whether registration should be denied.

[4] The extension of the temporary exemption until September 20, 1976 makes the temporary exemption coterminous with the time period (90 days following publication of notice of the application plus the additional 75 days to which NASDAQ, Inc. has consented) within which the Commission is required to act on the application for registration.

V41I158 AUG 13 76 UMI

tion as a securities information processor is hereby extended as of July 6, 1976 until September 20, 1976. It is further ordered that NASDAQ, Inc., during the term of this exemption, is subject to all terms and conditions of the February 6, 1976 order (Release No. 34–12079) which initially exempted NASDAQ, Inc. from registration.

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.76–23573 Filed 8–12–76;8:45 am]

[File No. SR–NYSE–76–26]

NEW YORK STOCK EXCHANGE, INC.

Order Approving Proposed Rule Changes

On April 16, 1976, the New York Stock Exchange, Inc. (the "NYSE"), 11 Wall Street, New York, New York 10005, filed with the Commission, pursuant to section 19(b) of the Securities Exchange Act of 1934 (the "Act") 15 U.S.C. 78s(b), as amended by Pub. L. No. 94–29 (June 4, 1975), and Rule 19b–4 thereunder, 17 CFR 240.19b–4, proposed rule changes to revise a number of rules and constitutional provisions, which relate to the regulation of the structure and composition of member organizations, in order to eliminate "unnecessary regulatory constraints on the capital raising efforts of member organizations" and permit utilization of "new avenues of equity and debt financing." Notice of the proposed rule changes, together with the terms of substance, was given by publication of a Commission release (Release No. 34–12409 (May 5, 1976)) in the FEDERAL REGISTER (41 FR 20032 (May 14, 1976)). Interested persons were invited to submit written data, views and arguments concerning the proposal by June 4, 1976. The Commission has not received any comments concerning the proposed rule changes.

The overall approach taken by the NYSE in SR–NYSE–76–26 represents a constructive, initial step in the elimination of undue regulation of member organizations and their associated persons. The NYSE would reduce the regulation of member corporations with "freely transferable securities" by utilizing a new narrower definition, "publicly-held securities." A "publicly held security" would include any class of equity security issued by a member corporation which is owned beneficially by one hundred or more persons who are not members, allied members, or employees of such corporation. Current restrictions and limitations on freely and non-freely transferable securities and holders thereof generally are reduced and, in some cases, totally removed.

With respect to Article I, section 3(h), Article IX, sections 7(b) (1), (g), (h), (i), and (j), of the NYSE Constitution and NYSE Rules 2, 85, 91, 92, 96, 98, 99, 100, 102, 104, 105, 112, 113, 311, 312, 313, 314 (supplementary material only), 315, 317, 318, 320, 323, 324 and 325,[1] the Commission finds that the proposed rule changes in SR–NYSE–76–26 are consistent with the requirements of the Act and rules and regulations thereunder applicable to national securities exchanges.[2]

It is therefore ordered, Pursuant to section 19(b)(2) of the Act, 15 U.S.C. 78s(b)(2), that the proposed amendments to Article I, section 3(h), Article IX, sections 7(b)(1), (g), (h), (i), and (j), of the NYSE Constitution and NYSE Rules, 2, 85, 91, 92, 96, 98, 99, 100, 102, 104, 105, 112, 113, 311, 312, 313, 314 (supplementary material only), 315, 317, 318, 320, 323, 324 and 345 bc, and hereby are, approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.76–23761 Filed 8–12–76;8:45 am]

[Release Nos. 33–5729, 34–12662, 35–19629, IC–9369, AS–193; File No. S7–647]

REQUEST BY ARTHUR ANDERSEN & CO.

Partial Response and Solicitation of Comments on Certain Questions; Correction

In FR Doc. 76–22737 appearing at page 32810 in the FEDERAL REGISTER of August 5, 1976, in paragraph (2) in the first column the words "having substantial authoritative support and those" should be inserted between the words "as" and "contrary" in the 7th and 8th lines.

GEORGE A. FITZSIMMONS,
Secretary.

SMALL BUSINESS ADMINISTRATION

[License No. 02/02–0076]

BENEFICIAL CAPITAL CORP.

Approval of the Transfer of Control of a Small Business Investment Company

On May 14, 1976, a notice was published in the FEDERAL REGISTER (41 FR 20038) stating that Beneficial Capital Corp., 10 East 40th Street, New York, New York 10016, had filed an application with the Small Business Administration (SBA), pursuant to § 107.701 of the rules and regulations governing small business investment companies (13 CFR 107.701 (1976)), for the transfer of control of this company to Mr. John J. Hoey.

Interested parties were given until the close of business May 29, 1976, to submit their comments to SBA.

Notice is hereby given that, having considered the application and all other pertinent information, SBA approved this application for transfer of control effective July 28, 1976.

Dated: August 6, 1976.

DANIEL SCHLESINGER,
Acting Deputy Associate Administrator for Investment.

[FR Doc.76–23590 Filed 8–12–76;8:45 am]

[License No. 05/07–0078]

CONTINENTAL ILLINOIS VENTURE CORP.

Application for Transfer of Ownership and Control

Notice is hereby given that an application has been filed with the Small Business Administration (SBA) pursuant to § 107.701 of the regulations governing Small Business Investment Companies (13 CFR 107.701 (1976)) for transfer of ownership and control of the Continental Illinois Venture Corporation (CIVC), 231 South LaSalle Street, Chicago, Illinois 60604, a Federal Licensee under the Small Business Investment Act of 1958 (the Act), as amended (15 U.S.C. 661 et seq.).

CIVC was licensed on April 2, 1970, and its private paid-in capital and paid-in surplus totalled $3,111,800 at July 31, 1976. The Class "A" voting common stock of CIVC is owned 29 percent by Continental Illinois Corporation (CIC), Chicago, Illinois, 20 percent by Continental Illinois Employees Profit Sharing Trust, Chicago, Illinois, 17 percent by Leo Burnett Company, Inc., Chicago, Illinois, 17 percent by Illinois Central Industries, Inc., Chicago, Illinois, 17 percent by Universal Oil Products Company, Des Plaines, Illinois. In addition, the Class "B" non-voting common stock is owned 83 percent by CIC and 17 percent by Mr. John L. Hines. Mr. Hines also holds 10,000 warrants for CIVC stock.

Pub. L. 94–305 permits CIC to own 100 percent of a small business investment company (SBIC). As such, CIC proposes to purchase all the Class "A," Class "B" and warrants not already held by CIC with the result that CIC will own all of the issued and outstanding common shares of CIVC.

The proposed transfer of control is subject to the prior approval of SBA. Assuming consummation of the proposed transfer of ownership and control, the management of CIVC will be:

John L. Hines, President, Chief Executive Officer and Director, 231 South LaSalle Street, Chicago, Illinois 60604.
Leo B. Engemann, Vice President and Treasurer, 231 South LaSalle Street, Chicago, Illinois 60604.
James J. Vavruska, Secretary and Assistant Treasurer, 231 South LaSalle Street, Chicago, Illinois 60604.
Samuel B. Guren, Investment Officer and Assistant Secretary, 231 South LaSalle Street, Chicago, Illinois 60604.
Barbara A. Klocek, Investment Officer and Assistant Secretary, 231 South LaSalle Street, Chicago, Illinois 60604.
Kevin J. Hallagan, Assistant Secretary, 231 South LaSalle Street, Chicago, Illinois 60604.
Edward M. Cummings, Director, 231 South LaSalle Street, Chicago, Illinois 60604.
John H. Perkins, Director, 231 South LaSalle Street, Chicago, Illinois 60604.
George R. Baker, Director, 231 South LaSalle Street, Chicago, Illinois 60604.

Matters involved in SBA's consideration of the application include the general business reputation and character of the proposed new shareholder and management, and the probability of successful operations of the company under such management (including profitability and financial soundness) in accordance with the Act and regulations.

Notice is further given that any person may, not later than 15 days from the date of publication of this Notice, submit written comments on the proposed transfer of ownership and control to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street, NW., Washington, D.C. 20416.

A copy of this Notice will be published in a newspaper of general circulation in Chicago, Illinois.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies)

Dated: August 6, 1976.

DANIEL SCHLESINGER,
Acting Deputy Associate Administrator for Investment.

[FR Doc.76–23591 Filed 8–12–76;8:45 am]

DEPARTMENT OF TRANSPORTATION

Office of Pipeline Safety Operations

[Docket No. 76–12W]

TRANS-ALASKA PIPELINE

Anticipated Petition for Waivers

Alyeska Pipeline Service Company (Alyeska) has advised the Department of Transportation that it expects to petition the Director of the Materials Transportation Bureau for waivers of provisions applicable to the construction of liquid pipelines. Alyeska is the company formed by the owners of the trans-Alaska pipeline system to design, construct and operate the pipeline. In its advice to the Department, and in testimony before cognizant Congressional Committees in mid-July 1976, statements made on behalf of Alyeska have included the following information:

Late in the summer of 1975 it came to the attention of Alyeska and to officials of the State of Alaska, the Department of the Interior and the Department of Transportation, that there were possible problems with the quality of girth welds, made in the field to join adjacent sections of pipe, and with the radiographic record of girth welds made during the 1975 construction season. Alyeska undertook a reexamination of its 1975 weld and radiograph programs. It determined that of the welds that were accepted in 1975, some 3,995 welds were apparently not radiographed in conformance with applicable requirements, or were radiographed and found to be not in conformity with the Bureau's construction standards (49 CFR Part 195), and in particular, the requirements for weld acceptability, weld repair, and replacement of defective welds.

Of the approximately 1,400 radiographic defects initially determined, it subsequently appeared that some 307 related to welds which had been scheduled for 1975 but had, in fact, not been made. Another 237 welds have now been radiographed by Alyeska. Of the remaining radiographic deficiencies, there are 61 welds for which there is not any radiograph on file, and of that number, 21 are identified by Alyeska as being in "critical areas." Additionally, another 59 radiographic deficiencies, or a total of 80, are both in critical areas and significant in nature. Alyeska includes in the "significant" category radiographs which purport to be of two or more welds but are, in fact, duplicates of one weld.

A total of 2,552 welds were found by x-rays to have discontinuities in excess of the criteria set forth in section 6 of the American Petroleum Institute Standard for Welding Pipelines and Related Facilities (13th ed. 1973) (API–1104), which is incorporated by reference in 49 CFR 195.228, or other variations from the construction standards set forth in Subpart D of 49 CFR 195. As of recent date, remedial work has been undertaken on more than half of those defective welds, leaving a balance of 1,235. Of that figure, some 760 welds are located in "critical areas" meaning, according to Alyeska, under riverbeds, in permafrost, or in other areas of difficult access or environmental sensitivity.

The radiographic deficiencies are measured against the requirement for radiographic inspection of all main line girth welds, which is set forth in Section 3.2.2.3 of the Stipulations for the Agreement and Grant of Right-of-Way for the Trans-Alaska Pipeline, entered into by the United States, acting through the Secretary of the Interior, and by the owner-permittees, but could also be discrepancies in the program intended by Alyeska to demonstrate compliance with 49 CFR 195.234. Since paragraph (a) of § 195.234 provides that nondestructive testing may be performed by any process that will clearly indicate defects affecting weld integrity, use of other accepted techniques for nondestructive testing could meet the Bureau's requirements, but would be at variance with the Stipulation. Alyeska has not explicitly indicated whether it will petition the Department of the Interior for any amendment to or other relief from the present requirements of the Stipulation. In an August 5 news release, however, Alyeska announced that "it has suspended, pending further review, its efforts to develop an acoustic imaging system as an independent tool for examination of buried welds." That news release also stated that Alyeska now believes "the necessary additional development of the system and its acceptance by the government agencies as an independent tool could not occur within the time remaining for construction of the pipeline."

Alyeska has stated its belief that the 1,235 welds, including the 760 located in areas of "critical" access, do not pose a risk to the safety and integrity of the pipeline. Accordingly, it is to be anticipated that Alyeska will apply for waivers with respect to all or a substantial portion of those welds. Although the Bureau is not yet in receipt of any such waiver request, Alyeska has announced in its August 5 news release that it "will apply at this time for exceptions to strict pipeline weld specifications for 11 welds buried beneath rivers" and "* * * that other applications may be filed later." It is expected that Alyeska will not request a waiver for any weld containing a crack.

It is anticipated that in support of its petition(s) Alyeska will present the results of tests being conducted by or for the British Welding Institute. Those tests are intended to establish fracture toughness, by use of crack opening displacement (COD) method, and impact toughness, by use of the Charpy notch test. Further, Alyeska is expected to present a fracture mechanics analysis that is intended to demonstrate mathematical relationships between dimensions of defects of various types and the associated risks of crack formation and crack propagation. Those relationships may be stated as functions of the length, depth and orientation of weld defects or arc burns and, in some cases, functions of other characteristics such as the radial (weld depth) location. Depth, orientation and location may be either estimated by interpretation of radiographs or measured by use of ultrasonic techniques.

In this connection, the National Bureau of Standards (NBS) is serving as technical consultant to the Bureau's Office of Pipeline Safety Operations. The NBS will prepare an analysis of test procedures and methodology, and an assessment of the adequacy of the statistical data base. It will also prepare its own evaluation of any submitted fracture mechanics analysis, including specifically, provision for safety margins taking into consideration projected normal operating conditions, abnormal loading, fatigue cycling, corrosion fatigue cycling, anticipated temperature ranges, and other environmental conditions. The NBS evaluations and analyses will be made part of the record of proceedings on any petition that relies upon the fracture mechanics concept.

Thus, the anticipated petition(s) and the proceedings thereon may raise issues requiring analysis of interrelated technical problems. This Notice is accordingly published to bring the nature of those problems to the attention of interested Federal and State agencies and

[1] The Commission's approval of amendments to the rules, particularly section 7(b)(1) of Article IX and Rules 318 and 324, is subject, nevertheless, to the Commission's review pursuant to Section 31(b) of the Securities Acts Amendments of 1975. See, e.g., Securities Exchange Act Release No. 12157 (March 2, 1976).

Section 7(g) of Article IX and Rule 311 are approved as filed in Securities and Exchange Commission File No. SR–NYSE–76–26 which reflects proposed rule changes covered by pending Securities and Exchange Commission File No. SR–NYSE–76–3.

[2] On August 6, 1976, the NYSE consented to an extension of time until October 15, 1976, within which the Commission is required to act pursuant to section 19(b)(2) of the Act on the proposed amendments to Rules 314 (body of the rule), 321, and 322 contained in Securities and Exchange Commission File No. SR–NYSE–76–26. The Commission understands that the NYSE will withdraw the proposed amendment to Rule 419, which was rescinded by the NYSE in Securities and Exchange Commission File No. SR–NYSE–76–25 Securities Exchange Act Release No. 12550 (June 17, 1976).

V41158 AUG 13 76 UMI

other interested persons at the earliest practicable time.

Further, since the nature of the anticipated petition(s) is unusual and the number of weld deficiencies to be addressed may be large, this Notice sets forth a preliminary determination of the information and data required for processing any request for a waiver to allow girth weld defects or arc burns greater than allowed by 49 CFR Part 195, Subpart D, on the basis of a fracture mechanics concept.

REQUIREMENT I—EVALUATION OF PROPOSED ALTERNATIVE MAXIMUM ALLOWABLE WELD DEFECT AND ARC BURN SIZES

Discussion. Alternative allowable defect sizes should be proposed applicable to each type of defect, other than cracks, for which a waiver is being requested. If a waiver is being requested for any arc burns, allowable arc burn sizes should be proposed. Proposed alternative allowable weld defect and proposed allowable arc burn sizes must be supported by fracture mechanics analyses using the worst case fatigue stress spectrum. For analysis, these defects must be assumed to be surface cracks equal in size to twice the proposed allowable weld defect or arc burn size (in both length and depth). These assumed defects must not grow in size such that stressing to the maximum credible service stress could cause leakage. The crack growth analyses must account for both cyclic and sustained stresses in the most deleterious service environments and temperatures.

For weld defects the final output of the analysis shall be a proposed allowable defect size curve with weld defect depth (Y axis) versus weld defect length (X axis); defects having sizes which fall below this curve will be within the proposed acceptance limits. For arc burns, the final output of the analysis shall be a proposed allowable arc burn size curve with arc burn depth (Y axis) versus arc burn length (X axis); arc burns having sizes which fall below this curve will be within the proposed acceptance limits. Requests for waiver of any weld defects or arc burns which fall above their respective curve must be the subject of separate submittals, as describe in Requirement III.

SUPPORTING INFORMATION AND DATA

1. A minimum fracture toughness value for the pipeline shall be established by documenting the fracture toughness in sufficient notch locations and temperatures for the weld metal and the heat-affected zone that is representative of the pipeline welds and, in the case of arc burns, for the base metal. The toughness value used in the fracture mechanics analyses shall be the minimum toughness at 10° C below the minimum anticipated service temperature.

2. A maximum fatigue crack growth rate for the pipeline shall be established by documenting the fatigue crack growth behavior of the weld metal and heat-affected zone that is representative of the pipeline welds and operating conditions and, in the case of arc burns, representative of the base metal. The fatigue crack growth rate used in the fracture mechanics analyses shall be the maximum fatigue growth rate multiplied by an assumed safety factor of four.

3. A minimum threshold for sustained load crack growth shall be established by documenting for each of the service environments the sustained load cracking behavior of the weld metal and the heat-affected zone that is representative of the pipeline welds and, in the case of arc burns, representative of the base metal. The minimum threshold established shall be used as a terminal condition for the fracture mechanics analyses.

4. The worst case fatigue stress spectrum, the worst case instantaneous credible stress, and the appropriate residual stress, all representative of pipeline welds and heat-affected zones shall be used in the proposed allowable weld defect analysis. Similarly, the worst case of hoop stresses shall be used in the proposed allowable arc burn analysis. Documentation of stress analysis methodology and derivation is necessary for proper assessment of the operating and residual stresses.

5. Any request shall contain relevant documentation of the material property data. This includes tensile, elastic, impact, and corrosion properties of the weld, heat-affected, and base material at appropriate temperatures and environments.

REQUIREMENT II—EVALUATION OF INDIVIDUAL DEFECTS OR ARC BURNS FOR WHICH WAIVER IS REQUESTED AGAINST ALLOWABLE DEFECT AND ARC BURN SIZES ESTABLISHED UNDER REQUIREMENT I

SUPPORTING INFORMATION AND DATA

1. In the case of weld defects, inspection data shall be provided for each individual weld for which a waiver is requested. These data shall include defect type, location and dimensions (length and depth). The methodology used to obtain these data shall also be described. The dimensions of non-planar defects such as porosity and slag inclusions may be determined from radiographs; uncertainties in these measurements and differences in interpretations shall be described. The length of planar defects, such as lack of penetration or lack of fusion, may also be determined from radiographs; uncertainties in these measurements and differences in interpretations shall be described. The depth of planar defects should be determined by a nondestructive test method specifically designed for depth measurement, such as ultrasonics reflection methods. If radiographs are used to determine the depth of planar defects, an additional assumed safety factor of two shall be applied to the estimated depth.

2. In the case of arc burns, inspection data shall be provided for each individual arc burn for which a waiver is requested. These data shall include the location and the maximum length and depth of the arc burn heat-affected area. The methodology used to obtain these data shall also be described. The length of heat-affected areas may be determined from radiographs; uncertainties in these measurements and differences in interpretations shall be described. The depth of each heat-affected area shall be determined by estimating on a conservative basis the depth of other arc burns of representative severity using appropriate metallographic examination techniques and applying an additional assumed safety factor of two to this estimated depth.

REQUIREMENT III—EVALUATION OF SPECIAL CASES NOT MEETING ALLOWABLE DEFECT OR ARC BURN SIZE CRITERIA ESTABLISHED UNDER REQUIREMENT I

Discussions. Separate submittals are required to establish alternative acceptance standards for defects and arc burns that exceed the allowable size criteria that may be established on the worst case basis for Requirement I. This submittal must be based on the fatigue stress spectrum, environment and location of the defect under consideration. All other technical requirements are the same as specified in Requirement I.

The inspection data provided for each individual weld defect or arc burn shall include the maximum width of that defect or arc burn. The width of weld defects and arc burns may be determined the manner described in Requirement II for determining the length of weld defects and arc burns.

For the most critical combinations of weld defects, arc burns and operating conditions, full (or large) scale tests may be required to demonstrate that the pipeline retains an acceptable level of integrity.

Supporting Information and Data. Except as described in the discussion above, the supporting information and data requirements are the same as specified for Requirements I and II.

Docket No. 76–12W is being established in the Office of Pipeline Safety Operations, 2100 Second Street, SW., Washington, D.C. 20590, at this time to receive any written views or comments that interested persons may wish to submit based on the general discussion of the anticipated waiver petition(s), the statement of evaluation requirements and the description of the required information and data set forth in this Notice. Upon receipt of a petition for waiver from Alyeska, the Bureau will publish a supplemental notice in the FEDERAL REGISTER under this docket number describing the petition, making it available for public inspection and inviting public comment on the specific requests made in the petition.

Persons planning to file comments on this Notice or on the anticipated petition(s) who wish to be served with copies of future notices issued by the Bureau in this matter, may file with the Docket Clerk at the above address a request to be placed on the Notice Mailing List for Docket No. 76–12W.

All comments received will be considered and will be made available in the docket for public inspection along with

the petition(s) and related analyses for public inspection upon receipt.

(18 U.S.C. 831–835, 49 CFR 1.53(g).)

Issued in Washington, D.C., on August 12, 1976.

CESAR DELEON,
Acting Director, Office of Pipeline Safety Operations.

DEPARTMENT OF LABOR

Bureau of Labor Statistics

BUSINESS RESEARCH ADVISORY COUNCIL'S COMMITTEE ON MANPOWER AND EMPLOYMENT

Meeting

The BRAC Committee on Manpower and Employment will meet at 10 a.m., September 22, 1976, at the General Accounting Office Building, 441 G Street, NW., Room 2106, Washington, D.C. The agenda for the meeting is as follows:

1. New program proposals.
2. Report on status of the Local Area Unemployment Statistics (LAUS) Program.

This meeting is open to the public. It is suggested that persons planning to attend this meeting as observers contact Kenneth G. Van Auken, Executive Secretary, Business Research Advisory Council on (Area Code 202) 523–1559.

Signed at Washington, D.C., this 10th day of August 1976.

JULIUS SHISKIN,
Commissioner of Labor Statistics.

Employment and Training Administration

EMPLOYMENT TRANSFER AND BUSINESS COMPETITION DETERMINATIONS UNDER THE RURAL DEVELOPMENT ACT

Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations listed for the purposes given in the attached list. The financial assistance would be authorized by the Consolidated Farm and Rural Development Act, as amended, 7 USC 1924 (b), 1932, or 1942(b).

The Act requires the Secretary of Labor to determine whether such Federal assistance is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate or subsidiary, only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The Act also prohibits such assistance if the Secretary of Labor determines that it is calculated to or is likely to result in an increase in the production of goods, materials, or commodities, or the availability of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 29 CFR Part 75, published January 29, 1975 (40 FR 4393). In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.

2. Employment trends in the same industry in the local area.

3. The potential effect of the new facility upon the local labor market, with particular emphasis upon its potential impact upon competitive enterprises in the same area.

4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).

5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any information pertinent to the determinations which must be made regarding these applications are invited to submit such information in writing within two weeks of publication of this notice to: Deputy Assistant Secretary for Employment and Training, 601 D St., NW, Washington, D.C. 20213.

Signed at Washington, D.C. this 9th day of August 1976.

BEN BURDETSKY,
Deputy Assistant Secretary for Employment and Training.

Applications received during the week ending August 6, 1976

Name of applicant	Location of enterprise	Principal product or activity
Nichols Realty, Inc	Brattleboro, Vt	Sale of cars and trucks.
Nuroco Woodwork, Inc	Whitefield, N.H	Manufacture of furniture.
Herbert P. Vaillancourt	Van Buren, Maine	Manufacture of cedar shingles.
Glen & Mohawk Milk Association, Inc	Fultonville, N.Y	Receiver and processor of milk and milk products.
Bountiful Ridge Nurseries, Inc	Somerset County, Md	Sale of fruit trees and berry bushes.
William Francis Helbling	Wayne County, Pa	Manufacture and sale of electric wire, cable, and cordsets.
Neill, C.C. & E., Inc	Hickory, N.C	Skilled nursing and intermediate care facility.
Cadillac Malleable Iron Co., Inc. (tenant of City of Marion).	Marion, Ala	Manufacture of ferrous castings.
South Carolina Agri-Development Corp. (SCAD).	Orangeburg, S.C	Grading, packaging, and sale of farm produce.
American Olivine Corp	Dillsboro, N.C	Production of sand and gravel for blast furnace flux and refractory mixes.
AGRI-Plus	Fort Valley, Ga	Manufacture and distribution of agricultural chemicals.
Zartic Frozen Meats, Inc	Cedartown, Ga	Production of frozen meats and seafood.
Manderley Nursing Homes, Inc	Osgood, Ind	Comprehensive nursing home—intermediate care.
Wright Realty	Buffalo, Minn	Constructing and leasing a retail outlet for farm supplies.
Newberry Truck & Implement Co	Newberry, Mich	Sale and repair of cars and trucks.

Office of Employee Benefits Security

[Application No. D-333]

EMPLOYEE BENEFIT PLANS

Pendency of Exemption Relating to a Transaction Involving the Given International Employees' Stock Bonus Plan

Notice is hereby given of the pendency before the Department of Labor (the Department) and the Internal Revenue Service (the Service) of a proposed exemption from the restrictions of section 406(a) and section 406 (b)(1) and (b)(2) of the Employee Retirement Income Security Act of 1974 (the Act) and from the taxes imposed by section 4975(a) and (b) of the Internal Revenue Code of 1954 (the Code), by reason of section 4975(c)(1)(A) through (E) of the Code. The pending exemption was requested in an application filed by Given International (Given) and the trustee of the Given International Employees' Stock Bonus Plan (Plan) to exempt the sale of certain plan assets to the Crocker National Bank (Crocker). The application was filed pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code, and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975) and Rev. Proc. 75-26, 1975-1 C.B. 722.

Summary of facts and representations. The application contains facts and representations with regard to the pending exemption, which are summarized below. Interested persons are referred to the application on file with the Department and the Service for a complete statement of the facts and representations.

1. The plan is a stock bonus plan which was established on August 28, 1967. Contributions to the plan have consisted of Given's $100 par value, six percent cumulative preferred stock. The Plan currently holds 2,747 shares of such stock, which constitutes all the outstanding shares of Given preferred stock. The preferred stockholders have, at the present time, the only voting rights of Given stockholders because Given's articles of incorporation provide that if Given should miss four consecutive dividend payments, which has occurred, all the voting rights of the common stock are shifted to the preferred stock. The trustee of the Plan, Mr. Howard Given, currently has the authority to exercise the voting rights of the preferred stock held by the Plan.

2. In 1974, Given suffered certain financial reverses and became unable to pay its unsecured obligations as they became due. In May 1975, Given was indebted to Crocker for approximately $23,000,000, and virtually all of Given's assets were pledged to Crocker as collateral for the debt. In addition, Given was indebted to its general unsecured creditors for approximately $3,250,000.

3. By September 1975, Given was unable to remain in business without the financial support of Crocker; and Crocker was unwilling to continue its financial support unless a Creditors' Composition Agreement (Creditors' Agreement) dated September 30, 1975, was accepted by Given's unsecured creditors. Crocker agreed not to foreclose on its collateral if 95 percent of the unsecured creditors agreed to release their claims in exchange for certain amounts set forth in the Creditors' Agreement. That agreement was conditioned upon, among other things, the dissolution of the Plan and the cancellation or other elimination of the preferred stock held by the Plan.

4. It was necessary that the Plan be terminated and the interests of the preferred stockholders be eliminated because the preferred stock was an impediment to any viable refinancing plan that Crocker might wish to effect. Crocker did not believe that it could permit the disbursement of the preferred stock to the Plan participants as that action would create a potentially antagonistic body to deal with in the course of its attempt to continue Given in business. Further, the threat of the preferred stockholders seeking to exercise their accrued dividend rights with respect to future profits would undermine the likelihood of any sale of Given to a third party. Crocker also wanted to terminate the Plan and eliminate the preferred stock because as trustee of the Plan and a substantial secured creditor of Given, it could not fulfill its duties as trustee and at the same time fully protect its interests as a secured creditor.

5. By letter dated January 8, 1976, Crocker resigned as trustee of the Plan. Several corporate trustees were solicited to replace Crocker as trustee but all declined. Since Given was unable to find a corporate trustee, it decided to appoint its President and Chairman of the Board, Howard Given, as successor trustee.

6. At the time of his appointment as trustee, Howard Given and his family owned all the common stock of Given. However, pursuant to the terms of the Creditors' Agreement, the common stockholders of Given were to convey to Crocker an option to acquire, without further consideration, 100 percent of the common stock of Given. In addition, Howard Given and his wife were to convey to Crocker certain property and partnership interests owned by them. In exchange for these conveyances, Crocker was to release Howard Given and his wife as guarantors of Given's secured indebtedness to Crocker. On February 12, 1976, the common stockholders and Crocker agreed to the conveyance of the above property interests and the release of Mr. and Mrs. Given as guarantors of Given's secured indebtedness. However, Crocker and Howard Given agreed that Crocker will have recourse against Howard Given for up to $235,000 for losses resulting from Howard Given's failure to take such action as is necessary to cause the preferred stock to no longer be outstanding or to transfer such stock to Crocker.

7. Eighty-three percent of the unsecured creditors, in dollar amounts of Given have agreed voluntarily to accept, in satisfaction of their unsecured claims against the Company, the terms of the Creditors' Agreement. In order to eliminate those unsecured claims held by non-consenting creditors, Given filed a Chapter XI proceeding under the Bankruptcy Act in the Federal District Court for the Central District of California. After a hearing, the court, in an Order dated March 26, 1976, approved, with one minor modification, the Company's Plan of Arrangement, which incorporates the terms of the Creditors' Agreement. That plan, among other things, divides the unsecured creditors of Given into five classes. Creditors in Classes 1 through 4 are to be paid in full except that Class 4 creditors shall in no event receive more than $500 for each proven claim. Creditors electing Class 4 treatment had aggregate claims totaling $97,400 as of April 27, 1976. The Class 5 creditors, whose aggregate claims as of that date totalled $3.8 million, are to receive the greater of (a) a pro rata share of a $600,000 fund which Crocker is to make available to Given, or (b) fifteen percent (15%) of the amount of their respective claims. Crocker is in no event obligated to fund the Plan of Arrangement with an amount in excess of $600,00. If there are insufficient funds to pay the Class 5 creditors 15% of their respective claims, Given has the right to apply to the District Court to vacate the above order; and upon the vacation of the order, the $600,000 deposited by Crocker shall be returned to Crocker.

8. Howard Given, as trustee of the Plan, proposes to sell, and Crocker proposes to buy, the Given preferred stock held by the Plan. The price to be paid for the preferred stock will be equal to a percentage amount of the $100 par value which shall be the same percentage amount which the Class 5 unsecured creditors ultimately will receive for their proven claims against Given. As a result, under the terms of the sale the preferred stockholders will receive at least $15 for each share of $100 par value stock that they hold. These terms are the same as the terms of the Class 5 creditors arrangement, which were negotiated by parties with adverse interests dealing with one another at arm's length. The price to be paid for the preferred stock represents a better price than any other trustee could have negotiated, because it would treat the preferred stockholders the same as the Class 5 unsecured creditors, although in bankruptcy proceedings the claims of such creditors would take priority over the claims of preferred stockholders.

Notification of the pending exemption will be sent by certified mail to the present employees participating in the Plan, terminated vested employees who have not received their distributions, the one disability retiree presently receiving an annuity, Crocker, and Howard Given (collectively, the interested parties) within eight days of publication in the FEDERAL REGISTER of the notice of the pendency of the exemption. The notification will describe the exemption request and will inform interested parties of their right to submit written comments to the respective agencies or request a hearing within the time provided in the notice. The notification will include a copy of the notice as published in the FEDERAL REGISTER. Copies of the notification will be forwarded to the Department and the Service at the time they are sent to the interested parties.

V41I158 AUG 13 76 UMI

General information. The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act which, among other things, require a fiduciary to discharge his duties respecting the plan solely in the interest of the plan's participants and beneficiaries and in a prudent fashion in accordance with subsection (a)(1)(B) of the Act, nor does it affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) The pending exemption does not extend to transactions prohibited under section 406(b)(3) of the Act, and section 4975(c)(1)(F) of the Code;

(3) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Department and the Service must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries, and protective of the rights of such participants and beneficiaries; and

(4) The pending exemption, if granted, will be supplemental to, and not in derogation of, any other provision of the Act and the Code, including statutory exemptions and transitional rules. Furthermore, the fact that a transaction is the subject of an exemption is not dispositive of whether the transaction would have been a prohibited transaction in the absence of such exemption or, though it would have been a prohibited transaction, is exempt by operation of a statutory or other exemption or a transitional rule.

All interested persons are invited to submit written comments on the pending exemption. In order to receive consideration, such comments must be received by the Department on or before September 10, 1976. In addition, any interested person may submit a written request that a hearing be held relating to the pending exemption. Such written request must be received by the Department on or before September 10, 1976, and should state the reasons for the request and the nature of the person's interest in the pending exemption. All written comments and requests for a hearing (preferably six copies) should be addressed to the Office of Employee Benefits Security, Room N-4716, U.S. Department of Labor, Washington, D.C. 20216, Attention: Application No. D-333.

The application for exemption, requests for a hearing and comments will be available for public inspection at the Public Document Room, Office of Employee Benefits Security, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue NW., Washington, D.C. 20216, and at the Internal Revenue Service National Office Reading Room, 1111 Constitution Avenue NW., Washington, D.C. 20224.

Pending Exemption. Based upon the application, hereinabove described, the Department and the Service have under consideration the granting of the requested exemption, under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975) and Rev. Proc. 75-26, 1975-1 C.B. 722, so that the restrictions of sections 406(a) and 406 (b)(1) and (b)(2) of the Act and taxes imposed under section 4975 (a) and (b) of the Code, by reason of sections 4975(c)(1)(A) through (E) of the Code, shall not apply to the sale by the Plan of the preferred stock of Given to Crocker, pursuant to the terms, conditions and representations set forth in the application.

The pending exemption, if granted, will be subject to the express conditions that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to the exemption.

Signed at Washington, D.C., this 5th day of August 1976.

JAMES D. HUTCHINSON,
Administrator of Pension and Welfare Benefit Programs, U.S. Department of Labor.

DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

Occupational Safety and Health Administration

ADVISORY COMMITTEE ON CONSTRUCTION SAFETY AND HEALTH

Meeting

Notice is hereby given that the Advisory Committee on Construction Safety and Health, established under section 107(e)(1) of the Contract Work Hours and Safety Standards Act (40 U.S.C. 333) and section 7(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (29 U.S.C. 656), will meet on Thursday, August 26 and Friday, August 27, 1976, starting at 9:00 a.m. in Columbia A Ballroom, Hyatt Regency Hotel, 400 New Jersey Avenue, NW., Washington, D.C. The meeting is open to the public.

The purpose of this meeting is to consider and make recommendations to the Assistant Secretary on the proposed permanent standard for diving operations. Materials provided to members of the committee will be available for inspection and copying at the Committee Management Office, at the address below.

Pursuant to notice published in the FEDERAL REGISTER on July 23, 1976 (41 FR 30414), the Committee met on August 9 and 10, 1976, to consider the proposed permanent standard for diving operations. At that meeting, the Committee requested certain additional materials from the Occupational Safety and Health Administration staff and a brief additional time period to consider the materials submitted to it and to make its recommendations to the Assistant Secretary. The purpose of this meeting is to provide such additional time for the Committee to make its recommendations.

In view of the requirement of section 6(c)(3) of the Occupational Safety and Health Act of 1970 (84 Stat. 1596, 29 U.S.C. 655) that the Emergency Temporary Standard on Diving Operations, published in the FEDERAL REGISTER at 41 FR 24272, be replaced by a permanent standard no later than six months after publication of the emergency standard, and in view of the timely actual notice given to members of the Committee and to those members of the public present at the earlier meeting, it is determined that an emergency exists which makes it necessary and appropriate to shorten by one day the 15 day notice requirement.

Written data, views, or arguments may be submitted, preferably with 20 copies, to the Committee Management Office. Any such submissions received prior to the meeting will be provided to the members of the committee and will be included in the record of the meeting. Since public presentations were made at the earlier meeting, it is not anticipated that there will be further opportunity for such oral presentations. However, if time permits, oral presentations may be scheduled at the discretion of the committee chairman.

Communications may be mailed to:

J. Goodell, Committee Management Office, Department of Labor, Occupational Safety and Health Administration, Third Street and Constitution Avenue, NW., Room N-3635, Washington, D.C. 20210

Signed at Washington, D.C., this 11th day of August 1976.

MORTON CORN,
Assistant Secretary of Labor.

[FR Doc.76-23766 Filed 8-11-76;11:01 am]

ADVISORY COMMITTEE ON LONGSHORING SAFETY AND HEALTH

Establishment of Committee

I. *Establishment of Advisory Committee.*—A. *Establishment.* The Secretary of Labor, after consultation with the Director, Office of Management and Budget, having determined that it is in the public interest in connection with the performance of duties imposed on the Secretary by the Occupational Safety and Health Act of 1970, hereby establishes the Advisory Committee on Longshoring Safety and Health, in accordance with the Federal Advisory Committee Act (5 U.S.C. App. I, Supp. II, 1972).

B. *The Committee's objectives and the scope of its activity.* To provide advice to the Secretary of Labor and the Assistant Secretary of Labor for Occupational Safety and Health on the various mechanisms for reducing accidents and illnesses in the longshoring industry.

C. *The period of time necessary for the Committee to carry out its purposes.* Beginning as soon as practical after June 1976, and continuing for two years, subject to renewal.

D. *The official to whom the committee reports.* The Assistant Secretary for Occupational Safety and Health.

E. *The agency responsible for providing the necessary support for the Committee.* The U.S. Department of Labor Occupational Safety and Health Administration.

F. *A description of duties for which the Committee is responsible.* 1. To conduct meetings, research, conferences and studies to determine the causes of longshore accidents and illnesses;

2. To give advice on possible ways of improving data collection on the frequency, incidence, severity and causes of accidents and illnesses as well as general longshore statistics;

3. To determine the influence of factors such as disease and work practices on safety and health in the longshoring industry;

4. To provide advice on enforcement strategies, standards development, training and education and voluntary cooperative efforts which will reduce accidents and illnesses in the longshoring industry;

5. To recommend technological improvement and procedures in the handling of cargo to reduce accidents and illnesses.

G. *The estimated annual operating costs in dollars and man-years for the Committee.* $83,000 and 1.5 man-years of staff support.

H. *The estimated number and frequency of Committee meetings.* The committee will meet 6 to 8 times each year.

I. *Membership.* The Committee shall consist of approximately 5 to 7 members, representing labor, industry and the public. A public member shall serve as Chairperson.

J. *The Committee's termination date.* Two years after the establishment of the committee, subject to renewal.

Signed at Washington, D.C., this 9th day of August 1976.

W. J. USERY, Jr.,
Secretary of Labor.

[FR Doc.76-23726 Filed 8-12-76;8:45 am]

NATIONAL ADVISORY COMMITTEE ON OCCUPATIONAL SAFETY AND HEALTH

Meeting

Notice is hereby given that the Subgroup on Compliance, National Advisory Committee on Occupational Safety and Health (NACOSH), will meet on September 1, 1976 in Room N-4437 A-D, Department of Labor, 3rd Street and Constitution Avenue, NW, Washington, D.C. 20210.

A meeting previously scheduled on August 10, 1976 was canceled due to the threat of severe weather conditions on the eastern seaboard.

The National Advisory Committee was established under section 7(a) of the Occupational Safety and Health Act of 1970 to advise the Secretary of Labor and the Secretary of Health, Education, and Welfare on matters relating to the administration of the Act.

The Meeting will begin at 1 p.m. and will last until approximately 4 p.m. The public is invited to attend.

The Subgroup will complete its recommendations on the definition of repeated violations. The recomendations will address OSHA policy in this area with respect to geographical area and the time within which a prior citation should be considered the basis for a repeated citation. OSHA's present policy is twofold: (1) For employers having fixed establishments, repeated citations are limited to the cited establishment; and (2) for employers having no fixed establishment, repeated citations are based on prior citations occurring anywhere within the same State (however, the geographical scope for maritime is limited to a designated "port area").

For additional information on the Subgroup's agenda, please contact:

Nancy L. Hucke, Committee Management Office, Room N-3635, U.S. Department of Labor, Third Street and Constitution Avenue, NW., Washington, D.C. 20210, (202) 523-8024

Any written data or views concerning this agenda item or suggestions for future agenda items which are received by the Committee Management Office before the meeting, preferably within 20 copies, will be presented to the Subgroup and included in the official record of the meeting.

Anyone wishing to request an oral presentation should notify the Committee Management Office before the meeting. The request should state the amount of time desired, the capacity in which the person will appear, and a brief outline of the content of the presentation. Oral presentations will be scheduled at the discretion of the Subgroup Chairman, depending on the extent to which time permits.

Official records of the meeting will be available for public inspection at the above address.

Signed at Washington, D.C., this 10th day of August 1976.

J. GOODELL,
Executive Secretary.

[FR Doc.76-23727 Filed 8-12-76;8:45 am]

Office of the Secretary

[Secretary's Order 18-76]

AUDIT POLICIES AND RESPONSIBILITIES

Delegation of Authority and Assignment of Responsibilities

1. *Purpose.* To delegate authority and assign responsibility for conducting the audit program of the Department of Labor (DOL).

2. *Authority and directives affected.* a. This Order is issued pursuant to:

(1) The Act of March 4, 1913 (37 Stat. 736; 29 U.S.C. 551; and 5 U.S.C. 301 and 302 (b) (1)).

(2) The Budget and Accounting Procedures Act of 1950, 31 U.S.C. 66a.

(3) Standards for audit of governmental organizations program, activities, and functions, isued by the Comptroller General of the United States, June 1972.

(4) General Services Administration (GSA), Federal Management Circular, FMC 73-2, dated September 27, 1973.

(5) The Federal Procurment Regulations (41 CFR 1-3).

b. Secretary's Orders 24-66 and 36-72 are canceled.

3. *Scope.* This Order applies to the auditing of all program activities for which the DOL has responsibility regardless of the source of funds or whether the activities involved are performed by the Department, by State agencies or their agents, or through contractual, grant, or other arrangements.

4. *Background.* The Secretary of Labor and officials at all levels of the Department have statutory and inherent responsibility for assuring that all resources entrusted to them for DOL programs, regardless of source, are being used: (a) To achieve the purposes for which programs are authorized and funds are made available, (b) economically and efficiently, and (c) in compliance with applicable laws and regulations. Departmental policies and responsibilities are being restated to satisfy such needs and to conform to the auditing concepts and requirements contained in the Comptroller General's "Standards for Audit of Governmental Organizations, Program, Activities, and Functions," (1972) and GSA FMC 73-2 dated September 27, 1973.

5. *Policy.* It is the policy of the DOL to assure that all audit activities within the DOL will be centralized at the departmental level under the Assistant Secretary for Administration and Management. This policy of centralization of audit functions has as its major objective the provision for:

a. Uniformity of audit policies within the Department.

b. One DOL point of contact for (1) the General Accounting Office (GAO), (2) other agencies of the Federal, State, and local governments when cross audits are performed, and (3) private firms or other organizations.

c. Elimination of any duplication of audits when different organizations have dealings with the same grantees, sponsors, or suppliers of service and materials.

d. One organization responsible to the Secretary of Labor for the financial and contract audit functions of the Department and for independent auditing and reporting to the Secretary of Labor.

6. *Responsibilities*—a. *The Assistant Secretary for Administration and Management* is delegated specific authority and assigned responsibility for establishing and maintaining within the Office of the Assistant Secretary for Administra-

V41158 AUG 13 76 UMI

tion and Management (OASAM) an appropriate organization to provide for: (1) The development and maintenance of an effective independent audit program, and (2) The actual conduct on a centralized basis of the required audit functions as an objective service to the Office of the Secretary and the DOL Agencies concerned.

b. *The Director of Audit and Investigation (DA&I), OASAM,* is responsible for providing management with assessments of whether programs are accomplishing their intended objectives with due regard to costs and results; assurances that waste does not occur through mismanagement; and assurances as to fiscal integrity and compliance with statutory intent in the spending of public funds by:

(1) Conducting the Department's audit program in accordance with the "Standards of Audit of Governmental Organizations, Programs, Activities, and Functions" issued by the Comptroller General of the United States.

(2) Establishing such policies, standards, and procedures as are necessary to give effect to the requirements of this Order and laws and regulations governing the Department's audit program.

(3) Maintaining liaison with the GAO, the OMB, other Federal agencies, and State and local governments on audit matters.

(4) Meeting periodically with Agency Heads or Deputy Agency Heads to review audit plans in order to ensure DA&I audit activity in the agency is of greatest possible value to agency management as well as to the Office of the Secretary.

(5) Advising appropriate officials of audit results and issuing audit reports on a timely basis.

c. DOL Agency Heads are responsible for:

(1) Assuring that all Agency employees cooperate fully with auditors in the course of their audit activities.

(2) Promptly reviewing and evaluating audit reports received and making timely responses to the DA&I regarding actions taken or to be taken on audit report findings and recommendations.

Signed at Washington, D.C., this 30th day of July 1976.

W. J. USERY, JR.,
Secretary of Labor.

[FR Doc 76-23734 Filed 8-12-76;8:45 am]

PRIVACY ACT

Systems of Records

Notice is hereby given that the Department of Labor in accordance with 5 U.S.C. 552a(e)(4) and (11), section 3 of the Privacy Act of 1974 (Pub. L. 93-579) ("Act"), proposes to revise notices of systems of records, the notice of which were published on September 8, 1975, (40 FR 41739).

Interested persons are invited to submit written data, views and arguments to Seth Zinman, Associate Solicitor, Division of Legislative and Legal Counsel, Office of the Solicitor, Room N2428, New Department of Labor Building, 200 Constitution Avenue, NW., Washington, D.C. 20210, on or before twenty days from the date of this notice. Written material received from the public will be available for public inspection at the above address during normal business hours.

This notice was prepared to inform the public of a new routine use for the Federal workers' compensation record systems described in this notice. The routine use would authorize the disclosure of workers' compensation case file records to labor unions and other voluntary employee associations of which the claimant is a member which exercise an interest in claims of members as part of their service to the member. Other changes from the notice as previously published are intended to give greater detail or update matters which have changed.

Dated: August 10, 1976.

W. J. USERY, Jr.,
Secretary of Labor.

DOL/ESA-8

System name: Office of Workers' Compensation Programs, Black Lung Benefit Claim File.

System location: U.S. Department of Labor, Employment Standards Administration, Office of Workers' Compensation Programs, Division of Coal Mine Workers' Compensation, Washington, D.C. 20210.

Categories of individuals covered by the system: Individuals filing claims for black lung (pneumoconiosis) benefits under the provisions of Title IV of the Federal Coal Mine Health and Safety Act of 1969, as amended, including miners, and their surviving widows, orphans, dependent parents and siblings.

Categories of records in the system: Personal, medical, financial.

Authority for maintenance of the system: 30 U.S.C. 901 et seq. 20 CFR 715.1 et seq., 20 CFR 720.1 et seq. 20 CFR 725.1 et seq.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure to mine operators who have been determined to be potentially liable for the claim and any party providing the mine operator with workers' compensation insurance coverage; State worker's compensation agencies and the Social Security Administration for the purpose of determining offsets as specified under the Act; doctors and medical service providers for the purpose of obtaining medical evaluations, physical rehabilitation or other services, and labor unions and other voluntary employee associations of which the claimant is a member which exercise an interest in claims of members as part of their service to the members.

Storage: Case file documents, both original and copies in manual files.

Retrievability: Coal miner's name and Social Security Number and claimants name when different from miner's must be provided.

Safeguards: Files located in restricted area of a Federal building under guard by security officers.

Retention and disposal: Being determined at this time.

System manager(s) and address: Associate Director, Division of Coal Mine Workers' Compensation, Office of Workers' Compensation Programs, Employment Standards Administration, U.S. Department of Labor, 200 Constitution Avenue NW., Room C3520, Washington, D.C. 20210.

Notification procedure: As above.

Record access procedures: As above.

Contesting record procedures: As above.

Record source categories: Claim forms, medical reports, correspondence, investigative reports, employment reports, Federal and State agency records, any other record of document pertaining to a claimant or his dependent as it related to his age, education, work history, marital history or medical condition.

DOL/ESA-9

System name: Office of Workers' Compensation Programs, Black Lung Benefit Payments File.

System location: GAO Building, 5th and G Streets NW., Washington, D.C. 20210; System is accessed from Terminal (Remote 7) located in NDOL, Room C3525, 3rd and Constitution Avenue NW., Washington, D.C. 20210.

Categories of individuals covered by the system: Claimants receiving benefits.

Categories of records in the system: Personal, financial.

Authority for maintenance of the system: 30 U.S.C. 901 et seq., 20 CFR 175.1 et seq., 20 CFR 720.1 et seq., 20 CFR 725.1 et seq.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Same as above but without the listing of disclosure to doctors and medical service providers.

Storage: Magnetic tapes.

Retrievability: Social Security Number.

Safeguards: Files located in restricted area of Federal Building under guard by security officers.

Retention and disposal: Being determined at this time.

System manager(s) and address: Associate Director, Division of Coal Mine Workers' Compensation, Office of Workers' Compensation Programs, Employment Standards Administration, U.S. Department of Labor, Room C3520, 200 Constitution Avenue NW., Washington, D.C. 20210

Notification procedure: As above

DOL/ESA–15

System name: Office of Workers' Compensation Programs, Federal Employees' Compensation Act File.

System location: U.S. Department of Labor, Employment Standards Administration, Office of Workers' Compensation Programs, Division of Federal Employees' Compensation, 200 Constitution Avenue NW., Room S–3229, Washington, D.C. 20210; and District Offices.

Categories of individuals covered by the system: FECA benefits recipients are Federal employees injured or killed while in the performance of duty or suffering from occupational diseases. In case of death, beneficiary records are maintained. In addition to Federal employees the FECA covers volunteers in the Civil Air Patrol, Peace Corps Volunteers, Job Corps Enrollees, Volunteers in Service to America, members of the National Teachers Corps, certain student employees, employees of the Alaska Railroad, members of the Reserve Officers Training Corps, certain law enforcement officers not employed by the United States. Prior to January 1, 1957, the FECA also covered reservists in the Armed Forces of the United States. Also covered are various classes of persons who provide or have provided services to the Government of the United States.

Categories of records in the system: Record includes reports of injury by employee and employing establishment, authorization for medical treatment, medical records, medical and transportation files, compensation payment records, formal order for or against payment of compensation and vital statistics such as birth, death and marriage certificates.

Authority for maintenance of the system: 5 U.S.C. 8101 et seq., 20 CFR 1.1 et seq.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure to any third-party named in a claim or representative acting on his/her behalf until the claim is adjudicated and all appeals resolved; Federal agencies which employed the claimant at the time of occurrence or recurrence of the injury or occupational illness; Federal, State or private rehabilitation agencies to whom the claimant has been referred for evaluation of the extent and nature of the disability and/or rehabilitation; physicians making an examinaiton for the United States under 5 U.S.C. 8123(a); medical insurance plans or health and welfare plans which the claimant is covered by in instances when there is evidence of payment by the plan for treatment of a medical condition which is compensable or where there has been payment by OWCP for treatment of a medical condition which is not compensable; and labor unions and other voluntary employee associations of which the claimant is a member which exercise an interest in claims of members as part of their service to the members.

Storage: File cabinets, security files are kept in combination locker file cabinet. In 1976–77, FECA case files will be entered into an automated management information system to be stored on magnetic disks.

Retrievability: Files are retrieved after identification by coded file number which is cross referenced to employee by name, employing establishment, date and nature of injury. Files located in District Offices are identified by master index file, which is maintained in the National Office.

Safeguards: Files are maintained under constant supervision of OWCP personnel during normal working hours—only authorized personnel may handle or disclose any information contained therein. Magnetic disks will be maintained under the constant supervision of Department of Labor personnel and will be locked up at night. Only personnel having security clearance may handle or process security files. After normal working hours, security files are kept in locked cabinets. All files are maintained in guarded Federal buildings.

Retention and disposal: Regular files are retained, retired to Federal Record Centers, and disposed of in accordance with GSA schedule. Security files are disposed of by the submitting agency.

System manager(s) and address: Associate Director, FECA, Room S–3229, NDOL, 200 Constitution Avenue NW., Washington, D.C. 20210.

Notification procedure: As above.
Record access procedures: As above.
Contesting record processing: As above.
Record source categories: Injured employees, beneficiaries, employing Federal agencies, other Federal Agencies, physicians, hospitals, clinics, educational institutions, attorneys, congressman, OWCP field investigations, state government.

DOL/ESA–17

System name: Office of Workers' Compensation Programs, Longshore and Harbor Workers' Compensation Act File

System location: Files are located in District Offices.

Categories of individuals covered by the system: The system maintains records of injury, occupational disease and death of employees working in private industry who are covered by the provisions of the Longshoremen's and Harbor Worker's Compensation Act, as extended.

Categories of records in the system: Records include: reports of injury by employees and employers; authorization for medical care; medical reports, medical and transportation bills; formal orders for or against payment of compensation; vital statistics such as birth, marriage, death certificates; enrollment and attendance records at educational institutions.

Authority for maintenance of the system: 33 U.S.C. 901 et seq. (20 CFR 701 et seq.), 36 DCC 501 et seq., 42 USC 1951 et seq., 43 USC 1331 et seq., 5 USC 8171 et seq.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Disclosure to the employer at the time of the injury or the onset of the occupational illness and to any party providing the employer with workers' compensation insurance coverage; doctors and medical service providers for the purpose of obtaining medical evaluations, physical rehabilitation of other services; and labor unions and other voluntary employee associations of which the claimant is a member which exercise an interest in claims of members as part of their service to the members.

Storage: The information is maintained as written records and documents in letter size manual files stored in 4 and 5 drawer file cabinets, located in the several District Offices.

Retrievability: Identification is based on coded file numbers, cross-referenced to employee name, date of injury and employer name.

Safeguards: Files are physically maintained under constant supervision of OWCP personnel during working hours. Rooms in which files are maintained are locked during non-business hours.

Retention and disposal: Files are retained in District Offices for a period of five years following closing, after which they are retired to the Federal Records Centers and eventually disposed of in accordance with the GSA records disposal schedule. No lost time reports of injury are destroyed five years after the fiscal year in which they are received.

System manager(s) and address: Associate Director, OWCP, Division of Longshore and Harbor Workers' Compensation, U.S. Department of Labor, 200 Constitution Avenue NW., Room C4315, Washington, D.C. 20210.

Notification procedure: As above.

Record access procedures: Any individual seeking information about a case in which he/she is a party of interest may write or telephone the OWCP District Office and arrangement will be made to provide review of the file, consonant with restriction defined as a routine use.

Contesting record procedures: As above.

Record source categories: The system obtains information from injured employees, their qualified dependents, employers, physicians, medical facilities, educational institutions, attorneys, Members of Congress, state and Federal vocational rehabilitation agencies.

[Secretary's Order 17–76]

SECRETARY'S COMMITTEE ON VETERANS' AFFAIRS

Restructuring of Committee and Redefining Its Functions

1. *Purpose.* This Order restructures the Secretary's Committee on Veterans' Affairs and redefines its functions.

2. *Directives affected.* Secretary's Order 5–75 is canceled.

3. *Background.* The Secretary of Labor has the responsibility under the Vietnam Era Veterans' Readjustment Assistance Act of 1974, and the emergency Jobs and Unemployment Assistance Act of 1974, to formulate and monitor the implementation of departmental policies and programs affecting the unemployment, job training, employment or reemployment, and job placement of veterans. The Secretary's Committee was established by Secretary's Order 5–75 to ensure coordination and focus for the various veterans' programs operated throughout the Department.

4. *The Secretary's Committee on Veterans' Affairs.* There is established within the Department of Labor (DOL) a Secretary's Committee on Veterans' Affairs.

a. *Organization.* The Secretary's Committee on Veterans' Affairs shall be chaired by the Under Secretary or in his/her absence by the Vice Chairperson who shall be the Director of the Veteran's Employment Service (VES).

b. *Membership.* (1) In addition to the Chairperson and the Vice Chairperson, the Committee shall be composed of the Assistant Secretaries for Administration and Management; Employment Standards; Employment and Training; Labor-Management Relaeions; Policy, Evaluation, and Research; and the Solicitor of Labor.

(2) The Chairperson shall designate a DOL employee to serve as Executive Secretariat to the Committee.

c. *Meeting Schedule.* The Secretary's Committee on Veterans' Affairs shall meet during the months of January, April, July, and October, with the first meeting held on July 19, 1976. The Chairperson may convene such additional meetings as Committee business may require. Appropriate notice shall be published in the FEDERAL REGISTER well in advance of each meeting date and the meeting shall be open to the public.

d. *Staff Support.* The principal staff support for the Secretary's Committee on Veterans' Affairs shall be provided by the Office of the Director of VES. Other DOL Agencies shall provide appropriate assistance with respect to their functions. The Secretary's Committee may also obtain information and specialized services needed to perform its assigned functions from outside sources.

5. *Assignment of Functions.* The Secretary's Committee on Veterans' Affairs is assigned the following functions:

a. Serve as principal advisory and coordinating group to the Secretary of Labor on matters affecting veterans.

b. Consult with and provide guidance to the appropriate DOL Agencies and the Program and Budget Review Committee (PBRC) on the formulation, implementation or redirection of departmental policies and programs as they affect veterans, especially in the areas of unemployment, job training, employment or reemployment, and job placement.

c. Review the operational effectiveness of departmental plans and programs affecting veterans.

d. Facilitate executive-level communications on veterans' affairs within the Department and with other governmental agencies, veterans' organizations, labor, management, and the Congress.

e. Review and suggest research essential to the implementation of effective departmental programs on behalf of veterans.

f. Coordinate the preparation of any reports concerning veterans' affairs to the Congress which involve the activities of more than one DOL Agency.

Signed at Washington, D.C., this 30th day of July 1976.

W. J. USERY, Jr.,
Secretary of Labor.

[TA–W–1,005]

APPAREL SPORTSWEAR, INC.

Investigation Regarding Certification of Eligibility to Apply for Worker Adjustment Assistance

On July 30, 1976, the Department of Labor received a petition dated July 26, 1976, which was filed under section 221(a) of the Trade Act of 1974 ("the Act") by the International Ladies Garment Workers Union on behalf of the workers and former workers of Apparel Sportswear, Inc., New York, New York (TA–W–1,005). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with ladies' dresses, pants, jackets, skirts and blouses produced by Apparel Sportswear, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivisions of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 23, 1976.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 23, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd Street and Constitution Avenue, NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 30th day of July 1976.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

BETHLEHEM STEEL CORP.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On July 30, 1976, the Department of Labor received a petition dated July 21, 1976, which was filed under section 221(a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of Lackawanna plant, Woodlawn, New York, a subsidiary of Bethlehem Steel Corp., Bethlehem, Pa. (TA–W–1,006). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with structural steel & steel rails produced by Bethlehem Steel Corporation or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 23, 1976.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment As-

BROWN SHOE CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On July 30, 1976, the Department of Labor received a petition dated June 20, 1976, which was filed under section 221 (a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of Brown Shoe Co., Steelville, Missouri, a division of Brown Group, Inc., St. Louis, Missouri (TA-W-1,008). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221 (a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with component parts for shoes produced by Brown Shoe Company or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 23, 1976.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 23, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd Street and Constitution Avenue, NW., Washington, D.C. 20210.

GENERAL SHOE CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On July 30, 1976, the Department of Labor received a petition dated July 27, 1976, which was filed under section 221 (a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of Frankfort, Kentucky plant of General Shoe Company, a division of Genesco, Inc., Nashville, Tenn. (TA-W-1,009). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with leather and synthetic shoes for men and women produced by General Shoe Company or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

J. H. BONCK COMPANY, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On July 29, 1976, the Department of Labor received a petition dated July 22, 1976, which was filed under Section 221 (a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of J. H. Bonck Company, Inc., New Orleans, Louisiana (TA-W-1,003).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's uniform shirts, dress shirts, sport shirts; boys' uniform shirts; and girls' uniform blouses produced by J. H. Bonck Co., Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 23, 1976.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 23, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd Street and Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 29th day of July 1976.

MARVIN M. FOOKS,
Director, Office of
Trade Adjustment Assistance.

[TA-W-1,002]

McKENNA INDUSTRIES, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On July 29, 1976, the Department of Labor received a petition dated June 30, 1976, which was filed under section 221 (a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of McKenna Industries, Inc., Chicago, Illinois (TA-W-1,002).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with the sale and installation of auto stereo radios, auto speakers and home electronics entertainment equipment provided by McKenna Industries, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 23, 1976.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 23, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd Street and Constitution Avenue, NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 29th day of July 1976.

MARVIN M. FOOKS,
Director, Office of
Trade Adjustment Assistance.

[TA-W-1,007]

QUAKER KNITTING MILLS, INC.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On July 30, 1976, the Department of Labor received a petition dated July 26, 1976, which was filed under section 221 (a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of Quaker Knitting Mills, Inc., Berlin, New Jersey, a division of Puritan Sportsware, Altoona, Pa. (TA-W-1,007). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221 (a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with men's sweaters produced by Quaker Knitting Mills, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 23, 1976.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 23, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd Street and Constitution Avenue, N.W., Washington, D.C. 20210.

ROCKWELL INTERNATIONAL

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On July 29, 1976, the Department of Labor received a petition dated July 21, 1976, which was filed under section 221(a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of the Chicago, Illinois Admiral Group of Rockwell International, Pittsburgh, Pa. (TA-W-1,001).

Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with monochrome and color television sets produced by Rockwell Internation or an appropriate subdision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 23, 1976.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than August 23, 1976.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 3rd Street and Constitution Avenue, NW., Washington, D.C. 20210.

Signed at Washington, D.C., this 29th day of July 1976.

ROUND STAINLESS STEEL WIRE

Investigation Regarding Certification of Eligibility for Adjustment Assistance

On June 14, 1976, the International Trade Commission determined that increased imports of round stainless steel wire are not a substantial cause of serious injury to the domestic industry for purposes of the import relief provisions of the Trade Act of 1974 (41 FR 24779).

Section 224 of the Trade Act directs the Secretary of Labor to initiate an industry study whenever the ITC begins an investigation under the import relief provisions of the Act. The purpose of the study is to determine the number of workers in the domestic industry petitioning for relief who have been or are likely to be certified as eligible for adjustment assistance and the extent to which existing programs can facilitate the adjustment of such workers to import competition. The Secretary is required to make a report of this study to the President and also make the report public (with the exception of information which the Secretary determines to be confidential).

The Department of Labor has concluded its report on round stainless steel wire. The report found as follows:

1. Since April 3, 1975, the effective date of the adjustment assistance program, the Department of Labor has received 10 petitions for certification of eligibility for adjustment assistance involving to a limited degree workers producing stainless steel wire products. To date, the Department has certified nine of these petitions and has not denied any. An investigation is currently in process in the remaining case. Of the estimated potential caseload of about 8,300 workers at plants in this narrow segment of the industry whose workers have been certified, only a small proportion, perhaps about one-fifth, is likely to consist of production workers primarily involved in wire operations. As of April 30, 1976, 5,056 workers at the plants involved in the certifications had applied for adjustment assistance and $3,490,317 had been paid to 2,470 of them. It is not known precisely how many of these workers were primarily engaged in wire operations. Once certified, a large proportion of the displaced workers is likely to draw maximum trade allowances.

2. By the end of March 1976 a total of approximately 1,000 production workers primarily involved in stainless steel wire operations were still on layoff status. About 85 percent of these were at plants whose workers had petitioned the Department. The Department of Labor estimates that about another 600 wire production workers may apply for adjustment assistance at plants which have been certified. Over the next twelve months, five groups, or a total of about 150 workers from smaller and more specialized firms producing stainless steel wire, may apply for certification of eligibility for adjustment assistance. No firms are likely to lay off large numbers of workers in the next year if the current economic upturn continues, and most of the approximately 1,000 workers who are currently on layoff status are likely to be recalled. However, as many as 200 workers may have to seek employment elsewhere since their previous employers are no longer producing stainless steel wire.

3. The unemployed workers are located mainly in Pennsylvania, New York, Maryland, and Indiana. Local unemployment rates in the impacted areas were either at or above the national average and generally exceeded 8 percent in March 1976. Since many of these workers possess special skills, their immediate reemployment prospects are dependent on the fortunes of the specialty steel industry. Even if present industry trends continue, a substantial number of separated workers could remain unemployed over the next few months. Consequently, a number of workers may enroll in training programs and/or consider relocating.

4. The Comprehensive Employment and Training Act (CETA) programs in the impacted areas have sufficient funds to meet the needs of unemployed workers in the near future. However, many training programs have already exceeded expected enrollment levels. The Employment and Training Administration through the State Employment Service has the authority to purchase additional training when CETA funds are not available.

Copies of the Department report containing nonconfidential information developed in the course of the 6-month investigation may be purchased by contacting the Office of Trade Adjustment Assistance, U.S. Department of Labor, 3d Street and Constitution Avenue, NW., Washington, D.C. 20210 (phone 202-523-7665).

Signed at Washington, D.C., this 5th day of August 1976.

HERBERT N. BLACKMAN,
Associate Deputy Under Secretary International Affairs.

INTERSTATE COMMERCE COMMISSION

[Notice No. 117]

ASSIGNMENT OF HEARINGS

AUGUST 10, 1976.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 130349, Marvin Stewart, Dba Stewart's Travel Agency, now assigned September 22, 1976, at Frankfort, Ky. will be held in the 4th Floor Conference Room, Bureau of Vehicle Regulation, Department of Transportation, State Office Building.

MC 67485 (Sub-No. 18), Texas Tex-Pack Express, Inc., now assigned September 20, 1976, at Austin, Tex. will be held in Room 557, Federal Building, 300 East 8th Street.

MC-C-8833, Oliver Trucking Company, Inc. V. Eck Miller Transportation Corporation, now assigned September 28, 1976, at Frankfort, Ky. will be held in the 4th Floor Conference Room, Bureau of Vehicle Regulation, Department of Transportation, State Office Building.

MC-C-8975, P.A.K. Transport, Inc. Investigation and Revocation of Certificate, now assigned September 8, 1976, at Boston, Mass., will be held on the Fifth Floor, 150 Causeway.

MC 94742 (Sub-No. 37), Michaud Bus Lines, Inc., now assigned September 13, 1976, at Boston, Mass. will be held on the Fifth Floor, 150 Causeway.

MC 124774 (Sub-No. 94), Midwest Refrigeration Express, Inc., now assigned September 9, 1976, at Boston, Mass., will be held on the Fifth Floor, 150 Causeway.

MC 110563 (Sub-No. 166), Coldway Food Express, Inc., now being assigned September 9, 1976, at Boston, Mass. (2 days) on the Fifth Floor, 150 Causeway.

MC-F 12677, Ward Trucking Corp.—Purchase—Keystone-Lawrence Transfer and Storage Company now assigned September 13, 1976 at New York, New York and will be held in Room 2839, Federal Building, 26 Federal Plaza.

AB 19 (Sub 3), Baltimore and Ohio Railroad Company Abandonment Landenberg Branch, New Castle County, Delaware now assigned September 8, 1976 at Wilmington, Delaware and will be held in the Courtroom, U.S. District Court, 844 King Street.

MC 141344 (Sub 2), Allen Transport Corp. now assigned September 13, 1976, also September 14, 15 and 17 and will be held in Room 1035, Federal Building, 400 8th Street and September 16 in Room 1030, Federal Building, 400 8th Street.

MC 19227 (Sub-No. 223), Leonard Bros. Trucking Co., Inc., now assigned September 27, 1976 at Dallas, Texas; will be held in Tax Court Room 330, U.S. Post Office & Courthouse Building, Bryan & Ervay Streets.

MC 123490 (Sub-No. 16), Chip Carriers, Inc., now assigned September 28, 1976 at Dallas, Texas; will be held in Tax Court Room 330, U.S. Post Office & Courthouse Building, Bryan & Ervay Streets.

MC 73165 (Sub-No. 387), Eagle Motor Lines, Inc., now assigned September 30, 1976 at Dallas, Texas; will be held in Tax Court Room 330, U.S. Post Office & Courthouse Building, Bryan & Ervay Streets.

MC 100449 (Sub-No. 62), Mallinger Truck Line, Inc., now assigned October 4, 1976 at Dallas, Texas; will be held in Room 5A15-17 Federal Building, 1100 Commerce Street.

MC 121281 (Sub-No. 12), Big Mac Trucking Co., now assigned October 6, 1976 at Dallas, Texas; will be held in Room 5A15-17 Federal Building, 1100 Commerce Street.

MC 109821 (Sub 42), H. W. Taynton Co., Inc. now assigned September 27, 1976 at New York, New York and will be held in Room 2805, Federal Building, 26 Federal Plaza, September 28, 1976, Room 2705, Federal Building, 26 Federal Plaza, September 29th and 30th in Room 2839, Federal Building, 26 Federal Plaza and October 1, 1976 in Room 2805, Federal Building, 26 Federal Plaza.

MC 141081, Trailer Car Corp. now assigned September 15, 1976 in New York, New York and will be held in Courtroom A, Room 238, Court of Claims, 26 Federal Plaza.

MC 120477 (Sub 2), International Transport, Inc. now assigned September 20, 1976 in New York, New York and will be held in Room 2805, Federal Building, 26 Federal Plaza, September 21, 22 and 23 in Room 305A, Federal Building, 26 Federal Plaza and September 24, 1976 in Room 2805, Federal Building, 26 Federal Plaza.

MC 141243 (Sub 1), Jaymar Trucking Corp. now assigned September 13, 1976 in New York, New York and will be held in Court Room A, Room 238, Court of Claims, 26 Federal Plaza.

MC 140055, Mays Landing Transportation Co., Inc., now assigned September 9, 1976, at Philadelphia, Pa. will be held in the Tax Court Room 7405, 7th Floor, U.S. Courthouse, 601 Market Street.

MC 30561 (Sub-No. 3), Joseph Ruffin, DBA Ruffin's Motor Freight, now assigned September 8, 1976, at Philadelphia, Pa. will be held in the Tax Court Room 7405, 7th Floor, U.S. Courthouse, 601 Market Street.

MC 105457 (Sub-No. 85), Thurston Motor Lines, Inc., now being assigned September 16, 1976, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 118468 Sub-45, Umthun Trucking Co., now being assigned Sept. 20, 1976 (1 day), at New Orleans, La., in a hearing room to be later designated.

AB 3 Sub-8, Missouri Pacific Railroad Company Abandonment Between Olivier and Sorrell, In Iberia And St. Mary Parishes, Louisiana, now being assigned September 22, 1976 (3 days), at Jeanerette, La., in a hearing room to be later designated.

F.D. 26764, Gulf Mobile and Ohio Railroad Company Abandonment between Dwight, Livingston County, and Washington, Tazewell County, Illinois, now assigned September 9, 1976, at Metamora, Ill. will be held at Village Hall, 102 North Davenport.

MC 141511, Robert W. Rettig, Dba Protein Express, now assigned September 13, 1976, at Chicago, Ill. will be held in Room 209, 536 South Clark Street.

MC 123048 (Sub-No. 333), Diamond Transportation System, Inc., now assigned September 14, 1976, at Chicago, Ill. will be held in Room 209, 536 South Clark Street.

MC-F-12737, Jenkins Truck Line, Inc.—Control and Merger—Denny Motor Freight, Inc., and MC 61592 (Sub-No. 383), Jenkins Truck Line, Inc., now assigned September 15, 1976, at Chicago, Ill. will be held in Room 209, 536 South Clark Street.

MC-F 12668, Hyman Freightways, Inc.—Control—Raymond Motor Transportation, Inc. and FD 28126, Hyman Freightways, Inc. now assigned September 20, 1976 (at St. Paul, Minnesota) and will be held in Room 584, Federal Building and U.S. Courthouse, 316 North Roberts Street.

MC 121745 (Sub 2), J. T. Spain and C. D. Spain, dba Spain's Transfer now assigned September 13, 1976 at Bismarck, North Dakota and will be held in the Blue Room, State Capitol Building.

MC 124211 (Sub 275), Hilt Truck Line, Inc. now assigned September 22, 1976 at St. Paul, Minnesota and will be held in Room 584, Federal Building & U.S. Courthouse, 316 North Roberts Street.

MC 141620, Van Bus Delivery Company, dba United Van Bus Delivery now assigned September 13, 1976, at St. Paul, Minnesota and will be held in Room 584, Federal Building & U.S. Courthouse, 316 North Roberts Street.

MC 114457 (Sub 259), Dart Transit Company now assigned September 14, 1976 at St. Paul, Minnesota and will be held in Room 584, Federal Building and U.S. Courthouse, 316 North Roberts Street.

MC 117068 (Sub 62), Midwest Specialized Transportation, Inc. now assigned September 15, 1976 at St. Paul, Minnesota and will be held in Room 584, Federal Building and U.S. Courthouse, 316 North Roberts Street.

MC 118468 (Sub 46), Umthun Trucking Co. now assigned September 16, 1976 at St. Paul, Minnesota and will be held in Room 584, Federal Building and U.S. Courthouse, 316 North Roberts Street.

MC 114457 (Sub 251), Dart Transit Company now assigned September 22, 1976 at St. Paul, Minnesota and will be held in Room 584, Federal Building and U.S. Courthouse, 316 North Roberts Street.

MC 59856 (Sub 65), Salt Creek Freightways now assigned September 27, 1976 at Great Falls, Montana and will be held in the Courtroom, U.S. Post Office Building, 215 First Avenue.

MC 105881 (Sub-No. 51), M. R. & R. Trucking Company, continued to August 31, 1976, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 28573 (Sub 35), Burlington Northern, Inc. now assigned September 27, 1976 at Great Falls, Montana and will be held in the Courtroom, U.S. Post Office Building, 215 First Avenue.

No. 36325, Radioactive Materials, Special Train Service, Nationwide, continued to October 5, 1976, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC-C-8735, Ligon Specialized Hauler, Inc., et al.—Investigation of Operations and Practices, and Revocation of Certificates; MC-F-12631, Ligon Specialized Hauler, Inc.—Investigation of Control —Dixie Truck Line, Inc., et al. and MC 119777 (Sub-No. 245), Ligon Specialized Hauler, Inc., Extension—ITT, now being assigned continued pre-hearing conference, on September 9, 1976, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 133689 Sub 70, Overland Express, Inc., now being assigned November 3, 1976 (2 days), at Madison, Wis., in a hearing room to be later designated.

FOURTH SECTION APPLICATION FOR RELIEF

AUGUST 10, 1976.

An application, as summarized below, has been filed requesting relief from the

V41158 AUG 13 76 UMI

requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed on or before August 30, 1976. FSA No. 43210—*Liquid Fertilizers from Michaud, Idaho.* Filed by Western Trunk Line Committee, Agent, (No. A–2728), for interested rail carriers. Rates on liquid fertilizers, in tank-car loads, as described in the application, from Michaud, Idaho, to points in western trunk-line territory. Grounds for relief—Market competition.

Tariff—Supplement 171 to Western Trunk Line Committee, Agent, tariff 120–L, I.C.C. No. A–4868. Rates are published to become effective on September 10, 1976.

By the Commission.

ROBERT L. OSWALD,
Secretary.

[Notice No. 102]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

AUGUST 10, 1976.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the I.C.C. Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 21623 (Sub-No. 84TA), filed July 29, 1976. Applicant: W. J. DILLNER TRANSFER COMPANY, 2748 West Liberty Ave., Pittsburgh, Pa. 15216. Applicant's representative: William J. Dillner, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pulp board*, in rolls, between West Elizabeth, Pa., and one (1) mile thereof, and the plantsite of International Paper Company, located at Waltz Mills, Pa., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: International Paper Company, Waltz Mills, Pa. Send protests to: John J. England, District Supervisor, Interstate Commerce Commission, 2111 Federal Bldg., 1000 Liberty Ave., Pittsburgh, Pa. 15222.

No. MC 42487 (Sub-No. 853TA), filed July 29, 1976. Applicant: CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, 175 Linfield Drive, Menlo Park, Calif. 94025. Applicant's representative: V. R. Oldenburg, P.O. Box 5138, Chicago, Ill. 60680. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment); serving the Nuclear Generating plantsite and facilities of the Tennessee Valley Authority, at or near Hartsville, Tenn., as an off-route point in connection with carrier's presently authorized regular route operations; (1) between Nashville, Tenn., and Fayetteville, Tenn., serving all intermediate points south of Shelbyville, Tenn., without restriction, and serving Fayetteville, Tenn., and points in its commercial zone, as defined by the Commission, restricted to traffic originating at, destined to, or interchanged at points other than Nashville, Tenn., and points in its commercial zone, as defined by the Commission: From Nashville over U.S. Highway 41 to Murfreesboro, Tenn. (also from Nashville over Tennessee Highway 1 to Murfreesboro), and thence over U.S. Highway 231 via Shelbyville, Tenn., to Fayetteville, and return over the same routes; and (2) Between Nashville, Tenn., and Lexington, Ky., serving no intermediate points: From Nashville, over U.S. Highway 31W to Elizabethtown, Ky., and thence over U.S. Highway 62 to Lexington, and return over the same route. Restriction: The authority granted in the last route above is restricted against handling of traffic originating at or destined to points in North Carolina and South Carolina, that part of Tennessee on and east of U.S. Highway 127, and that part of Georgia on and north of Interstate Highway 20, and restricted against the handling of traffic originating at, destined to, or interchanged at Louisville, Ky. Restriction: Service at points in Davidson County, Tenn., is restricted against the transportation of traffic originating at, destined to, or interlined at Louisville, Ky., and points in the Louisville, Ky., Commercial Zone as defined by the Commission. Applicant intends to tack its existing authority with MC 42487 and subs thereto, applicant also intends to interline, for 180 days. Supporting shipper: Tennessee Valley Authority, Traffic Branch, Division of Purchasing, 620 Commerce Union Bank Bldg., Chattanooga, Tenn. 37401. Send protests to: Claud W. Reeves, District Supervisor, 450 Golden Gate Ave., Box 36004, San Francisco, Calif. 94102.

[Notice No. 9]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

AUGUST 13, 1976.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before August 30, 1976. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-76397. By order of August 5, 1976, the Motor Carrier Board approved the transfer to JBH & Associates, Inc., Elwood, Nebraska, of the operating rights in Certificates Nos. MC-59059, MC-59059 Sub-No. 5 and Sub-No. 6, issued July 1, 1968, November 9, 1971, and January 11, 1974, to Arrow Freight Lines, Inc., Grand Island, Nebraska, authorizing the transportation of general commodities, with exceptions, between specified points in Nebraska over described regular routes, and serving the facilities of Western Electric Company, Inc., at or near Underwood, Iowa, in connection with its regular route operations from and to Omaha, Nebr. Richard A. Peterson, P.O. Box 81849, Lincoln, Nebraska 68501, Attorney for Transferor and Robert Munro, 104 W. 16th St., Kearney, Nebraska 68847, Attorney for Transferee.

No. MC-FC-76439. By order of August 5, 1976, the Motor Carrier Board approved the transfer to Bernice Acheson and Fred Acheson, a Partnership, Doing Business as Acheson Trucking, Hillsdale, Wyoming, of the operating rights set forth in Certificate No. MC 104159 (Sub-No. 2), issued by the Commission, April 16, 1947, to Charles Acheson, Hillsdale, Wyoming, authorizing the transportation of (1) livestock, between points and places in Colorado, Nebraska, and Wyoming within 125 miles of Cheyenne, Wyo., including Cheyenne, and (2) coal, livestock feeds, farm machinery, farm equipment and parts thereof, and building materials, except lime, cement, plaster, and containers therefor moving from plants manufacturing such commodities, from points and places in Colorado and Nebraska within 125 miles of Cheyenne, to Cheyenne and points and places in Wyoming within 50 miles of Cheyenne.

Fred Acheson, Box 7, Hillsdale, Wyoming 82060, Representative of Applicants.

ROBERT L. OSWALD,
Secretary.

[Ex Parte No. 329]

PRELIMINARY STANDARDS, CLASSIFICATION, AND DESIGNATION OF RAIL LINES

Public Hearing

AUGUST 9, 1976.

Pursuant to Section 503(c) of the Railroad Revitalization and Regulatory Reform Act of 1976, Notice is hereby given that the Rail Services Planning Office will conduct hearings on the preliminary report of the Department of Transportation classifying and designating rail lines in the United States.

It is therefore ordered that: 1. The hearing sites are established together with the local contact coordinator who will receive requested appearance times at the respective hearings. The dates below indicate when the hearings commence.

MONDAY, SEPTEMBER 13, 1976

Fort Worth, Texas—5 B 14 Hearing Room, 819 Taylor Street, Fort Worth, Texas.
Contact: June Cole, c/o ICC Office, 9A27 Fritz Garland, Lanham Federal Building, 819 Taylor Street, Fort Worth, Texas 76102. Phone 817/334-2837.
Chicago, Illinois—Hearing Room 204A (September 13), Hearing Room 1743 (September 14-17), 219 South Dearborn, Chicago, Illinois.
Contact: Patricia Roscoe, c/o ICC Office, Everett McKinley Dirksen Building, 219 South Dearborn, Room 1386, Chicago, Illinois, 60604. Phone: 312/353-6124.
Boston, Massachusetts—K. V. Minihan Lecture Hall, C. F. Hurley Building, Government Center, Boston, Massachusetts.
Contact: Elaine Spencer, c/o ICC Office, 150 Causeway Street, Room 501, Boston, Massachusetts 02114. Phone: 617/223-2372.
Washington, D.C.—Hearing Room, ICC Building, 12th and Constitution Avenue NW., Washington, D.C. 20423.
Contact: Laurie Silverman, Rail Services Planning Office, 1900 L Street NW., Washington, D.C. 20036. Phone: 202/254-3900.
St. Louis, Missouri—Moot Court Room, St. Louis University, 211 North Grand Street, St. Louis, Missouri.
Contact: Joyce Ebenreck, c/o ICC Office, 210 North 12th Street, Room 1465, St. Louis, Missouri 63101. Phone: 314/425-4103.
San Francisco, California—ICC Hearing Room, 5th Floor, 211 Main Street, San Francisco, California 94105.
Contact: Maggie Meyer, c/o ICC Office, 211 Main Street, Suite 500, San Francisco, California 94105. Phone: 415/556-5515.
Memphis, Tennessee—Room 978, Federal Office Building, 167 North Main Street, Memphis, Tennessee 38103.
Contact: Ruth Pollard, c/o ICC Office, 100 North Main Street, Suite 2006, Memphis, Tennessee 38103. Phone: 901/521-3437.
Denver, Colorado—Room 158, 721 19th Street, U.S. Customs House, Denver, Colorado.
Contact: Gyda Boyd, c/o ICC Office, 721 19th Street, 492 U.S. Customs House, Denver, Colorado 80202. Phone: 303/837-3162.
Atlanta, Georgia—Court Room 226, U.S. Court House, 56 Forsythe Street NW., Atlanta, Georgia 30303.
Contact: Joyce Stephens, c/o ICC Office, 1252 West Peachtree Street NW., Room 300, Atlanta, Georgia 30309. Phone: 404/526-5371, 5307.

THURSDAY, SEPTEMBER 16, 1976

Kansas City, Missouri—Room 302, Federal Building, 911 Walnut Street, Kansas City, Missouri.
Contact: Helen Miller, c/o ICC Office, 600 Federal Building, 911 Walnut Street, Kansas City, Missouri 64106. Phone: 816/374-5561.
Seattle, Washington—U.S. Customs Court, Room 1057, Federal Office Building, 909 1st Avenue, Seattle, Washington 98174.
Contact: Lorrie Thompson, c/o ICC Office, 858 Federal Building, 915 Second Avenue, Seattle, Washington 98174. Phone: 206/442-5421.
New Orleans, Louisiana—5th Circuit Court of Appeals, 600 Kent Street, New Orleans, Louisiana.
Contact: Linda Copeland, c/o ICC Office, T-9038 Federal Building and U.S. Post Office, 701 Loyola Avenue, New Orleans, Louisiana 70113. Phone: 504/589-6101.
Jacksonville, Florida—Room 100, Florida Public Service Commission, Voyager Building, 2255 Phyllis Street, Jacksonville, Florida 32204.

Contact: Mrs. Jean King, c/o ICC Office, 288 Federal Building, 400 West Bay Street, Building Box No. 35008, Jacksonville, Florida 32202. Phone: 904/791-2551.

MONDAY, SEPTEMBER 20, 1976

Des Moines, Iowa—Room 113, Federal Building, 210 Walnut St., Des Moines, Iowa.
Contact: Krista Bowersox, c/o ICC Office, 518 Federal Building, 210 Walnut Street, Des Moines, Iowa 50309. Phone: 515/284-4416.
Pittsburgh, Pennsylvania—Room 1112, Federal Building, 1000 Liberty Avenue, Pittsburgh, Pennsylvania.
Contact: Henrietta Viasic, c/o ICC Office, 2111 Federal Building, 1000 Liberty Avenue, Pittsburgh, Pa. 15222. Phone: 412/644-2929 or 2924.
Salt Lake City, Utah—Public Library Auditorium 3rd Floor, 209 East 500 South, Salt Lake City, Utah.
Contact: Patricia Allgier, c/o ICC Office, 5301 Federal Building, 125 South State Street, Salt Lake City, Utah 84138. Phone: 801/524-5680.
Detroit, Michigan—Conference Room C, 7th Floor City County Building, No. 2 Woodward Avenue, Detroit, Michigan 48226.
Contact: Erma Gray, c/o ICC Office, 1110 David Broderick Tower Building, 10 Witherell Street, Detroit, Michigan 48226. Phone: 313/226-4966.
Minneapolis, Minnesota—Courtroom No. 2, Federal Building, 316 North Robert Street, St. Paul, Minnesota 55101.
Contact: Marion Cheney, c/o ICC Office, 414 Federal Building & U.S. Courthouse, 110 South Fourth Street, Minneapolis, Minnesota 55401. Phone: 612/725-2326.

THURSDAY, SEPTEMBER 23, 1976

Buffalo, New York—State University at Buffalo, School of Law, North Campus, Buffalo, New York 14260.
Contact: Anne Siler, c/o ICC Office, 910 Federal Building, 111 West Huron Street, Buffalo, New York 14202. Phone: 716/842-2068.
Columbus, Ohio—30 East Broad Street, State Office Tower, Room 2930, Columbus, Ohio.
Contact: Mary White, c/o ICC Office, 220 Federal Building & U.S. Courthouse, 85 Macaroni Boulevard, Columbus, Ohio 43215. Phone: 614/469-5620.

The hearing sites listed were chosen because they are generally located in areas where the report will generate the greatest impact. If a potential witness believes that a hearing should be held in an additional location, he should write to: Alan M. Fitzwater, Director, Rail Services Planning Office, 1900 L Street, N.W., Washington, D.C. 20036. The request must be received by August 23, 1976, and must include (1) an estimate of the number of potential witnesses, (2) a general description of their interest, in the proceeding, and (3) the reason why submitting written testimony is not adequate. The Director of RSPO will decide by September 7, 1976, whether any additional sites will be chosen. The decision will be based upon the information contained in the request and the adequacy of office resources. Persons requesting new sites will be promptly informed of Director Fitzwater's decision.

2. Attorneys have been retained by the Office to provide free legal assistance to communities, users of rail service and other interested parties in the preparation of their testimony on the Department of Transportation Report. The assistance of these attorneys may be obtained pursuant to the hearing rules set forth below.

Interested parties may participate either by appearing in person at one of the hearings or by submitting written comments directly to the Office.

3. The following uniform rules, procedures, and practices for the hearings are established:

(a) Oral testimony will be limited to 10 minutes. Those appearing are encouraged to testify from prepared statements.

(b) Persons who wish to testify at the hearings should call or write the local contact coordinator who is identified in Item 1 of this Notice.

(c) Prospective witnesses will be asked to provide: their name, address, telephone number and business association, if any; the general areas of the report to which their testimony will pertain; and the date and time when they wish to appear. This information will be relayed to an attorney from the Office of Public Counsel. If prospective witnesses need the assistance of an attorney, they should so inform the contact coordinator.

(d) The attorney assigned to the hearing city will schedule all witnesses and either the attorney or the local coordinator will notify prospective witnesses of confirmed hearing appearance times. The attorney will attempt to accommodate prospective witnesses who appear at the hearing without a prescheduled appearance time.

(e) In order to facilitate the creation of a comprehensive and well-organized record, the attorneys will attempt to schedule prospective witnesses according to the general area of interest which their testimony will address.

(f) All written material for the record should be submitted on 8½ x 11" paper in 10 copies at the hearing or sent directly to the Rail Services Planning Office, 1900 L Street, N.W., Washington, D.C. 20036. Statements sent to the Office should arrive no later than October 1, 1976. Since the Office has a very short time for review of the testimony, statements received after October 1, 1976, will be made a part of the record, but may not be reviewed by the Office.

(g) Witnesses with common interests are urged to make joint submissions.

(h) The proceedings are legislative, not judicial in nature. It is designed to elicit public views on the Department's preliminary report. Witnesses will not be required to testify under oath, nor will there be any cross examination or rebuttal testimony. Only questions from the presiding officer and the representative of the Office of Public Counsel will be permitted.

(i) In order to insure that the public is fully informed of the contents of the Report and its possible impacts upon communities and rail users, the usual Interstate Commerce Commission limitations on radio and television coverage during the hearing will be relaxed. The presiding officer will permit live news coverage in the hearing room provided that the conduct of the media representatives and the presence of radio and television equipment do not disturb the orderly conduct of the proceedings. Where courtroom facilities are used, however, the rules of the court regarding media participation will apply. The customary rules of the Commission prohibiting smoking and talking during the hearing will apply.

(j) Hearings will commence on the days specified in Item 1 of this Notice.

(k) Hearings will convene promptly at 9:30 a.m. and adjourn at 5:30 p.m. An evening session will be scheduled on the first day if appearance times are requested. The evening session will commence at 7:30 p.m. and adjourn at 10 p.m. Additional evening sessions may be scheduled at the discretion of the attorney and the hearing officer.

ROBERT L. OSWALD,
Secretary.

[FR Doc.76-23709 Filed 8-12-76;8:45 am]

[AB 9 (Sub-No. 2); Finance Docket No. 27719; Service Date Aug. 10, 1976]

ST. LOUIS-SAN FRANCISCO RAILWAY CO.

Abandonment of Service

JULY 30, 1976.

St. Louis-San Francisco Railway Company—Trackage Rights—over Atchison, Topeka and Santa Fe Railway Company line between Augusta, Butler County, and Winfield, Cowley County, Kansas.

The Interstate Commerce Commission hereby gives notice that its Environmental Affairs Staff has concluded that the proposed abandonment by the St. Louis-San Francisco Railway Company of its 34 mile line between Beaumont and Winfield in Butler and Cowley Counties, and the proposed trackage rights over the Atchison, Topeka and Santa Fe Railway Company line between Augusta, Butler County, and Winfield, Cowley County, Kansas, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the two related actions are considered insignificant because the local traffic generated by the line can be diverted to motor carriers without creating significant alternations in highway congestion, ambient noise levels, air quality, or fuel consumption. No definitive land use plans are dependent on the continuation of the subject line. Furthermore, resultant ecological effects of the abandonment would be minor. If trackage rights over the Santa Fe are approved, a decrease in fuel consumption and noise levels should occur. The magnitude of this decrease will be dependent on the amount of bridge traffic which moves over this line.

This conclusion is contained in a staff-prepared environmental threshold assessment survey, which is available on request to the Interstate Commerce Com-

V 41 158 AUG 13 76 UMI

mission, Office of Proceedings, Washington, D.C. 20423; telephone 202–275–7011.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before September 9, 1976.

It should be emphasized that the environmental threshold assessment survey represents an evaluation of the environmental issues in the proceeding and does not purport to resolve the issue of whether the present or future public convenience and necessity permit discontinuance of the line proposed for abandonment. Consequently, comments on the environmental study should be limited to the discussion of the presence or absence of environmental impacts and reasonable alternatives.

ROBERT L. OSWALD,
Secretary.

[FR Doc.76-23710 Filed 8-12-76;8:45 am]

[Sec. 5a Application No. 64 (Amendment No. 8); Service Date Aug. 10, 1976]

STEEL CARRIERS' TARIFF ASSOCIATION, INC.

Agreement

AUGUST 5, 1976.

The Commission is in receipt of an application in the above-entitled proceeding for approval of amendments to the agreement therein approved.

Filed July 23, 1976, by: Warren A. Rawson (Attorney-in-Fact): Steel Carriers' Tariff Association, 6410 Kenilworth Avenue, East Riverdale, MD 20840; and Thomas M. Auchincloss, Jr. (Attorney for Applicants): Rea, Cross & Knebel, 700 World Center Building, 918 16th St. NW., Washington, D.C. 20006.

The amendments involve: Substantive organizational and procedural changes so as to (1) comply with Ex Parte No. 297; (2) broaden the commodity scope of iron and steel articles and products thereof by the addition of brick and related articles; (3) expand the territorial scope by 15 states and portions of 2 states; (4) revise the carrier membership application form as well as the provisions governing such membership, including cancelation and voluntary withdrawal; (5) permit the board of trustees to fix the time for the annual membership meeting, in lieu of the specific month of April; (6) establish a nominating committee for board of trustee elections; (7) provide for removal of trustees for failure to attend board or tariff committee meetings; (8) allow carrier alternate representation on tariff committee; (9) increase to 15 days (from 7 days) for giving notice of receipt of emergency and of independent action proposals; and (10) make other incidental changes made necessary by the foregoing or for clarification.

The complete application may be inspected at the Office of the Commission in Washington, D.C.

Any interested person desiring to protest and participate in this proceeding shall notify the Commission in writing on or before September 13, 1976. As provided by the General Rules of Practice of the Commission, persons other than applicants should fully disclose their interest and the position they intend to take with respect to the application. Otherwise, the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application, without further or formal hearing.

ROBERT L. OSWALD,
Secretary.

PART II:

ENVIRONMENTAL PROTECTION AGENCY

EFFLUENT GUIDELINES AND STANDARDS

Coal Mining Point Source Category; Extension of Comment Period

V 41 I 158 AUG 13 76 UMI

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER N—EFFLUENT GUIDELINES AND STANDARDS

[FRL 599-8]

PART 434—COAL MINING POINT SOURCE CATEGORY

Extension of Comment Period and Notice of Availability

On May 13, 1976, the Agency published a notice of interim final rulemaking (41 FR 19832) establishing effluent limitations and guidelines for existing sources to be achieved by the application of best practicable control technology currently available for the coal mining point source category. The due date for comments provided in the notice was June 14, 1976.

The Agency anticipated that the document entitled "Development Document for Effluent Limitations, Guidelines and New Source Performance Standards for the Coal Mining Point Source Category," which contains information on the analysis undertaken in support of the regulations, would be available to the public throughout the comment period. Production difficulties delayed the availability of this document. Copies of the document are now available and have been forwarded to those persons having submitted written requests to the Environmental Protection Agency. A limited number of additional copies are available for distribution from the Environmental Protection Agency, Effluent Guidelines Division, Washington, D.C. 20460, Attention: Distribution Officer, WH-552.

This extension and notice of availability is published pursuant to sections 301, 304 (b) and (c), 306(b) and 307(c) of the Federal Water Pollution Control Act as amended 33 U.S.C. 1251, 1311, 1314 (b) and (c), 1316(b), and 1317(c); 86 Stat. 816 et seq.; Pub. L. 92-500 (the Act).

Accordingly, the date for submission of comments is hereby extended to September 13, 1976.

Dated: August 9, 1976.

ANDREW W. BREIDENBACH,
Assistant Administrator for Water and Hazardous Materials.

[FRL 599-7]

COAL MINING POINT SOURCE CATEGORY

Extension of Comment Period and Notice of Availability

On May 13, 1976, the Agency published a notice of proposed rulemaking (41 FR 19841) establishing effluent limitations and guidelines for existing sources to be achieved by the application of best available technology economically feasible, standards of performance for new point sources and pretreatment standards for new sources for the coal mining point source category. The due date for comments was June 14, 1976.

The Agency anticipated that the document entitled "Development Document for Effluent Limitations, Guidelines and New Source Performance Standards for the Coal Mining Point Source Category," which contains information on the analysis undertaken in support of the regulations, would be available to the public throughout the comment period. Production difficulties delayed the availability of this document. Copies of the document are now available and have been forwarded to those persons having submitted written requests to the Environmental Protection Agency. A limited number of additional copies are available for distribution from the Environmental Protection Agency, Effluent Guidelines Divison, Washington, D.C. 20460, Attention: Distribution Officer, WH-552.

This extension and notice of availability is published pursuant to sections 301, 304 (b) and (c), 306(b) and 307(c) of the Federal Water Pollution Control Act as amended 33 U.S.C. 1251, 1311, 1314(b) and (c), 1316(b), and 1317(c); 86 Stat., 816 et seq.; P.L. 92-500 (the Act).

Accordingly, the date for submission of comments is hereby extended to September 13, 1976.

Dated: August 9, 1976.

ANDREW W. BREIDENBACH,
Assistant Administrator for Water and Hazardous Materials.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

MILK IN THE APPALACHIAN; CHATTANOOGA, TENNESSEE; KNOXVILLE, TENNESSEE; AND OHIO VALLEY MARKETING AREAS

Decision on Proposed Amendments to Marketing Agreements and to Orders

V 41 I 158 AUG 13 76 UMI

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Services

[7 CFR Parts 1011, 1033, 1090, 1101]

[Docket Nos. AO-251-A19; AO-266-A21; AO-195-A25; AO-166-A18]

MILK IN THE APPALACHIAN; CHATTANOOGA, TENNESSEE; KNOXVILLE, TENNESSEE; AND OHIO VALLEY MARKETING AREAS

Decision on Proposed Amendments to Marketing Agreements and to Orders

A public hearing was held upon proposed amendments to the marketing agreements and the orders regulating the handling of milk in the Appalachian; Chattanooga, Tennessee; Knoxville, Tennessee; and Ohio Valley marketing areas. The hearing was held, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice (7 CFR Part 900), at Knoxville, Tennessee, on June 23–27 and July 7–10, 1975, pursuant to notices thereof issued on April 25 (40 FR 18946) and May 5, 1975 (40 FR 20095).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Administrator on March 12, 1976 (41 FR 11432) filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings, and general findings of the recommended decision are hereby approved and adopted and are set forth in full herein, subject to the following modifications:

1. Under "1. Merger of orders and expansion of merged marketing area":

a. Paragraphs 6 and 8 are revised.

b. A paragraph is added following paragraph 8.

c. Paragraph 39 is revised and four paragraphs are added following paragraph 39.

d. Paragraph 41 is revised and five paragraphs are added following paragraph 41.

e. A paragraph is added following paragraph 44.

2. Under "2. (a) Milk to be priced and pooled":

a. Under the subheading "Pool plant", paragraph 10, 13, 15, 24 and 35 are revised, a paragraph is added following paragraph 14, three paragraphs are added following paragraph 26, and a paragraph is added following paragraph 33.

b. Under the subheading "Producer-handler", paragraph 9 is revised.

c. Under the subheading "Producer milk", two paragraphs are added following paragraph 17 and paragraph 21 is revised.

3. Under the heading "(c) Class I price", four paragraphs are added following paragraph 5.

4. Under the heading "(d) Location adjustments", eight paragraphs are added following paragraph 12 and nine paragraphs are added following paragraph 15.

5. Under the heading "(e) Partial payments to producers", a paragraph is added following paragraph 15.

6. Under the heading "(f) Base-excess plan", paragraph 11 is revised and four paragraphs are added following paragraph 11.

7. Under the heading "(g) Administrative provisions", a paragraph is added following paragraph 2 and a paragraph is added following paragraph 5.

The material issues on the record relate to:

1. Merger of orders and expansion of marketing area.
2. Order provisions applicable to:
   (a) Milk to be priced and pooled.
   (b) Classification.
   (c) Class I price.
   (d) Location adjustments.
   (e) Partial payments to producers.
   (f) Base-excess plan.
   (g) Administrative provisions.

Findings and Conclusions

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Merger of orders and expansion of merged marketing area.* The marketing area of the proposed order should include all the territory in the presently designated marketing areas of the Appalachian, Chattanooga, and Knoxville orders and in the following 19 counties: Bell, Breathitt, Knott, Knox, Leslie, Letcher, Perry, and Whitley in Kentucky; Carter, Claiborne, Hancock, Hawkins, Johnson, and Unicoi in Tennessee; and Buchanan, Dickenson, Lee, Russell, and Scott in Virginia.

The handling of milk in the proposed marketing area is in the current of interstate commerce and directly burdens, obstructs, and affects interstate commerce in milk and milk products.

The marketing area specified in the proposed order, hereinafter referred to as the "Tennessee Valley marketing area", is comprised of 59 contiguous counties in Georgia, Kentucky, Tennessee, Virginia, and West Virginia.

Most plants that would be fully regulated under the proposed order have Class I sales in two or more of the states of Alabama, Georgia, Kentucky, North Carolina, Ohio, Tennessee, Virginia, and West Virginia. These plants receive milk from farms located in Georgia, Kentucky, Tennessee, Virginia, and West Virginia. Milk not needed for fluid use is routinely moved across state lines to nonpool manufacturing plants.

Marketing conditions in the marketing area adopted herein justify the issuance of a single order to regulate the handling of milk in this territory. This single order is the most appropriate means of effectuating the declared policy of the Act.

A cooperative representing a large majority of the dairy farmers supplying milk to the three markets proposed a single order. It proposed that the marketing areas of the three orders be expanded to include 33 additional counties in four states. The 33 counties are: Bell, Breathitt, Floyd, Johnson, Knott, Knox, Leslie, Letcher, Magoffin, Martin, McCreary, Perry, Pike, and Whitley in Kentucky; Carter, Claiborne, Hancock, Hawkins, Johnson, and Unicoi in Tennessee; Bland, Buchanan, Dickenson, Lee, Russell, Scott, Smyth, and Wythe in Virginia; and Logan, Mingo, Monroe, Summers, and Wyoming in West Virginia. At the hearing, proponent asked that Johnson, Magoffin, Martin, and McCreary counties in Kentucky not be considered for inclusion in the merged marketing area. No testimony was presented and no action is taken with respect to these counties. The cooperative contended that the remaining 29 counties are an integral part of the sales area of handlers now regulated by the three orders, and accordingly they should be included in the defined marketing area.

Handlers proposed and supported a combination of the Chattanooga and Knoxville orders. In support of their proposal the handler spokesmen pointed out the interrelationship of distribution routes of handlers in these two markets. They emphasized that the largest handler under the Chattanooga order is also, in fact, the handler with the largest distribution under the Knoxville order. In their view, the two markets were indistinguishable as separate markets.

At the same time, these handlers opposed the inclusion of the Appalachian order market or any presently unregulated territory in the merger. They contended that there was not a substantial interrelationship between the Appalachian market and the Knoxville and Chattanooga markets. They offered no substantive evidence in support of their position that regulation should not be extended to include any presently unregulated territory. Notwithstanding, their concern over the potential impact of a new plant operation of Flav-O-Rich, Inc. (a wholly-owned subsidiary of Dairymen, Inc.), at London, Kentucky, which is scheduled to be operational in 1976 was clearly evident. This plant by location clearly will be a competitive factor not only in the area covered by the existing orders but also in parts of the additional territory being added where regulated handlers have substantial business.

In their exceptions handlers reiterated their opposition to including the Appalachian order market in the merger. They claimed that the counties of origin of producer milk and the intermarket movements of Class I products establishes a definite line of demarcation between the Appalachian order area and the Knoxville-Chattanooga order area. This handler claim is not supported by the record evidence of the hearing.

When the three orders were promulgated, they regulated the handling of milk in areas that were clearly distinguishable as separate markets for particular handlers and producer groups. Changes in market structures since that time have caused these separately identified areas to become substantially interrelated in both the distribution and procurement of milk. Moreover, it is

reasonable to expect that this interrelationship will become more and more involved in the period ahead.

From a distribution standpoint, the separate marketing area boundaries initially reflected the limits of competition among handlers in the respective areas and there was a minimum of intermarket competition. Since the respective orders were promulgated, however, there has been extensive consolidation of distribution operations. The number of regulated handlers has declined significantly. In 1956, when the most recently promulgated order (Chattanooga) became effective, 42 handlers regulated under the three orders received milk from producers.[1] In May 1975, only 13 distributing plants were fully regulated under the three orders.

The consolidation of distribution facilities has resulted in the growth of intermarket distribution. The largest distributor of fluid milk products in both the Knoxville and Chattanooga markets is regulated under the Chattanooga order. Four handlers regulated under the Appalachian order have distribution in the Knoxville marketing area. One of these handlers has sales in all three markets. Of the three handlers regulated under the Knoxville order, two have sales in the Chattanooga marketing area, one of whom also distributes milk in the Appalachian marketing area.

Some handlers operate regulated plants in more than one of the markets. Pet, Inc., operates two distributing plants regulated under the Appalachian order and one under the Knoxville order. Flav-O-Rich, Inc., operates two distributing plants regulated under the Appalachian order and one each under the Knoxville and Chattanooga orders.

Flav-O-Rich, Inc., is a wholly-owned subsidiary of the proponent cooperative, Dairymen, Inc. (DI), a regional cooperative whose member producers supply more than 85 percent of the milk pooled under the three respective orders. As previously indicated, Flav-O-Rich, Inc., is in the process of constructing a large milk bottling plant at London, Kentucky. It is likely that when the plant becomes operational, Flav-O-Rich will close at least two of its other distributing plants in this area, thereby furthering the trend toward plant consolidation. Although no sales pattern can now be established for such plant, it clearly will have a significant impact on milk marketing throughout the general area now regulated by the three separate orders.

A plant of the size projected for the London plant potentially would be a serious disruptive factor if the separate orders were retained. The anticipated plant closings and consolidation of distribution routes in this plant could have a very profound impact on independent producer returns in the respective markets. In fact, it is possible that because of its anticipated wide area of distribution, the plant would not meet the in-area distribution requirement prerequisite to pooling under any of the respective orders.

The changing sales areas of regulated handlers under the three orders are reflected in their route disposition inside and outside the marketing areas of their respective orders. By 1974, route disposition outside their defined marketing area by handlers regulated under the Appalachian, Chattanooga, and Knoxville orders were 61 percent, 32 percent, and 13 percent, respectively, of their total route disposition.

Although 1974 route disposition within the Appalachian marketing area was only 39 percent of the total route disposition from Appalachian order pool plants, it was 84 percent of the total route disposition in the Appalachian marketing area by all plants.

Chattanooga order pool plants, 68 percent of whose 1974 route disposition was in the Chattanooga marketing area, had 88 percent of the total route disposition sales in the Chattanooga marketing area.

In the Knoxville marketing area, where Knoxville order pool plants had 87 percent of their total 1974 route disposition, only 49 percent of the total route disposition in the Knoxville marketing area was from such plants.

Better highways, improved transportation and refrigeration facilities have made it feasible to move packaged milk over long distances. For example, the predecessor company of a handler regulated under the Appalachian order previously operated a number of smaller plants at various locations in the marketing area. To achieve greater efficiency, the capacity of those plants was consolidated into a single large facility in Bristol, Virginia. Currently, milk processed and bottled in this plant is regularly transported by truck to distribution points as much as 240 miles from the plant.

Handlers who would be regulated by the proposed order are the principal distributors in the 19 additional counties being added to the combined marketing area. These 19 counties are an integral part of the sales area of such handlers.

In 8 of the 19 counties (Leslie, Knott, and Breathitt in Kentucky; Claiborne, Hancock, and Hawkins in Tennessee; and Dickenson and Lee in Virginia) all Class I sales are from plants that would be fully regulated under the merged order.

In 6 of the 19 counties (Bell, Letcher, Knox, Perry, and Whitley in Kentucky; and Buchanan in Virginia) some Class I distribution is made by fully regulated handlers under other Federal orders. However, handlers who would be fully regulated by the merged order have by a wide margin a majority of the total Class I sales in the 6 counties.

In 5 of the 19 counties (Russell and Scott in Virginia; and Johnson, Carter, and Unicoi in Tennessee) some Class I sales are made by handlers who are not fully regulated by any Federal order. However, the limited quantities of milk distributed from such plants in the 5 counties are insubstantial both as a percentage of the total sales in the 5 counties and in terms of the unregulated plants' total sales.

Federally regulated plants must pay the minimum order Class I price on all Class I sales, both within and outside the defined marketing area. Nonfederally regulated plants are not subject to such pricing regulation. Such plants can dispose of milk in unregulated areas that would otherwise be surplus to their operations and use the pricing advantage to take sales away from regulated plants.

If the 19 counties were not included in the marketing area, the federally regulated plants that distribute fluid milk products in these counties would be vulnerable to sales competition from nonfederally regulated plants. Including these counties in the marketing area will contribute to orderly marketing by insuring that any competitive advantage an unregulated plant may have on its sales in the 19 counties would be minimized by the terms of the order applicable to such sales.

When the individual orders were promulgated, many of the producers in the market were members of relatively small cooperatives that confined marketing activities to the local marketing area. The majority of the producers now supplying the separately regulated areas are no longer associated with local market organizations. As previously indicated, more than 85 percent of the producers suplying milk to the three markets are members of DI.

Within a single month, the cooperative may move milk of individual members as producer milk to several plants, each of which is regulated under a different order. This flexibility in directing its members' milk enables it to efficiently carry out its varied arrangements for supplying milk to handlers and disposing of surplus milk. In December 1974, for example, 172 member producers of Tennessee Valley Division of DI each delivered milk to two or more markets. These movements of milk indicate that producers, rather than being associated with the three existing separate markets, are in fact associated with a combined large single market.

Returns from all member milk sold in these markets are collected by the cooperative and reblended to its members. The price each member receives for his milk may or may not be related to the order uniform price announced for the market or markets to which his milk was delivered.

Proponent cooperative operates two plants (other than the distributing plants operated by Flav-O-Rich, Inc., referred to previously) that are used either to supply milk to pool handlers or to assemble milk for shipment off the market when not needed by other pool handlers. The plants, neither of which has manufacturing capabilities, are in London, Kentucky, and Bristol, Virginia, respectively.

Another of the cooperative's plants, in Chattanooga, has receiving, cooling, and storage facilities as well as facilities

[1] Official notice is taken of Federal Milk Order Market Statistics, 1947–56, Statistical Bulletin, No. 248, Issued May 1959 by the Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C.

V41158 AUG 13 76 UMI

for manufacturing butter and powder. This plant, which was pooled under the Chattanooga order prior to August 1974, is now pooled under the Georgia order. It continues to be, however, a major outlet for reserve milk supplies associated with the Appalachian, Knoxville, and Chattanooga markets.

In handling the reserve supplies of these markets, the cooperative may pool milk from dairy farmers received at its plants as producer milk under the order regulating the plant or as a diversion from an other order plant. In the first instance, the regular producers on the market that pooled the reserve milk are forced to carry the burden of the lower-priced utilization for another market's surplus milk. Their uniform price thus is lower than if the reserve milk had been pooled on the market with which it is regularly associated. Under these conditions, a potential exists for development of serious inequities between the cooperative's members and other producers.

Prices received by the cooperative's member producers are not necessarily affected if the cooperative reblends its proceeds from the different markets. However, returns to producers who are not members of the cooperative can be adversely affected by the cooperative's method of pooling the milk received at its plants. Because the proponent cooperative represents the preponderance of producers on the three markets here being considered, it has had the ability to adjust returns to producers among these markets through the manner in which it adjusts its milk movements. It is reasonable to assume that it has followed a practice of adjusting receipts among the markets to maximize the cooperative's share of returns from Class I sales. Merger of the three orders considered here will minimize the potentially disruptive effect that a cooperative's marketing practices otherwise could have in the market.

Of the 40 counties in the present Appalachian, Chattanooga, and Knoxville marketing areas, 27 are in Tennessee, seven in Georgia, three in Virginia, two in West Virginia, and one in Kentucky. Total population of the three areas is 1.83 million (1970 census). The 59-county marketing area proposed for adoption herein is a contiguous area with a total population of 2.25 million. It comprises the basic sales territory within which handlers who would be regulated by the merged order are the principal distributors of milk. No new plants would be brought under regulation through the area expansion proposed herein.

Bristol and Norton, Virginia, are geographically within the respective perimeters of Washington and Wise counties, which are in the marketing area. The cities are, however, independent political units that are not a part of the county government. In view of their independent status, they are listed separately in the attached order as a part of the marketing area.

The order should provide that all territory within the boundaries of the specified counties, including all waterfront facilities connected therewith and all territory occupied by government (municipal, State, or Federal) reservations, installations, institutions, or other similar establisments, if any part thereof is within these counties, should be a part of the Tennessee Valley marketing area. Such provision will clarify any questions that may arise concerning whether a particular territory is included in the defined marketing area.

The West Virginia counties of Logan, Mingo, Wyoming, Monroe, and Summers and the Kentucky counties of Floyd and Pike are not included in the marketing area of the Tennessee Valley order. Of the 7 counties, 5 (Logan, Mingo, Wyoming, Floyd, and Pike) are in the marketing area of the Ohio Valley order. Monroe and Summers are not in the marketing area of any Federal order.

Dairymen, Inc., proposed inclusion of the 7 counties in the merged marketing area. Adoption of its proposal, however, would bring under regulation of the merged order a plant now fully regulated under the Ohio Valley order. While that plant (in Bluefield, Virginia) is within the present Appalachian marketing area and has Class I distribution in the Appalachian marketing area, the major part of its Class I distribution is in the Ohio Valley marketing area. The addition of the 7 counties to the marketing area was requested to insure that the majority of the Bluefield plant's sales were made in the marketing area of the merged order and thus that the plant would become a pool plant under the merged order rather than the Ohio Valley order.

Shifting the 5 counties from the Ohio Valley marketing area was opposed by handlers and by a federation of cooperatives supplying Ohio Valley handlers. they claimed that these counties are an integral part of the sales area of Ohio Valley order handlers and that no charge in marketing conditions had occurred to justify adding these counties to the proposed Tennessee Valley marketing area.

Handlers regulated under the Ohio Valley order are the principal distributors in the 7 counties. Their distribution within each of these counties substantially exceeds that of handlers who would be regulated by the merged order.

DI excepted to the recommended decision's failure to include the Kentucky counties of Pike and Floyd and the West Virginia counties of Mingo and Wyoming in the marketing area. DI claimed that including these counties in the marketing area is necessary to have the Bluefield plant pooled under the merged order rather than the Ohio Valley order. According to DI, the Bluefield plant should be regulated under the merged order because it receives milk from the same supply area as plants that would be pooled under the merged order, is located in the marketing area of the proposed order, and was a regulated plant for 18 consecutive years under the former Bluefield or current Appalachian order.

As provided in the existing orders, and adopted in this decision, a plant's Class I distribution in the marketing area is a primary consideration in determining whether the plant will be pooled under the order. The fact that the Bluefield plant is within the marketing area of the merged order is not, in this instance, relevant in determining its qualification as a pool plant under the order.

The location of the farms from which a plant obtains its supply is not a basis for determining under which order, if any, a plant will be regulated. Handlers under this and other orders are free to obtain their supplies from farms wherever located. Even though the Bluefield plant and other plants that will be regulated by the Tennessee Valley order obtain milk from farms in the same area, other considerations also necessarily enter into any decision as to where the Bluefield plant should be regulated.

When a plant qualifies for pooling under two orders in the same month, the orders' provisions commonly provide for pooling such plant under the order regulating the marketing area in which it has the greater Class I sales. The fact that the Bluefield plant had been regulated for 18 consecutive years under the Bluefield and Appalachian orders cannot in itself be a compelling reason to preclude its being pooled under another order in the marketing area of which it now has more Class I sales.

In view of the above and for reasons previously stated, the Kentucky counties of Pike and Floyd and the West Virginia counties of Mingo and Wyoming should not be included in the marketing area of the proposed order. Accordingly, the DI request for including these counties in the marketing area is denied.

Adding Monroe and Summers counties to the marketing area would regulate a plant at Ronceverte, West Virginia, which is not now regulated by any Federal order. This plant's Class I disposition is limited to 4 West Virginia counties, none of which is in the marketing area of a Federal order. This plant does not compete with regulated handlers for milk supplies and it has negligible, if any, competition for sales with handlers who would be regulated by the merged order. No purpose would be served by including Monroe and Summers counties in the marketing area.

The Virginia counties of Bland, Smyth, and Wythe also should not be included in the Tennessee Valley marketing area. Less than half the Class I distribution in these counties is from plants that would be regulated under the merged order. Distribution in the three counties is predominantly from plants (both other Federal order plants and unregulated plants) whose principal sales territories are in other areas and not in competition with handlers who would be regulated under this order. Regulation of these counties is not necessary to maintain orderly marketing conditions under the merged order.

DI excepted to the recommended decision's failure to include Bland and Smyth counties in the marketing area. Its exception cited the testimony of certain witnesses to refute the recommended decision's finding that "Less than half the Class I distribution in these counties is from plants that would be regulated under the merged order". "These counties" refers to Bland, Smyth and Wythe counties.

The testimony of different witnesses regarding the proportion of each handler's sales in Smyth and Bland counties varied considerably. Although some testimony indicated otherwise, the testimony of a major handler under the order showed that significantly less than half the sales in Bland and Smyth counties were from Federal order plants.

Of the eight plants from which Class I sales are made in Smyth county, two are regulated under the Appalachian order, two under the Ohio Valley order, one under the Knoxville order and three are unregulated. Only two handlers, an Appalachian order handler and an unregulated handler, have Class I distribution in sparsely populated (5,400 population) Bland county.

The three unregulated handlers with distribution in Smyth county (one of whom also has distribution in Bland county) are the same three handlers who distribute in Wythe county (which lies between Smyth and Bland counties). The principal sales of these unregulated handlers are in unregulated territory east of the marketing area where these handlers' plants are located. Even though the Class I sales by unregulated handlers in Smyth and Bland counties are a relatively large proportion of the total Class I sales in these counties, they are relatively insignificant as a percentage of these plants' total Class I sales.

It must be concluded that the principal distribution in Smyth and Bland counties are from the plants of handlers who would not be regulated under the Tennessee Valley order and whose Class I distribution is predominantly outside the marketing area. Accordingly, the DI request to include Smyth and Bland counties in the marketing area is denied.

The Virginia State Milk Commission opposed the inclusion of the five southwestern Virginia counties of Buchanan, Dickenson, Lee, Russell, and Scott (here included in the marketing area), and of the counties of Bland, Smyth, and Wythe, which are not here included.

The Commission's concern was that its regulatory program could be adversely affected if the proposal were adopted. The Commission expressed apprehension that if the eight counties were added to the Federal order marketing area, some plants now regulated only by the Commission would become regulated under the merged order.

Plants regulated solely by the Commission do not distribute milk in the five Virginia counties of Buchanan, Dickenson, Lee, Russell, or Scott, which are included in the marketing area. Consequently, this decision will in no way affect the Virginia State Milk Commission's regulatory program.

The Virginia Milk Commission exception to the recommended decision asserted that inclusion of the five previously enumerated Virginia counties in the marketing area "* * * is not in accordance with the law and the evidence in the case as summarized in its Brief of September 8, 1975, filed in this action and [the Commission] preserves its right to object to the inclusion of the Virginia counties within the defined marketing area of this or any other Federal order in this case or any case that may hereafter arise". Other than its assertion, the Commission's exception contained no statement attempting to disestablish the recommended decision's justification for including the five counties in the marketing area. Accordingly, the Commission's request not to include the five counties in the marketing area is denied for reasons previously stated.

Although some of the route disposition of regulated handlers extends beyond the boundaries of the merged marketing area, it is neither practical nor reasonable to extend the regulated area to cover all areas where a handler has or might develop some route disposition. Nor is it necessary to do so to accomplish effective regulation under the order. The marketing area herein proposed is a practical one in that it encompasses the great bulk of the fluid milk sales areas of regulated handlers.

The cooperative proposing the merger urged that the merged order continue the provisions of the Chattanooga order except for certain modifications. Proponents of other proposals expressed the same view with regard to any order or orders issued as a result of this proceeding.

The provisions of the Appalachian, Knoxville, and Chattanooga orders are essentially similar and, in large part, identical. Because the Chattanooga order, as amended August 1, 1974, was most recently reviewed in its entirety, its format is retained in the merged order.

On the basis of hearing evidence, it is concluded that the order provisions, which are substantially identical in the three orders and for which no proposed changes were offered, are equally suitable for the combined order covering the merged and expanded marketing area. They are adopted for the identical reasons advanced in the decisions adopting such provisions in the respective orders.

The order adopted herein continues the use of the part number for the present Appalachian order, Part 1011. The amended Part 1011, upon issuance, would supersede Parts 1090 and 1101.

Although the present three orders would no longer exist upon the effectuation of the Tennessee Valley order, this merger action is not intended to preclude the completion of those procedures that would otherwise have existed under the separate orders pertaining to milk handled prior to the effective date of the merger. Such procedures, which would need to be carried out after the merger date, include the announcement of certain class prices and butterfat differentials, submission of reports, computation of uniform prices, payment of obligations, and verification activities. The provisions of the merged order would apply only to that milk handled on and after the effective date of the merger.

2. (a) *Milk to be priced and pooled.* It is necessary to designate clearly what milk and which persons would be subject to the merged order. This is accomplished by providing definitions to describe the persons, plants and milk to which the applicable provisions of the order relate.

The following definitions included in the proposed order will serve to identify the specific types of milk and milk products to be subject to regulation and the persons and facilities involved with the handling of such milk and milk products. Definitions relating to handling and facilities are "route disposition," "plant," "pool plant" and "nonpool plant." Definitions of persons include "producer," "handler," "producer-handler" and "cooperative association." Definitions relating to milk and milk products include "producer milk," "fluid milk product," "fluid cream product," "filled milk" and "other source milk." A number of these definitions were of particular issue at the hearing and are discussed below.

Plant. A "plant" definition should be provided to identify the type of milk handling facilities to which the order provisions would apply. A plant would be the land, buildings, facilities, and equipment constituting a single operating unit at which milk or milk products are received, processed or packaged. Separate facilities without stationary storage tanks which are used only as a reload point for transferring bulk milk from one tank truck to another would not be a plant. Similarly, separate facilities used as intermediary distribution points in the disposition of packaged fluid milk products would not be plants.

A "plant" definition is contained in the present Appalachian order and was proposed for inclusion in the proposed merged order.

Since the provisions adopted herein price producer milk at the plant where physically received, guidelines must be provided for determining whether certain milk handling facilities should be considered a plant. It is not intended that a facility used only for reloading milk from one tank truck to another be the pricing point for milk so handled. Neither is it intended that an intermediate storage facility or a distribution point utilized in the marketing of packaged fluid milk products be considered a plant. Such facilities must, of course, be distinguishable from facilities at which milk handled is to be priced.

It is not usual for reload points to have stationary storage tanks for holding milk one or two days. Rather, milk that is moved by tank truck from producers' farms to a reload point is transferred directly to large over-the-road

V41I158 AUG 13 76 UMI

tankers for movement to processing plants. Accordingly, the absence of stationary storage tanks (which are used to implement the movement of milk to the market) is a reasonable means of distinguishing a reload facility from a plant.

Pool plant. Essential to the operation of a marketwide pool is the establishment of minimum performance requirements to distinguish between those plants substantially engaged in serving the fluid needs of the regulated market and those plants that do not serve the market in a way or to a degree that warrants their sharing (by being included in the pool) in the Class I utilization of the market. The pooling standards for distributing plants, supply plants, and cooperative balancing plants that are contained in the attached order would carry out this concept under present marketing conditions.

The "pool plant" definition adopted herein sets forth all of the requirements that a plant must meet in order to be defined as a pool plant. Definitions of a "distributing plant" and a "supply plant," were not proposed by the merger proponent and are not provided in the attached order. Reference is made in this decision to such types of plants, nevertheless, since the adopted pooling standards relate to plants performing different types of functions in the market.

A requirement common to all types of pool plants is that the plants be approved by a duly constituted regulatory agency for the handling of milk for fluid consumption. The term "regulatory agency," rather than the term "health authority," which has been commonly used in the present orders for some time, is a more appropriate term at the present time. The agency responsible for approving a plant for the handling of milk for fluid consumption may not always be designated as a health authority. In some states, for example, this function is the responsibility of the State Department of Agriculture.

To qualify as a pool plant, a distributing plant must meet performance standards as to the proportion of its total supply disposed of as Class I milk, including its route disposition in the marketing area. Thus, pool distributing plants would include only those plants significantly engaged in the distribution of fluid milk products. The plant's total Class I utilization must be at least 50 percent of its receipts of fluid milk products from all sources that are approved by a duly constituted regulatory agency for fluid consumption and that are physically received at such plant or diverted therefrom as producer milk to a nonpool plant. Such plant's route disposition in the marketing area must be at least 10 percent of its receipts of fluid milk products, including milk diverted to other plants. As under the present orders, Class I disposition of a plant would be exclusive of any disposition of filled milk.

The pooling requirement that a distributing plant's total Class I utilization be at least 50 percent of its total receipts (in addition to meeting the in-area route disposition requirement), as adopted in this decision, differs from the comparable provision in the Appalachian, Chattanooga, and Knoxville orders. These orders specify that a plant's total route disposition must be at least 50 percent of its total receipts.

It is conceivable that a high Class I utilization plant primarily associated with the Tennessee Valley market might not qualify as a pool plant if it were required to have at least 50 percent of its total receipts as route disposition. This would be true of a plant from which substantial quantities of Class I milk, in addition to its route disposition, were sold to other handlers in this and other markets. Unless such a plant were qualified as a pool plant, the benefit of the bulk of the plant's Class I sales would be lost to the pool and would be reflected in reduced returns to producers sharing in the proceeds of the marketwide pool.

As indicated elsewhere in this decision, when the plant under construction at London, Kentucky, becomes operational it will result in further plant consolidation in the market. It is not known whether this plant, which is wholly owned by Dairymen, Inc., will take over the function of supplying bulk fluid milk products for Class I uses to other plants, which function is now handled by other DI plants. If it does and Class I sales to other plants are not counted in determination of whether the plant meets requirements for pooling, the plant might not qualify as a pool plant. This would occur even though the plant met the pooling requirement with regard to route disposition in the Tennessee Valley marketing area and such route disposition was greater than in the marketing area of any other order under which the plant might qualify as a pool plant in the same month.

In conjunction with the minimum in-area sales requirement herein provided, the provision that a distributing plant's total Class I disposition be at least 50 percent of its receipts is an appropriate factor under conditions in this market. Adoption of this requirement will not change the status of any plant presently doing business under the Appalachian, Knoxville, or Chattanooga orders. It will, however, contribute to future orderly marketing by insuring that any substantial Class I operation primarily associated with the Tennessee Valley market will be fully regulated in the same manner as its principal competitors for Class I sales in the marketing area.

A total of 13 distributing plants are now fully regulated under the three orders. Four are operated by the proponent cooperative. Three proprietary handlers, who operate five fully regulated distributing plants, proposed that the in-area route disposition pooling requirement be 10 percent of a plant's total route disposition. They claimed that a 15 percent rate (which was proposed by the cooperative) would be inappropriate under conditions in the proposed marketing area, in which substantial quantities of milk are distributed from partially regulated distributing plants with Class I sales in several other Federal order marketing areas. Handlers contended that if an in-area route disposition requirement of more than 10 percent was adopted, these presently partially regulated distributing plants could continue to avoid full regulation under a Federal order when it was competitively advantageous to do so, even though they might increase their in-area sales and had a substantial part of their total sales in several Federal order marketing areas.

At the hearing and in its exceptions the cooperative claimed that the 10 percent in-area sales requirement now provided in the Appalachian order recognizes that a substantial part of the route disposition from Appalachian order pool distributing plants is outside the marketing area. Since the marketing area for the proposed order more fully includes the sales area of Appalachian order handlers, the cooperative contended that its proposed 15 percent in-area sales requirement would equate to the 10 percent requirement now applicable to the present smaller Appalachian marketing area.

Operators of two partially regulated distributing plants supported the 15 percent in-area route disposition requirement that the cooperative proposed. They contended that the 10 percent in-area sales factor proposed by fully regulated handlers would unnecessarily limit their sales in the marketing area. In their view, the obligation under the order applicable to partially regulated distributing plants provides an adequate safeguard against their realizing any advantage over fully regulated handlers. They argued further that the 10 percent in-area requirement would be inequitable since the adjacent Georgia order, in which some of the same unregulated plants have route disposition, had a 15 percent in-area route disposition requirement.

A requirement that at least 10 percent of the route disposition from a plant be in the marketing area is now provided in the Appalachian order. The comparable Chattanooga order in-area route disposition requirement is 15 percent. Unlike the Appalachian and Chattanooga orders, the Knoxville order in-area route disposition requirement of 15 percent is based on a plant's total receipts of fluid milk products instead of on total route disposition.

Some handlers excepted to computing a plant's in-area route disposition percentage requirement for pooling on the basis of its total receipts of fluid milk products rather than on total route disposition from the plant. The requirement that a plant's in-area route disposition for pooling be based on a percentage of the plant's total receipts, as provided in the Knoxville order, is predominantly the basis included as an in-area sales pooling standard in Federal orders. It is a more meaningful pooling requirement than an in-area route disposition percentage based on a plant's total route disposition. For example, under a 10 percent in-area route disposition requirement based on a percentage of a plant's total route disposition, a plant with a very high Class I utilization

would not be pooled unless essentially 10 percent of its total receipts were disposed of as route disposition in the marketing area. However, a plant with only 50 percent total route disposition would qualify as a pool plant with but 5 percent of its total receipts disposed of in the marketing area. Under such circumstance, a plant with a relatively low in-area route disposition could substantially exploit the pool as a "pool rider".

The purpose of the pooling standard is to delineate the degree of association with the regulated market that requires full regulation. Clearly, any plant that disposes of at least 50 percent of its receipts as Class I milk and 10 percent of such receipts as route disposition in the marketing area is associated with the local market to a degree that requires full regulation to implement the intent and purpose of the Act. Relating marketing area performance to total milk receipts rather than total route sales will insure a more uniform application of regulation.

DI and a handler, who operates a plant in northern Georgia that is fully regulated under the adjacent Georgia order and a plant in Gadsden, Alabama, that is a partially regulated plant under the Chattanooga and Georgia orders, excepted to the 10-percent in-area route disposition percentage requirement for pooling. The handler reiterated the position he took at the hearing in urging that a 15 percent in-area route disposition requirement be adopted. Unless this change was made, he stated, his Gadsden plant would become a fully regulated plant under the merged order. DI claimed that unless a 15 percent in-area route disposition requirement for pooling is adopted, a plant at Asheville, North Carolina, which is a partially regulated plant under the Appalachian order, would become a fully regulated plant. Based on the record testimony at the hearing it does not appear that the Asheville and Gadsden plants, or any of the other three partially regulated plants now operating in the Tennessee Valley marketing area, will qualify for pooling under the merged order on the basis of their existing distribution. However, some of these plants now have significant distribution in the area of proposed regulation and adoption of a 15 percent in-area sales requirement would enable the operators of such partially regulated distributing plants to increase their Class I sales in the marketing area to a degree that would pose a serious threat to continuing market stability.

If a plant's route disposition in the marketing area is less than 10 percent of its total receipts, the plant would be subject to regulation on only its in-area sales. In this latter case, the plant, with its limited degree of association with the regulated market, is not a major competitive factor for fully regulated handlers whose sales are largely or entirely in the marketing area.

However, to minimize any price advantage that the plant might have on the limited in-area sales, the order would require a pool payment on such sales at the difference between the order's Class I price and uniform price values. As an alternative, the plant could either (1) pay its dairy farmers the classified use value for all receipts or (2) purchase under any Federal order sufficient Class I milk to cover the limited disposition within the marketing area. These payment provisions have been applicable under the marketwide pooling in the three existing orders for many years.

It is necessary, however, that a plant, wherever located, that disposes of 50 percent of its receipts of fluid milk products as Class I and 10 percent or more of its receipts of fluid milk products as route disposition in the marketing area be subject to full regulation on all of its Class I disposition, including that which is outside the marketing area. If only the plant's in-area sales were subject to order pricing, the operator of the plant could assign any value he might choose to his out-of-area sales. He thereby could reduce the average cost of all his Class I milk below that of fully regulated handlers having all their Class I sales within the marketing area. Unless his Class I sales both inside and outside the marketing area were fully regulated under the order, the plant operator in fact would not be subject to effective price regulation. It would not be possible in this circumstance to enforce uniform class prices with respect to those handlers who are in substantial competition with one another. The absence of effective pricing would disrupt orderly marketing conditions within the regulated marketing area and could lead to a complete breakdown of the order.

A plant that does not qualify as a pool distributing plant should be a pool plant in any month in which at least 50 percent of its receipts of milk from dairy farmers approved by a duly constituted regulatory agency for fluid consumption and cooperatives acting as bulk tank handlers is transferred in the form of fluid milk products to pool distributing plants. A plant thus shipping the major portion of its receipts from dairy farmers to pool distributing plants has established its association with the fluid milk market to a degree which justifies its dairy farmer patrons sharing equitably in the higher proceeds of the market's Class I sales.

Because plants which might supply milk to pool distributing plants on a regular basis may be manufacturing plants, it is appropriate that the performance requirements of supply plants be related to receipts of milk direct from dairy farms (including milk received from a cooperative association in its capacity as a handler on bulk tank milk) only. In this manner such a plant is in no way limited in its ability to receive milk from other approved plants for manufacture. This is appropriate since only the milk received from dairy farms would be pooled through the plant and accordingly there is no possibility that the pooling standards would be perverted.

A supply plant that was a pool plant in each of the immediately preceding months of August through March should be a pool plant for the months of April through July, irrespective of its shipments, unless the operator of such a plant elected nonpool status for the plant or the milk received at the plant does not continue to meet the requirements of a duly constituted regulatory agency. In such event the plant appropriately should reacquire pooling status only by meeting the prescribed shipping requirements.

The automatic pooling in April-July for a plant that qualified for pooling in the preceding August-March recognizes that the demand for supply plant milk is usually less in the months of seasonally high production than in other months. Requiring no shipments from those plants with an established association with the market in the heavy production months of April-July will avoid unnecessary, as well as uneconomical, movements of milk to the market for the sole purpose of maintaining pooling qualification for the plant.

The pooling standards for supply plants adopted herein, which were supported by both producers and handlers, are those now provided in the Chattanooga order (and similar to those in the Appalachian order). They are reasonable and appropriate under current conditions in the proposed marketing area. In conjunction with other provisions in the merged order, they will implement the pooling of the milk of those dairy farmers which by performance demonstrated their right to participation in the distribution of the proceeds of the Class I sales of the market and thus will promote orderly and stable marketing conditions. It is not necessary nor appropriate to retain the slightly different and more stringent Knoxville order provisions.

At the hearing and in their exceptions, handlers proposed restricting the provision whereby automatic pooling is accorded in April-July to a supply plant that qualified as a pool plant in the preceding August-March. Under this proposal, automatic pooling would be denied such a plant in any month of April through July in which it received the milk of any dairy farmer whose entire milk production in the preceding August-March had not been received at the same plant. The stated intent of the handler proposal was to prevent the loading of the pool with milk not previously associated with the market and not reasonably needed to supply the market. No testimony was presented, however, to show that such exploitation of the pool had been, or was currently, taking place in the market.

Nevertheless, to preserve the integrity of regulation the order should provide a safeguard against the possibility of such exploitation of the pool. The handler proposal, which would limit the automatic pooling at a plant in April-July to the milk of those dairy farmers whose total production was pooled at the

V 41 158 AUG 13 76 UMI

same plant in the preceding August–March, is an unusually stringent measure and is not necessary to prevent the pooling of that milk without an established association with the market.

Under conditions in the merged order market, it is appropriate to require that milk pooled by a plant in the months when it has automatic pool status be limited to receipts from dairy farmers who had at least 60 days' production pooled under the order in the preceding August–March. Receipts at a supply plant pooled on the basis of its acquired automatic status, other than from producers, would be other source milk and would not be pooled. Milk from dairy farmers not previously associated with the market (who otherwise qualified as producers under the order) would, of course, be pooled in any month that the supply plant met the shipping requirements for pool plant status for such month.

DI urged in its exceptions that all milk received from dairy farmers in the April–July period at supply plants with automatic pooling status for such months be considered as producer milk. It claimed that excluding from the pool the receipts at such plants from dairy farmers who had less than 60 days' production pooled under the order in the preceding August–March is discriminatory, particularly since the same dairy farmer milk received at a pool distributing plant or a balancing plant in such months would be pooled.

The comparison made by the cooperative points up the need for the provision adopted herein. Distributing plants and balancing plants must qualify for pooling on the basis of each month's performance. Since the quantities of dairy farmer milk such plants may receive in each month of April–July without losing their pool plant status is limited, there is no need to limit their taking on new producers. This is quite different from the situation of a supply plant with automatic pooling in April–July. Such a plant is pooled in these flush production months solely on the basis of its performance in the preceding sesonally low production months of August–March.

The provision for pooling in April–July at a supply plant only the milk of dairy farmers who delivered at least 60 days' production to pool plants in the preceding August–March is predicated on the premise that such dairy farmers have established their role as regular suppliers of such plant. On the other hand, it may reasonably be concluded that other dairy farmers delivering to such supply plant in April–July without an established previous association with the market were in fact supplying the needs of another market in the preceding August–March. The production of such dairy farmers in April–July can reasonably be presumed to be a part of the surplus milk supply of another market and should not share in the Tennessee Valley pool at the expense of producers regularly supplying the market.

The merged order also should provide for pooling any non-distributing plant located in the marketing area and operated by a cooperative as a balancing plant for the regulated market, if during the month at least 60 percent of the producer milk of members of the cooperative is delivered from their farms to pool distributing plants or is transferred to such plants from the cooperative's balancing plant(s). Such pool status should be limited to plants approved by a duly constituted regulatory agency to handle milk for fluid consumption. The plant should not be accorded pool balancing plant status if it meets the pooling standards for a supply plant under any Federal order.

The requirements for pooling a cooperative's balancing plant adopted herein were proposed and supported by the cooperative at the hearing. They are now provided in the Chattanooga order, except that the performance requirement is 50 rather than 60 percent. Handlers opposed a 60 percent performance requirement, urging instead a 70 percent requirement.

To qualify a balancing plant for pooling under the present Appalachian order requires that at least 70 percent of the cooperative's members' producer milk be utilized in Class I at pool distributing plants. The Knoxville order has no provisions for pooling a balancing plant.

Two plants operated by the proponent cooperative have been qualifying as balancing plants under the Appalachian order. These plants, at London, Kentucky, and Bristol, Virginia, supply pool distributing plants to the extent of their requirements and nonpool plants when milk delivered to the balancing plants by the cooperative's producer members is not needed by pool handlers.

The cooperative also has a plant located in the Chattanooga marketing area, which qualified for pooling as a balancing plant under the Chattanooga order prior to August 1974. Subsequently it has been a pool plant under the Georgia order and it is likely that it will continue to be pooled under that order.

The operation of balancing plants in the Appalachian and Chattanooga markets has provided an efficient means whereby the cooperative assembled milk not needed at pool distributing plants for storage and subsequent transfer to pool plants as needed and to outside outlets or in some cases for disposition in manufactured products on the premises. This method of operation provides an efficient means whereby handlers buying milk from the cooperative may adjust their receipts from day to day to fit their bottling needs and at the same time have assurance through arrangements with the cooperative that milk will always be available for fluid use as needed.

Only a cooperative plant located in the combined and expanded marketing area should be eligible for pooling as a cooperative balancing plant. The dairy farms supplying the market are located within or close to the marketing area adopted herein. In this situation, it is only those cooperative plants located in the marketing area that can be expected to serve the market in a way and to a degree which would justify pooling other than on the basis of performance as a supply plant per se.

DI excepted to the requirement that a balancing plant be located in the marketing area. It noted that the plant it currently operates in London, Kentucky, is pooled as a balancing plant under the Appalachian order; and since London is outside the marketing area, that plant would not qualify as a pool plant under the merged order. As stated elsewhere in this decision, it is expected that the DI plant under construction at London will take the place of the present plant, will operate as a distributing plant, and qualify as a pool plant on that basis. It is contemplated that the new plant will be in operation when the order resulting from this decision becomes effective. Since the new plant will replace the present London plant and will not be operated as a balancing plant, no purpose would be served by revising the requirements for pooling that plant to facilitate its being pooled as a balancing plant.

Without the appropriate in-area requirement for a cooperative balancing plant, there would always exist the continuing threat that a multi-market cooperative could use the balancing plant provisions as a mechanism for pool loading to the detriment of nonmember producers associated with the market. Experience in other markets has clearly demonstrated that in the absence of appropriate restrictions with respect to the location of cooperative plants which may be pooled, cooperatives have been successful in acquiring pooling status for certain plants which have had little or no association with the market where pooled. To maintain the integrity of regulation, it is necessary to insure that only milk which by location or performance is reasonably a part of the market's milk supply is pooled. The provisions as here adopted implement this end.

In their exceptions handlers again urged that at least 70 percent of the cooperatives members' producer milk be used in Class I at distributing plants to qualify a balancing plant of the cooperative for pooling. Under present marketing conditions, the Class I utilization precentage of producer milk in the market has been high. It is likely that the cooperatives reasonably could meet an overall performance standard of 70 percent as urged by handlers. However, market conditions change and there still exist in the general production area considerable volumes of milk which have not converted to Grade A. As such milk is converted it reasonably can be expected to seek a share in the Class I proceeds of the market. Since such milk will be of the same quality as that milk now on the market, it must have opportunity to share equitably. To this end, a 60 percent performance requirement is appropriate. This is a more stringent requirement than the overall performance standards adopted for pool distributing and supply plants. Hence, there is no basis for concern that the cooperatives could use the balancing plant pooling requirements to pervert

the intent of the pooling standards. Since the pooling standards for the balancing plant would not be based upon minimum qualifying shipments from the plant to distributing plants, there is always the potential that such a plant could meet the shipping requirements for pooling either in this or another Federal order market. In such event, it is intended that the plant will be qualified as a pool supply plant under the appropriate order rather than as a pool balancing plant under this order.

As a further condition for pooling status, a cooperative balancing plant must be approved by a duly constituted regulatory agency to handle milk for fluid consumption. Such a provision is necessary to assure that the plant can be depended upon for supplemental milk supplies when needed by distributors. Since the merged order would not require a minimum shipment to the market from a cooperative balancing plant, it is conceivable that the plant could neglect to maintain its health approval in which case it would be inappropriate to pool the milk supply since it could not be made available to distributing plants for Class I use. Under such circumstance, there would be no justification for such milk sharing in the pool proceeds.

As a further requirement for pooling a cooperative balancing plant, the cooperative must make a request of the market administrator for pooling status. Only by this means can the cooperative's intention be known to market administrator. Under certain circumstances, a cooperative might find it feasible not to pool a plant in this market, notwithstanding the fact that the plant was eligible for pooling. As long as such plant does not meet the prescribed shipping requirements there is no necessity that it be pooled against the cooperative's wishes.

Nonpool plant. Except to provide that a plant operated by a governmental agency be designated a nonpool plant, the "nonpool plant" definition adopted in this decision is essentially that now contained in the Appalachian, Knoxville, and Chattanooga orders. A governmental agency plant should be defined as a plant operated by a governmental agency from which fluid milk products are distributed in the marketing area. Provision is not now made specifically in any of the three orders regarding their application to a plant operated by a governmental agency.

The University of Tennessee maintains a dairy herd and processing plant in Knoxville. The operator has been exempted from pooling under the present order provisions by virtue of producer-handler status. Because of the limitations being placed on a producer-handler with respect to the amount of priced milk (either pool or other order milk) which may be acquired, it is possible that the University plant may no longer be able to maintain producer-handler status. For this reason, this operation and all similar operations operated by governmental agencies should be exempt from the provisions of the order.

The operations of the University farm and the plant operated in conjunction therewith are for the purpose of carrying out in the public interest a recognized function of the State. These operations are not in the nature of the operations of proprietary handlers whose regulation is necessary to effectuate the intent of the Act.

The milk production and processing carried on at Knoxville are maintained in connection with the research and education functions of the University of Tennessee. They are used and deemed necessary in connection with the various courses given and research done under the auspices of the University.

Information concerning the extent to which other State educational institutions and mental and penal establishments within the proposed marketing area maintain herds and processing facilities to furnish milk to their residents was not presented on the record. However, it is not the normal practice of such institutions to sell milk extensively in commercial channels in competition with proprietary handlers and producers. In any event, they operate within their statutory authority and if indeed they should at any time become a competitive problem, the appropriate remedial action should be through the State Legislature rather than to require full regulation under the order.

It is likely that the University of Tennessee plant (or plants of governmental agencies similarly situated) will at times have production from its farm(s) in excess of its usual requirements. In light of the exempt status here provided, whereby producers generally do not share in the Class I utilization of such operations, it would be inappropriate to permit such institutions to share in the proceeds from the sales of pool milk. Accordingly, the order should provide that milk received at pool plants from such operations be allocated to Class III. Any such milk allocated to Class I at a pool plant would be subject to a compensatory payment at the difference between the Class I and Class III prices. This is identical to the treatment accorded producer-handlers with respect to any sale of milk to pool plants.

The University of Tennessee's milk plant (and plants of similar institutions) may at times find it necessary to purchase supplemental supplies from regulated handlers under the merged order. It may reasonably be expected that purchases in the form of fluid milk products would be made and used for Class I purposes. The order should provide, therefore, that fluid milk products transferred or diverted from pool plants to governmental agency plants be classified as Class I.

To qualify for pooling under the merged order, milk must be received either at a pool plant or by a cooperative bulk tank handler or diverted under specified conditions from a pool plant to a nonpool plant. Because a governmental agency plant would be a nonpool plant, milk received at such plant from sources other than regulated plants and producers under the merged order would not be subject to the provisions of the order. Therefore, milk from producers' farms received at a governmental agency plant could qualify as producer milk under the order only on the basis of its having been diverted from a pool plant. Otherwise, such milk would lose its producer milk status and would not be pooled or priced under the merged order.

Handler. The impact of regulation under an order is primarily on handlers. The handler definition identifies persons who will have responsiblity for filing reports and making payments for milk under the merged order.

Accordingly, the order should designate handler status for the following persons:

(1) The operator of a pool plant;

(2) A cooperative with respect to milk that is diverted for its account;

(3) A cooperative with respect to bulk tank milk picked up at the farm for delivery to a pool plant of another handler;

(4) The operator of a partially regulated distributing plant;

(5) A producer-handler; and

(6) The operator of an other order plant from which milk is disposed of in the marketing area.

Except for a cooperative as a bulk tank handler (which is provided for in the Appalachian order but not in the Knoxville and Chattanooga orders), all of the above are now defined as handlers under the three orders.

A cooperative should be a handler with respect to the milk it receives for its account from the farm of a producer for delivery to a pool plant of another handler in a tank truck owned and operated by, or under the control of, the cooperative. However, should there be a mutual arrangement between the cooperative and the plant operator whereby the latter will be the handler for such milk and will purchase it on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the cooperative need not act in a handler capacity with respect to such milk.

When the milk of any producer is commingled in a tank truck with that of other producers, the identity of the individual producer's milk is lost. The amount of the producer's milk in the truck and the butterfat content thereof can be determined only from measurement of the milk at the farm and from milk samples taken from the farm tank. After the milk has been pumped from the individual producer's farm tank into the tank truck of the hauler and commingled with the milk of other producers, there is no opportunity to measure, sample, or reject the milk of an individual producer.

Much of the milk received at plants that would be pooled under the merged order is picked up at the farm in trucks owned or operated by, or under the control of, a cooperative. In such instances only the cooperative has the opportunity to measure and sample the milk of individual producers that is received at the pool plant. In the absence of any agree-

V 41 1158
AUG 13 76
UMI

ment by the plant operator to be the handler for the milk, the cooperative necessarily must be the responsible handler for the milk as it leaves the farm.

When a cooperative is the handler for farm bulk tank milk, certain accounting and payment procedures should apply under the merged order to such milk. As provided in the attached order, the milk will be considered a receipt of producer milk by the cooperative at the location of the pool plant to which the milk is delivered. The purchase of such milk by the pool plant operator would be treated as an interhandler transfer, but would be classified pro rata with any producer milk that the plant operator may receive. The pool plant operator would be required to settle with the cooperative and the producer-settlement fund for the milk received from a bulk tank cooperative handler in the same way that he makes payment for milk received directly from producers. He would settle with the producer-settlement fund for any difference between the uniform price value and the classified price value for such milk and pay the cooperative the uniform price value for the milk.

The adopted accounting and payment procedure will facilitate administration of the order with respect to matters of financial responsibility and audit adjustments. The pool plant operator processes the milk and distributes it to consumers. It is reasonable, then, that the responsibility for accounting for the utilization of such milk and for its payment be placed directly on the plant operator. Were settlement with the pool to be made by the cooperative, i.e., should the plant operator settle with the cooperative at class prices and the cooperative settle with the producer-settlement fund, an unnecessary third party is involved in the transaction. Also, the adopted procedure will facilitate the handling of audit adjustments that might result from the verification of a plant's utilization of milk. An error in the reported classification of milk at the pool plant, for example, would not require a related adjustment in the cooperative's classification of milk and thus its obligation to the pool for such milk.

A pool plant operator receiving farm bulk tank milk from a cooperative also should be responsible for paying to the market administrator the administrative assessment on such milk. The audit and verification activities of the market administrator relate essentially to the operations of the pool plant where the milk is processed. As in the case of producer milk which he receives from the farm, the plant operator thus should pay his pro rata share of the administrative costs on milk received from the cooperative in its capacity as a bulk tank handler.

When the cooperative assumes its role as the responsible handler on farm bulk tank milk, the pool plant operator may buy such milk on the basis of weights and butterfat tests determined at the plant rather than on the basis of those determined at the farm. Usually, the quantity of milk picked up at the farm slightly exceeds the quantity ascertained as actually received at the plant. In such cases, the difference should be considered as a receipt of producer milk by the cooperative at the location of the pool plant where the milk in the tank truck was delivered. The cooperative should be obligated to settle with the producer-settlement fund and to pay the administrative assessment on the milk involved.

The pool plant operator should be permitted under the merged order to be the responsible handler on bulk tank milk moved by the cooperative from the farm to the plant if both the cooperative and the pool plant operator notify the market administrator that they have agreed to such a handler arrangement and that the plant operator agrees to purchase the milk on the basis of weights and tests determined at the farm. Under this arrangement, the pool plant operator would be responsible for the milk in the same manner as for producer milk that he receives at his plant directly from the farm.

A cooperative also should be a handler with respect to the milk of a producer which is diverted for the account of the association from a pool plant of another handler to a nonpool plant that is not a producer-handler plant. All three orders proposed to be merged provide that a cooperative may act as a handler for diverted milk. Continuation of this handling arrangement will facilitate the movement of milk not needed for fluid use to nonpool plants for manufacturing.

The merged order should afford a cooperative flexibility in the arrangements under which it sells milk to pool plants or disposes of reserve supplies. If it so chooses, a cooperative should be able to pick up the milk of nonmember producers along with the milk of its members for delivery to a pool plant or for diversion to nonpool plants. This procedure will enable the cooperative to act as the marketing agent for a nonmember producer who, although he has not become a member of the cooperative, has contracted with the cooperative to act as the marketing agent for his milk. Nothing in the order would require a cooperative to pick up the milk of nonmember producers. It would provide, however, that when a cooperative does pick up the milk of nonmember producers on trucks under its control it must assume varying degrees of responsibility with respect to such milk, depending on the handling arrangements made.

DI excepted to the wording of the provision whereby a cooperative as the operator of a bulk tank pickup route would be the handler for the milk picked up at the farm of a nonmember producer. The cooperative's exception proposed that a cooperative not be the handler for such nonmember milk unless the market administrator had determined that such nonmember had authorized the cooperative to collect for his milk.

Any contractual arrangement entered into between a nonmember producer and a cooperative as a bulk tank handler picking up milk at such producer's farm is not a matter to require any prior overt action by the market administrator. Involving him in such an arrangement, entered into voluntarily by the cooperative and the nonmember, is unnecessary and would serve no useful purpose.

The Capper-Volstead Act provides the criteria by which cooperative associations are determined to be qualified cooperatives under the Agricultural Marketing Agreement Act. With the adopted handler definition, the merged order would be consistent with that provision of the Capper-Volstead Act which recognizes that cooperatives may "deal in the products of nonmembers" and which limits such dealings to amounts not greater in value than as are "handled by it for members."

If the nonmember producer has contracted with a cooperative to market his milk and collect payment therefor, the cooperative may pay the nonmember in accordance with the contract. If such marketing functions occur in the absence of a contract, the cooperative would be required to pay the nonmember producer not less than the prices prescribed by the order.

Producer-handler. As under the three present orders, the merged order should provide for the exemption of a "producer-handler" from the pooling and pricing provisions of the order.

Experience under the orders has demonstrated that effective regulation can be achieved without the full regulation of those persons who produce, process, and distribute essentially only the milk produced on their own farms and who buy no milk from other dairy farmers or plants other than pool plants and other order plants. Such operations are basically self-sufficient in that they rely primarily on their own farm production and assume the burden of maintaining the necessary reserve supply of milk associated with their fluid-milk operations in disposing of any daily or seasonal surplus they may produce.

As adopted herein, a producer-handler is any person who operates a dairy farm and a processing plant and who receives no fluid milk products from sources other than his own farm production, pool plants, and other order plants. Any such receipts from pool plants and other order plants during the month may not exceed a daily average of 1,500 pounds. A producer-handler may not dispose of any other source milk in the form of a fluid milk product except through the addition of nonfat milk solids to fortify fluid milk products received from his own farm or from pool plants.

To qualify as a producer-handler, such person must provide proof satisfactory to the market administrator that the care and management of the dairy farm and other resources necessary for his own farm production of milk and the management and operation of the processing plant are the personal enterprise and risk of such person.

As long as he retains his exempt status, the only obligation imposed on a producer-handler by the order is to keep records, to file reports with the market administrator and to permit their verification. The purpose of such reports is to permit the market administrator to verify that the operation continues to be one of a bona fide producer-handler. Such reports are necessary regardless of the size of the producer-handler operation.

Under the merged order a producer-handler must provide milk for his processing operation essentially only from his own-farm production. The operations of processors with own-farm production who rely on other plants for substantial supplemental supplies either in bulk or packaged form are not significantly different from the operations conducted by pool handlers. In addition, such individuals do not assume the risk or cost of providing a full supply for their own needs. If such operations are not pooled, the pool does not receive the benefit of their Class I sales but acts as a supply balance by carrying their necessary reserve milk supplies.

Notwithstanding the above conclusion, it is appropriate that producer-handlers be permitted some tolerance for purchasing fluid milk products from other plants. A limitation of 1,500 pounds per day average during the month on a producer-handler's purchases from pool plants and other order plants will insure against unintentional involvement in regulation of producer-handlers as a group while at the same time deterring larger handlers with own-farm production from evading the pooling of such production by seeking producer-handler status.

Except for the limited privilege of using receipts from other order plants as described above, the provisions of the merged order preclude a producer-handler from using other source milk for Class I, except nonfat dry milk used solely to increase the nonfat milk solids content of the fluid milk products he processes. Such provisions are necessary since a producer-handler to retain his status for all practical purposes must carry on a self-contained operation. If such an individual were permitted to reconstitute or otherwise use other source milk as a source of supplemental supplies, there would be no basis for distinguishing the operations of such individuals from the operations conducted by pool handlers. Furthermore, since a producer-handler is not regulated, and therefore does not incur a pool obligation, it is not appropriate that he have access to supplemental supplies other than from fully regulated sources. In the absence of such a requirement, a producer-handler could find it advantageous to reconstitute nonfat dry milk, for example, and sell it in fluid form to consumers. With nonfat dry milk carrying only a surplus milk value, competing regulated handlers would be at a disadvantage on their Class I sales.

As indicated, a producer-handler's exemption from the pooling and pricing provisions is predicated upon the basic self-sufficiency of the total operation. Accordingly, no other person should be permitted to share the risk involved with the operation of a producer-handler's farm or his plant. All resources necessary for his own farm production of milk must be his personal risk. Similarly, all risks associated with the operation of the processing plant must be that of the producer-handler. The risk concept need not extend to the actual distribution on routes of the milk processed by the producer-handler. Experience with the producer-handler provision indicates it is unrealistic and unnecessary to require a producer-handler to have sole responsibility for his route disposition. It must be understood, however, that the restrictions applicable to a producer-handler regarding milk supplies from sources other than his own farm are equally applicable to any distribution facility (including routes) operated by him, an affiliate, or any person who controls or is controlled by him. Any receipts of milk from other than his own farm that are disposed of through such a facility or on such routes will be included as though a receipt at his plant for the purpose of determining his status as a producer-handler.

Producer. The term "producer" defines those dairy farmers who constitute the regular source of supply for the merged order market. The producer definition provided herein is basically that now contained in the three orders.

Producer status under the merged order generally should be provided for any dairy farmer who produces milk approved by a duly constituted regulatory agency for fluid consumption and whose milk is received at a pool plant directly from the farm or is received by a cooperative association as a handler on farm bulk tank milk for delivery to a pool plant. Producer status should also be accorded such a dairy farmer who has an established association with the market and whose milk is diverted to nonpool plants on occasion for surplus disposal.

A producer-handler and a governmental agency, which have exempt status under the merged order, are excepted from the producer definition. In addition, the merged order should preclude the possibility of a dairy farmer being a producer under two orders for the same milk. In this regard, the producer definition should exclude (1) a person for milk diverted to a pool plant under this order from a fully regulated plant under an other order if such person is a producer under the other order for such milk and it is allocated by agreement to Class II or Class III use under this order and (2) a person for milk diverted to an other order plant from a pool plant under this order if any portion of such person's milk is assigned to Class I milk under the other order.

Under certain conditions the producer definition would not include a dairy farmer whose milk is received at or diverted from a supply plant that has automatic pool plant status in any month of April through July. As indicated elsewhere in this decision, such a person who had less than 60 days of his production received at or diverted from pool plants in the preceding August–March period, would not qualify as a producer with respect to the milk from his farm received at or diverted from a pool supply plant with automatic pool plant status in any month of April–July.

Producer milk. The "producer milk" definition is intended to define the milk that would be priced and pooled under the merged order.

As provided herein, producer milk would include the milk received directly from a producer at a pool plant by the plant operator, received by a cooperative as a bulk tank handler, or diverted from a pool plant to a nonpool plant under specified conditions.

Diversions of producer milk from a pool plant to a nonpool plant (except a producer-handler plant) for the account of the handler operating the pool plant are recognized with specified limitations. Similar diversions could be made for the account of a cooperative from the pool plant of another handler.

Diversion provisions are desirable to facilitate the orderly and efficient disposition of the market's reserve milk supplies. It is necessary, however, to safeguard against the association with the market through the diversion process of unneeded milk supplies which are intended solely for manufacturing use. Accordingly, certain limitations should apply to diversions of producer milk to nonpool plants.

No limit should be placed on the number of days that an established producer's milk may be diverted to nonpool plants in the seasonally high production months of April through July. In August through March a producer should be required to deliver at least two days' production (one delivery for a producer on every-other-day pickup) to a pool plant during the month to qualify any remainder of his monthly production as diverted milk.

In addition to the requirement that at least two days' production of a producer be delivered to a pool plant to qualify any remainder of his milk for diversion in the months of August through March, a limitation should be placed on the total quantity of producer milk that may be diverted monthly to nonpool plants by a handler. The total quantity of milk so diverted by a cooperative should not exceed one-third of the volume of producer milk that the cooperative caused to be physically delivered to pool plants during the month. Likewise, the operator of a pool plant that is not a cooperative should be permitted to divert any milk that is not under the control of a cooperative to the extent that the total quantity of milk diverted does not exceed one-third of the producer milk physically received at such plant during the month that is eligible to be diverted by the plant operator.

Any milk diverted by a handler in excess of the quantity limitations should not be producer milk. If a diverting handler does not designate the producer deliveries to nonpool plants that are not

V 41 1158
AUG 13 76
UMI

producer milk, no milk diverted to nonpool plants by such handler during the month should be producer milk.

As provided herein, milk diverted from a pool plant is included in the plant's receipts for purposes of determining whether or not the plant meets the applicable pooling standards. It is necessary under this procedure to safeguard against a pool plant not meeting the pooling standards because too much milk was diverted from the plant by a cooperative, perhaps without timely knowledge of this by the plant operator. Accordingly, whatever quantity of milk diverted by a cooperative from a pool plant of another handler that would cause such plant to become a nonpool plant should not be considered as producer milk.

Under the present Appalachian order unlimited diversions are now allowed in March through July. In August through February not more than 15 days of a producer's milk may be diverted in any month.

The Knoxville order allows unlimited diversions in March–August. At least 4 days' production of a producer must be delivered to pool plants during the month to qualify his remaining production for diversion in any month of September–February. However, the total quantity of milk that may be diverted by a cooperative in September–February may not exceed 35 percent of the total quantity of its members' producer milk physically received at pool plants during the month. Likewise, the total quantity of milk that a proprietary handler may divert from a pool plant during any month of September–February may not exceed 35 percent of the total quantity milk of nonmember producers physically received at his plant during the month.

Under the Chattanooga order unlimited diversions are allowed in December–August. In September–November, the diversion provisions are the same as those described above for the Knoxville order for September–February.

The cooperative proposed that a producer be required to deliver to pool plants during the month 20 days' production in September–February and 10 days' production in March–August to qualify his remaining production for diversion. It also proposed that a cooperative be allowed to divert the total monthly production of individual members without limit in March–August if the cooperative's total diversions are not more than 33 percent of its total producer milk for the month. Under the cooperative's proposal this option would likewise apply to a proprietary handler with respect to his nonmember milk.

A handler proposal would allow unlimited diversions in March–July. In any month of August–February, a producer's milk could not be diverted more than 15 days.

Because of variations in market needs and in production, the milk of each producer may not be needed every day for processing as fluid milk at the plant to which it is customarily delivered. It is necessary, however, that there be a reserve of qualified milk available for the fluctuating needs of handlers serving the market. When the milk of any dairy farmer regularly supplying the market is not needed at the plant to which it is usually shipped, it can be handled most economically by diversion directly from the farm to nonpool manufacturing plants.

A requirement of substantial deliveries of milk of individual producers for establishing diversion eligibility rights would be a deterrent to efficient handling of that milk in excess of handlers' immediate fluid needs. Appropriately, however, a means must be provided for establishing that the milk of individual dairy farmers reported as diverted producer milk has a bona fide association with the market and is, in fact, qualified for fluid use. To this end, it is reasonable to require that two days' production of each producer be physically received at a pool plant in any month of August through March to qualify his remaining production in the same month for diversion as producer milk.

Limiting monthly diversions in August–March by a cooperative to not more than one-third of the producer milk it caused to be delivered to pool plants during the month (and providing similarly for a proprietary pool plant operator for all other producer milk received at his plant) will provide a reasonable safeguard against exploitation of the pool by associating with the market the production of dairy farmers whose milk is not a part of the regular market supply, and which is intended solely for manufacturing uses. The one-third limitation will be adequate to accommodate the efficient disposition of the market's reserve milk supply under existing market conditions.

In April–July, handling of the reserve supplies of the market will be most economically achieved by allowing unlimited diversions (as now provided in designated high production months under the three existing orders). April–July are the months when production for the merged order market are highest relative to Class I needs. Limiting diversions in these months could result in uneconomical shipments of milk from the farms of producers regularly supplying the market to pool plants (from which, in turn, unneeded supplies would have to be shipped to nonpool plants for manufacturing) to acquire pooling status and thus to enable the producers to share equally in the marketwide pool. The diversion provisions adopted herein for April–July will tend to avoid unnecessary interplant shipments in handling the market's reserve milk supplies.

DI excepted to the diversion provisions provided in the recommended decision and adopted herein. It urged that at least 10 days' production of a producer's monthly production be delivered to pool plants to qualify his remaining monthly production for diversion in September–February. For the March–August period, DI's exceptions proposed that at least one day's production of a producer be delivered to a pool plant to qualify his remaining monthly production for diversion. Additionally, DI's exceptions proposed that a cooperative be allowed to divert the total production of individual members without limit in March–August if the cooperative's total diversions are not more than 40 percent of its total producer milk for the month. The cooperative's proposal in this regard would likewise apply to a proprietary handler for his nonmember milk.

Limiting diversions as proposed in the cooperative's exceptions would tend to defeat the primary purpose of the diversion provisions: to facilitate the orderly and efficient disposition of the market's reserve milk supply. Instead of contributing to the efficient handling of producer milk when it is not needed for fluid use, the more restrictive limitations on diversions proposed by the cooperatives in its exceptions would impede the handling of such milk. Accordingly, and for the reasons stated above, the cooperative's proposal in this regard is denied.

All diverted milk should be deemed for pricing purposes to have been received by the diverting handler at the location of the plant to which the milk was diverted. A handler proposal would price diverted milk at the location of the plant from which diverted. Likewise, a cooperative proposal would price milk diverted to a plant within 125 miles of Bristol, Kingsport, Knoxville, or Chattanooga at the location of the plant from which diverted.

The location adjustments are provided in recognition of the greater value of producer milk f.o.b. plants in or near the marketing area as compared to its value at other locations. It is not appropriate to continue pricing milk as if delivered to the pool plant from which diverted (as now provided in the three existing orders).

When producer milk is received as diverted milk at a nonpool plant, its location value is similar to that of milk delivered by producers to a pool plant at the same distance from the market. Pricing milk at the location of the pool plant from which diverted has the effect of subsidizing, at the expense of producers generally, the more distant producers when the latter's milk is diverted to distant manufacturing plants rather than delivered to the market. This is because the distant producers would receive the f.o.b. market uniform price on milk that is not moved to the market and on which the full cost for the farm to market hauling has not been incurred.

A proposal made by handlers at the hearing and in their exceptions, which would exclude from the producer milk definition a cooperative's members' milk disposed of for Class II use under specified conditions, should not be adopted. As proposed, cooperative member milk which the cooperative directed to a Class II use would not qualify as producer milk if the operator of a pool plant regularly purchasing Class I milk from such cooperative had requested, and was unable to obtain, milk for Class II use from the cooperative.

The proponent handler receives about 65 percent of his milk supply from members of a cooperative and 35 percent from nonmember producers. To produce Class II products such handler utilizes both milk received from producers and nonfluid milk products (e.g., nonfat dry milk and condensed milk). He indicated that he preferred the producer milk for making Class II products.

The handler stated that the cooperative had shifted to another plant for Class III use producers whose milk he wanted for Class II use. He expressed the view that the cooperative should supply his Class II needs with direct-delivery milk from member producers' farms before moving milk to another plant for Class III. This same handler has followed the practice of turning back milk to the cooperative during periods of heavy production while keeping the milk of his nonmember producers for Class II uses.

The Class II price under the order is the Class III price plus 10 cents. The Class II classification, like Class III, is a residual use and returns to the producers essentially a manufacturing milk value price.

The prices established under the order are intended to insure an adequate supply of pure and wholesome milk for the fluid market only. It is not intended that milk supplies shall be generated to insure handlers also supplies for other uses. Under usual circumstances, it is reasonable to expect that the available milk supplies in the hands of the cooperative and in excess of fluid needs will be disposed of in those outlets which will return the highest value to the cooperative. There are many considerations which obviously must be evaluated by the cooperative in any determination of how its reserve milk supply will be disposed of. It would be inappropriate to condition the pooling of the market's reserve supply on its availability to proprietary handlers for other than Class I use.

A handler is not restricted with respect to his source of supplies for other than Class I. Similarly, the cooperative should not be restricted in its choice of outlets for member milk with an established association with the market which is not needed for Class I use.

Whether a dairy farmer's milk will qualify for pooling under the order is determined by the performance of the plant to which his milk is delivered in meeting the standards for qualifying as a pool plant. A plant that qualifies as a pool plant does so on the basis of having demonstrated an association with the market based on the Class I utilization of milk handled at such plant; or, in the case of a cooperative operating a balancing plant, on the basis of the total quantity of the cooperative producer-members' milk delivered to pool plants. The utilization of Class II milk at a plant in no way contributes to qualifying a plant as a pool plant. This recognizes that Class II is a residual use that returns to producers a price substantially below that at which they may be expected to produce milk for the fluid milk market.

(b) *Classification.* The uniform classification plan, which became effective August 1, 1974, in the Chattanooga order (and 38 other orders), is an appropriate basis for classifying milk under the merged order and should be adopted for the identical reasons set forth in the Secretary's decision adopting such classification plan. This plan provides for the classification of milk according to use, including rules for determining the classification of milk transferred or diverted from one plant to another. The plan also sets forth a procedure for allocating a handler's receipts of milk and milk products from various sources to his utilization in each class in order to determine the classification of producer milk.

This classification plan was proposed and supported by the cooperative and by other handlers. The cooperative's proposal, however, would have modified the shrinkage provisions by prorating shrinkage up to 2 percent of a plant's producer milk according to the utilization at the plant. Compared to the classification of shrinkage under the uniform classification plan advocated by handlers, this procedure would reduce substantially the quantity of shrinkage eligible for a Class III classification.

The testimony presented by the cooperative at the hearing provided no basis to justify adopting shrinkage classification provisions for the merged order different from those found appropriate for the Chattanooga order (and 38 other orders) by the Assistant Secretary in his February 2, 1974, decision (39 F.R. 8452), of which official notice is taken. Accordingly, the cooperative's proposal for different shrinkage classification provisions is denied.

A hearing was held June 26, 1975, in Washington, D.C., to consider adopting a revised "fluid milk product" definition in the orders (including Chattanooga) containing the uniform classification plan. The specific issue at that hearing concerned including in the fluid milk product definition the skim milk and butterfat in all flavored milk and flavored milk drinks with a nonfat milk solids content of not less than 6.5 percent by weight. A decision was issued July 11, 1975 (40 F.R. 30119), and on August 1, 1975, 37 orders (including Chattanooga) were amended to include the proposed "fluid milk product" definition. It is appropriate for the reasons stated in that decision (of which official note is taken) that the revised fluid milk product definition be included in the order adopted in this decision.

(c) *Class I price.* The Class I price per hundredweight of milk containing 3.5 percent butterfat should be the basic formula price (Minnesota-Wisconsin manufacturing milk price) for the second preceding month plus a Class I differential of $2.10. This is the identical pricing procedure employed under the respective orders. However, the present Class I differentials for the Appalachian, Knoxville, and Chattanooga orders are $2.13, $1.70, and $2.15, respectively.

The $2.10 differential adopted herein would have resulted in an average Class I price of $9.36 for 1974. The actual average Class I prices in 1974 under the Appalachian, Knoxville, and Chattanooga orders were $9.39, $8.96, and $9.41, respectively.

Of the total 1974 Class I utilization of producer milk under the three orders of 848 million pounds, the Appalachian order pooled 452 million pounds, Knoxville 127 million pounds, and Chattanooga 269 million pounds. The weighted average price obtained by applying each order's Class I prices to the pounds of producer milk utilized in Class I under such order is $9.33.

The proponent cooperative contended that a Class I differential of at least $2.15 is necessary to insure the production of adequate supplies for the market and to maintain a reasonable alignment with the Class I prices in other Federal orders. The cooperative's spokesman held that its proposed Class I price was appropriately related to the cost of obtaining milk from the Chicago milkshed, the primary source of supplemental milk supplies nationally.

A handler proposal would have provided a $1.84 Class I differential. Handlers contended that a lower Class I price than that proposed by the cooperative is justified in recognition of the fact that local handlers compete extensively for sales in certain locations with handlers regulated by adjacent Federal orders with substantially lower Class I prices. They cited particularly the lower Class I prices under the Nashville, Ohio Valley, and Louisville-Lexington-Evansville orders.

The Class I price established under an order must be at a level which, in conjunction with other class prices, results in returns to producers high enough to maintain an adequate but not excessive supply of quality milk to meet the fluid requirements, including the necessary market reserves. The Class I price also, insofar as practicable, reasonably must be appropriately aligned with the Class I prices in other competing Federal order markets. It cannot, however, in the public interest be established at a level which exceeds the cost of obtaining milk of acceptable quality and regular availability from alternative sources.

The combined Class I utilization for the three order markets averaged 83 percent of the producer milk pooled in 1974, which is a clear indication of a relatively tight market. In a number of months during the year the combined Class I utilization was more than 90 percent. This tight supply situation necessitated the importation of substantial quantities of milk, particularly during the months of seasonally low production, to meet the Class I needs of the market.

In view of the tight supply situation in this area it would be unrealistic to provide a Class I price level under the merged order below the average price that has been provided under the existing orders. The $2.10 Class I differential adopted herein approximates the

V 41 I 158 AUG 13 76 UMI

weighted average of the Class I prices now applicable under the three orders.

The Class I differential on the Chicago Regional order is $1.26. Applying a location adjustment rate of 1.5 cents per hundredweight per 10 miles, which is the relationship on which Federal order prices are generally structured, to the distance from Chicago of 558 miles (the average of the distances from Chicago to Bristol, Knoxville, and Chattanooga) would indicate the need for a differential 84 cents in excess of the Chicago differential. This would result in a Class I differential of $2.10 for the Tennessee Valley marketing area, which is the differential adopted in this decision.

The cooperative excepted to the $2.10 Class I differential adopted in the recommended decision. It held that its proposed $2.15 differential is more appropriate in view of the relatively high Class I utilization of the market. Its exceptions stated that, because the $2.10 differential is 3 cents less than the $2.13 Appalachian order differential and 5 cents less than the $2.15 differential under the Chattancoga order, it is inadequate for the merged order.

Although the Class I differential adopted herein is below that in the Appalachian and Chattanooga orders by 3 cents and 5 cents, respectively, it is 40 cents more than the Knoxville Class differential. The weighted average Class I differential obtained by applying each order's Class I differential to the pounds of producer milk utilized in Class I in 1974 under each of the respective three orders is $2.07, 3 cents less than the $2.10 Class I differential provided herein for the merged order.

The cooperatives' exceptions also stated that a Class I differential of at least $2.15 is justified to compensate for the reduction in returns to producers of 4 to 5 cents that would result by adopting for the merged order the shrinkage provisions now contained in the Chattanooga order rather than those presently included in the Appalachian and Knoxville orders. The cooperative's claim in this regard is without foundation. A realistic appraisal of incorporating the present Chattanooga (rather than Appalachian and Knoxville) order shrinkage provisions in the merged order indicates a net effect on producer returns significantly less than the 3-cent increase (from $2.07 to $2.10) in the Class I differential provided in the merged order (as compared to the weighted average Class I differential under the present three orders).

Handlers' exceptions contended that their proposed $1.84 Class I differential is core justified under conditions in the merged order market than the $2.10 differential adopted in the recommended decision. The lower differential, they argued, is necessary to achieve an appropriate relationship between the Class I prices under the Tennessee Valley order and other orders. Their exceptions suggested that the Class I prices in other orders should be revised upward to relate more appropriately to the Tennessee Valley order.

Consideration must, of course, be given to handlers' concerns with respect to interorder price relationship among competing markets. It is quite apparent that price relationships between the three markets here under consideration and the adjacent Louisville-Lexington-Evansville and Nashville orders have not been structured on the basis of the general thesis of interorder price relationships. The existing unusual price relationships are in large measure reflective of the significant differences in the supply situation and other economic considerations relating to the procurement of milk for those markets. Notwithstanding, it is apparent that with continuing technological developments the competitive situation between these markets is changing significantly.

It is not possible on the basis of this record to in any way modify the Class I price level in the neighboring markets. On the other hand, as previously indicated, it would be totally inappropriate to provide a lower Class I price level for the merged order than that here adopted. This will essentially maintain the relationships which have existed for an extended period of time.

It is essential in the interest of long run market stability that the price level in the Louisville-Lexington-Evansville and Nashville markets be revaluated. In this regard, official notice is taken of the fact that hearings to accomplish this end have already been completed.

(d) *Location adjustments.* Location adjustments must be included in the order to insure an appropriate adjustment of the Class I and uniform prices at plant locations beyond the central market. Such adjustment, insofar as practicable, should be reflective of distance from the central market and the variable costs of moving milk to provide equity of prices as between handlers and equality of returns among producers.

No location adjustment should apply at any plant (1) in the marketing area or (2) east of the Mississippi River and south of the southern boundary of Tennessee or the northern boundary of South Carolina.

At plants outside the above named areas and more than 90 miles from Bristol, Chattanooga, and Knoxville, Tennessee, the location adjustment should be 1.5 cents for each 10 miles or fraction thereof that the plant is from the nearest of such basing points. The mileage for determining the location adjustment should be measured by the shortest hard-surfaced highway distance as determined by the market administrator.

Dairymen, Inc., proposed that location adjustments apply at plant locations 60 miles or more from Bristol, Chattanooga, Kingsport, or Knoxville, Tennessee, at the rate of 12 cents plus an additional 2 cents for each 10 miles beyond 70 miles. As proposed by the cooperative, location adjustments would reduce Class I prices at such plant locations in Kentucky, Tennessee, West Virginia, and Tazewell County, Virginia; and would increase the Class I price at other plant locations in Virginia, in North Carolina, and in states south of Tennessee and North Carolina. The cooperative's spokesman held that the adoption of its proposal would provide an appropriate price of milk for all plants which are, or might become, associated with the regulated market.

A handler proposal would provide no location adjustment at plants (1) in North Carolina, Tennessee, and Virginia; (2) in states south of Tennessee and North Carolina; (3) within 100 miles of the marketing area; and (4) within 350 miles of designated basing points (Bristol, Knoxville, or Chattanooga, Tennessee, or Harlan, Kentucky). At plants located elsewhere, the Class I and uniform prices would be reduced 1.5 cents for each 10 miles beyond 350 miles from the nearest basing point. Proponent handlers contended that such a provision is necessary to provide equity among handlers.

Under the present Appalachian order, location adjustments apply at plants 50 miles or more from the nearer of Bluefield, Welch, or Princeton, West Virginia; Harlan, Kentucky; or Kingsport, Tennessee. The location adjustment reduces the price at such plants at the rate of 10 cents plus an additional 1.5 cents for each 10 miles beyond 60 miles.

The Knoxville order location adjustment reduces the price 15 cents at plants 50 miles or more from Knoxville plus an additional 1.5 cents for each 10 miles beyond 60 miles.

The Chattanooga order location adjustment (applicable only at plants north of the southern boundary of Tennessee and the northern boundary of South Carolina) reduces the price 15 cents at plants more than 65 miles from Chattanooga plus an additional 1.5 cents for each 10 miles beyond 75 miles.

Under each of the respective orders location adjustments are not applicable to plants located within the marketing area. The Class I price adopted herein is established at a level deemed appropriate to obtain adequate milk supplies at plant locations f.o.b. the marketing area. At plant locations outside the marketing area, however, the Class I and uniform prices appropriately must be adjusted to reflect the value of milk at such locations relative to its value f.o.b. the marketing area.

For this reason, the DI proposal to provide location adjustments that would result in higher Class I and blend prices at outlying plants associated with the market but located in Virginia, North Carolina, and other locations generally south of Tennessee, must be denied. To provide such adjustments could only have the effect of limiting outside handlers access to the regulated market. While competitive prices at outside locations, in some situations, may exceed the order prices here provided, it would not be appropriate to assess on outside handlers under the terms of the order a price higher than that assessed on handlers within the regulated market.

An important aspect of fixing location adjustments, particularly for an elongated marketing area such as is provided herein, is to establish basing points which will tend to promote equity of pricing among regulated handlers. In this connection, the basing points for computing location adjustments under the combined and extended order should be Bristol, Chattanooga, and Knoxville, Tennessee. Many of the regulated plants serving the market are in close proximity to these cities, which are the principal population centers in the market. No useful purpose would be served by retaining the additional basing points that have been employed under the Appalachian order or to adopt additional new basing points. The scheme of location pricing here adopted will promote appropriate price alignment as among competing handlers.

Because of the location of plants in the market, and the general overlapping of procurement and distribution areas of competing handlers, it is impractical and unnecessary to provide location adjustments at plant locations in the marketing area or within 90 miles of the three basing points (i.e., Bristol, Chattanooga or Knoxville). Equity as between handlers and among producers will be advanced by providing a single pricing at all locations within this area.

Handlers' exceptions held that no location adjustments should apply at plants located within 110 miles (rather than 90 miles as provided herein) of the nearest basing point. The stated intent of handlers' exceptions is to have no location adjustment apply at London, Kentucky, where the DI plant under construction is scheduled to be in operation before the end of 1976.

As adopted in this decision, the location adjustment applicable at London, based on a distance of between 100 to 110 miles from Knoxville, would be minus 16.5 cents. This minus location adjustment, handlers claimed, would give DI's distribution from the London plant an advantage in competing for sales in the marketing area with distribution from their plants.

At the present time, a fully regulated plant under the Appalachian order at London is subject to a minus 13-cent location adjustment under that order. The lesser value of milk at London relative to its value in the marketing area is also recognized in the location pricing under the Knoxville and Chattanooga orders. The location adjustments applicable at London under the present Knoxville and Chattanooga orders are minus 21 cents and minus 33 cents, respectively.

London is in Laurel County, Kentucky, which borders on both the Louisville-Lexington-Evansville and proposed Tennessee Valley marketing areas. It is approximately 140 miles from Louisville, 160 miles from Bristol, 190 miles from Chattanooga and 100 miles from Knoxville, the principal cities in Louisville-Lexington-Evansville, Appalachian, Chattanooga and Knoxville marketing areas. Handlers regulated under the Louisville order, as well as other order handlers, will be competing for sales with the London plant. It is anticipated that milk from the London plant will be distributed over a wide area, primarily within the proposed Tennessee Valley and Louisville marketing areas. It seems most prospective that the plant will be regulated under the Tennessee Valley order. However, the possibility of regulation under the Louisville order cannot totally be dismissed.

The Louisville order Class I differential at London is $1.49. This compares with a Class I differential at London of $1.935 ($2.10 minus 16.5 cents) as provided in this decision under the Tennessee Valley order. Providing for no location adjustment at London, as proposed by handlers, would widen even further the present disparate spread between the Louisville and Tennessee Valley order Class I prices applicable at London.

London, which is from 100 to 190 miles from the major cities of the Tennessee Valley marketing area is, of course, much nearer than such cities to the lower priced Federal order markets to the north. If no location adjustment were to be applicable at London, as handlers proposed, the London plant (at which the Class I price f.o.b. the marketing area would then apply) would be at a disadvantage in competing in their common sales areas with distribution from plants under the lower priced orders to the north. Also, if no location adjustment were applicable at London, producers in that area could have no assurance of a continuing reliable market since the plant would be at a substantial disadvantage in competition for sales with Louisville order handlers as well as with other Tennessee Valley handlers in the primary sales areas of the respective markets.

The Class I price adopted in this decision is established at a level deemed appropriate to obtain adequate milk supplies at plant locations f.o.b. the market's principal population centers and to insure an appropriate adjustment of Class I prices at plants outside the marketing area. These adjustments reasonably reflect the value of milk at such locations relative to its value f.o.b. the market's principal cities and the variable cost of moving milk to provide equity of prices as between handlers and equality of returns among producers.

Extending the area in which no location adjustment shall apply to 110 miles (rather than 90 miles) from the nearest basing point would tend to defeat the primary purpose for which location adjustment provisions are incorporated in an order; i.e., pricing milk relative to its value f.o.b. the principal population centers in the marketing area. Accordingly, the handler proposal is denied.

For plant locations east of the Mississippi River and south of the southern boundary of Tennessee or the northern boundary of South Carolina, no useful purpose would be served by the application of location pricing.

Historically, the Chicago milkshed has been a major source of supplemental supplies for markets throughout much of the United States, including the markets in this general region. To reflect the variable cost of moving milk from the Upper Midwest to distant markets, Class I prices in Federal order markets are structured to generally increase in relation to the distance from the Chicago milkshed. Substantially, the gradation of prices from market to market from north to south reflects a differential approximating 1.5 cents per hundredweight per 10 miles. This structuring of prices must be recognized in the structuring of pricing under this order in the interest of maintaining orderly marketing in the region.

Prices in markets south of the Tennessee Valley market exceed the price established herein. Milk markets to the south are generally in tight supply, and handlers should not be encouraged by price incentives to procure milk for this market from plants to the south. To do so would encourage uneconomic milk movements. To provide adjustments which would reduce the order price at locations to the south could distort the interorder price alignment among competing plants, which is essential to continuing orderly marketing in the region.

In its exceptions DI held that the recommended decision's justification in providing for no location adjustment at plant locations south of the marketing area is equally applicable with respect to plants located in Virginia and North Carolina. The cooperative was particularly concerned that no location adjustment apply at Lynchburg, Virginia, and Asheville, North Carolina.

The Asheville plant has for many years been a partially regulated distributing plant under the Appalachian order and is expected to continue as a partially regulated plant under the merged order. Since Asheville is less than 90 miles from the nearest basing point in the marketing area, no location adjustment would apply at that plant under the order. The DI exception has apparently assumed that Asheville was more than 90 miles from the nearest basing point.

The Lynchburg plant is a fully regulated plant under the Appalachian order and is expected to be a pool plant under the merged order. Lynchburg is 196 miles from Bristol.

Under the proposed merged order a minus 30-cent location adjustment would apply at Lynchburg. This is comparable to the location adjustment that is now applicable at Lynchburg under the Appalachian order. There was no testimony at the hearing to indicate that the location pricing at Lynchburg has been inappropriate or should be significantly changed.

DI argued that in order to better relate the Tennessee Valley order Class I price at Lynchburg to the Class I price that would be applicable there under the Middle Atlantic order, no location adjustment should be applicable at Lynchburg. The Class I differential in Washington, D.C., under the Middle Atlantic order is $2.78. Under the location pricing of the Middle Atlantic order this differential would be reduced by 27 cents f.o.b. Lynchburg, resulting in a Class I differential applicable at Lynchburg under the Middle Atlantic order of $2.51. The Class I differential at Lynchburg under the Tennessee Valley order is $1.80 (the $2.10 Class I differential minus a 30-cent location adjustment).

V 41 158 AUG 13 76 UMI

The Lynchburg plant has no distribution in the Middle Atlantic market and does not compete for sales or for its milk supplies with Middle Atlantic order handlers. Its principal competitors are Tennessee Valley order handlers. As indicated elsewhere in this decision, the location pricing under the Tennessee Valley order is based on the value of milk at the principal population centers in the marketing area. Bristol, the nearest of such population centers, is 366 miles from Washington, D.C. Under the location pricing of the Middle Atlantic order this would result in a minus location adjustment of 53.5 cents at Bristol, which reflects more meaningfully the relationship of the Class I prices under the Middle Atlantic and the Tennessee Valley orders.

The Lynchburg plant, which is owned and operated by DI, is considerable distance from the marketing area. All other plant that would be fully regulated under the merged order are in, or in close proximity to, the major population centers in the marketing area. The Class I price f.o.b. Lynchburg under the Tennessee Valley order appropriately reflects the 196-mile distance from Lynchburg to the nearest population center in the marketing area.

The Appalachian, Chattanooga and Knoxville orders all provide for applying location adjustments at plants in Virginia and North Carolina that are outside specified distances from major cities in each of the orders. The Chattanooga order provides that no location adjustments shall be applicable at plants south of the southern border of Tennessee or the northern border of South Carolina, the same as provided in this decision.

The overlapping sales and procurement areas of handlers regulated by the Georgia and Chattanooga orders were recognized when the present Chattanooga order location adjustment provisions were adopted in 1969. The structure of pricing herein adopted will continue essentially the identical interorder price relationships which have existed between Georgia and Chattanooga regulated plants.

DI urged the adoption of a location adjustment rate of two cents per 10-mile distance rate rather than the 1.5 cent rate here adopted. It contended that the present rate, which has been used for an extended period of time, no longer reflects the cost of transporting milk from distant plants to the market. In support of their position, the cooperative introduced data showing actual charges it had paid for the hauling of supplemental milk from Wisconsin to various points in Indiana, Kentucky and Ohio during the fall months of 1974. These data showed hauling rates varying from 1.8 to 2.3 cents per hundredweight per 10 miles. The cooperative also presented information showing substantial price increases in various items affecting transportation costs, such as costs for trucks, tankers and fuel.

Handler representatives acknowledged that transportation costs had increased. However, they urged that 1.5 cent per 10-mile distance be used in any location adjustment provisions to be contained in any order or orders resulting from this hearing. They contended it would be inappropriate to increase the 1.5 cent factor unless it is increased in all Federal orders at the same time.

It is neither appropriate nor necessary to establish higher prices in this market solely to reflect the currently higher transportation costs for moving milk. Such objective can only be accomplished through a general hearing covering all Federal orders. At any such hearing, one of the matters which would have to be resolved would be how this might be accomplished within the limits of the present variation in Class I prices from north to south. Further, if the total difference in prices north to south were to be increased, an important consideration at such hearing would center on how this might be accomplished under the standards of the Act and existing supply-demand relationships. Accordingly, the 2-cent per 10-mile location adjustment rate proposed by the cooperative is denied.

A handler proposal submitted at the hearing would apply location adjustments to the Class I price based on the location where the Class I milk is disposed of instead of at the location of the plant to which milk was delivered from producers' farms. Since the Act specifically provides for the pricing of milk at "the locations at which delivery * * * is made", the proposal is denied.

The merger proponent urged continuation of the order provisions that limit the amount of the location adjustment which may be allowed under certain conditions. When a distant pool supply plant ships milk under an agreed upon Class I classification to a pool distributing plant in the marketing area, the pool obligation of the supply plant operator will usually be the Class I price adjusted for the location of the supply plant. However, to the extent that the distributing plant receiving supply plant milk has also received milk directly from producers to cover its Class I sales, the supply plant operator does not receive the location adjustment credit (equal to the amount of the location adjustment at his plant) otherwise applicable with respect to his pool obligation for the Class I milk so transferred.

The basic concept of this limitation on location adjustment credits should be carried forth under the merged order. A distributing plant operator appropriately should be required to assign his locally produced milk first to his Class I needs. Permitting a handler to bring in distant supply plant milk for Class I use and then to allocate the local supply into lower valued uses would result in subsidizing from the pool, at the expense of reduced returns to producers, the unnecessary transportation of milk to the market. This is because the Class I milk involved would be priced not at the location of the distributing plant but at the supply plant location where the Class I price is lower. This would subvert the intent of the Class I price level at the distributing plant, which is to attract milk to that location for Class I use. It is this price level that must be reflected in returns to producers.

Distributing plants relying on supply plant milk for Class I use should be encouraged to draw such milk from the nearest plant or plants. Otherwise, producers on the market would have their returns lowered through the granting of price credits on milk unnecessarily moved between pool plants for other than Class I use.

In some situations a distributing plant in the marketing area may receive milk from a near-in supply plant under an agreed Class III classification while receiving an equivalent amount of more distant supply plant milk under an agreed Class I classification. Although the more distant plant would be eligible for a location adjustment credit under such circumstances under the provisions adopted herein, such credit should be limited to the lesser credit that would have been applicable to the near-in supply plant milk had it been classified as Class I milk. This procedure serves to restrict the transportation costs which are borne by the pool, and hence all producers, to that necessary to fulfill handler's Class I needs.

(e) *Partial payments to producers.* Handlers should be required to make a partial payment for milk received during the first 15 days of the month from producers and cooperative bulk tank handlers at not less than the Class III price for the preceding month or 90 percent of the uniform price for the preceding month, whichever is higher. The payment should be made on or before the last day of the month with respect to all milk received during the first 15 days of the month from producers who had not discontinued delivery to the handler by the 25th day of the month. Partial payments to cooperatives authorized to collect payment for members should be made two days before the last day of the month.

The Chattanooga order requires a partial payment by the last day of the month for milk delivered during the first 15 days of the month by producers who had not discontinued delivery to the handler before the 25th of the month. The payment rate is the previous month's Class III price. Payments to cooperatives authorized to collect for producer members are due two days earlier than payments to individual producers. Authorized deductions from the partial payment are allowed.

The Knoxville order partial payment provisions are similar to those in the Chattanooga order. However, deductions from the partial payment are not allowed and the payment must be made whether or not a producer had discontinued his shipments to the handler during the month.

The present Appalachian order requires no partial payments for producer milk.

Dairymen, Inc., proposed that handlers be required to make separate partial payments for producer milk received during each of the first two 10-day delivery periods of the month. Under this proposal these payments, at 90 percent of the previous month's uniform price, would be due on the 17th and 27th of the month to individual producers and two days earlier to cooperatives collecting for their member producers. In its post-hearing brief, the cooperative urged that the rate of payment be not less than the previous month's Class III price. The cooperative's proposal would permit authorized deductions to be withheld from the partial payments.

Proponent cooperative's spokesman recognized that its proposed partial payment provisions would increase handlers' costs for milk, but held they are needed to improve the cash flow to dairy farmers. He contended that dairy farmers, faced with increasing production costs and greater demands for cash for purchasing items needed to continue producing milk, urgently need payment for their milk at a higher rate and at more frequent intervals. Higher interest rates in the last two years were cited in particular as justifying more frequent payments to producers.

Handlers proposed a single partial payment to be made by the last day of the month at the previous month's Class III price. Such partial payment would apply to all milk received during the first 15 days of the month from producers who had not discontinued shipping to such handler before the 25th day of the month. Their proposal would permit authorized deductions to be withheld in making such partial payment.

Handlers opposed any requirement for two partial payments on the basis that the reasons cited by proponent for needing more frequent partial payments reflect general business conditions facing handlers and producers alike. Handlers' representatives contended the order should not be changed to recognize producers' problems at the expense of handlers.

Handlers claimed that two partial payments for a large volume of producer milk at a higher rate, as proposed, would significantly increase their costs for milk. In addition to requiring more frequent cash outlays, administrative costs related to making more frequent payments would increase as well, according to their spokesmen. They also contended that adoption of the proposal would impose a burdensome time schedule on handlers during the first 15 days of the month.

The Milk Industry Foundation, a national trade association of milk processors, opposed the proposal for two partial payments and stated that its adoption would result in added costs to handlers. It took the position that any changes to be made in payment dates or procedures should be applicable on a uniform basis in all Federal orders.

Since producers must make cash outlays for their production inputs or, in the alternative, borrow money in the competitive commercial market to cover their production costs, it is readily understandable that they desire prompt payment for their milk. At the same time, it is also understandable that handlers oppose change from traditional market payment practices that would increase their payment costs.

There was no opposition to a requirement that handlers make a partial payment prior to the date for final payment for milk. Although such payments are not now required under the Appalachian order, both producers and handlers regulated under that order supported the adoption of a partial payment provision for the merged and extended order. Under these circumstances, it is concluded that a single advance payment for milk delivered during the first 15 days of the month is appropriate. Such payment should be required on or before the last day of the month (two days earlier if payment is made to the cooperative) for all producers who had not discontinued delivery to the handler before the 25th day of the month. This comports with the traditional payment procedure followed in most milk markets. While the two advance payments requested by the cooperative could, under some circumstances, insure a better cash flow for some producers, this procedure would not over time change the total monies a producer would receive in a 30-day period. In light of the potential additional costs to handlers and an additional administrative cost which would be incurred, there is no compelling justification for the requested two partial payments.

Requiring a partial payment rate (90 percent of the previous month's uniform price) as proposed by the cooperative, will provide assurance to producers of a partial payment closely reflecting the value of their milk deliveries during the first half of the month. In light of the lapse of time between delivery and time of payment, it is desirable that the payment reflect the approximate value of the milk for which payment is being made. The purpose of the change in payment rate to 90 percent of the previous month is to increase the amount of partial payment. It would be inappropriate if the change should result in a lesser payment. Accordingly, it is provided that such payment rate shall not under any circumstance be less than the previous month's Class III price.

In opposing the cooperative's proposal for two partial payments, handlers expressed concern that the likelihood of overpayments to producers who discontinued milk deliveries during the month would be increased. Since the partial payment provisions adopted herein apply only to the first 15 days' deliveries by producers who had not discontinued shipping by the 25th of the month, the likelihood of any overpayments is minimized.

Recognizing that producers may purchase supplies through their handler on credit or arrange with the handler to pay assignments against monies due from their milk proceeds, it is appropriate that the order permit proper deductions from the individual producer payments authorized in writing by the producer.

Although the findings in the recommended decision were that the merged order should permit proper deductions from the individual producer payments authorized in writing by the producer, this was not clearly indicated in the order language in the recommended decision. A handler exception urged that the order explicitly authorize such deductions from payments otherwise due individual producers, particularly with respect to the partial payments for producer's milk delivered during the first 15 days of the month. This is done in the attached order.

(f) *Base-excess plan.* A base-excess plan should not be included in the merged order.

A handler proponent of merging the Chattanooga and Knoxville orders proposed including the Chattanooga order's base-excess plan provisions in any order resulting from this proceeding that would regulate his plant. (Under the Chattanooga order, a daily base is calculated for each producer in accordance with his deliveries in September through January. In the following March through July, a producer is paid a base price for his deliveries that are not in excess of his base and a lower price for any additional milk delivered.) The handler claimed that failure to provide a base-excess plan would result in extreme and costly seasonal production variations.

Dairymen, Inc. (DI), proponent of the three-market merger, although its hearing notice proposal included no base-excess plan, supported inclusion of such a plan in the merged order. The cooperative's spokesman contended that adoption of a base-excess plan would benefit consumers, processors, and producers by encouraging a leveling of seasonal milk production.

One handler opposed including a base-excess plan in any order resulting from the hearing that would involve the Appalachian market. He contended that the Appalachian and Knoxville orders have operated successfully without such a plan. He expressed the view that because the proposed merged order is a high Class I utilization market without a substantial seasonal production problem, a base-excess plan would serve only to restrict entry of new producers into the market in an unnecessary manner.

A base-excess plan has operated under the Chattanooga order since its inception in 1956. Base-excess plans formerly included in the Knoxville and Appalachian orders were terminated [1] in 1968 and 1971, respectively.

In supporting a base-excess plan for the merged order, DI relied upon production data of its member producers to demonstrate the leveling effect of the

[1] Official notice is taken of the order terminating the base-excess provisions in the Knoxville order, effective December 7, 1968 (33 F.R. 8228) and of the order terminating the base-excess provisions in the Appalachian order, effective March 25, 1971 (36 F.R. 5576).

V 41 1158 AUG 13 76 UMI

cooperative-operated base-excess plan on production. Its member producers' daily production for the months of lowest production in each year averaged 88 percent of that for the highest production months in the same year during the most recent seven-year period.

The proponent of a base-excess plan pointed out that the cooperative operates a base-excess plan, and under such circumstances the order should include such a plan so that nonmember producers would receive payment for their milk on the same basis as member producers.

Seasonal variations in total milk production pooled under the three orders are not extreme. In 1974, production per day in August, September and October (the months of lowest production) averaged 86 percent of daily production in March, April and May (the months of highest production). The record provides no indication that a base-excess plan could achieve a more desirable seasonality of production or is needed to maintain the present seasonality of production.

When the base-excess plan in the Appalachian order was terminated in 1971, it was at the request of DI, representing 99 percent of the producers under the order. The basis for the request was that the cooperative had recently adopted a base-excess method of paying producers considerably different from the base-excess plan in the order.

Termination of the Knoxville base-excess plan in 1968 resulted from the request of Tennessee Valley Milk Producers (which later became a part of DI), representing 98 percent of the order's producers. The cooperative then reblended the proceeds from the sale of its members' milk, irrespective of where sold, and paid its members under the Knoxville and Chattanooga orders on the same basis. The request for termination was granted to assist the cooperative in using a uniform base-excess plan in paying its members.

DI, under its base-excess plan operated outside the order, reblends the proceeds from the sale of its members' milk in a number of markets, including the three proposed to be merged. In effect, the reasons for removing the base-excess plans from the Appalachian and Knoxville orders are equally applicable under current conditions as justification for not including a base-excess plan in the attached order.

Notwithstanding, DI and the handler proponent of a base-excess plan excepted to the recommended decision's failure to provide for a base-excess plan. According to DI's exceptions, a base-excess plan is now needed because of changed marketing conditions in the area since the Appalachian and Knoxville base-excess plans were terminated. The principal change in marketing conditions cited by DI is the "considerable nonmember milk" under the Appalachian order now in contrast to the 99 percent of Appalachian order producer milk delivered by DI members when that order's base-excess plan was terminated in 1971.

The proponent handler's exceptions state that a base-excess plan should be included in the merged order because it would have a stabilizing effect on the market, thereby achieving a more complete attainment of the orderly marketing objectives of the Act; because it was maintained continuously in the Chattanooga order for a number of years and is being maintained as a desirable market tool in other Federal orders; and because DI, which represents a majority of the producers on the market, supports inclusion of a base-excess plan under the merged order. The handler's exceptions also contended that a base-excess plan should be included in the order so that cooperative members and nonmember producers would be paid on the same base-excess plan.

The record of this hearing does not support the need for a base-excess plan. The fact that the cooperative operates its own plan, reblending proceeds from the same of its members' milk in a number of markets, necessarily limits the possible effectiveness of a base-excess plan under the order.

Nevertheless, if interested parties desire that further consideration be given to the adoption of a base-excess plan, the matter appropriately should be explored in a new proceeding at a later date. It is not necessary or appropriate to further delay the proceeding for this purpose.

(g) *Administrative provisions.* (1) *Advancing announcement of Class II price.* One handler proposal considered at the hearing would provide that the Class II price for the month be announced by the 5th day of the preceding month and be based on the basic formula price for the second preceding month.

A similar proposal by handlers was denied in a decision issued February 19, 1974 (39 F.R. 8452) concerning classification and other issues in 39 orders, including the Chattanooga order. The present proceeding does not present any changed circumstances that provide a basis for different conclusion with respect to the Tennessee Valley marketing area. The proposal is denied for the identical reasons stated by the Assistant Secretary in his February 19, 1974 decision, official notice of which is taken.

The hearing on which this decision is based was reopened June 2, 1976, at Clayton, Missouri. That hearing, at which amendments to 31 other orders were also considered, was concerned with the "advance" Class II pricing provision resulting from the February 19, 1974, decision referred to above. Should any change in the date for announcing the Class II price as herein provided be made as a result of that hearing, this will be implemented by amendment action.

(2) *Allowing handlers to report on basis of two accounting periods in any month.* Proposals to allow handlers the option of filing two monthly reports of receipts and utilization should not be adopted.

Under proposals submitted by Dairymen, Inc., and by other handlers, a handler could elect to report milk receipts and utilization for any month on the basis of two accounting periods. The present Appalachian order provides for filing two reports if a handler so elects.

A spokesman for proponent handlers testified that permitting two accounting periods within a single month would provide handlers greater flexibility in procuring milk supplies. He maintained that such flexibility would result from being able to more nearly trace the actual use of particular receipts. According to his testimony, this would be of benefit in assuring an adequate supply of milk.

At the hearing and in their exceptions proponent handlers argued that permitting two accounting periods within a single month would provide handlers greater flexibility in procuring milk supplies. They maintained that such flexibility would result from being able to more nearly trace the actual use of particular receipts. According to their testimony, this would be of benefit in assuring an adequate supply of milk.

The claim that an option of filing two reports would benefit handlers was not substantiated by the evidence. Two of the three orders merged in this decision require a single monthly report of receipts and utilization. Throughout the Federal order system the month is the prescribed accounting period. No evidence was presented to show that handlers under the Knoxville and Chattanooga orders have in any way been adversely affected by the lack of the option for split accounting. Additionally, there is no indication that handlers under the Appalachian order have ever utilized the option. The record fails, therefore, to establish that any useful purpose would be served by including the proposed provision in the merged order.

(3) *Interest on overdue accounts.* Proponent cooperative proposed a one-half percent per month interest charge on any unpaid obligation incurred under the order. As proposed, the change would be applied on the first day of the month following the due date and on the first day of each month thereafter until such obligation is paid. The interest provision, as proposed, would apply to money owed by a handler to the market administrator, by the market administrator to a handler, and by a handler to a producer or a cooperative. Proponent claimed such provisions are needed to insure prompt payment of obligations imposed under the order.

Handlers opposed adoption of the cooperative's proposal on the grounds that such provisions are not included, and have not been needed, in the three existing orders. Their spokesmen particularly opposed applying late-payment charges on handler obligations to producers and cooperatives. They express the view that good credit policing by producer cooperatives and others would obviate any need for including such provisions in an order.

There is no indication on the record of any significant delinquencies by handlers on the market in meeting payment obligations to the market administrator or to producers, including cooperatives. We are not aware that there has been, or is, any problem in the matter of payments. Clearly, the proposal presented could not be helpful. To the contrary, the fact that interest charges would not be instituted until the first day of the month following the due date could only encourage handlers to defer payment obligations until the end of the month. This has been the experience with interest charges under Federal orders when a grace period is specifically provided. In addition, (1) an interest charge of one-half percent per month could not be expected to implement payment and (2) there is no practical way in which an interest charge could be effectively administered on handler obligations to producers and cooperatives.

Under the circumstance, it is concluded that no interest provision should be adopted on the basis of this record. If such a provision nevertheless is desired, the matter should be explored in greater depth in another proceeding.

(4) *Merger of the administrative expense, marketing service, and producer-settlement funds.* To accomplish the merger of the three orders effectively and equitably, the reserves in the administrative expense funds that have resulted under the individual orders should be combined. A similar procedure should be followed with respect to the marketing service and producer-settlement fund reserves of the individual orders. Any liabilities of such funds under the individual orders should be paid from the appropriate new fund established under the merged order. Similarly, obligations that are due the several funds under the individual orders should be paid to the appropriate combined fund under the merged order.

The money paid to the administrative expense fund is each handler's proportionate share of the cost of administering the order. It is anticipated that all handlers currently regulated under the individual orders will continue to be regulated under the merged order. In view of this, it would be an unnecessary administrative and financial burden to allocate back to handlers the reserve funds under the individual orders and then accumulate an adequate reserve for the merged order. It is equally equitable and more efficient to combine the administrative monies accumulated under the individual orders and to pay any liabilities against such funds from the consolidated fund of the merged order.

The money accumulated in the marketing service funds of the individual orders is that which has been paid by producers for whom the market administrator is performing services. The producers who have contributed to the marketing service fund of each order are expected to continue to supply milk under the merged order. The consolidation of the reserves in the individual marketing service funds is therefore appropriate in view of the continuation of the marketing service program for these producers under the merged order.

The producer-settlement fund balances in the three orders should be combined so that the producer-settlement fund under the merged order may be continued without interruption. The producers currently supplying the individual markets are expected to continue to supply milk for the merged market. Thus, monies now in the producer-settlement funds of the individual orders would be reflected in the uniform prices of the producers who will benefit from the merged order. The combined fund would also serve as a contingency fund from which money would be available to meet obligations (resulting from audit adjustments and otherwise) accruing under one or the other of the separate funds.

Rulings on Proposed Findings and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General Findings

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held;

(d) All milk and milk products handled by handlers, as defined in the tentative marketing agreement and the order as hereby proposed to be amended, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(e) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 4 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to milk specified in § 1011.85 of the aforesaid tentative marketing agreement and the order as proposed to be amended.

Rulings on Exceptions

In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing Agreement and Order

Annexed hereto and made a part hereof are two documents, a MARKETING AGREEMENT[1] regulating the handling of milk, and an ORDER amending and merging the orders regulating the handling of milk in the aforesaid specified marketing area, which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That this entire decision, except the attached marketing agreement, be published in the Federal Register. The regulatory provisions of the marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which is published with this decision.

Determination of Producer Approval and Representative Period

June 1976 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the attached order amending and merging the aforesaid orders regulating the handling of milk in the aforesaid specified marketing areas is approved or favored by producers, as defined under the terms of the attached order, who during such representative period were engaged in the production of milk for sale within the marketing area defined in the attached order.

---

[1] Marketing agreement filed as part of original document.

V 41 I 158 AUG 13 76 UMI

Signed at Washington, D.C., on: August 10, 1976.

RICHARD L. FELTNER,
Assistant Secretary.

Order[3] amending and merging the orders, regulating the handling of milk in the Appalachian; Knoxville, Tennessee; and Chattanooga, Tennessee marketing areas

FINDINGS AND DETERMINATIONS

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of each of the aforesaid orders and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings.* A public hearing was held upon certain proposed amendments to the tentative marketing agreements and to the orders regulating the handling of milk in the aforesaid marketing areas. The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure (7 CFR Part 900).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The Tennessee Valley order, which amends and merges the aforesaid orders and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the Tennessee Valley marketing area, and the minimum prices specified in the Tennessee Valley order, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The Tennessee Valley order regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in the Tennessee Valley order, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 4 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to milk specified in § 1011.85 of the attached order.

Order relative to handling. It is therefore ordered that on and after the effective date hereof orders regulating the handling of milk in the Appalachian; Chattanooga, Tennessee; and Knoxville, Tennessee, marketing areas (Parts 1011, 1090, and 1101, respectively) shall be amended and merged into one order. Parts 1090 and 1101 are thereby superseded, and such vacated part designations shall be reserved for future assignment. The handling of milk in the merged marketing area, to be designated as the "Tennessee Valley marketing area" (Part 1011) shall be in conformity to and in compliance with the terms and conditions of the following attached order:

The provisions of the proposed marketing agreement and order amending and merging the aforesaid orders, as contained in the recommended decision issued by the Administrator on March 12, 1976, and published in the FEDERAL REGISTER on March 18, 1976 (41 FR 11432), shall be and are the terms and provisions of this order and are set forth in full herein, subject to the modifications made in §§ 1011.10 and 1011.73.

[3] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

PART 1011—MILK IN THE TENNESSEE VALLEY MARKETING AREA

Subpart—Order Regulating Handling

GENERAL PROVISIONS

Sec.
1011.1 General provisions.

DEFINITIONS

1011.2 Tennessee Valley marketing area.
1011.3 Route disposition.
1011.4 Plant.
1011.5 [Reserved]
1011.6 [Reserved]
1011.7 Pool plant.
1011.8 Nonpool plant.
1011.9 Handler.
1011.10 Producer-handler.
1011.11 [Reserved]
1011.12 Producer.
1011.13 Producer milk.
1011.14 Other source milk.
1011.15 Fluid milk product.
1011.16 Fluid cream product.
1011.17 Filled milk.
1011.18 Cooperative association.

HANDLER REPORTS

1011.30 Reports of receipts and utilization.
1011.31 Payroll reports.
1011.32 Other reports.

CLASSIFICATION OF MILK

1011.40 Classes of utilization.
1011.41 Shrinkage.
1011.42 Classification of transfers and diversions.
1011.43 General classification rules.
1011.44 Classification of producer milk.
1011.45 Market administrator's reports and announcements concerning classification.

CLASS PRICES

1011.50 Class prices.
1011.51 Basic formula price.
1011.52 Plant location adjustments for handlers.
1011.53 Announcement of class prices.
1011.54 Equivalent price.

UNIFORM PRICE

1011.60 Handler's value of milk for computing uniform price.
1011.61 Computation of uniform price.
1011.62 Announcement of uniform price and butterfat differential.

PAYMENTS FOR MILK

1011.70 Producer-settlement fund.
1011.71 Payments to the producer-settlement fund.
1011.72 Payments from the producer-settlement fund.
1011.73 Payments to producers and to cooperative associations.
1011.74 Butterfat differential.
1011.75 Plant location adjustments for producers and on nonpool milk.
1011.76 Payments by handler operating a partially regulated distributing plant.
1011.77 Adjustment of accounts.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

1011.85 Assessment for order administration.
1011.86 Deduction for marketing services.

AUTHORITY: Secs. 1–19, 48 Stat. 31, as amended, 7 U.S.C. 601–674.

Subpart—Order Regulating Handling

GENERAL PROVISIONS

§ 1011.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

DEFINITIONS

§ 1011.2 Tennessee Valley marketing area.

The "Tennessee Valley marketing area", hereinafter called the marketing area, means all the territory within the boundaries of the following counties, including all waterfront facilities connected therewith and all territory occupied by government (municipal, State, or Federal) reservations, installations, institutions, or other similar establishments if any part thereof is within the listed counties:

(a) In Tennessee, the counties of:

Anderson	Loudon
Blount	Marion
Bradley	McMinn
Campbell	Meigs
Carter	Monroe
Claiborne	Morgan
Cocke	Polk
Cumberland	Rhea
Grainger	Roane
Greene	Scott
Hamblen	Sequatchie
Hamilton	Sevier
Hancock	Sullivan
Hawkins	Unicoi
Jefferson	Union
Johnson	Washington
Knox	

(b) In Kentucky, the counties of:

Bell	Leslie
Breathitt	Letcher
Harlan	Perry
Knott	Whitley
Knox	

(c) In Virginia: (1) The counties of:

Buchanan	Scott
Dickenson	Tazewell
Lee	Washington
Russell	Wise

(2) The cities of:

Bristol	Norton

(d) In Georgia, the counties of:

Catoosa	Murray
Chattooga	Walker
Dade	Whitfield
Fannin	

(e) In West Virginia, the counties of:

McDowell	Mercer

§ 1011.3 Route disposition.

"Route disposition" means a delivery to a retail or wholesale outlet (except to a plant) either direct or through any distribution facility (including disposition from a plant store, vendor or vending machine) of a fluid milk product classified as Class I milk.

§ 1011.4 Plant.

"Plant" means the land, buildings, facilities, and equipment constituting a single operating unit or establishment at which milk or milk products (including filled milk) are received, processed, or packaged. Separate facilities without stationary storage tanks which are used only as a reload point for transferring bulk milk from one tank truck to another or separate facilities used only as a distribution point for storing packaged fluid milk products in transit for route disposition shall not be a plant under this definition.

§ 1011.5 [Reserved]

§ 1011.6 [Reserved]

§ 1011.7 Pool plant.

Except as provided in paragraph (e) of this section, "pool plant" means:

(a) A plant that is approved by a duly constituted regulatory agency for the processing or packaging of Grade A milk and from which during the month:

(1) Route disposition, except filled milk, in the marketing area is not less than 10 percent of the total quantity of Grade A fluid milk products, except filled milk, physically received at such plant or diverted therefrom pursuant to § 1011.13; and

(2) The total quantity of fluid milk products, except filled milk, disposed of in Class I is not less than 50 percent of the total quantity of fluid milk products, except filled milk, physically received at such plant or diverted therefrom pursuant to § 1011.13.

(b) A plant, other than a plant described in paragraph (a) of this section, from which not less than 50 percent of the total quantity of milk approved by a duly constituted regulatory agency for fluid consumption that is physically received from dairy farmers (except receipts at such plant by diversion from other order plants) and handlers described in § 1011.9(c) at such plant or diverted therefrom pursuant to § 1011.13 during the month is shipped from such plant as fluid milk products, except filled milk, to pool plants pursuant to paragraph (a) of this section.

(c) A plant that was a pool plant pursuant to paragraph (b) of this section in each of the immediately preceding months of August through March shall be a pool plant for the months of April through July unless the milk received at the plant does not continue to meet the requirements of a duly constituted regulatory agency or a written application is filed by the plant operator with the market administrator on or before the first day of any such month requesting that the plant be designated as a nonpool plant for such month and each subsequent month through July during which it would not otherwise qualify as a pool plant.

(d) Any plant located in the marketing area that is operated by a cooperative association if pool plant status under this paragraph is requested for such plant by the cooperative association and during the month 60 percent or more of the producer milk of members of the cooperative association is delivered directly from their farms to pool plants described in paragraph (a) of this section or is transferred to such plants as a bulk fluid milk product from the plant of the cooperative association, subject to the following conditions:

(1) The plant does not qualify as a pool plant under paragraph (a), (b), or (c) of this section or under the provisions of another Federal order applicable to a distributing plant or a supply plant; and

(2) The plant is approved by a duly constituted regulatory agency to handle milk for fluid consumption.

(e) The term "pool plant" shall not apply to the following plants:

(1) a producer-handler plant;

(2) A governmental agency plant;

(3) A plant qualified pursuant to paragraph (a) of this section which also meets the pooling requirements of another Federal order and from which there is a greater quantity of route disposition, except filled milk, during the month in such other Federal order marketing area than in this marketing area; and

(4) A plant qualified pursuant to paragraph (b) or (c) of this section which also meets the pooling requirements for the month under another Federal order unless such plant qualified as a pool plant pursuant to paragraph (b) of this section for each of the preceding months of August through March.

§ 1011.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is not a producer-handler plant, a governmental agency plant or an other order plant and from which there is route disposition in consumer-type packages or dispenser units in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is not a producer-handler plant, a governmental agency plant or an other order plant and from which fluid milk products are shipped to a pool plant.

(e) "Governmental agency plant" means a plant operated by a governmental agency from which fluid milk products are distributed in the marketing area. Such plant shall be exempt from all provisions of this part.

§ 1011.9 Handler.

"Handler" means:

(a) Any person in his capacity as the operator of one or more pool plants;

(b) A cooperative association with respect to milk of producers diverted for the account of such association pursuant to § 1011.13;

(c) Any cooperative association with respect to milk that it receives for its account from the farm of a producer for delivery to a pool plant of another handler in a tank truck owned and operated by, or under the control of, such cooperative association, unless both the cooperative association and the operator of the pool plant notify the market administrator prior to the time that such milk is delivered to the pool plant that the plant operator will be the handler for such milk and will purchase such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples. Milk for which the cooperative association is the handler pursuant to this paragraph shall be deemed to have been received by the cooperative association at the location of the pool plant to which such milk is delivered;

(d) Any person who operates a partially regulated distributing plant;

(e) A producer-handler; and

(f) Any person who operates an other order plant described in § 1011.7(e).

§ 1011.10 Producer-handler.

"Producer-handler" means any person:

(a) Who operates a dairy farm and a processing plant from which there is route disposition in the marketing area;

(b) Who receives no fluid milk products from sources other than his own farm production, pool plants and other order plants;

(c) Whose receipts of fluid milk products from pool plants and other order plants do not exceed a daily average of 1,500 pounds during the month;

(d) Who disposes of no other source milk as Class I milk except by increasing the nonfat milk solids content of the fluid milk products received from his own farm production or pool plants; and

(e) Who provides proof satisfactory to the market administrator that the

V 41 158 AUG 13 76 UMI

care and management of the dairy farm and other resources necessary for his own farm production of milk and the management and operation of the processing plant are the personal enterprise and risk of such person.

§ 1011.11 [Reserved]

§ 1011.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who produces milk approved by a duly constituted regulatory agency for fluid consumption, which milk is:

(1) Received at a pool plant directly from such person;

(2) Received by a handler described in § 1011.9(c); or

(3) Diverted from a pool plant in accordance with § 1011.13.

(b) "Producer" shall not include:

(1) A producer-handler as described in any order (including this part) issued pursuant to the Act;

(2) A governmental agency operating a plant exempt pursuant to § 1011.8(e);

(3) Any person with respect to milk produced by him that is diverted to a pool plant from an other order plant if the other order designates such person as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to § 1011.44(a)(8)(iii) and the corresponding step of § 1011.44(b);

(4) Any person with respect to milk produced by him that is reported as diverted to another order plant if any portion of such person's milk so moved is assigned to Class I under the provisions of such other order; and

(5) A person with respect to any milk that is received at or diverted from a plant that has automatic pool status pursuant to § 1011.7(c) in any month of April through July, unless at least 60 days' production from the farm of such person was producer milk during the preceding August through March or unless such plant is a pool plant for the month on the basis of shipments to pool plants described in § 1011.7(a).

§ 1011.13 Producer milk.

"Producer milk" means the skim milk and butterfat contained in milk of a producer that is:

(a) Received at a pool plant directly from such producer by the operator of the plant;

(b) Received by a handler described in § 1011.9(c); or

(c) Diverted by the operator of a pool plant or a cooperative association from a pool plant to a nonpool plant that is not a producer-handler plant, subject to the following conditions:

(1) In any month of April through July, such milk may be diverted on any number of days;

(2) In any month of August through March, not less than two days' production of the producer whose milk is diverted is physically received at a pool plant during the month;

(3) In any month of August through March, the total quantity of milk so diverted during the month by a cooperative association shall not exceed one-third of the producer milk that the cooperative association caused to be delivered to, and is physically received at, pool plants during the month;

(4) In any month of August through March, the operator of a pool plant that is not a cooperative association may divert any milk that is not under the control of a cooperative association that diverts milk during the month pursuant to paragraph (c)(3) of this section. The total quantity of milk so diverted during the month shall not exceed one-third of the producer milk physically received at such plant during the month that is eligible to be diverted by the plant operator;

(5) To the extent that it would result in nonpool status for the pool plant from which diverted, milk diverted for the account of a cooperative association from the pool plant of another handler shall not be producer milk;

(6) The cooperative association shall designate the dairy farmer deliveries that are not producer milk pursuant to paragraph (c)(5) of this section. If the cooperative association fails to make such designation, no milk diverted by it to a nonpool plant shall be producer milk; and

(7) Diverted milk shall be priced at the location of the nonpool plant to which diverted.

§ 1011.14 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1011.40(b)(1) from any source other than producers, handlers described in § 1011.9(c), or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1011.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1011.40(b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1011.40(b)(1)) for which the handler fails to establish a disposition.

§ 1011.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means any of the following products in fluid or frozen form: Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids, including any such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted.

(b) The term "fluid milk product" shall not include:

(1) Evaported or condensed milk (plain or sweetened), evaporated or condensed skim milk (plain or sweetened), formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

§ 1011.16 Fluid cream product.

"Fluid cream product" means cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

§ 1011.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milk-fat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1011.18 Cooperative association.

"Cooperative association" means any cooperative association of producers which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have and to be exercising full authority in the sale of milk of its members.

HANDLER REPORTS

§ 1011.30 Reports of receipts and utilization.

On or before the sixth day after the end of each month, each handler shall report for such month to the market administrator, in the detail and on forms prescribed by the market administrator, as follows:

(a) Each handler, with respect to each of his pool plants, shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted from the pool plant to other plants;

(2) Receipts of milk from handlers described in § 1011.9(c);

(3) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(4) Receipts of other source milk;

(5) Inventories at the beginning and end of the month of fluid milk products and products specified in § 1011.40(b)(1); and

(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. Such report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1011.9(b) and (c) shall report:

(1) The quantities of all skim milk and butterfat contained in receipts of milk from producers; and

(2) The utilization or disposition of all such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to his receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

§ 1011.31 Payroll reports.

(a) On or before the 20th day after the end of each month, each handler described in § 1011.9(a), (b), and (c) shall report to the market administrator his producer payroll for such month, in the detail prescribed by the market administrator, showing for each producer:

(1) His name and address;

(2) The total pounds of milk received from such producer;

(3) The average butterfat content of such milk; and

(4) The price per hundredweight, the gross amount due, the amount and nature of any deductions, and the net amount paid.

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1011.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1011.32 Other reports.

In addition to the reports required pursuant to §§ 1011.30 and 1011.31, each handler shall report such other information as the market administrator deems necessary to verify or establish each handler's obligation under the order.

CLASSIFICATION OF MILK

§ 1011.40 Classes of utilization.

Except as provided in § 1011.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1011.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as otherwise provided in paragraphs (b) and (c) of this section; and

(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product, eggnog, yogurt, and any product containing 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, eggnog, or yogurt, except as otherwise provided in paragraph (c) of this section;

(2) In packaged inventory at the end of the month of the products specified in paragraph (b)(1) of this section;

(3) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages; and

(4) Used to produce:

(i) Cottage cheese, lowfat cottage cheese, and dry curd cottage cheese;

(ii) Milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

(iii) Any concentrated milk product in bulk, fluid form other than that specified in paragraph (c)(1)(iv) of this section;

(iv) Plastic cream, frozen cream, and anhydrous milkfat;

(v) Custards, puddings, and pancake mixes; and

(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cheese (other than cottage cheese, lowfat cottage cheese, and dry curd cottage cheese);

(ii) Butter;

(iii) Any milk product in dry form;

(iv) Any concentrated milk product in bulk, fluid form that is used to produce a Class III product;

(v) Evaporated or condensed milk (plain or sweetened) in a consumer-type package and evaporated or condensed skim milk (plain or sweetened) in a consumer-type package; and

(vi) Any product not otherwise specified in this section;

(2) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b)(1) of this section in bulk form;

(3) In fluid milk products and products specified in paragraph (b)(1) of this section that are disposed of by a handler for animal feed;

(4) In fluid milk products and products specified in paragraph (b)(1) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(5) In skim milk in any modified fluid milk product that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1011.15; and

(6) In shrinkage assigned pursuant to § 1011.41(a) to the receipts specified in § 1011.41(a)(2) and in shrinkage specified in § 1011.41(b) and (c).

§ 1011.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1011.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant to the respective quantities of skim milk and butterfat:

(1) In the receipts specified in paragraph (b)(1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraph (b)(1) through (6) of this section which was received in the form of a bulk fluid milk product or a bulk fluid cream product;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a)(1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant);

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from a handler described in § 1011.9(c), except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be 2 percent;

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the operators of both plants;

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid

V 41 1158 AUG 13 76 UMI

milk products transferred to other plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in paragraph (b) (1), (2), (4), (5), and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1011.9 (b) or (c), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1011.42 Classification of transfers and diversions.

(a) *Transfers to pool plants.* Skim milk or butterfat transferred in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant shall be classified as Class I milk unless the operators of both plants request the same classification in another class. In either case, the classification of such transfers shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant after the computations pursuant to § 1011.44(a) (12) and the corresponding step of § 1011.44(b):

(2) If the transferor-plant received during the month other source milk to be allocated pursuant to § 1011.44(a) (7) or the corresponding step of § 1011.44(b), the skim milk or butterfat so transferred shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor-handler received during the month other source milk to be allocated pursuant to § 1011.44(a) (11) or (12) or the corresponding steps of § 1011.44(b), the skim milk or butterfat so transferred, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant.

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b) (1), (2), or (3) of this section:

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b)(3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1011.40.

(c) *Transfers to producer-handlers and transfers and diversions to governmental agency plants.* Skim milk or butterfat transferred in the following forms from a pool plant to a producer-handler under this or any other Federal order or transferred or diverted to a governmental agency plant shall be classified:

(1) As Class I milk, if so moved in the form of a fluid milk product; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the transferee's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to its receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant, a producer-handler, or a governmental agency plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraph (d)(2)(1) (*a*) and (*b*) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraph (d)(2) (ii) through (viii) of this section:

(*a*) The transferor-handler or diverter-handler claims such classification in his report of receipts and utilization filed pursuant to § 1011.30 for the month within which such transaction occurred; and

(*b*) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(*b*) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;

(*c*) Pro rata to receipts of bulk milk products at such nonpool plant from pool plants; and

(*d*) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(*b*) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(*a*) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(*b*) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which

the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to Class III utilization, and then to Class II utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization, then to any remaining Class II utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this subparagraph.

(e) *Transfers by a handler described in §1011.9(c) to pool plants.* Skim milk and butterfat transferred in the form of bulk milk by a handler described in § 1011.9(c) to another handler's pool plant shall be classified pursuant to § 1011.44 pro rata with producer milk received at the transferee-handler's plant.

§ 1011.43 General classification rules.

In determining the classification of producer milk pursuant to § 1011.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1011.30 and shall compute separately for each pool plant, and for each cooperative association with respect to milk for which it is the handler pursuant to § 1011.9 (b) or (c) that was not received at a pool plant, the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1011.40, 1011.41, and 1011.42. The combined pounds of skim milk and butterfat so determined in each class for a handler described in § 1011.9 (b) or (c) shall be such handler's classification of producer milk;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids; and

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1011.9 (b) or (c) shall be determined separately from the operations of any pool plant operated by such cooperative association.

§ 1011.44 Classification of producer milk.

For each month the market administrator shall determine for each handler described in § 1011.9(a) for each of his pool plants separately the classification of producer milk and milk received from a handler described in § 1011.9(c), by allocating the handler's receipts of skim milk and butterfat to his utilization as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1011.41(b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products received in packaged form from an other order plant, except that to be subtracted pursuant to paragraph (a)(7)(vi) of this section, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1011.40(b)(1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1011.40(b)(1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II. This subparagraph shall apply only if the pool plant was subject to the provisions of this subparagraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is used to produce, or added to, any product specified in § 1011.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and, if paragraph (a)(5) of this section applies, packaged inventory at the beginning of the month of products specified in § 1011.40(b)(1) that was not subtracted pursuant to paragraph (a)(4), (5), and (6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal milk order and from a governmental agency;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) of this section;

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant; and

(vii) Receipts of milk from a dairy farmer described in § 1011.12(b)(5);

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) and (7)(v) of this section for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraph (a)(8)(ii) (*a*) through (*c*) of this section. Should the pounds of skim milk to be subtracted from Class II and Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount:

(*a*) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from

V 41 158 AUG 13 76 UMI

reported Class I transfers between pool plants of the handler);

(b) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, milk from a handler described in § 1011.9(c), fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a)(7)(vi) of this section; and

(c) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1011.40(b)(1) in inventory at the beginning of the month that were not subtracted pursuant to paragraph (a)(5) and (7)(i) of this section;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a)(1) of this section;

(11) Subject to the provisions of paragraph (a)(11)(i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) and (ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received:

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to this subparagraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to this subparagraph exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) and (8)(iii) of this section:

(i) Subject to the provisions of paragraph (a)(12)(ii), (iii), and (iv) of this section, such subtraction shall be prorata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(*a*) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1011.45(a); or

(*b*) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to paragraph (a)(12)(i) of this section result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk remaining in Class II and Class III at all such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which such other source milk was received;

(iii) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class II and Class III combined that exceeds the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(iv) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class I that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount beginning with the nearest plant at which Class I utilization is available;

(13) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from another pool plant according to the classification of such products pursuant to § 1011.42(a); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk and milk received from a handler described in § 1011.9(c), subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk and milk received from a handler described in § 1011.9(c) in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a)(14) of this section and the corresponding step of paragraph (b) of this section.

§ 1011.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1011.44(a)(12) and the corresponding step of § 1011.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1011.44 on the basis of such report, and, thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

(d) On or before the 12th day after the end of each month, report to each cooperative association which so requests, the percentage of producer milk delivered by members of such association which was used in each class by each handler receiving such milk. For the purpose of this report the milk so received shall be prorated to each class in accordance with the total utilization of producer milk by such handler.

CLASS PRICES

§ 1011.50 Class prices.

Subject to the provisions of § 1011.52, the class prices for the month per hundredweight of milk shall be as follows:

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $2.10.

(b) *Class II price.* The Class II price shall be the basic formula price for the month plus 10 cents.

(c) *Class III price.* The Class III price shall be the basic formula price for the month.

§ 1011.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1011.52 Plant location adjustments for handlers.

(a) For milk received from producers or from a handler described in § 1011.9(c) at a plant that is outside the marketing area and more than 90 miles by the shortest hard-surfaced highway distance as determined by the market administrator from the city halls in Bristol, Chattanooga, and Knoxville, Tennessee, and which is classified as Class I milk subject to the limitations pursuant to paragraph (b) of this section, the Class I price shall be reduced 1.5 cents for each 10 miles or fraction thereof that such plant is from the nearest of the city halls in Bristol, Chattanooga, and Knoxville, except that no adjustment shall be made under this paragraph at any plant that is located east of the Mississippi River and south of the southern boundary of Tennessee or the northern boundary of South Carolina.

(b) For fluid milk products transferred in bulk form between pool plants, a location adjustment credit for the transferor-plant shall be determined by the market administrator for skim milk and butterfat, respectively, as follows:

(1) Subtract from the pounds of skim milk remaining in Class I at the transferee-plant after the computations pursuant to § 1011.44(a)(12) an amount equal to:

(i) The pounds of skim milk in receipts of milk at the transferee-plant from producers and handlers described in § 1011.9(c); and

(ii) The pounds of skim milk in receipts of packaged fluid milk products from other pool plants;

(2) Assign any remaining pounds of skim milk in Class I at the transferee-plant to the skim milk in receipts of bulk fluid milk products from other pool plants, first to the transferor-plant at which no location adjustment applies and then to other plants in sequence beginning with the plant at which the least location adjustment applies;

(3) Compute the total amount of location adjustment credits to be assigned to transferor-plants by multiplying the hundredweight of skim milk assigned pursuant to paragraph (b)(2) of this section to each transferor-plant by the applicable location adjustment rate for each such plant, and add the resulting amounts;

(4) Assign the total amount of location adjustment credits computed pursuant to paragraph (b)(3) of this section to those transferor-plants that transferred fluid milk products containing skim milk classified as Class I milk pursuant to § 1011.42(a), in sequence beginning with the plant at which the least location adjustment applies. Subject to the availability of such credits, the credit assigned to each plant shall be equal to the hundredweight of such Class I skim milk multiplied by the applicable location adjustment rate for such plant. If the aggregate of this computation for all plants having the same location adjustment rate exceeds the credits that are available to those plants, such credits shall be prorated to the volume of skim milk in Class I transfers from such plants; and

(5) Location adjustment credit for butterfat shall be determined in accordance with the procedure outlined for skim milk in paragraph (b)(1) through (4) of this section.

(c) The Class I price applicable to other source milk shall be adjusted by the amounts set forth in paragraph (a) of this section, except that the adjusted Class I price shall not be less than the Class III price.

§ 1011.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month.

§ 1011.54 Equivalent price.

If for any reason a price or pricing constituent required by this part for computing class prices or for other purposes is not available as prescribed in this part, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the price or pricing constituent that is required.

UNIFORM PRICE

§ 1011.60 Handler's value of milk for computing uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler with respect to each of his pool plants and of each handler described in § 1011.9(b) and (c) with respect to milk that was not received at a pool plant as follows:

(a) Multiply the pounds of producer milk and milk received from a handler described in § 1011.9(c) that were classified in each class pursuant to §§ 1011.43(a) and 1011.44(c) by the applicable class prices, and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1011.44(a)(14) and the corresponding step of § 1011.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1011.74, that are applicable at the location of the pool plant;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant or the Class II price, as the case may be, for the current month by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1011.44(a)(9) and the corresponding step of § 1011.44(b);

(d) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class III price by the hundredweight of skim milk and butterfat substracted from Class I pur-

V 41 1158 AUG 13 76 UMI

suant to § 1011.44(a)(7) (i) through (iv) and (vii) and the corresponding step of § 1011.44(b), excluding receipts of bulk fluid cream products from an other order plant;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor-plant and the Class III price by the hundredweight of skim milk and butterfat substracted from Class I pursuant to § 1011.44(a)(7) (v) and (vi) and the corresponding step of § 1011.44 (b); and

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat substracted from Class I pursuant to § 1011.44(a)(11) and the corresponding step of § 1011.44(b), excluding such skim milk and butterfat in receipts of bulk fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handler fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order.

§ 1011.61 Computation of uniform price.

For each month the market administrator shall compute the uniform price per hundredweight for milk of 3.5 percent butterfat content at pool plants at which no location adjustment applies as follows:

(a) Combine into one total the values computed pursuant to § 1011.60 for all handlers who filed the reports prescribed in § 1011.30 for the month and who made the payments pursuant to § 1011.71 for the preceding month;

(b) Add one-half the unobligated balance in the producer-settlement fund;

(c) Add an amount equal to the total value of the location adjustments computed pursuant to § 1011.75;

(d) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1011.60(f); and

(e) Subtract not less than 4 cents nor more than 5 cents.

§ 1011.62 Announcement of uniform price and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The fifth day after the end of each month the butterfat differential for such month; and

(b) The 10th day after the end of each month the uniform price for such month.

PAYMENTS FOR MILK

§ 1011.70 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1011.71, 1011.76, and 1011.77, and out of which he shall make all payments pursuant to §§ 1011.72 and 1011.77: *Provided,* That any payments due to any handler shall be offset by any payments due from such handler.

§ 1011.71 Payments to the producer-settlement fund.

(a) On or before the 12th day after the end of the month, each handler shall pay to the market administrator the amount, if any, by which the amount specified in paragraph (a)(1) of this section exceeds the amount specified in paragraph (a)(2) of this section:

(1) The total value of milk of the handler for such month as determined pursuant to § 1011.60.

(2) The sum of:

(i) The value at the uniform price, as adjusted pursuant to § 1011.75, of such handler's receipts of producer milk and milk received from handlers pursuant to § 1011.9(c); and

(ii) The value at the uniform price applicable at the location of the plant from which received of other source milk for which a value is computed pursuant to § 1011.60(f).

(b) On or before the 25th day after the end of the month each person who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is such route disposition from such plant in marketing areas regulated by two or more market-wide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in paragraph (b)(1) of this section to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but not to be less than the Class III price) and the Class III price.

§ 1011.72 Payments from the producer-settlement fund.

On or before the 13th day after the end of each month the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1011.71(a)(2) exceeds the amount computed pursuant to § 1011.71(a)(1). If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the appropriate funds are available.

§ 1011.73 Payments to producers and to cooperative associations.

(a) Each handler shall pay each producer for producer milk for which payment is not made to a cooperative association pursuant to paragraph (b) of this section, as follows:

(1) On or before the last day of each month, for milk received during the first 15 days of the month from such producer who has not discontinued delivery of milk to such handler before the 25th day of the month, at not less than the Class III price for the preceding month or 90 percent of the uniform price for the preceding month, whichever is higher, less proper deductions authorized in writing by the producer; and

(2) On or before the 15th day of the following month, an amount equal to not less than the uniform price, as adjusted pursuant to §§ 1011.74 and 1011.75, multiplied by the hundredweight of milk received from such producer during the month, subject to the following adjustments:

(i) Less payments made to such producer pursuant to paragraph (a)(1) of this section;

(ii) Less deductions for marketing services made pursuant to § 1011.86;

(iii) Plus or minus adjustments for errors made in previous payments made to such producers; and

(iv) Less proper deductions authorized in writing by such producer: *Provided,* That if by such date such handler has not received full payment from the market administrator pursuant to § 1011.72 for such month, he may reduce pro rata his payments to producers by not more than the amount of such underpayment. Payments to producers shall be completed thereafter not later than the date for making payments pursuant to this paragraph next following after the receipt of the balance due from the market administrator;

(b) Each handler shall make payment to the cooperative association for producer milk which it caused to be delivered to such handler, if such cooperative association is authorized to collect such payments for its members and exercises such authority, an amount equal to the sum of the individual payments otherwise payable for such producer milk, as follows:

(1) On or before two days prior to the last day of each month for producer milk received during the first 15 days of the month; and

(2) On or before the 13th day after the end of each month for milk received during such month.

(c) Each handler pursuant to § 1011.9(a) who receives milk from a cooperative association as a handler pursuant to § 1011.9(c), including the milk of producers who are not members of such association, and who the market administrator determines have authorized such cooperative association to collect payment for their milk, shall pay such cooperative for such milk as follows:

(1) On or before two days prior to the last day of the month for milk received during the first 15 days of the month, not less than the Class III price for the preceding month or 90 percent of the uniform price for the preceding month, whichever is higher; and

(2) On or before the 13th day of the following month for milk received during the month, not less than the uniform price as adjusted pursuant to §§ 1011.74 and 1011.75, and less than any payments made pursuant to paragraph (c)(1) of this section.

(d) In making payments for producer milk pursuant to this section, each handler shall furnish each producer or cooperative association from whom he has received milk a supporting statement in such form that it may be retained by the recipient which shall show:

(1) The month and identity of the producer;

(2) The daily and total pounds and the average butterfat content of producer milk;

(3) The minimum rate at which payment to the producer is required pursuant to this order;

(4) The rate which is used in making the payment if such rate is other than the applicable minimum rate;

(5) The amount, or the rate per hundredweight, and nature of each deduction claimed by the handler; and

(6) The net amount of payment to such producer or cooperative association.

§ 1011.74 Butterfat differential.

For milk containing more ro less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.115 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1011.75 Plant location adjustments for producers and on nonpool milk.

(a) In making the payments required pursuant to § 1011.73, the uniform price computed pursuant to § 1011.61 for the month shall be adjusted by the amounts set forth in § 1011.52 according to the location of the plant where the milk being priced was received.

(b) For purposes of computing the value of other source milk pursuant to § 1011.71, the uniform price shall be adjusted by the amount set forth in § 1011.52 that is applicable at the location of the nonpool plant from which the milk was received, except that the adjusted uniform price shall not be less than the Class III price.

§ 1011.76 Payments by handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to §§ 1011.30(b) and 1011.31(b) the information necessary for making the computations, such handler may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the pounds of route disposition in the marketing area from the partially regulated distributing plant;

(2) Subtract the pounds of fluid milk products received at the partially regulated distributing plant:

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not an other order plant to the extent that an equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract the pounds of reconstituted skim milk in route disposition in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price and the uniform price, both prices to be applicable at the location of the partially regulated distributing plant (except that the Class I price and uniform price shall not be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in paragraph (a)(3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price) and the Class III price.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § 1011.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which such products were classified at the fully regulated plant;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or an other order plant shall be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated plant. Such transfers shall be allocated to the extent possible to those receipts at the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to paragraph (b)(1)(i) of this section. Any such transfers remaining after the above allocation which are classified in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1011.60 shall be priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee-plant, with such uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest class price of the respective order), except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest class price of the respective order; and

(iii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1011.60 for such handler shall include, in lieu of the value of other source milk specified in § 1011.60(f) less the value of such other source milk specified in § 1011.71(a)(2)(ii), a value of milk determined pursuant to § 1011.60 for each nonpool plant that is not an other order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributing plant during the month equivalent to the requirements of § 1011.7(b) subject to the following conditions:

(*a*) The operator of the partially regulated distributing plant submits with his reports filed pursuant to §§ 1011.30(b) and 1011.31(b) similar reports for each such nonpool supply plant;

(*b*) The operator of such nonpool supply plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(c) The value of milk determined pursuant to § 1011.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distribution plant's value of milk computed pursuant to paragraph (b)(1) of this section, subtract:

(i) The gross payments by the operator of such partially regulated distributing plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1011.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(ii) If paragraph (b)(1)(iii) of this section applies, the gross payments by the operator of such nonpool supply plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1011.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

V 41 I 158 AUG 13 76 UMI

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if paragraph (b)(1)(iii) of this section applies.

§ 1011.77 Adjustment of accounts.

Whenever verification by the market administrator of payments by any handler discloses errors made in payments to the producer-settlement fund pursuant to § 1011.71, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler, pursuant to § 1011.72, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer or cooperative association for milk received by such handler discloses payment of less than is required by § 1011.73, the handler shall pay such balance due such producer or cooperative association not later than the time of making payment to producers or cooperative associations next following such disclosure.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

§ 1011.85 Assessment for order administration.

As his pro rata share of the expense of administration of the order, each handler shall pay to the market administrator on or before the 15th day after the end of the month 4 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to:

(a) Receipts of producer milk (including such handler's own production) other than such receipts by a handler described in § 1011.9(c) that were delivered to pool plants of other handlers;

(b) Receipts from a handler described in § 1011.9(c);

(c) Other source milk allocated to Class I pursuant to § 1011.44(a)(7) and (11) and the corresponding steps of § 1011.44(b), except such other source milk that is excluded from the computations pursuant to § 1011.60 (d) and (f); and

(d) Route disposition from a partially regulated distributing plant in the marketing area that exceeds the skim milk and butterfat specified in § 1011.76(a)(2).

§ 1011.86 Deduction for marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers for milk (other than milk of his own production) pursuant to § 1011.73, shall deduct 6 cents per hundredweight, or such amount not exceeding 6 cents per hundredweight, as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of the month. Such money shall be used by the market administrator to provide market information and to check the accuracy of the testing and weighing of their milk for producers who are not receiving such service from a cooperative association.

(b) In the case of producers who are members of a cooperative association which the Secretary has determined is actually performing the services set forth in paragraph (a) of this section, each handler shall (in lieu of the deduction specified in paragraph (a) of this section), make such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers, and on or before the 13th day after the end of each month, pay such deductions to the cooperative association of which such producers are members, furnishing a statement showing the amount of any such deductions and the amount of milk for which such deduction was computed for each producer.

PART IV:

DEPARTMENT OF LABOR

Employment Standards Administration

■

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

V41 I158 AUG 13 76 UMI

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secertary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders, 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 13-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

NEW GENERAL WAGE DETERMINATION DECISIONS

Illinois:

a. An employee who has completed two to five years service shall receive a vacation on one week with pay. Each additional year an additional one day vacation with pay; Ten or more years a vacation of two weeks each year; For each year of completed service thereafter to and including fifteen(15) years service, an addition of one day vacation with pay; Fifteen(15) or more years of service, a vacation of three weeks each year with pay.

LABORERS

Group 1: All clean-up work of debris, grounds and buildings; Bridge Laborers; Construction Laborers; Dumpman; General Laborers; Limbers, Brush Loaders and Filers; Maintenance, repair (track and roadbeds)

Group 1-a: Mason Tenders

Group 1-b: High Scaler

Group 1-c: Gunnite Operator

Group 1-d: Powderman

Group 2: Asphalt Shovelers; Cement Dumpers; Choker Setter and Rigger (clearing work); Concrete Chipping; Driller's Helper; Chuck Tender; Outside Nipper; Guinea Chaser (Stakeman); High Pressure Nozzleman - hydraulic Monitor (over 100# pressure) excluding levee work; Loading and unloading, carrying and handling of all rods and materials for use in reinforcing concrete construction; Sloper; All pneumatic, gas and electric tools not listed in Group 1

Group 3: Asphalt Ironers and Rakers; Barko and similar type Tampers; Buggymobile; Chainsaw, Failer, Logloader and Bucker; Concrete Laborers (wet or dry) including Bucket Tender for concrete; Concrete and Magnesite Mixer under 1/2 yard; Concrete Grinder; Concrete Pan Work; Concrete Saw (walking or hand type); Cribbers; Cut Granite Curb Setters; Form Raisers; Header Board; Mortar Mixers (block-brick-masonry); Jackhammer Operator; Jackson and similar type Compactors; Lagging, Sheeting, Whaling, Bracing, Trench-jacking, Hand-guided Lagging Hammer; Magnesite and Mastic workers (wet or dry); Mechanical Drillers not covered elsewhere; Pavement Breakers; Pipelayers, Caulkers, Bander; Pipewrappers, Kettlemen, Potmen and men applying asphalt, Lay-Kold, Creosote and similar type materials; Post Hole Diggers (hand held - gas, air and electric); Riprap, Stonepaver and Rockslinger, including placing of sacked concrete (wet or dry); Rotary Scarifier; Roto-tiller; Sandblasters; Tank Cleaners; Tree Climbers; Vibra-screed (bull float in connection with Laborers' work); Vibrator, Burning, Welding, Signaling, and Rigging in connection with Laborers' work; Concrete Pump Machine; Joy Drill Model TWH-2A, Gardner, Denver DH-143 and similar type drills; Track Drillers, Diamond Core, Wagon Drillers and Davis Trencher T-66 or similar types

POWER EQUIPMENT OPERATORS
(Except Piledriving and Steel Erection)

Group 1: Partsman (heavy duty shop parts room when needed); Repairman Helper

Group 2: Compressor, electrically, diesel or gas powered etc.; Hydraulic Monitor; Material Loader and/or Conveyor Operator (handling building material); Mixer Box Operator (concrete plant); Pump Operator; Spreader Boxman (with screeds); Tar Pot Fireman (power agitated)

Group 3: Oiler; Fireman; Switchman; Brakeman; Deckhand; Tar Pot Fireman; Box Operator (bunker); Locomotive (up to and including 30 tons); Roller (5 tons and under); Screedman (except asphaltic concrete paving); Self-propelled, automatically applied concrete curing machine (on streets, highways, airports and canals); Tugger Hoist, single drum

Group 4: Boom Truck or Dual Purpose "A" Frame Truck; Fork Lift or Lumber Stacker (construction job site); Material Hoist (1 drum); Straddle Truck; Ross Carrier and similar (jobsite); Dinky Operator

Group 5: Concrete Mixer (up to 2 yards); Concrete Pumps or Pumpcrete Guns; Generators, gasoline or diesel driven (100 K.W.); Lubrication and Service Engineer (mobile and grease rack); Towermobile; Welding Machine (gasoline or diesel); Agri-cat (Mini Cat)

Group 6: Combination Loader and Backhoe including Hopto (up to and including 1/2 yard); Concrete Batch Plants (wet or dry); Concrete Saws and/or Grinder (self-propelled unit on streets, highways, airports and canals); Drilling Machinery (not to apply to waterliners, wagon drills or jackhammers); Highline Cable-way Signalman; Loader (up to and including 2½ cu. yds.); Lull High Lift; Pavement Breaker; Maginnis Internal Full Slab Vibrator (on airports, highways, canals and warehouses); Mechanical Finishers (concrete) (large Clary, Johnson Bidwell Bridge Deck or similar types); Mobile Crane Driver; Portable Crushers; Power Jumbo Operator (setting slip forms, etc., in tunnels); Rollers (over 5 tons); Self-propelled Compactor (single engine); Small Rubber-tired Tractors; Trencher (up to and including 6'); Slip Form Pumps (power driven hydraulic, electric, gas, etc., lifting device for concrete forms)

Group 7: Crusher Plant; Dual Drum Mixer; Gradesetter; Hoist (2 drums); Loader (over 2½ cu. yds. up to and including 5 cu. yds.); Mechanical Finishers or Spreader Machine, Asphalt (Barber Greene and similar)(Screedman required); Mine or Shaft Hoist; Pavement Breaker, Truck mounted, with Compressor combination; Pavement Breaker with Compressor Combination (operates 1 or 2); Pipe Cleaning Machine (tractor propelled and supported); Pipe Wrapping Machine (tractor propelled and supported); Pipe Bending Machine (pipe lines only); Self-propelled Elevating Grader Plane; Slusher Operator; Trencher (over 6'); Water Tanker (pulled by Euclid, T-Pulls, DW-10, 20, 21 or similar); Mixermobile (over 5 tons); Small Tractor (with boom D-6 or similar)

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)

Group 8: Boring Machine; Cast-in-place Pipe Laying Machine; Concrete Batch-Plant (multiple units); Combination Loader and Hydraulic Backhoe (over 1/2 yd to and including 3/4 yd.); Conveyor (tunnel); Engineer, Locomotive (over 30 tons up to and including 100 tons); Finishing Machine Operator (airports and highways); Hydraulic Backhoe (over 1/2 yard to and including 3/4 yd.); Koiman Loader; Mechanic Trench Shield; Mucking Machine; No-joint Pipe Laying Machine; Portable Crushing and Screening Plants; Saurman type Dragline (under 5 yards); Self-propelled Boom type Lifting Device; Stationary Pipe Wrapping, Cleaning and Bending Machine; Surface Heater and Planer; Tunnel Badger; Tri-batch Paver

Group 9: Boom type Backfilling Machine; Combination Mixer and Compressor (gunite); Do-more Loader and Adams Elegrader; Lull Hi-lift (40' or over); Rubber-tired Earthmoving Equipment (up to 12 cu, yds.); Wheel Trencher (over 6')

Group 9-A: Dozers; Heavy Duty Repairman or Welder; Push Cats; Scrapers; Self-propelled Compactor with dozer; Sheep Foot; Tractors; Tractors (with boom, larger than D-6 and similar)

Group 10: Chicago Boom; Hoist (3 drums); Koehring Skooper; Loader (over 5 yards up to and including 12 yards); Locomotive (over 100 tons)(single or multiple units); Power Blade Operator; Rubber-tired Earthmoving Equipment (up to and including 35 cu. yds., Euclid, T-Pulls, DW-10, 20, 21 and similar); Saurman type Dragline (5 yards or over); Soil Stabilizer (P & H equal); Sub-grader (Gurries or other automatic type); Track-laying type Earthmoving Machine (single engine with tandem scraper); Tractor, Compressor, Drill Combination; Tractor (tandem scraper); Tractors (D-9 or equivalent)

Group 10-A: Cranes (not over 25 tons); Power Shovels, Clamshells, Draglines, Backhoes, Grsdealls (up to and including 1 cu. yd.)

Group 11: Automatic Skip Form Paver (concrete or asphalt) (Gradesetter, Screedman required); Cranes (over 25 tons); DW-10, 20, etc. (Tandem); Earthmoving Machine (multiple propulsion power units and two or more scrapers) (up to and including 35 cu. yds. struck "MRC"); Highline Cableway; Lift Slab Machine; Loader (over 12 yds.); Power Shovels, Clamshells, Draglines, Backhoes, Gradealls (over 1 yd. and up to 7 yds.); Power Blade Operator (16 or over); Pre-stress Wire Wrapping Machine; Self-porpelled Compactor (with multiple propulsion power units); Single Engine Rubber Tired Earth Moving Machine (with tandem scraper); Tandem Cats; Tower Cranes, Mobile; Trencher (pulling attached shield); Universal, Liebher, Linden and similar types of tower cranes; Wheel Excavator (up to and including 750 cu. yds. per hour)

POWER EQUIPMENT OPERATORS (Cont'd)
(Except Piledriving and Steel Erection)

Group 12: Band Wagon (in conjunction with wheel excavator); Derricks; Drill Rigs; Multi-propulsion Earth Moving Machines (2 or more scrapers) (over 35 cu. yds. "struck" MRC); Power Shovels and Draglines (7 cu. yds. and over); Rubber-tired Earthmoving Equipment (over 35 cu. yds. Euclids, T-Pulls, DW-10, 20, 21 and similar); Wheel Excavator (over 750 cu. yds.)

POWER EQUIPMENT OPERATORS:

GROUP I Cranes, draglines, shovels, skimmer scoops, clamshells or derrick boats, pile drivers, crane-type backhoes, asphalt plant opers. plant opers., ditching machines or backfillers (requiring oilers), dredges, asphalt spreading machines, heavy duty mechanic, ass't. master mechanic, all locomotives, cableways or tower machines, hoists 2 drum or more (where oiler or fireman is required), hoists-2 drum or more (where oiler or firemen is not required) Hydraulic backhoes, ditching machines or backfiller (not requiring oilers) Cherry pickers, overhead cranes, roller (Steam or gas) concrete pavers, excavators, concrete breakers, concrete pumps, bulk cement plants, cement pumps, derrick-type drills, mixers (over 3 bags) and boad oprs., (25' & over), Motor graders or pushcats, scoops or tournapulls, Bulldozers, endloaders or fork-lifts, power blade or elevating graders, winch cats, boom tractors, and pipe wrapping or painting machines, Drills (other than derrick type) 1-dum-hoists, mud jacks, mixers (2 or 3 bags), conveyors (2), air compressors (2), water pumps regardless of size (2), welding machines (2) siphons or jets (2), winch heads or apparatuses (2) and light plants (2), Mixers (under 2 bags),all tractors regardless of size (Stright tractor only), firemen on stationary boilers, automatic elevators, form grading machines, finishing machines, power-sub-grader or ribbon machine, longitudinal floats, boats oprs., (under 25', conveyors (1), distribution pors., on trucks, siphones or jets (1) winch heads or apparatuses (1), light plant (1) mixers (under 2 bags)

GROUP II Air Compressor (1), water pumps regardless of size (1) welding machines (1)

GROUP III Firemen and asphalt spreader oilers

GROUP IV Heavy equipment oilers (truck cranes, dredges, monigans, large cranes, etc.

GROUP V Oilers

GROUP VI
a. Engineers operating under air pressure
b. Engineers operating in air over 10 lbs pressure
c. Oilers operating under air pressure
d. Oilers operating in iar over 10 lbs pressure

CLASSIFICATIONS

CLASS I Shovels, Cranes, Hydraulic Cranes 10 ton capacity or over, Draglines, Derricks, Elevators with Chicago Boom, Bakchoes, Gradalls, Elevating Graders, Pile Driving Rigs, Concrete Road Pavers, three drum Hoisting and Trenching Mahines, Belt-type Loaders, Front End Loader-5½ yards or over, Dual Drum Paver, Automatic Grader (i. e. C.M.I.) Combination Back Hoe-Loader-3/4 yard hoe or over

CLASS II Rotary Drill (with mounted compressor), compressor house (3 to 6 compressors), Rock and Earth Boring Machines (excluding McCarthy and similar drills), Graders, Front End Loaders-4 yards to 5½ yards, two Drum Hoists, High Fork Lifts with capacity of 15 feet and over, Scrapers-21 yards and over (struck load), Sonic Hammer Console.

CLASS III Combination Backhoe-Loader-up to 3/4 hce, Bulldozers, Push Cats, Scraper-up to 21 yards (struck load)-self propelled or tractor drawn, Tireman, Front End Loaders-up to 4 yards, Asphalt Paver, Asphalt Roller-10 ton or over, Well Drillers, Mechanics, Welders, Pumpcrete Machines, Concrete Pumps, and similar type pumps, Engineer or Fireman on High Pressure Boiler (on job), Self-Loading Batch Plant, Well Point, Electric Pumps used in Well Point System, Pumps-12 inches and over (total discharge), Compressor (one or two) 900 cu. ft. and over, Powered Grease Truck, Automatic Elevators, (manually or remote controls), Grout Pumps, Boom Truck, Hydraulic Cranes-under 10 ton.

CLASS IV Asphalt Roller-under 10 ton

CLASS V Single Drum Hoist, Self-Propelled Roller, Self-Propelled Compactors, Power Pavement Breakers, Concrete Pavement Finishing Machines, Two Bag Mixers with Skip, McCarthy and similar drills, Batch Plants (not self-loading) Bulk Cement Plants, Self-Propelled Material Spreaders, A Frame Trucks, Fork Lifts ip to 15 feet.

CLASS VI Compressors (one or two) 315 cu. ft. to 900 cu. ft., Pumps-4 inches to 12 inches (total discharge), Tractor (without blade or bucket) Drawing Rollers, Rubber, Tire Roller, Compactors or other machines used for pulverizing, Grading or Seeding.

CLASS VII Compressors (up to 315 cu. ft.), Small Mixers, Pumps (up to 4 inches), Power Heaters, Welding Machines, Conveyors, Oiler, Helpers on Grease Truck, and Grease Trucks with hand greasing equipment

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day

PAID HOLIDAYS:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contributes $7.00 per day to an Annuity & Security Benefit Fund.

b. Holidays: A through F; Election Day; Employee's Birthday.

c. Holidays: A through F; Lincoln's Birthday; Washington's Birthday; Columbus Day; Election Day; Armistice Day.

d. Employees with 6 months or more but less than 5 years service receive 2 weeks vacation, 5 or more years of service receive 3 weeks.

e. Employees with 6 months or more but less than 5 years service receive 2 weeks vacation, 5 or more years but less than 15 years receive 3 weeks, 15 or more years receive 4 weeks.

f. PAID HOLIDAYS: St. Patricks Day.

g. Holidays: A through F; Washington's Birthday; Christmas Eve and Good Friday, providing employee has worked 30 full days during the 90 calendar days prior to the holiday, and regular schedule work days immediately preceding and following the holiday.

h. $4.00 per day contribution for each man to a specialy annuity fund.

i. Paid Holidays New Year's Day & Xmas Day providing the employee works a full half day preceding or following the holiday.

j. Employer contributes $7.00 per day to an Annuity Fund.

k. Holidays: A through F, Lincolns Birthday; Washington's Birthday; Columbus Day; Election Day; Veteran's Day, providing the employee works two days in the calendar week in which the holiday falls and each remaining work day during such calendar week.

l. For each 15 days within the contract year an employee will receive one days vacation with pay, with a maximum vacation of three weeks per year.

m. Holidays: B, C, D & E, Election, Columbus Day, providing employee works at least 1 day in the week in which the holiday occurs.

OFFICE OF MANAGEMENT AND BUDGET

BUDGET RECISSIONS AND DEFERRALS, AUGUST 1976

Cumulative Report

V41I158
AUG 13 76
UMI

OFFICE OF MANAGEMENT AND BUDGET

CUMULATIVE REPORT ON RESCISSIONS AND DEFERRALS AUGUST 1976

AUGUST 12, 1976.

This report is submitted in fulfillment of the requirements of section 1014(e) of the Impoundment Control Act of 1974 (Pub. L. 93-344). Section 1014(e) provides for a monthly report listing all current year budget authority with respect to which, as of the first day of the month, a special message has been transmitted to the Congress. The report continues the listing of fiscal 1976 actions in accordance with section 204(12) of the Fiscal Year Transition Act (Pub L. 94-274). That Act provides for the transition quarter to be treated as part of fiscal 1976 for purposes of section 1014(e).

This month's report gives the status as of August 1, 1976, of the 49 rescissions and 117 deferrals contained in the first eighteen special messages transmitted to the Congress for fiscal year 1976. These messages were transmitted to the Congress on July 1 and 25, September 10 and 24, October 3 and 20, November 18, December 1, 1975, January 6 and 23, February 6, March 18, April 13 and 26, May 13, July 1, 6, and 28, 1976.

RESCISSIONS (TABLE A AND ATTACHMENT A)

Five recissions totaling $126.6 million in FY 1976 and transition quarter budget authority are presently pending before the Congress. In addition, one rescission of $45 million in FY 1977 budget authority, transmitted on July 29, 1976, is pending before the Congress. Table A below summarizes the status of rescissions proposed by the President as of August 1, 1976. Attachment A below shows the history aid status of each rescission proposed during fiscal year 1976 and the transition quarter.

DEFERRALS (TABLE B AND ATTACHMENT B)

As of August 1, 1976, $3,967.6 million in 1976 budget authority was being deferred from obligation and another $114.8 million in 1976 obligations was being deferred from expenditure. Table B below summarizes the status of deferrals reported by the President. Attachment B below shows the history and status of each deferral proposed during fiscal year 1976 and the transition quarter.

INFORMATION FROM SPECIAL MESSAGES

The special messages containing information on each of the rescissions and deferrals covered by the cumulative report are contained in the FEDERAL REGISTERS of:

Wednesday, July 9, 1975 (Vol. 40, No. 132, Part V).
Wednesday, July 30, 1975 (Vol. 40, No. 147, Part II).
Monday, September 15, 1975 (Vol. 40, No. 179, Part V).
Monday, September 29, 1975 (Vol. 40, No. 189, Part V).
Wednesday, October 8, 1975 (Vol. 40, No. 196, Part VII).
Thursday, October 23, 1975 (Vol. 40, No. 206, Part III).
Thursday, November 20, 1975 (Vol. 40, No. 225, Part VI).
Thursday, December 4, 1975 (Vol. 40, No. 234, Part II).
Friday, January 9, 1976 (Vol. 41, No. 6, Part V).
Wednesday, January 28, 1976 (Vol. 41, No. 19, Part V).
Wednesday, February 11, 1976 (Vol. 41, No. 29, Part VII).
Tuesday, March 23, 1976 (Vol. 41, No. 57, Part V).
Friday, April 16, 1976 (Vol. 41, No. 75, Part VI).
Thursday, April 29, 1976 (Vol. 41, No. 87, Part IV).
Monday, May 17, 1976 (Vol. 41, No. 96, Part VI).
Wednesday, July 7, 1976 (Vol. 41, No. 131, Part III).
Thursday, July 8, 1976 (Vol. 41, No. 132, Part IV).
Monday, August 2, 1976 (Vol. 41, No. 149, Part VI).
Tuesday, August 3, 1976 (Vol. 41, No. 150, Part VI).

DONALD G. OGILVIE,
Acting Director.

1/ $2.5 million of this amount was appropriated for the transition quarter and became available on July 1, 1976.
2/ $3,750,000 of this amount was appropriated for the transition quarter and became available on July 1, 1976.
3/ $25 million of this amount was appropriated for the transition quarter and became available on July 1, 1976.
4/ $2,969,000 of this amount was appropriated for the transition quarter and became available on July 1, 1976.
5/ $1,875,000 of this amount was appropriated for the transition quarter and became available on July 1, 1976.
6/ $2,250,000 of this amount was appropriated for the transition quarter and became available on July 1, 1976.
7/ $875,000 of this amount was appropriated for the transition quarter and became available on July 1, 1976.
8/ $400,000 of this amount was appropriated for the transition quarter and became available on July 1, 1976.
9/ $24,645,000 of this amount was appropriated for the transition quarter and became available on July 1, 1976.
10/ $2,000,000 of this amount was appropriated for the transition quarter and became available on July 1, 1976.
11/ $161,634,000 of this amount became available on July 1, 1976.
12/ $194,265,000 of this amount was proposed for rescission without being withheld.
13/ $35 million of this amount became available for obligation on July 1, 1976.
14/ $4 million of this amount became available for obligation on July 1, 1976.
15/ $10 million of this amount became available for obligation on July 1, 1976.
16/ For 1976, $15 million in contract authority and $15 million to liquidate that contract authority.
17/ $2 million of this amount is an unobligated balance available in the transition quarter.
18/ See deferral D76-12.
19/ P.L. 94-249.
20/ See deferral D76-18.
21/ P.L. 94-111.
22/ See House Report No. 94-496. Deferral of the $90 million was reported to the Congress on September 24, 1975, in D76-55. The funds deferred were released on April 16, 1976, because of Congressional inaction on the related

Agency Bureau Account	Rescission Number	Amount Proposed for Rescission	Date Special Message Transmitted to Congress	Amount Rescinded	Date Rescission Act Signed	Amount Made Available	Date Made Available

rescission request.
23/ P.L. 94-134, signed November 24, 1975, rescinds the $25 million in R76-2 and makes new appropriations of $10 million.
24/ These funds, provided in P.L. 94-32, lapsed on September 30, 1975. They were reappropriated in P.L. 94-206 which became law on January 28, 1976, and are available for obligation.
25/ Appropriated in P.L. 94-157.
26/ Release as required.
27/ Includes $400,000 of transition quarter funds.
28/ Includes $806,000 of funds appropriated for the transition quarter that became available July 1, 1976.
29/ Total includes R76-2 at $15 million ($25 million rescinded minus $10 million appropriated).
30/ The amounts proposed for rescission in R76-7 and R76-8 ($10 million) and $10 million from R76-2 must be added to the amount made available to derive the total for rescissions rejected by the Congress ($3190.4 million).
31/ Excludes $45,000,000 of funds proposed for rescission on July 29, 1976. This rescission proposal (R77-1) for the Legal Services Corporation consists of funds appropriated for FY 77 and is not included in the totals for the FY 76 and transition quarter reports.

1/ On July 10, 1975, the Senate passed an impoundment resolution requiring release of Youth Conservation Corps funds reported two days earlier by the General Accounting Office as being deferred ($10 million). Funds were released on July 16, 1975.
2/ Impoundment resolution H. Res. 910 passed the House on December 19, 1975, expressing disapproval of this deferral. The funds were released on December 5, 1975, following Senate passage of S. Res. 313.
3/ Impoundment resolution S. Res. 313 passed the Senate on December 4, 1975, rejecting this deferral.
4/ Impoundment resolution H. Res. 911 passed the House on December 19, 1975, expressing disapproval of this deferral. The funds were released on December 15, 1975.
5/ Impoundment resolution, S. Res. 324, passed the Senate on December 10, 1975, rejecting this deferral.
6/ Subsequently incorporated in a supplementary report.
7/ Enactment of P.L. 94-122 (October 21, 1975) ended deferrals of funds provided by the continuing resolution.
8/ Impoundment resolution H. Res. 912 passed the House on December 19, 1975, rejecting this deferral.
9/ This amount became available for obligation on July 1, 1976.
10/ Impoundment resolution H. Res. 914 passed the House on December 19, 1975, rejecting this deferral.
11/ Impoundment resolution H. Res. 915 passed the House on December 19, 1975, rejecting this deferral.
12/ Impoundment resolution H. Res. 1032 passed the House on April 12, 1976, rejecting this deferral.
13/ Impoundment resolution H. Res. 916 passed the House on December 19, 1975, rejecting this deferral.
14/ Impoundment resolution H. Res. 1129 passed the House on April 12, 1976, rejecting this deferral.
15/ Impoundment resolution S. Res. 385 passed the Senate on March 9, 1976, rejecting this deferral.
16/ New contract authority authorized in the Federal Aid Highway Act of 1976 for the Forest roads and trails program is not effective until it is appropriated. The adjustment reduces the deferral in order to correctly reflect the amount of (effective) budget authority deferred.

Pension Benefit Guaranty Corporation									
Pension Guaranty Fund	D76-78		[1,431]*	12-01-75 06-02-76				[-1,431]*3/	0
TOTAL		1,815,000	919,863		-919,727			-915,000 [-1,431]	900,136

* Annexed Budget item. Not included in totals. This deferral will not affect budgetary outlays because PBGC is an off-budget agency. However, it will result in reducing Treasury financing needs by $1,431 thousand for FY 1976.

1/ Subsequently incorporated in a supplementary report.

2/ This amount became available for obligation on July 1, 1976.

3/ This deferral represented a retention in the revolving fund balance of an amount proposed by the Corporation for administrative expenses in 1976. No adjustment to the Corporation's proposals has been made for the transition quarter.

1/ Impoundment resolution S. Res. 267 passed the Senate October 3, 1975, rejecting this deferral.
2/ This deferral was reduced to $167,500,000 on July 1, 1976.
3/ This amount became available for obligation on July 1, 1976.
4/ Subsequently incorporated in a supplementary report.

RESOLUTION CHART

MICROCOPY RESOLUTION TEST CHART
NATIONAL BUREAU OF STANDARDS-1963-A

100 MILLIMETERS

INSTRUCTIONS Resolution is expressed in terms of the lines per millimeter recorded by a particular film under specified conditions. Numerals in chart indicate the number of lines per millimeter in adjacent "T-shaped" groupings.

In microfilming, it is necessary to determine the reduction ratio and multiply the number of lines in the chart by this value to find the number of lines recorded by the film. As an aid in determining the reduction ratio, the line above is 100 millimeters in length. Measuring this line in the film image and dividing the length into 100 gives the reduction ratio. Example: the line is 20 mm. long in the film image, and $100/20 = 5$.

Examine "T-shaped" line groupings in the film with microscope, and note the number adjacent to finest lines recorded sharply and distinctly. Multiply this number by the reduction factor to obtain resolving power in lines per millimeter. Example: 7.9 group of lines is clearly recorded while lines in the 10.0 group are not distinctly separated. Reduction ratio is 5, and $7.9 \times 5 = 39.5$ lines per millimeter recorded satisfactorily. $10.0 \times 5 = 50$ lines per millimeter which are not recorded satisfactorily. Under the particular conditions, maximum resolution is between 39.5 and 50 lines per millimeter.

Resolution, as measured on the film, is a test of the entire photographic system, including lens, exposure, processing, and other factors. These rarely utilize maximum resolution of the film. Vibrations during exposure, lack of critical focus, and exposures yielding very dense negatives are to be avoided.
